Longinus. On the Sublime. Translated by H. L. Havell. Introduction by Andrew Lang	4 6
Arnold's Essays in Criticism. 2nd Series (Contains Essays on Gray, Byron, Wordsworth, Shelley, and Keats)	4 0
Ward's English Poets. Vol. I. With Introduction by Matthew Arnold	7 6

FRENCH AND GERMAN.

UNIVERSITY COURSE II.

Racine's Britannicus. E. Pellissier	2 0
Molière's Le Malade Imaginaire. G. E. Fasnacht	1 6
Grillparzer's Sappho Trauerspiel. Prof. Rippmann	3 0

UNIVERSITY COURSE III.

Schiller's Wallenstein, M. Winkler	5 0
Goethe's Faust, Part I. Jane Lee	4 6

MACMILLAN & CO., Ltd., LONDON.

Newnes' Thin Paper Classics.

These charming and portable Volumes are small enough for the pocket (6½ ins., 4 ins. and 3½ in. thick), yet large enough for the bookshelf. Printed in large type on thin but thoroughly opaque paper, with Photogravure Frontispiece and Title-page to each volume printed on Japanese vellum, and in a dainty binding, they make an ideal present.

Cloth, 3s. net; limp lambskin, 3s. 6d. net per volume.

BYRON'S WORKS. 3 Vols.
ADDISON'S ESSAYS.
SPENSER'S FAERIE QUEENE. 2 Vols.
EVELYN'S DIARY.
LAMB'S WORKS.
THE VISION OF DANTE.
PEACOCK'S NOVELS.
BOSWELL'S LIFE OF DR. JOHNSON. 2 Vols.
HAWTHORNE'S NEW ENGLAND ROMANCES.
TENNYSON'S POEMS.
POEMS OF WORDSWORTH.
THE SHORTER WORKS OF WALTER SAVAGE LANDOR.
LETTERS OF HORACE WALPOLE.
THE INGOLDSBY LEGENDS.
MRS. BROWNING'S POEMS. 2 Vols.
SHAKESPEARE. 3 Vols.
MILTON'S POEMS.
BURNS' POEMS.
DON QUIXOTE.
BACON'S WORKS.

SHELLEY'S POEMS.
PEPYS' DIARY.
KEATS' POEMS.
POE'S TALES.
CAPTAIN COOK'S VOYAGES.
MARCO POLO'S TRAVELS.
ROSSETTI'S EARLY ITALIAN POETS.
AUTOBIOGRAPHY OF BENVENUTO CELLINI.
THE POEMS OF SAMUEL TAYLOR COLERIDGE.
HOMER'S ILIADS. Translated by George Chapman.
HOMER'S ODYSSEYS AND SHORTER POEMS. Translated by George Chapman.
SWIFT'S JOURNAL TO STELLA.
BEN JONSON'S PLAYS AND POEMS.
HERRICK'S POEMS.
MISCELLANEOUS WORKS OF OLIVER GOLDSMITH.
THE NOVELS OF LAURENCE STERNE.
MARLOWE'S PLAYS AND POEMS.

"The 'Thin Paper' Classics is keeping well ahead of everything else we know of in its own particular line. The selection of works for it has never yet descended in standard from the highest; and yet it is as various and comprehensive as any reasonable mind could wish."—*Pall Mall Gazette*.

Newnes' Pocket Classics.

Super royal 24mo. With Photogravure Frontispiece. Lambskin, 2s. 6d. net.
Cloth, 2s. net.

THE CAVALIER IN EXILE. Being the Lives of the first Duke and Duchess of Newcastle. By the DUCHESS.
GOETHE'S FAUST. A Dramatic Mystery. Translated by JOHN ANSTER, LL.D.
THE POEMS OF THOMAS GRAY AND WILLIAM COLLINS.
A JOURNAL OF THE PLAGUE YEAR. By DANIEL DEFOE.
SHAKESPEARE'S POEMS AND SONGS.
POEMS OF GEORGE WITHER.
SONGS FROM THE DRAMATISTS OF THE XVI., XVII. & XVIII. CENTURIES.
POEMS OF MICHAEL DRAYTON.
THE CHEVALIER BAYARD.

Newnes' Devotional Series.

Uniform with Newnes' Pocket Classics.

Super royal 42mo. Lambskin, 2s. 6d. each net. Cloth, 2s. each net.

LYRA GERMANICA. Translated from the German by CATHERINE WINKWORTH.
THE IMITATION OF CHRIST. By THOMAS À. KEMPIS.
THE CHANGED CROSS. And other Poems.
THE CHRISTIAN YEAR.
THE SACRED POEMS OF HENRY VAUGHAN.
LYRA INNOCENTIUM.

GEORGE NEWNES, Ltd., Southampton Street, Strand, LONDON, W.C.

- Recent Advances in Physiology and Bio-Chemistry.** By LEONARD HILL, BENJAMIN MOORE, M. S. PEMBREY, J. J. R. MACLEOD, and A. P. BEDDARD. 18s. net.
- Lectures on Diseases of Children.** By R. HUTCHISON, M.D. (Edin.), Assistant Physician to the London Hospital and to the Hospital for Sick Children. Illustrated. 8s. 6d. net.
- Food and the Principles of Dietetics.** By R. HUTCHISON, M.D. (Edin.) 16s. net.
- Practical Physiology.** By A. P. BEDDARD, M.D., J. S. EPKINS, M.B., L. HILL, M.B., J. J. R. MACLEOD, M.B., and M. S. PEMBREY, M.D. 12s. 6d. net.
- The Diagnosis of Nervous Diseases.** By CURVES STEWART, M.D., F.R.C.P. With numerous Illustrations. Demy 8vo, 15s. net.
- A Guide to the Diseases of the Nose and Throat, and Notes on their Treatment.** By C. A. PARKER, F.R.C.S. (Edin.) 18s. net.
- Midwifery for Nurses.** By H. RUSSELL ANDREWS, M.D. 4s. 6d.
- Surgical Nursing, and the Principles of Surgery for Nurses.** By RUSSELL HOWARD, M.B., F.R.C.S. 6s.
- Human Embryology and Morphology.** By A. KNITH, M.D. 12s. 6d. net.
- Manual of Human Physiology.** By LEONARD HILL, M.B. 6s.
- A Manual of Pharmacology for Students.** By Prof. W. E. DIXON. 15s. net.
- The Chemical Synthesis of Vital Products and the Inter-relations between Organic Compounds.** By Prof. R. MELDOLA. Vol. 1. Super Royal 8vo. 21s. net.
- Lectures on Theoretical and Physical Chemistry.** By Dr. J. H. VAN 'T HOFF, Professor of Chemistry to University of Berlin. 3 vols. 28s. net, or separately.
- A Text-Book of Physical Chemistry.** By Dr. R. A. LEHFELDT. 7s. 6d.
- The Elements of Inorganic Chemistry.** By W. A. SHENSTONE. 4s. 6d.
- Electrolytic Preparations.** By Dr. KARL ELES, Professor of Organic and Physical Chemistry at the University of Giessen. Translated. 4s. 6d. net.
- Experimental Researches with the Electric Furnace.** By HENRI MOISSAN, Professor of Chemistry at the Sorbonne. Translated. 10s. 6d. net.
- The Becquerel Rays and the Properties of Radio-Active Substances.** By the Hon. R. J. STRUTT. 8s. 6d. net. Second Edition (Revised).
- The Balancing of Engines.** By W. E. DALBY, Professor of Engineering, City and Guilds of London Central Technical College. 10s. 6d. net.
- Valves and Valve-Gear Mechanisms.** By Prof. W. E. DALBY. 21s. net.
- The Calculus for Engineers.** By JOHN PERRY, M.E., D.Sc. 7s. 6d.
- Electric and Magnetic Circuits.** By E. H. CRAPPER, M.I.E.E. 10s. 6d. net.
- Applied Electricity.** By J. PALEY YORKE. 7s. 6d.
- Alternating Currents.** A Text-book for Students. By C. G. LAMB. 10s. 6d. net.
- Hydraulics.** By R. BESQUET, Professor à l'École Industrielle de Lyon. Translated. 7s. 6d. net.
- Traverse Tables.** By Prof. H. LOUIS. 4s. 6d. net.
- The Strength and Elasticity of Structural Members.** By R. J. WOODS, M.E., M.Inst.C.E. 292 Diagrams. 10s. 6d. net. New Edition.
- Five Figure Tables of Mathematical Functions.** By J. B. DALE, M.A. 3s. 6d. net.
- The Theory of Optics.** By A. SCHUSTER, F.R.S., Director of the Physical Laboratories, University of Manchester. 15s. net.
- An Elementary Treatise on Practical Mathematics.** By J. GRAHAM, B.A. 3s. 6d.
- Mathematical Drawing.** By Prof. G. M. MINCHIN, Cooper's Hill College, and Prof. J. B. DALE. 7s. 6d.
- The Evolution Theory.** By Prof. A. WEISMANN. 2 vols. 32s. net.
- Nature Study in House, Garden, and Field.** By Prof. L. C. MIALL. 6s.
- Habit and Instinct.** By Prof. LLOYD-MORGAN. 16s.
- A Class Book of Botany.** By G. P. MUDGE, A.R.C.Sc., and A. J. MASLEN, F.L.S. 7s. 6d.
- Astronomical Discovery.** By Prof. H. H. TURNER. 10s. 6d. net.
- A Manual of Physiography.** By A. J. HERBERTSON, Ph.D. 4s. 6d.
- A Text Book of Zoology.** By G. P. MUDGE, A.R.C.Sc. 7s. 6d.
- Psychology for Teachers.** By Prof. LLOYD-MORGAN. New Edition. 4s. 6d.
- A History of England.** By Prof. C. W. OMAN. 760 p.p., Crown 8vo, cloth, 5s. Also sold in Parts.
- England in the Nineteenth Century.** By C. W. OMAN. 3s. 6d.
- English Political Philosophy.** By Professor WILLIAM GRAHAM. 10s. 6d. net.
- A Short History of British Commerce and Industry.** By L. PRICE, M.A. 3s. 6d.

UNIVERSITY COURSES.

LATIN.

- Virgil's Aeneid.** Book IV. Edited, with Introduction, Notes, &c., and Vocabulary, by the Rev. A. S. Warman, B.A., Assistant Master at the Grammar School, Manchester. With numerous Illustrations. 1s. 6d. *[Bell's Illustrated Classics.]*
Virgil's Aeneid. Book VI. Edited, with Introduction, Notes, &c., and Vocabulary, by J. T. Phillipson, M.A., Head Master of Christ's College, Finchley. With numerous Illustrations. Pott Svo. 1s. 6d. *[Bell's Illustrated Classics.]*
 TRANSLATION OF VIRGIL'S AENEID, Books IV.-VI. 1s.
Horace. The Latin Text, with Conington's Translation on opposite pages.* Complete in 1 vol., printed on thin paper for the pocket, bound in stamped sheepskin. 5s. net; or limp cloth, 4s. net. Also in Two Parts, "The Odes and Carmen Seculare." Cloth, 1s. 6d. net; limp leather, cut flush, 2s. net. "The Satires, Epistles, and Art of Poetry." Cloth, 2s. net; limp leather, cut flush, 2s. 6d. net.
Tacitus Agricola. Edited, with Introduction and Notes, by J. W. E. Pearce, M.A., formerly Assistant Master in University College School. With 27 Illustrations of Roman Antiquities, &c., and 3 Maps and Plans. Crown Svo. 2s. *[Bell's Illustrated Classics.]*

GREEK.

- Plato. The Apology of Socrates and Crito.** With Notes Critical and Exegetical, by Wilhelm Wagner, Ph.D. 13th edition. 2s. 6d.
Aeschylus: Prometheus Vincit. Edited, with Introduction, Notes, and Vocabulary, by C. E. Laurence, M.A., Assistant Master at Blackheath School. Pott Svo., with numerous Illustrations. 1s. 6d. *[Bell's Illustrated Classics.]*

ENGLISH.

- A History of the English Language.** By T. R. Lounsbury, Professor in Yale University. 5s.
Shakespeare's Hamlet, Macbeth, Tempest, King Lear. Notes by T. Duff Barnett, B.A. 1s. each.
Bacon's Essays. Edited, with Introduction and Notes, by J. Devey, M.A. 3s. 6d.
Bacon's Advancement of Learning and Novum Organon. Edited, with Notes, by J. Devey, M.A. 5s.
Pope, Selections from (containing "The Rape of the Lock" and "Essay on Criticism.") Edited by K. Deighton. 2s. 6d.; sewed, 1s. 9d.
Pope, Essay on Man. Edited by F. Ryland, M.A. 1s. 6d.; sewed, 1s.
Swift's Tale of a Tub, and The Battle of the Books. Edited by Temple Scott. 5s.
Swift's Gulliver's Travels. Edited by G. R. Dennis, B.A. 2s. net.
Johnson's Lives of Addison, Dryden, and Pope. Edited, with Introduction and Notes, by F. Ryland, M.A. 2s. 6d. each.
Goldsmith's Traveller. Edited by the Rev. A. E. Woodward, M.A. Sewed, 10d.
Collins' Poems. Edited, with Memoir, by W. Moy Thomas. 2s. 6d. net.
Gray's Poetical Works. Edited, with Notes, &c., by J. Bradshaw, M.A. 2s. 6d. net.
Coleridge: Biographia Literaria. 3s. 6d.
Lamb's Specimen's of English Dramatic Poets of the time of Elizabeth. With Notes; together with the Extracts from the Garrick Plays. 3s. 6d.

Messrs. BELL'S Modern Mathematical Books.

Complete Catalogue of Messrs. Bell's Mathematical Books
will be sent post free on application.

New School Arithmetic. By Charles Pendlebury, M.A. Third Edition. With or without Answers, 4s. 6d.; or in Two Parts, 2s. 6d. each.

KEY to Part II., 8s. 6d. net.

"The new sections on graphs, mensuration, and logarithms add considerably to the value of the book, which in this form is unrivalled."—*Athenæum*.

New School Examples in Arithmetic. Extracted from the above. With or without Answers, 3s.; or in Two Parts, without Answers, 1s. 6d. and 2s.

Examples in Arithmetic. With some Notes on Method. By C. O. Tuckey, M.A. With or without Answers, 3s.

Elementary Algebra. By W. M. Baker, M.A., and A. A. Bourne, M.A. Third Edition Revised. 4s. 6d. Also in Parts.

PART I.—To Quadratic Equations. 2s. 6d.; or, with Answers, 3s.

PART II.—Including Logarithms (4-Figure Tables), Binomial Theorem, Exponential and Logarithmic Series, Interest, Undetermined Coefficients, and Partial Fractions. With or without Answers, 2s. 6d.

TEACHERS' EDITION, with the Answers to each set of Examples printed opposite them. Two Parts, 5s. net each.

COMPLETE KEY, 10s. net; or in Two Parts, 5s. net each.

Examples in Algebra. Extracted from the above. With or without Answers, 3s.; or in Two Parts: Part I., 1s. 6d.; or with Answers, 2s.; Part II., with or without Answers, 2s.

"Messrs. Baker and Bourne's excellent Algebra must give satisfaction wherever used."—*Nature*.

Examples in Algebra. By C. O. Tuckey, M.A. Fifth Edition. With or without Answers, 3s. Supplementary Examples, (Paper covers), 6d.

"The selection of Examples and the order of the Chapters undoubtedly place the book far in advance of any at present existing."—*Guardian*.

Elementary Geometry. By W. M. Baker, M.A., and A. A. Bourne, M.A. Complete Fifth Edition, Revised. 4s. 6d. Also in Parts. Books I.-III., Seventh Edition, Revised, 2s. 6d. Books I.-IV., Fourth Edition, 3s.

Also published in the following forms:—

Book I., 1s. Books I. and II., 1s. 6d. Books II. and III., 1s. 6d. Books III. and IV., 1s. 6d. Books IV.-VII., 3s. Books V.-VII., 2s. 6d. Books VI.-VII., 1s. 6d.

ANSWERS TO NUMERICAL AND MENSURATION EXAMPLES, 6d. net.

COMPLETE KEY, 6s. net.

This work is now in use in nearly 1,500 schools and colleges all over the world.

Algebraic Geometry. A new Elementary Treatise on Analytical Conic Sections.

By W. M. Baker, M.A. With numerous diagrams, 6s.

A New Trigonometry for Schools. By W. G. Borchardt, M.A., and the Rev. A. D. Perrott, M.A. 4s. 6d. Also in Two Parts, 2s. 6d. each.

COMPLETE KEY, 10s. net; or in Two Parts, 5s. net each.

"The work is admirable for form use—it is, indeed, the best book on the subject at present in the market."—*Guardian*.

Differential Calculus for Beginners. By Alfred Lodge, M.A., Mathematical Master at Charterhouse. With an Introduction by Sir Oliver Lodge, D.Sc., F.R.S., LL.D., Principal of the University of Birmingham. 4s. 6d.

"We can recommend the manual as a most reliable and sound book for the student."—*Practical Engineer*.

Integral Calculus for Beginners. By Alfred Lodge, M.A. 4s. 6d.

"We can with confidence recommend it to the large class of engineering students and others, to whom it is of importance to acquire a sound elementary knowledge of the subject at the earliest opportunity."—*Guardian*.

Elementary Dynamics. By W. M. Baker, M.A. Second Edition, revised and enlarged, 4s. 6d.

"An admirable work, thoroughly revised."—*Educational Times*.

Practical Mathematics. By H. A. Stern, M.A., and W. H. Topham. 4s. 6d.; or Part I., 2s. 6d.; or Part II., 3s. 6d.

London: GEORGE BELL & SONS, York House, Portugal Street, W.C.

MINING AND METALLURGY.—*continued.*

- Prospecting for Gold**, by D. J. Rankin, 7s. 6d. net.
Metallurgy of Gold, by M. Eissler, 21s. net.
Diamond Drilling for Gold and other Minerals, by G. A. Denny, 12s. 6d.
Field Testing for Gold and Silver, by W. H. Merritt, 5s. net.
Prospector's Handbook, by J. W. Anderson, 3s. 6d.
Metallurgy of Silver, by M. Eissler, 10s. 6d.
The Hydro-Metallurgy of Copper, by M. Eissler, 12s. 6d. net.
Metalliferous Minerals and Mining, by D. C. and E. H. Davies, 12s. 6d. net.
Machinery for Metalliferous Mines, by E. H. Davies, 25s. net.
Miner's and Metallurgist's Pocket Book, by F. D. Power, 9s.
Miner's Handbook, by J. Milne, 7s. 6d.

INDUSTRIAL.

- Modern Soaps, Candles, and Glycerine**, by L. L. Lamborn, 30s. net.
Gas Engines and Producer Gas Plants, by R. E. Mathot, 12s. net.
Practical Tanning, by L. A. Flemming, 25s. net.
Tea Machinery and Tea Factories, by A. J. Wallis-Taylor, 25s. net.
Art of Brewing and Malting, by H. E. Wright, 12s. 6d.
Practical Papermaking, by G. Clapperton, 5s.
Art of Papermaking, by A. Watt, 7s. 6d.
Art of Soapmaking, by A. Watt, 7s. 6d.
Leather Manufacture, by A. Watt, 12s. 6d. net.
Flour Manufacture, by F. Kick and H. H. P. Powles, 25s.
Electro-Plating and Refining Metals, by Watt and Philip, 12s. 6d. net.
Watch Repairing, Cleaning and Adjusting, by F. J. Garrard, 4s. 6d. net.

CHEMISTRY AND CHEMICAL MANUFACTURES.

- Analysis of Oils and Allied Substances**, by A. C. Wright, 9s. net.
Gas Engineer's Pocket Book, by H. O'Connor, 10s. 6d.
Engineering Chemistry, by H. J. Phillips, 10s. 6d. net.
Nitro-Explosives, by F. G. Sanford, 9s.
Manual of the Alkali Trade, by J. Lomas, 30s.
Blowpipe in Chemistry, by Lieut-Col. W. A. Ross, 5s.
Analysis and Valuation of Fuels, by H. J. Phillips, 2s.
Handbook on Modern Explosives, by M. Eissler, 12s. 6d.

WEALE'S TECHNICAL SERIES.

- Iron and Steel Bridges and Viaducts**, by F. Campin, 3s. 6d.
Engineering Drawing, by J. Maxton, 3s. 6d.
Land and Engineering Surveying, by T. Baker and F. E. Dixon, 2s.
Constructional Iron and Steel Work, by F. Campin, 3s. 6d.
Building, by E. Dobson and J. P. Allen, 2s.
Text Book on Plumbing, by W. P. Buchan, 3s. 6d.
Ventilation of Buildings, by W. P. Buchan, 3s. 6d.
Elementary Marine Engineering, by J. S. Brewer, 1s. 6d.

London: CROSBY LOCKWOOD & SON, 7, Stationers' Hall Court, E.C.

Detailed Catalogue on Application.

Manchester University Publications.

MEDICAL SERIES, No. 1.

No. I. **Sketches of the Lives and Work of the Honorary Medical Staff of the Royal Infirmary.** From its foundation in 1752 to 1830, when it became the Royal Infirmary. By EDWARD MANSFIELD BROCKBANK, M.D., M.R.C.P. Crown 4to (illustrated). 15s. net.

"Dr. Brockbank's is a book of varied interest. It also deserves a welcome as one of the earliest of the 'Publications of the University of Manchester.'"—*Manchester Guardian*.

MEDICAL SERIES, No. 2

No. II. **Practical Prescribing and Dispensing.** For Medical Students. By WILLIAM KIRKBY, sometime Lecturer in Pharmacognosy in the Owens College, Manchester. Crown 8vo, 220 pp. Second edition. 5s. net.

"The whole of the matter bears the impress of that technical skill and thoroughness with which Mr. Kirkby's name must invariably be associated, and the book must be welcomed as one of the most useful recent additions to the working library of prescribers and dispensers."—*Pharmaceutical Journal*.

HISTORICAL SERIES, No. 1.

No. III. **Mediæval Manchester and the beginning of Lancashire.** By JAMES TAIT, M.A., Professor of Ancient and Mediæval History. Demy 8vo, 240 pages. 7s. 6d. net.

"Patient and enlightened scholarship and a sense of style and proportion have enabled the writer to produce a work at once solid and readable."—*English Historical Review*.

ECONOMIC SERIES, No. 1.

No. IV. **The Lancashire Cotton Industry.** By S. J. CHAPMAN, M.A., JEVONS Professor of Political Economy and Dean of the Faculty of Commerce. Demy 8vo. 7s. 6d. net.

"A valuable and instructive treatise on a fascinating subject."—*Factory Times*.

HISTORICAL SERIES, No. 2.

No. V. **Initia Operum Latinorum Quæ Saeculis XIII., XIV., XV. Attribuuntur.** By A. G. LITTLE, M.A., Lecturer in Palæography. Demy 8vo, 300 pp. (interleaved). 15s. net.

MEDICAL SERIES, No. 3.

No. VI. **Handbook of Surgical Anatomy.** By G. A. WRIGHT, B.A., M.B. (Oxon), F.R.C.S., and C. H. PRESTON, M.D., F.R.C.S., L.D.S. Crown 8vo, 214 pp. Second Edition. 5s. net.

"We can heartily recommend the volume to students, and especially to those preparing for a final examination in surgery."—*Hospital*.

HISTORICAL SERIES, No. 3.

No. VII. **The Old Colonial System.** By GERALD BERKELEY HERTZ, M.A., B.C.L. Demy 8vo, 232 pp. 5s. net.

"Mr. Hertz gives us an elaborate historical study of the old colonial system, which disappeared with the American Revolution He shows a remarkable knowledge of contemporary literature, and his book may claim to be a true history of popular opinion."—*Spectator*.

ECONOMIC SERIES, No. 2. (GARTSIDE REPORT, No. 1.)

No. VIII. **An Examination of the Cotton Industry in the United States.** By T. W. UTTLEY, B.A. Demy 8vo. 1s. net.

THEOLOGICAL SERIES, No. 1.

No. IX. **Inaugural Lectures**, delivered during the Session, 1904-5, by the Professors and Lecturers of the Faculty of Theology. Edited by Professor A. S. PEAKE. Demy 8vo, 300 pp. 7s. 6d. net.

"The lectures, while scholarly, are at the same time popular, and will be found interesting and instructive by those who are not theologians.

ANATOMICAL SERIES, No. 1.

No. X. **Studies in Anatomy** from the Anatomical Department of the University of Manchester. Vol. III. Edited by ALFRED H. YOUNG, M.B. (Edin.), F.R.C.S., Professor of Anatomy. Demy 8vo, 320 pp., 24 Plates. 10s. net.

MEDICAL SERIES, No. 4.

No. XI. **A Course of Instruction in Operative Surgery** in the University of Manchester. By WILLIAM THORBURN, M.D., B.S. (Lond.), F.R.C.S., Lecturer in Operative Surgery. Crown 8vo. 2s. 6d. net.

PUBLIC HEALTH SERIES, No. 1.)

No. XII. **Archives of the Public Health Laboratory of the University of Manchester.** Edited by A. SHERIDAN DELEPINE, M.Sc., M.B., Ch.M. Crown 4to, 450 pp. £1 1s. net.

Sherratt & Hughes, 34, Cross Street, MANCHESTER.
60, Chandos St., LONDON, W.C.

Manchester University Publications—continued

"It is safe to say that as these volumes accumulate they will form one of the most important works of reference on questions of public health, and ought, at all events, to be in the library of every public authority."—*Manchester Guardian*.

PHYSICAL SERIES. No. 1.

No. XIII. **The Physical Laboratories of the University of Manchester.** A record of 25 years' work. Demy 8vo, 160 pp, 10 Plates, 4 Plans. 5s. net.

This volume contains an illustrated description of the Physical, Electrical Engineering, and Electro-Chemistry Laboratories of the Manchester University, also a complete Biographical and Bibliographical Record of those who have worked in the Physics Department of the University during the past 25 years.

MEDICAL SERIES. No. 5.

No. XIV. **A Handbook of Legal Medicine.** By W. SELLERS, M.D. (Lond.) of the Middle Temple and Northern Circuit, Barrister-at-Law. With Illustrations. Crown 8vo. 7s. 6d. net.

MEDICAL SERIES. No. 6.

No. XV. **A Catalogue of the Pathological Museum of the University of Manchester.** Edited by J. LORRAIN SMITH, M.A., M.D. (Edin.), Professor of Pathology. Crown 4to, 1260 pp. 7s. 6d. net.

HISTORICAL SERIES. No. 4.

No. XVI. **Studies of Roman Imperialism.** By W. T. ARNOLD, M.A. Edited by EDWARD FIDDES, M.A., with Memoir of the Author by Mrs. HUMPHREY WARD and C. E. MONTAGUE. With a Photogravure of W. T. Arnold. Demy 8vo, 400 pp. 7s. 6d. net.

No. XVII. **Calendar of the Victoria University of Manchester.** Session 1904-5. Demy 8vo, 1160 pp. 3s. net.

No. XVIII. **Calendar of the Victoria University of Manchester.** Session 1905-6. Demy 8vo, 1160 pp. 3s. net.

No. XIX. **Calendar of the Victoria University of Manchester.** Session 1906-7. Demy 8vo, 1100 pp. 3s. net. *[In the press.]*

MEDICAL SERIES.

Handbook of Diseases of the Heart. By GRAHAM STEELL, M.D., F.R.C.P., Lecturer in Diseases of the Heart and Physician to the Manchester Royal Infirmary. Crown 8vo. 7s. 6d. net.

ECONOMIC SERIES, No. 3. (GARTSIDE REPORT, No. 2.

Some Modern Conditions and Recent Developments in Iron and Steel Production in America being a Report to the Gartside Electors, on the results of a Tour in the U.S.A. By FRANK POPPLEWELL, B.Sc. Demy 8vo. *[In the press.]*

EDUCATIONAL SERIES. No. 1.

Continuation Schools in England and Elsewhere: Their place in the Educational System of an Industrial and Commercial State. By MICHAEL E. SADLER, M.A., LL.D., Professor of the History and Administration of Education. Demy 8vo.

This work is largely based on an enquiry made by past and present Students of the Educational Department of the University of Manchester. Chapters on Continuation Schools in the German Empire, Switzerland, Denmark, and France, have been contributed by other writers. *[In the press.]*

HISTORICAL SERIES.

Canon Peter Casola's Pilgrimage to Jerusalem in the year 1494. By M. NEWETT. Demy 8vo. *[In the Press.]*

LECTURES.

Garden Cities. (Warburton Lecture). By RALPH NEVILLE, K.C. 6d. net.

The Bank of England and the State (A Lecture). By FELIX SCHUSTER. 6d. net.

Bearing and Importance of Commercial Treaties in the Twentieth Century. By SIR THOMAS BARCLAY. 6d. net.

The Science of Language and the Study of the Greek Testament. (A Lecture). By JAMES HOPE MOULTON, M.A., Litt. D. 6d. net.

ISSUED FROM THE UNIVERSITY PRESS

Melandra Castle, being the Report of the Manchester and District Branch of the Classical Association for 1906. Edited by R. S. CONWAY, Litt.D. Introduction by Rev. E. L. HICKS, M.A. Demy 8vo. Illustrated. 5s. net.

Both the antiquarian and the student of general English history should find this volume of deep interest.—*Tribune*.

Sherratt & Hughes, 34, Cross Street, MANCHESTER.
60, Chandos St., LONDON, W.C.

H. K. LEWIS'S PUBLICATIONS

THE THEORY AND PRACTICE OF MEDICINE. By FREDERICK T. ROBERTS, M.D., B.Sc., F.R.C.P., Emeritus Professor of Medicine and Clinical Medicine in University College, etc. Tenth Edition. Thoroughly Revised. 2 Vols. Medium 8vo. 26s. net.

"One of the best test-books on medicine—brought fully up to date."—*The Lancet.*

MEDICAL ELECTRICITY: A Practical Handbook for Students and Practitioners. By H. LEWIS JONES, M.A., M.D., F.R.C.P., Medical Officer in charge of the Electrical Department in St. Bartholomew's Hospital, &c. Fifth Edition, Revised and Enlarged with Plates and Illustrations. Demy 8vo. *Just Ready.*

[*Lewis's Practical Series.*]

CLINICAL BACTERIOLOGY AND HÆMATOLOGY FOR PRACTITIONERS. By W. D'ESTE ENERY, M.D., B.Sc., Lond., Clinical Pathologist to King's College Hospital, etc. Second Edition, 10 Plates and 47 Illustrations. Demy 8vo. 7s. 6d. net.

[*Lewis's Practical Series.*]

ELEMENTS OF PRACTICAL MEDICINE. By A. H. CARTER, M.D., Lond., F.R.C.P., Lond., Professor of Medicine, University of Birmingham, Senior Physician to the Queen's Hospital, Birmingham. Ninth Edition, Revised throughout. Crown 8vo. *Just Ready.*

LANDMARKS AND SURFACE MARKINGS OF THE HUMAN BODY. By LOUIS BATHE RAWLING, M.B., B.C., Cant., F.R.C.S., Eng., Assistant Surgeon, Demonstrator of Practical Surgery, Senior Demonstrator of Anatomy, St. Bartholomew's Hospital, etc. Second Edition, with 25 Plates (3 in colour), comprising 31 Figures. Demy 8vo. 5s. net.

DISEASES OF THE SKIN: their Description, Pathology, Diagnosis, and Treatment. By H. RADCLIFFE-CROCKER, M.D. Lond., F.R.C.P., Physician for Diseases of the Skin, University College Hospital, London. Third Edition, with 74 Plates (two coloured), and 112 Illustrations. Large 8vo. 30s. net.

HYGIENE AND PUBLIC HEALTH. By LOUIS C. PARKES, M.D., D.P.H., Lond. Univ., Lecturer on Public Health at St. George's Hospital Medical School, etc.; and HENRY R. KENWOOD, M.B., D.P.H., F.C.S., Professor of Hygiene and Public Health, University College, London, etc. Second Edition, with Illustrations, crown 8vo. 12s. *[Lewis's Practical Series.]*

A PRACTICAL TEXT-BOOK OF THE DISEASES OF WOMEN. By ARTHUR H. N. LEWERS, M.D., Lond., F.R.C.P., Lond., Senior Obstetric Physician to the London Hospital, and Lecturer on Midwifery in the London Hospital Medical School; Sixth Edition, thoroughly Revised, with 166 Illustrations. Crown 8vo. 10s. 6d. *[Lewis's Practical Series.]*

PUBLIC HEALTH LABORATORY WORK. By HENRY R. KENWOOD, M.B., D.P.H., F.C.S., Professor of Hygiene and Public Health at University College, etc. Third Edition, with Illustrations. Crown 8vo. 10s. 6d. *[Lewis's Practical Series.]*

HANDBOOK OF DISEASES OF THE EYE, AND THEIR TREATMENT. By HENRY R. SWANZY, A.M., M.B., F.R.C.S.I., Surgeon to the Royal Victoria Eye and Ear Hospital, and Ophthalmic Surgeon to the Adelaide Hospital, Dublin. Ninth Edition, thoroughly revised, with Illustrations. Post 8vo. *Ready Shortly.*

Complete Catalogue post free on application.

Mr. Lewis's Publications may be obtained of all Medical Booksellers.

LEWIS'S MEDICAL & SCIENTIFIC CIRCULATING LIBRARY.

All Branches of Medical and General Science,

INCLUDING ENGINEERING, ELECTRICITY, &c.

ANNUAL SUBSCRIPTIONS FROM ONE GUINEA.

QUARTERLY LIST of New Books and New Editions, and Detailed Prospectus of the Library, post free to any address.

LONDON: H. K. LEWIS, 136, GOWER STREET, W.C.

TEXT-BOOKS OF SCIENCE.

Photography. By Captain Sir W. De Wiveleslie Abney, K.C.B., F.R.S. With 134 Illustrations. 5s.

The Strength of Materials and Structures. By Sir J. Anderson, C.E., LL.D., F.R.S.E. 66 Illustrations. 3s. 6d.

Elements of Astronomy. By Sir R. S. Ball, LL.D., F.R.S. With 136 Illustrations. 6s.

Railway Appliances. A Description of Details of Railway Construction subsequent to the completion of Earthworks and Structures. By Sir John Wolfe Barry, K.C.B., M.I.C.E. 218 Illustrations. 4s. 6d.

Systematic Mineralogy. By Hilary Bauerman, F.G.S. 373 Illustrations. 6s.

Descriptive Mineralogy. By Hilary Bauerman, F.G.S. With 236 Illustrations and Questions for Examinations. 5s.

Metals: Their Properties and Treatment. By A. K. Huntington and W. G. M'Millan. 130 Illustrations. 5s.

Practical Physics. By R. T. Glazebrook, M.A., F.R.S., and W. N. Shaw, M.A. With 134 Illustrations. 7s. 6d.

Physical Optics. By R. T. Glazebrook, M.A., F.R.S. With 183 Illustrations. 6s.

The Art of Electro-Metallurgy, including all known Processes of Electro-Deposition. By G. Gore, LL.D., F.R.S. With 56 Illustrations. 6s.

Algebra and Trigonometry. By William Nathaniel Griffin, B.D. 3s. 6d.

The Steam Engine. By Sir George C. V. Holmes, K.C.V.O., C.B. With 212 Illustrations. 6s.

Electricity and Magnetism. By Fleeming Jenkin, F.R.S.S., L. & E. With 177 Illustrations. 3s. 6d.

Theory of Heat. By J. Clerk Maxwell, M.A., LL.D., Edin. With 30 Illustrations. 4s. 6d.

Technical Arithmetic and Mensuration. By Charles W. Merrifield, F.R.S. 3s. 6d. Key, 3s. 6d.

Introduction to the Study of Inorganic Chemistry. By William Allen Miller, M.D., LL.D., F.R.S. With 72 Illustrations, and numerous Questions for Examination. 3s. 6d.

Telegraphy. By Sir W. H. Preece, K.C.B., F.R.S., M.I.C.E., and Sir J. Sivewright, K.C.M.G. With 284 Illustrations. 7s. 6d.

The Study of Rocks, an Elementary Text-Book of Petrology. By Frank Rutley, F.G.S. With 6 Plates and 88 Illustrations. 4s. 6d.

Workshop Appliances, including Descriptions of some of the Gauging and Measuring Instruments—Hand Cutting Tools, Lathes, Drilling, Planing, and other Machine Tools used by Engineers. By C. P. B. Shelley, M.I.C.E. With 323 Illustrations. 5s.

Structural and Physiological Botany. By Dr. Otto Wilhelm Thome and A. W. Bennett, M.A., B.Sc., F.L.S. With 600 Illustrations and a Coloured Map. 6s.

Quantitative Chemical Analysis. By T. E. Thorpe, C.B., Ph.D., F.R.S. With 88 Illustrations. 4s. 6d.

Qualitative Chemical Analysis and Laboratory Practice. By T. E. Thorpe, C.B., Ph.D., F.R.S., and M. M. Pattison Muir, M.A., F.R.S.E. With Plate of Spectra and 57 Illustrations. 3s. 6d.

Introduction to the Study of Chemical Philosophy; the Principles of Theoretical and Systematic Chemistry. By William A. Tilden, D.Sc. London, F.R.S. With 11 Illustrations. 5s. With Answers to Problems. 5s. 6d.

The Elements of Machine Design. By W. Cawthorne Unwin, F.R.S.

Part I. General Principles, Fastenings, and Transmissive Machinery. With 345 Diagrams, etc. 7s. 6d.

Part II. Chiefly on Engine Details. 259 Diagrams, etc. 6s.

Preliminary Survey. By Theodore Graham Gribble, Civil Engineer. Including Elementary Astronomy, Route Surveying, Tacheometry, Curve ranging, Graphic Mensuration, Estimates, Hydrography, and Instruments. With 130 Illustrations. Quantity Diagrams, and a Manual of the Slide Rule. 6s.

Little French Classics.

Price 4d. each Book.

"The idea is an excellent one and admirably carried out."—Prof. SAINTSBURY.

"A considerable boon to teachers and taught."—SPECTATOR.

"These little books supply a great want."—Dr. W. H. ROUSE.

This New Series, which is produced under the most competent editorship, embraces all classes of French Literature—Travels, Stories of Adventure, Scenes of Domestic Life, Essays, Letters, Poetry, and Drama—so graduated in difficulty and so varied in matter as to be suitable for students of all ages. Many authors hitherto unobtainable in a suitable form are represented, as, for example, Bossuet, Balzac, Stendhal, Rousseau, and Pascal.

Complete Lists on application.

Little German Classics.

Price 6d. each Book.

This New Series is uniform in aim and general appearance with the well-known Series of "Little French Classics," which received so instant a welcome from teachers and pupils.

Goethe—Hermann und Dorothea

German Songs with Music

Kotzebue—Der gerade Weg der beste

Schiller—Select Ballads

Heine—Die Harzreise

Heine—Select Ballads

The Nibelungenlied. Parts I. and II.

Körner—Select Songs

Poems for Recitation

Goethe—The Road to Italy

The Warwick Shakespeare.

Prices 1s. and 1s. 6d. each volume.

Edited by Prof. HERFORD, Litt.D. The best and most widely used edition of Shakespeare for higher forms and University Candidates.

The Series is in use in the following leading Schools, among very many others:—

Eton College

Harrow School

St. Paul's School

Rugby School

King's College

Clifton College

Merchant Taylors'

City of London School

The Charterhouse

Newnham College

Girton College

Marlborough College

Rossall School

Malvern College

Winchester College

Shrewsbury School

Wellington College

Liverpool College

Dulwich College

Stonyhurst College

Halleybury College

Reading School

Repton School

Bradford Grammar School

New English Texts.

Edited by W. H. D. ROUSE, D.Litt.

This new and highly excellent series provides, in small compass, the works of many of the best known and most famous authors. The aim has been to include only such books as are of permanent value, and have some bearing upon the development of the national life, character, and literature. In every case the books selected are good as literature, stimulating, varied, and enlightening; books, indeed, which every student should know, and which, if once read, are sure to be valued and read again. Each volume is provided with a brief introduction dealing with the author's life and place in literature. In neat blue cloth covers. **Price 6d. each.**

Complete List on Application.

BLACKIE & SON, Ltd., 50, Old Bailey, London.

Ready in October, 1906.

THE COMPLETE WORKS OF WILLIAM SHAKESPEARE

Reprinted from THE FIRST FOLIO.

Edited, with Introduction to each Play, Complete Glossaries and Variant Readings, by
CHARLOTTE PORTER and H. A. CLARKE.

WITH GENERAL INTRODUCTION

BY

JOHN CHURTON COLLINS, D.Litt., M.A.,

Professor of Eng. Lang. and Lit. in Birmingham University.

In Thirteen Volumes printed on antique paper, deckle edges, each with Frontispiece and
Title-Page in two colours. Sold only in Sets. Price **£2 2s.** net each Set.

[Also an Edition on pure rag paper, limited to 75 Sets. Price **£4 4s.** net each Set.]

Mr. SIDNEY LEE writes:

"I feel at a loss to name an edition which packs so much wealth into as little room. . . . You seem to have done your work and editing with uncommon skill and thoroughness. I am quite convinced of its value and ability."—SIDNEY LEE.

THIS Edition furnishes the reader with the text of the Plays nearest to Shakespeare's stage, to his ownership, and to his authority, and provides in clear and terse form an exposition of its relation to the modern text.

Shakespeare's texts have been modernised to suit each succeeding epoch, and yet *there is practically nothing in the form of the Folio which should cause the present-day reader any difficulty in reading it.*

A Complete Prospectus, with sample pages, etc., will be sent post free to any address.

Just Ready in "The Belles Lettres Series."

"THE LONDON MERCHANT & FATAL CURIOSITY."

Solutions of the Exercises. By E. A. PRICE, B.A. Crown 8vo. 5s. net.

The Elements of Trigonometry (intended for the use of Students commencing Trigonometry). By S. L. LONEY, M.A., Professor of Mathematics at the Royal Holloway College (University of London). Extra fcap. 8vo. 3s. 6d. (A Prospectus will be sent on application).

School World.—“The author's text book of ‘Plane Trigonometry’ is so favourably known that nothing more need be said about the exposition of this book than that it possesses the merits of the larger work.”

THE CAMBRIDGE PHYSICAL SERIES.

The Theory of Experimental Electricity. By W. C. D. WHETHAM, M.A., F.R.S. Demy 8vo. 8s. net.

A Treatise on the Theory of Solution, including the Phenomena of Electrolysis. By W. C. D. WHETHAM, M.A. Demy 8vo. 10s. net.

Electricity and Magnetism. An Elementary Text-Book, Theoretical and Practical. By R. T. GLAZEBROOK, M.A., F.R.S. Crown 8vo. 7s. 6d.

Heat and Light. By R. T. GLAZEBROOK, M.A., F.R.S. Crown 8vo. 5s. And separately, Heat, 3s. Light, 3s.

Mechanics and Hydrostatics. By R. T. GLAZEBROOK, M.A., F.R.S. Crown 8vo. 8s. 6d. Also in separate volumes:—Part I., Dynamics, 4s. Part II., Statics 3s. Part III., Hydrostatics, 3s.

Mechanics. By JOHN COX, M.A., F.R.S.C. Demy 8vo. 9s. net.

A Treatise on the Theory of Alternating Currents. By ALEXANDER RUSSELL, M.A., M.I.E.E. Volume I. Demy 8vo. 12s. net.

Radio-Activity. By E. RUTHERFORD, D.Sc., F.R.S., F.R.S.C. Second Edition Revised and Enlarged. Demy 8vo. 12s. 6d. net.

The Study of Chemical Composition. An Account of its Method and Historical Development, with Illustrative Quotations. By IDA FREUND. Demy 8vo. 18s. net.

SMITH, ELDER & CO.'S TEXT-BOOKS.

MARSHALL AND HURST'S ZOOLOGY.

SIXTH EDITION, Revised by F. W. GAMBLE, D.Sc., Lecturer in Zoology in the University of Manchester. With Illustrations, Crown 8vo, 10s. 6d.

A Junior Course of PRACTICAL ZOOLOGY.

By the late A. MILNES MARSHALL, M.D., D.Sc., M.A., F.R.S., Professor in the Victoria University. Beger Professor of Zoology in Owens College; and the late C. HERBERT HURST, Ph.D., Lecturer in the Victoria University; Demonstrator and Assistant Lecturer in Zoology, Owens College, Manchester.

The Lancet—"The fact that this handbook has reached a sixth edition is a better testimony to its efficiency than could be furnished by any reviewer."

ELLIS'S DEMONSTRATIONS of ANATOMY,

being a Guide to the Knowledge of the Human Body by Dissection. Edited and Revised by CHRISTOPHER ADDISON, M.D., F.R.C.S., Lecturer on Anatomy, Charing Cross Hospital Medical School. TWELFTH EDITION, with Illustrations, many in colour, small 8vo., 12s. 6d. net.

British Medical Journal.—"Will no doubt receive a warm welcome from students on account of its compactness, clearness, and the fact that all the information necessary for dissecting-room purposes is contained in one volume. Dr. Addison is certainly to be congratulated on the result of his attempt to make an old and valued book again available for general use."

Cheyne's Manual of the Antiseptic Treatment of Wounds.

With Woodcut Illustrations, Crown 8vo, 4s. 6d.

Finlayson's Clinical Manual for the Study of Medical Cases.

THIRD AND CHEAPER EDITION, with many new Illustrations, Crown 8vo, 8s. 6d.

Taylor's Index of Medicine: a Manual for the Use of Senior

Students and Others. With Illustrations, Crown 8vo, 12s. 6d.

Gee's Auscultation and Percussion. With Illustrations. FIFTH

EDITION, Foolscap 8vo, 6s.

Leftwich's Index of Symptoms as a clue to Diagnosis. THIRD

AND ENLARGED EDITION. Small Crown 8vo, 6s. net.

Playfair's Treatise on the Science and Practice of Midwifery.

NINTH EDITION, with over 200 Illustrations and 8 plates. 2 vols. Demy 8vo, 28s.

Barnes' System of Obstetric Medicine and Surgery. 2 vols., 8vo,

with numerous Illustrations. Vol. I., 18s.; Vol. II., 20s.

Schäfer's Course of Practical Histology. SECOND AND

CHEAPER EDITION, with numerous Illustrations, Crown 8vo, 7s. 6d.

Milnes Marshall's Vertebrate Embryology: a Text-Book for

Students and Practitioners. With numerous Illustrations. 8vo, 21s.

Juler's Handbook of Ophthalmic Science and Practice. THIRD

AND ENLARGED EDITION, with additional Illustrations, 8vo, 21s. net.

Lawson's Diseases and Injuries of the Eye. SIXTH EDITION,

Revised, and in great measure re-written, with 249 Illustrations. Royal 8vo, 15s. net.

* * *Catalogue post free on application.*

London: SMITH, ELDER & CO., 15, Waterloo Place.

Distinctive System of Life Assurance.

The Times

in a recent article on Modern Life Assurance states that

"The Ideal System"

"would be one which based life assurance on as
"nearly as possible bed-rock rates and allowed, in the"
"case of Mutual Associations, some periodical sharing"
"in the profits which incidentally accrued."

This Ideal is the Distinctive System of the Scottish Provident Institution

ESTAB. 1837.

INCORPD. 1848.

"The AIM of its Founders was to give effect to the"
"suggestions of enlarged experience—in particular to"
"give to the Assured the advantage of low *non-participating*"
"Premiums, without sacrifice of the right to participate"
"in Surplus."

THE PREMIUMS are so moderate that, at usual ages for assuring, £1,200 or thereby may be secured from the first for the yearly payment which would in many cases assure (with profits) about £1,000 only—this additional assurance being equivalent to an *immediate and certain* bonus.

THE WHOLE SURPLUS goes to the policyholders, on a system at once safe and equitable—no share being given to those by whose early death there is a *loss* to the common fund.

The Surplus at the last investigation was £1,581,000.

Over 60 per cent. of the members who died during the *Septennium* were entitled to Bonuses which, notwithstanding that the Premiums do not as a rule exceed the non-profit rates of other Offices, were, on the average, equal to an addition of over 50 per cent. to the original assurances.

Accumulated Funds, £13,500,000.

HEAD OFFICE—6, St. Andrew Square, EDINBURGH.

Birmingham Branch: 95, Colmore Row.

T. BINNIE LEITCH, Resident Secretary.

P
Univ. Col.
B.

University of Birmingham.

CALENDAR FOR THE SESSION
1906-1907.

8v833
17/11/06

BIRMINGHAM:
CORNISH BROTHERS, NEW STREET.
1906.

REPORTS ON STUDENTS.

Reports on the attendance, progress, and conduct of Students will be sent to parents and guardians at the end of each Term on application in writing to the Vice-Principal.

LODGINGS.

A Register of Lodgings is kept in the Secretary's office for the use of Students, and intending Students are strongly recommended to consult the Secretary before selecting their lodgings. For the Hall of Residence for Women Students, see page 602.

RAILWAY SEASON TICKET ARRANGEMENTS.

Such Students of the University as may not yet have reached the age of 18 can obtain Season Tickets from the various Railway Companies at half the usual rates upon production of a certificate of studentship signed by the Secretary.

UNIVERSITY OF BIRMINGHAM.

University of Birmingham.

CHARTER.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith.

To all to whom these presents shall come, greeting :

Whereas Petitions have been presented to us by the Mason University College of Birmingham by the Mayor Aldermen and Citizens of the City of Birmingham in the County of Warwick by the School Board for the said City by the Governors of the Grammar School of King Edward VI in the said City and by others praying Us to erect within the said City for the promotion of Arts Sciences and Learning a University and to grant a Charter with such appropriate provisions therein in that behalf as shall seem to Us meet and fit.

And whereas we have taken the said Petitions into Our Royal consideration and are minded to accede thereto.

Now therefore Know Ye that We by Virtue of Our Royal Prerogative in that behalf and all other powers enabling Us so to do of Our special grace certain knowledge and mere motion by these Presents do for Us Our Heirs and Successors grant will direct and ordain as follows:—

1.—There shall be from henceforth for ever in Our said City of Birmingham a University by the name and style of “The University of Birmingham” with Faculties of Science Arts Medicine and Commerce and such other Faculties as the Statutes of the University may from time to time prescribe.

2.—Our trusty and well-beloved Councillor Joseph Chamberlain the persons named in the Schedule hereto as members of the Court of Governors and of the Council and the Members for the time being of the Court of Governors the Council and the Senate of the University the Chancellor the Pro-Chancellor the Vice-Chancellor the Pro-Vice-Chancellor and the Principal

and Vice-Principal of the University for the time being and all others who shall pursuant to this Our Charter and the Statutes of the University for the time being be Members of the University are hereby created and from henceforth for ever shall be one body politic and corporate with perpetual succession and a Common Seal by the name and style of "The University of Birmingham" with full power and capacity by and in such name to sue and be sued and to take and hold land and to do all other lawful acts whatsoever and with full right authority power and capacity without any further or other licence by virtue of this Our Charter to take and hold such lands tenements and hereditaments as may be for the time being occupied by or on behalf of the said Corporation for the transaction of its business and the actual carrying out of its purposes and also in addition other lands tenements and hereditaments to the annual value of £50,000 according to the annual value thereof at the respective times when the same shall be respectively taken.

3.—We Our Heirs and Successors Kings and Queens of the Kingdom aforesaid shall be and remain the Visitor and Visitors of the University of Birmingham through the Lord President of Our Council for the time being.

4.—There shall be a Chancellor of the said University and one Pro-Chancellor who subject to the Statutes of the University shall act for the Chancellor pending a vacancy in that office or during the absence or inability of the Chancellor.

The first Chancellor shall be Our said trusty and well-beloved Councillor Joseph Chamberlain.

The Vice-Chancellor for the time being shall be Pro-Chancellor.

5.—There shall be a Vice-Chancellor of the said University and one Pro-Vice-Chancellor who subject to the Statutes of the University shall act for the Vice-Chancellor pending a vacancy in that Office or during the absence or inability of the Vice-Chancellor.

6.—There shall be a Principal of the University and one Vice-Principal who subject to the Statutes of the University shall act for the Principal pending a vacancy in that office or during the absence or inability of the Principal.

There shall also be a Dean of each of the Faculties within the University. The Dean of the Faculty of Medicine shall be appointed by the Council from among the Members of that Faculty. The Deans of the other Faculties shall be appointed as provided by the Statutes of the University.

The Principal shall be from time to time appointed by Us Our Heirs and Successors through the Lord President of Our Council for the time being.

The first Vice-Principal shall be Robert Samuel Heath, M.A., D.Sc., now Principal of Mason University College.

The first Dean of the Faculty of Medicine shall be Bertram Coghill Alan Windle, M.A., M.D., D.Sc., F.R.S.

7.—The Supreme Governing Body of the University shall be the Court of Governors and subject to this Charter the Statutes of the University and the Law of the Realm the Court of Governors shall have absolute power within the University.

The first Members of the Court of Governors shall be the persons nominated in the First Schedule to these presents.

Statutes of the University shall regulate the powers and business of the Court the election and continuance in office of the Members of the Court (including the continuance in office of the first Members) the filling of vacancies among the Members and all other matters relative to the Court which it may be thought are proper to be so regulated. Women shall be eligible to be Members of the Court of Governors.

The Chancellor shall be ex-officio head of the University and a Member and President of the Court of Governors.

The Pro-Chancellor shall be ex-officio a member of the Court of Governors.

8.—There shall be a Council of the University which shall subject to the Statutes of the University and the control of the Court of Governors as regulated by the said Statutes have the government and control of the finances of the University and of the discipline practical affairs business and work of the University.

The Vice-Chancellor shall be ex-officio a member and President of the Council.

The Pro-Vice-Chancellor shall be ex-officio a member of the Council.

The Principal Vice-Principal and the Deans of the Faculties shall be ex-officio members of the Council.

There shall also be one Member of the Council who shall be elected by the Faculty of Medicine of the University.

At no time shall the Members of the Council who are members of the Senate be more in number than the number of Members of the Council divided by four.

The first Members of the Council shall be the persons nominated in the First Schedule to these presents.

Statutes of the University shall regulate the performance of the duties of the Council the election and continuance in office of the Members of the Council (including the continuance in office of the first Members) the filling of vacancies among the Members and all other matters relative to the Council which it may be thought are proper to be so regulated.

9.—There shall be a Senate of the University consisting of the Principal Vice-Principal Deans of Faculties and all the Professors of the University which shall subject to Statutes of the University and the control and approval of the Council have the regulation and control of the Curriculum and Education afforded by the University and the Discipline of the Students of the University.

The Principal shall be Ex-officio President of the Senate.

Statutes of the University shall regulate and define the powers and business of the Senate and all other matters relative to the Senate which it may be thought are proper to be so regulated.

10.—The University shall be both a Teaching and an Examining University and shall further the prosecution of original research in all its branches.

The University may confer on persons of either sex Degrees Diplomas and Certificates whether Honorary Substantive or otherwise and such Degrees Diplomas and Certificates shall be conferred and held subject to any such provisions as may be made by the Statutes and Ordinances of the University with reference thereto.

No religious test of any kind whatsoever shall be applied in the University or imposed upon or observed by any Member Graduate Student or Office Holder of the University.

11.—The University may admit to affiliation with it or to any of its privileges any College or Institution or the Members or Students thereof upon such terms and conditions and subject to such regulations as may from time to time be prescribed by the Statutes of the University.

12.—The Court of Governors may from time to time make Statutes for the University which shall carry into effect this Charter and its provisions and may regulate and govern and contain prescriptions in regard to the affairs business work and interests of the University and those of the Corporate Members thereof as such and the status appointment and removal of the Members Chancellor Pro-Chancellor Vice-Chancellor Pro-Vice-Chancellor Principal Vice-Principal and Dean of the Faculty of Medicine and Officers thereof and may contain all such provisions as the Court may deem it fit and meet should be made with respect to or for the governing of the University its Constituent parts and Members or to promote the objects of these presents.

The Council shall have such power to suggest draft or propose to the Court Statutes to be made by the Court as the Statutes of the University may provide for and it shall be the duty of the Court to duly consider the same.

The first Statutes of the University shall be those Scheduled to these presents and they are hereby declared to be valid and within the powers by this Article of these presents conferred.

The Statutes may add to amend alter or repeal the Statutes from time to time in force (including the first) and the power to make Statutes shall not be limited by or with reference to the first or any subsequent Statutes or the several subject matters therein dealt with.

Any Statutes to be hereafter made which are not repugnant to the provisions of this Charter or the Laws of the Realm shall be operative and have effect when allowed by Us or by any Committee of Our Most Honourable Privy Council and not before. Such allowance shall be conclusive evidence of the Statutes so allowed being authorized by the provisions of this Charter.

13.—The Court of Governors the Council and the Senate respectively may from time to time make regulations for Governing subject to these presents and the Statutes of the University the proceedings of those bodies respectively. The power to make regulations shall include the power to add to amend alter or repeal any theretofore made.

The Council shall make the first regulations for the Court of Governors and the Council. The regulations for the Court of Governors require the approval of the said Court.

14.—It shall be the duty of the Council from time to time to bring before the Court of Governors and the Senate any matters which in its opinion should be dealt with by these bodies respectively.

15.—There shall be a Guild of Graduates of the University and a Guild of its Students each of whom

shall have such and so many Representatives on the Court of Governors as may be provided by the Statutes of the University. The constitution functions privileges and all other matters connected with the said Guilds requiring to be prescribed shall be prescribed as may be provided by the Statutes.

16.—The Court of Governors may at any time alter amend or add to these presents and their provisions by a Special Resolution in that behalf and such alteration amendment or addition shall when allowed by Us Our Heirs or Successors under the sign manual or otherwise as We or They shall deem meet become effectual so that these presents shall thenceforward continue and operate as though they had been originally granted and made as so altered amended or added to as aforesaid. This Article of these presents shall apply to this Charter as altered amended or added to in manner aforesaid. A Special Resolution means a Resolution passed and confirmed in the manner provided by the Statutes of the University.

17.—Our Royal Will and Pleasure is that these presents shall ever be construed benevolently and in every case most favourably to the University of Birmingham and the promotion of the objects of this Our Charter.

SECTION 2.

THE CHANCELLOR.

1.—The Chancellor shall be elected by the Court but his election must to be effective be approved by the Crown.

2.—The Chancellor shall hold office during good behaviour.

3.—The Chancellor may be removed for good cause by the Visitor at the instance of the Court.

4.—The Chancellor may resign by writing addressed to the Court and signed by him.

5.—The above provisions so far as applicable apply to the First Chancellor.

SECTION 3.

THE VICE-CHANCELLOR AND PRO-VICE-CHANCELLOR.

1.—The Vice-Chancellor and Pro-Vice-Chancellor shall be elected by the Court but if the Chancellor shall object to the election of any person and show cause for his objection to the Visitor the Visitor may in his discretion annul the election.

2.—The said Officers shall hold office during good behaviour.

3.—Either of the said Officers may be removed for good cause by the Visitor at the instance of the Court.

4.—The said Officers may respectively resign by writing signed by them addressed to the Chancellor.

5.—The above provisions so far as applicable shall apply to the First Vice-Chancellor and Pro-Vice-Chancellor.

SECTION 4.

PRINCIPAL.

1.—The Principal shall be appointed by the Crown.

2.—The Principal shall hold office during good behaviour.

3.—The Principal may be removed for good cause by the Visitor at the instance of the Court.

4.—The Principal may resign by writing addressed to the Court and signed by him.

SECTION 5.

VICE-PRINCIPAL AND DEAN OF THE FACULTY OF MEDICINE.

1.—The Vice-Principal and Dean of the Faculty of Medicine shall be appointed by the Council.

2.—The Vice-Principal and the said Dean shall hold office during good behaviour.

3.—The said Officers may be removed by the Council for good cause provided that such removal shall only be carried by a Resolution of the Council passed at a meeting at which not less than an absolute majority of the whole Council are present and vote and carried at such meeting by the vote of two-thirds of those present.

4.—The said Officers may respectively resign their offices by writing signed by them and addressed to the Vice-Chancellor.

5.—The above provisions so far as applicable shall apply to the First Vice-Principal and Dean of the Faculty of Medicine.

SECTION 6.

THE TREASURER.

1.—The Treasurer shall be appointed by the Court and shall be ex-officio a member of the Court.

2.—The Treasurer's term of office shall be five years from appointment and subject thereto during good behaviour.

3.—The Treasurer shall furnish such security as the Council think fit to require but it shall not be obligatory on the Council to demand security from the Treasurer.

4.—The Treasurer shall be removable from office for good cause by the Council.

5.—The Treasurer may resign by writing under his hand addressed to the Vice-Chancellor.

SECTION 7.

THE SECRETARY.

The Council shall from time to time appoint a Secretary of the University for such term and at such remuneration as it shall deem fit who may be suspended or dismissed by the Council in its discretion.

SECTION 8.

THE REGISTRAR.

The Council shall from time to time appoint a Registrar of the University for such term and at such remuneration as it shall deem fit who may be suspended or dismissed by the Council in its discretion.

SECTION 9.

AUDITOR.

1.—The Court shall from time to time appoint an Auditor who shall not nor shall any member of his firm be a member of any of the University Governing Bodies but shall be a member of the Institute of Chartered Accountants of England and Wales in the active practice of his profession.

2.—The Auditor's term of office shall be three years subject to good behaviour.

3.—The Auditor may be removed for good cause by the Court.

4.—The Auditor shall receive such remuneration as may be agreed to by the Council.

5.—The Auditor shall give such certificates as the Regulations prescribe.

6.—The Auditor may resign in writing addressed to the Council.

7.—Acceptance of office by an Auditor shall be deemed to carry with it an undertaking by the Auditor to the University that every certificate given by him or passing of accounts by him implies that he satisfied himself by full and careful investigation (made by himself or agents for whom he undertakes to be responsible) by every reasonable means within his power or reach and after the exercise of due professional skill that the statements in the certificate are true and accurate and that any accounts certified or passed are complete true and accurate.

SECTION 10.

MEMBERS OF THE UNIVERSITY.

The following persons shall be Members of the University :

Class A—

Members of the Court.

Members of the Council.

1.—Except in the case of subjects not taught in the University the Examiners of the University shall be the Professors of the University with such Lecturers of the University as the Council from time to time appoint and such External Examiners not being Professors Lecturers or Teachers in the University as may be from time to time appointed by the Council. Provided that at least one such External Examiner shall be appointed by the Council for each subject or group of subjects forming part of the courses of studies required for University degrees.

2.—All matters respecting the subjects time and mode of the Examinations, and respecting the degrees and distinctions to be conferred by the University shall be provided for by Ordinance. Provided always that all Examinations of members of the University shall be conducted jointly by External Examiners and by Examiners being Professors or Lecturers of the University.

SECTION 18.

COMMITTEES.

1.—The Court Council and Senate may respectively appoint such and so many standing and special Committees as may seem to them fit for the purpose of dealing with any subjects or matters delegated to such Committees. The Committees' powers shall be such as the bodies appointing them from time to time direct and may be revoked altered or enlarged as to the appointing bodies shall seem meet. Every Committee shall report to the body appointing it but to the extent to which that body from time to time directs the proceedings and acts of Committees shall not require the approval of the appointing body.

2.—The Council shall make regulations for the proceedings of all Committees but subject thereto every Committee may regulate its own procedure times and places of meeting.

3.—The Vice-Chancellor shall ex-officio be a member of every Committee of the Court and Council and every joint Committee of the Court and Council.

SECTION 19.

ADVISORY BOARDS.

The Council may from time to time appoint Advisory Boards consisting either wholly or partly of members unconnected with the University upon such terms and for such purposes as the Council may consider advisable and may refer to them for advice and report any subject or matter in the Council's opinion requiring to be so dealt with. And such advice and report shall be duly considered and weighed by any body in the University to which the Council direct such advice to be given or report to be made.

SECTION 20.

AFFILIATION.

1.—The University shall have power to affiliate Colleges which may have attained a standard which shall be deemed satisfactory by the University to require contributions for University purposes from such Colleges as a condition of affiliation or otherwise and to make ordinances for regulating their relations to the University and in particular for regulating the number of the representatives of such Colleges on the University Court.

2.—The University may recognise attendance upon courses of study in an affiliated College as wholly or in part qualifying students for graduation. Provided that the recognition of lecturers teachers and examiners the regulations respecting the period of attendance upon and the character and subjects of such courses and the period of attendance at such College and the period of collegiate study for which exemption is to be granted shall be approved by the Council and provided also that the Council shall not approve thereof unless the Senate have recommended the same or unless and until the Senate shall have had a reasonable opportunity of considering and reporting thereupon to the Council.

3.—Notwithstanding that a subject is not taught in the University the Court shall have power to recognise a College in which such subject is taught and to recognise such subject as a subject for degrees in the University. Provided that pursuance of a scheme of study in that subject approved by the Council be a condition precedent to examination in that subject.

SECTION 21.

MEETINGS OF THE COURT.

1.—A meeting hereinafter distinguished as the “yearly meeting” of the Court shall be held once a year in the month of January or February at such day and hour as shall be appointed by the Council with the approval of the Chancellor and at such yearly meeting a Report of

the Proceedings of the Council and of the University together with a Statement of the Receipts and Expenditure and the Balance Sheet as audited shall be presented by the Council to such meeting.

2.—For the purposes of transacting the business in the preceding clause mentioned a quorum of the Court shall be twenty members.

3.—All other business at the yearly meeting shall be deemed special business and for the purpose of any such special business and also for the purposes of all special general meetings the quorum shall be eighty members.

4.—In the absence of a quorum no business but the adjournment of the Court can be transacted.

5.—Special general meetings may be convened by the Council at any time.

6.—Twenty-one days' notice of the yearly meeting shall be sent by the Secretary to every member of the Court.

7.—Members intending to bring forward any special business at the yearly meeting shall give notice of such business to the Secretary at least fourteen days before the day appointed for such meeting and at least seven days notice of all special business to be brought forward at the yearly meeting shall be sent to every member of the Court.

8.—Twenty-one days' notice of any special general meeting stating generally the nature of the business to be transacted shall be sent to each member of the Court and no meeting shall be competent to transact any other business than that mentioned in the notice or directly arising thereout. Provided always that this clause shall not interfere with the operation of clause 7 of this section.

9.—The procedure at meetings of the Court shall be in accordance with the regulations made for governing the same as provided by the Charter.

SECTION 22.

POWERS OF THE COURT.

1.—The Court shall exercise all the powers and authority of the University except to the extent to which the exercise of the same may by the Charter Statutes and Ordinances be otherwise provided for.

2.—To make Statutes either at its own initiative or on the proposal of the Council.

3.—All Statutes must be passed at one meeting of the Court and confirmed at the next and special notice of the fact that Statutes will be considered and containing a short statement of the nature of the proposed Statutes must have been given with respect to each of the two meetings aforesaid.

4.—A Special Resolution of the Court means a resolution passed at one meeting of the Court and confirmed at a subsequent meeting held not less than one calendar month nor more than three calendar months after the former provided the resolution be passed at each meeting by a majority of not less than two-thirds of those present and voting.

5.—The Court shall exercise control over the Senate through the Council and not otherwise and over the Council by means of Statutes and of Resolutions passed in plenary sittings of the Court and not otherwise.

SECTION 23.

ACTS DURING VACANCIES.

1.—No act or resolution of the Court the Council or the Senate shall be invalid by reason only of any vacancy in the body doing or passing it or by reason of any want of qualification by or invalidity in the election or appointment of any de facto member of the body (whether present or absent).

SECTION 24.

POWERS OF THE COUNCIL.

1.—Subject to the Charter and the Statutes and any Ordinances and Regulations made in pursuance thereof the Council shall have the following Powers :—

1. To draft statutes as and when they see fit and submit the same to the Court for consideration and enactment.
2. To make ordinances for any matters in respect of which ordinances are authorised to be made.
3. To make regulations for any purposes for which regulations are authorised to be made.
4. To exercise all such powers as are conferred on the Council by the Charter Statutes Ordinances and Regulations and carry the Charter Statutes Ordinances and Regulations into effect.
5. To review and control or disallow any act of the Senate and give directions to be obeyed by the Senate.

AN ACT

To Transfer all the property and liabilities of Mason University College in the City of Birmingham to the University of Birmingham, and to repeal the Mason University College Act 1897 ; to confer certain powers on the said University ; and for other purposes.

[*Royal Assent, 25th May, 1900.*]

Preamble.

WHEREAS the late Sir Josiah Mason founded out of his own resources in Birmingham an institution for the promotion of thorough systematic education and instruction specially adapted to the practical mechanical and artistic requirements of the manufactures and industrial pursuits of the Midland District of England which subsequently became known as the Mason Scientific College :

And whereas the said Institution was by the Mason University College Act 1897 incorporated under the name of Mason University College with a new constitution and powers and all the lands and other property vested in the Trustees of the said Institution were by the said Act vested in the said College :

And whereas the said Act expressly contemplated that the said College might become a member of a University to be established having power to grant degrees in arts sciences medicine and surgery :

And whereas upon the petition of the said College and of the Corporation of the City of Birmingham and of the School Board for the said City and of the

Governors of the Grammar School of King Edward the Sixth in the said City and others Her Majesty has been pleased to grant a Charter establishing in the said City of Birmingham a University by the name and style of the University of Birmingham with faculties of Science Arts Medicine and Commerce and such other faculties as the Statutes of the University may from time to time prescribe :

And whereas the said Charter directs that the University shall be both a Teaching and an Examining University and shall further the prosecution of original research in all its branches :

And whereas the Governors of the said College are desirous and it is expedient that the College be merged in the University and that all its property and liabilities be transferred to and vested in the University and that the Mason University College Act 1897 be repealed :

And whereas the Council of the City of Birmingham and the Overseers of the Poor of the Parish of Birmingham are desirous and it is expedient that the exemption from local rates granted to the said College be continued to the said University :

And whereas it is expedient to empower the said University to hold examinations under section three of the Medical Act 1886 and to elect a representative on the General Council mentioned in section seven of the same Act : ^{49 & 50 Vic. c. 48}

And whereas it is provided by a Scheme made by the Court of Chancery which is scheduled to and

confirmed by the Queen's College Birmingham Act 1867 that the physicians and surgeons of the Queen's Hospital at Birmingham shall hold their respective offices on condition of giving to all students of the Queen's College at Birmingham such clinical instruction in kind and quantity and in such manner as shall from time to time be required by the medical examining boards therein referred to and that the students of the said College shall at all times have free access to the said Hospital for the purposes of clinical instruction upon payment of such fees and on such other terms and conditions as shall be from time to time agreed and that any dispute between the said College and the said Hospital regarding such fees terms or conditions or otherwise regarding the privileges to be enjoyed by the students of the said College or any such dispute as therein mentioned between the said Hospital and any physician or surgeon thereof shall be referred to the visitor of the said College whose decision shall be binding on the parties to the dispute:

And whereas in pursuance of an Order of the Chancery Division of the High Court made by the Hon Mr. Justice Chitty at Chambers on the twenty-second day of June one thousand eight hundred and ninety-two the medical and dental departments of the said Queen's College were closed and abandoned and the anatomical and other collections books and other things specified in the said Order and formerly belonging to the said Queen's College were handed

over to and became the absolute property of the trustees of the Mason College:

And whereas the medical students of the Mason College have accordingly since the latter part of the year one thousand eight hundred and ninety-two received clinical instruction from the physicians and surgeons of the said Queen's Hospital:

And whereas it is now desirable to continue to the students in the Faculty of Medicine of the University the same rights and privileges as have been enjoyed first by the medical students of Queen's College and latterly by the medical students of Mason College under the provisions of the above-recited Scheme and Order:

And whereas it is expedient that the other provisions contained in this Act be made:

And whereas the objects of this Act cannot be attained without the authority of Parliament:

MAY IT THEREFORE PLEASE YOUR MAJESTY

That it may be Enacted and BE IT ENACTED by the Queen's Most Excellent Majesty by and with the advice and consent of the Lords Spiritual and Temporal and Commons in this present Parliament assembled and by the authority of the same as follows (that is to say):—

1.—This Act may be cited as the Birmingham Short title.
University Act 1900.

2.—This Act shall come into operation on the first Commencement Act
day of October one thousand nine hundred which date is hereinafter referred to as the commencement of this Act.

Dissolution of
Mason
University
College and
repeal of Act
of 1897.

3.—On the commencement of this Act Mason University College shall be dissolved and the Mason University College Act 1897 shall be repealed without prejudice to anything lawfully done or suffered thereunder and in particular without prejudice to the provisions of Part III. of the said Act for confirming or rendering valid certain leases sales exchanges estates interests rights payments and contracts therein referred to.

Transfer of
property to
University of
Birmingham.

4.—On the commencement of this Act all property real and personal of every description (including things in action) which immediately before the passing thereof belonged to or was vested in Mason University College shall be by virtue of this Act without any conveyance or other instrument transferred to and vested in the University of Birmingham for all the estate and interest therein of Mason University College and shall be applied to the objects and purposes for which the University is incorporated.

Appeal to
visitor with
respect to
management of
property &c.

5.—(1) Any three Governors present at a meeting of the Council of the University and voting against any resolution passed or order made at such meeting with respect to any lease sale exchange mortgage disposition or contract of or relating to any property of the University or with respect to the borrowing of money may appeal against such resolution to the visitor subject to the following conditions:—

(A) The appeal must be made in writing signed by the appellants within seven days after the date of the meeting:

(B) Notice of the appeal stating the grounds thereof in writing signed by one or more of the appellants must be given to the Secretary of the University within the said period of seven days.

(2) The visitor shall if desired hear the appellants and the Council and the decision of the visitor allowing disallowing or modifying the resolution or as the case may be shall be binding and final.

6.—On the commencement of this Act all debts and liabilities of Mason University College shall be by virtue of this Act transferred and attach to and be discharged and satisfied by the University of Birmingham.

Transfer of liabilities to University of Birmingham.

7.—All agreements awards contracts deeds and other instruments and all actions and proceedings and causes of action or proceedings which immediately before the commencement of this Act were existing or pending in favour of or against Mason University College shall continue and may be carried into effect enforced and prosecuted by or in favour of or against the University of Birmingham to the same extent and in like manner as if the University instead of the College had been party to or interested in the same respectively.

Saving for agreements deeds actions &c.

8.—The power or right of Mason University College to appoint or nominate a member of the Governing Body of any educational or charitable institution shall on the commencement of this Act be transferred to

Transfer of powers to nominate members of certain governing bodies.

and may be exercised by the Council of the University of Birmingham.

Power of
University of
Birmingham to
hold
examinations
under 49 & 50
Vict. c. 48.

9.—The University of Birmingham is hereby empowered to hold qualifying examinations in medicine surgery and midwifery for the purpose of registration under the Medical Acts as if the University had been a university in the United Kingdom legally qualified at the passing of the Medical Act 1886 to grant diplomas in medicine and surgery; and the provisions of Part I of that Act shall be read and have effect accordingly.

Power of
University
to choose
representative
on General
Medical
Council.

10.—The Council of the University of Birmingham shall be entitled to choose one representative to be a member of the General Council constituted by the Medical Acts; and section seven of the Medical Act 1886 shall be read and have effect as if the University of Birmingham had been expressly included therein.

Exemption of
University
from rates.

11.—The University of Birmingham shall not be assessed or rated to pay or contribute to any borough improvement or parochial rates in respect of any buildings lands or property of any description occupied by the University which were exempt from rating under the Mason University College Act 1897: Provided always that the exemption herein contained shall not extend to any part of such buildings land and property which shall for the time being be occupied by any member officer or servant of the

University and the parts of buildings so occupied shall be rated as separate tenements.

12.—All professors and other members of the teaching staff of Mason University College and all officers and servants of the College shall hold as nearly as practicable the same offices and places in the University of Birmingham as they held in the said College immediately before the commencement of this Act and upon the same terms and conditions unless and until the Council of the University otherwise decide.

Saving for existing officers of Mason University College.

13.—Clauses fifty and fifty-one of the Scheme set forth in the Schedule to the Queen's College Birmingham Act 1867 shall be read and have effect as if the University were mentioned therein instead of the College so that students in the faculty of medicine of the University shall have at all times provided for them by the physicians and surgeons of the Queen's Hospital at Birmingham such clinical instruction as therein mentioned and shall have free access to the said Hospital for the purposes of clinical instruction as therein mentioned. Provided that any such dispute between the University and the said Hospital or between the said Hospital and any physician or surgeon thereof as therein mentioned shall be referred to the visitor of the University whose decision shall be binding on the parties to the dispute.

Application of certain provisions of Scheme scheduled to Queen's College Birmingham Act 1867.

14.—The Charitable Trusts Acts 1853 to 1894 shall not extend to the University of Birmingham or any

As to jurisdiction of Charity Commissioners.

College or Hall therein and the said University and any such College or Hall shall be exempt from the control or jurisdiction of the Charity Commissioners.

Costs of Act.

15.—The costs charges and expenses of and incidental to preparing obtaining and passing this Act shall be defrayed by the University of Birmingham out of the income of the property by this Act transferred to the University or if the Council of the University think fit out of money representing capital or to be raised by sale or mortgage of some part of the said property.

NOTE ON CLAUSE 13.

By an Act entitled "An Act for the Regulation of the Queen's College at Birmingham and for incorporating the Queen's Hospital at Birmingham" but having the short title of "The Queen's College Birmingham Act 1867" which received the Royal Assent on the 12th day of August 1867 the Queen's Hospital was separated from the Queen's College and separately incorporated by the title of "The Queen's Hospital Birmingham" but for the purpose of preserving the right the Queen's College had of clinical instruction for its students in the Hospital the following clauses Numbered 50 and 51 in the Scheme sanctioned by the Act were inserted in the Schedule to the Act :—

The Hospital shall be maintained as a Clinical Hospital and afford every facility for clinical instruction; and such persons shall from time to time be appointed to be Physicians and Surgeons of the Hospital whose certificates as to clinical instruction

shall be accepted by the Medical Examining Boards of the United Kingdom ; and such Physicians and Surgeons shall hold their respective offices on condition of giving to all students of the *College* such clinical instruction in kind and quantity and in such manner as shall from time to time be required by the said Medical Examining Boards.

The students of the *College* shall at all times have free access to the Hospital for the purposes of clinical instruction, upon payment of such fees and on such other terms and conditions as shall be from time to time agreed upon between the Council and the Hospital. Any dispute between the *College* and the Hospital regarding such fees terms or conditions or otherwise regarding the privileges to be enjoyed by the students of the *College* under this clause or the preceding clause or any dispute between the Hospital and any Physician or Surgeon thereof as to the preceding clause shall be referred to the Visitor of the *College*, whose decision shall be binding on the parties to the dispute.

The effect of clause 13 is to substitute *University* for *Queen's College*.

ORDINANCES OF THE UNIVERSITY.

MADE BY THE COUNCIL in accordance with the provisions of Section 14 of the Second Schedule to the Charter.

FINANCES, INVESTMENTS, AND ACCOUNTS.

1.—The Finances, Investments and Accounts of the University shall be controlled by the Council, who shall report thereon from time to time to the Court as may be required by the regulations of the Court.

FEEs.

2.—The payment and amount of fees to be exacted within the University or in relation to the enjoyment of privileges therefrom shall be determined by the Council.

FELLOWSHIPS, SCHOLARSHIPS, EXHIBITIONS AND PRIZES.

3.—The provisions and tenure of Fellowships, Scholarships, Exhibitions, Prizes, Rewards and pecuniary and other aids, shall be determined by the Council on the recommendation of the Senate.

FACULTIES.

4.—The Members of the FACULTY OF SCIENCE shall be the Principal and Vice-Principal, and the Professors of Mathematics, Physics, Chemistry, Zoology, Botany, Geology, Engineering, Metallurgy, Mining, Brewing, and Education.

To this Faculty shall be attached the Professors of Anatomy, Physiology, Pathology and Bacteriology, Hygiene and Public Health, and Mental and Moral Philosophy.

5.—The Members of the FACULTY OF ARTS shall be the Principal and Vice-Principal, and the Professors of

Latin and Greek, English, French, German, Mental and Moral Philosophy, History, Education, and Music, and the Lecturer on Spanish and Italian.

To this Faculty shall be attached the Professor of Mathematics.

6.—The Members of the FACULTY OF MEDICINE shall be the Principal and Vice-Principal, and the Professors of Anatomy, Physiology, Medicine, Surgery, Pathology and Bacteriology, Hygiene and Public Health, Therapeutics, Midwifery, Gynæcology, Forensic Medicine, Mental Diseases, Operative Surgery, Ophthalmology, and the Lecturer on Materia Medica.

To this Faculty shall be attached the Professors of Physics, Chemistry, and Zoology.

7.—The Members of the FACULTY OF COMMERCE shall be the Principal and Vice-Principal, the Professor of Commerce and Public Finance, and the Professors of Accounting and Commercial Law.

To this Faculty shall be attached the Professors of English, French, German, Mathematics, Philosophy, and History, and such other Professors as may for the time being be taking part in the courses of study prescribed for degrees in Commerce.

8.—Professors or Lecturers attached to any Faculty without being Members shall receive notice of and shall be entitled to attend all meetings of such Faculty, but shall be entitled to vote only upon questions relating to the subjects of their respective Chairs or Lectureships.

DUTIES AND POWERS OF FACULTIES.

9.—Each Faculty shall have the right of taking into consideration all matters bearing upon its work and development.

10.—Subject to approval by the Senate and Council each Faculty shall be responsible for the transaction of all academic business specially pertaining to it.

11.—It shall be the duty of each Faculty, subject to review by the Senate and Council, to draft regulations as to degrees, diplomas, certificates, scholarships and prizes falling within the province of the Faculty, and to draft the courses of study and the time-tables and schemes of examinations of the Faculty.

12.—It shall be the privilege and duty of each Faculty to report, according to the method provided by the Regulations for the time being, upon the candidates for, or persons to be proposed for, appointment to all teaching posts and examinerships belonging to the Faculty, before the appointments are made by the Council.

APPOINTMENT AND TENURE OF OFFICE OF PROFESSORS, LECTURERS, TEACHING STAFF AND OFFICERS.

13.—The manner of appointment and the duties of the Professors, Lecturers, Teaching Staff, External Examiners and Librarian, shall in each case be determined by the Council after report thereon by the Senate.

14.—The duties of the Registrar shall be determined by the Council, after report thereon by the Senate.

15.—The emoluments, allowances and salaries of the officers of the University, its Professors, Lecturers, Teaching Staff, Secretary, Registrar, and servants shall be determined by the Council.

16.—Professors and Independent Lecturers shall hold office during good behaviour, but may be removed by the Council for good cause as defined by the Statutes of the University ; provided also that it shall be competent for the Senate, either on its own initiative or upon request by the Council, to take into consideration the case of any Professor or Independent Lecturer, and for a majority of the members of the Senate present and voting at a duly convened meeting of the Senate (such voting to be by ballot), to represent to the Council that in the general interest of the University or for some special reason it is desirable that the engagement of any Professor or Independent Lecturer should be determined,

and upon receipt of such representation the Council may terminate the engagement of such Professor or Lecturer by six months' notice in writing.

17.—The engagements of members of the Teaching Staff (other than Professors and Independent Lecturers) and of the Secretary, Registrar, officers and servants of the University may, subject to any special provision in the terms of their engagements, respectively, be determined by three months' notice in writing on either side.

PROFESSORS AND LECTURERS.

18.—Each Professor and Lecturer shall, on his appointment, enter into an agreement with the University, which shall indicate :—

- (i.) The subject or subjects committed to the office undertaken ;
- (ii.) The arrangement as to stipend ;
- (iii.) Any special terms of the appointment.

19.—A Professor or Lecturer shall not resign his appointment except by three months' notice in writing, which notice shall end at the expiration of some one of the University terms as regulated by the Calendar of the University for the time being ; a Professor or Lecturer may, however, resign his appointment on the 30th of September in any year by giving notice in writing at any time in the preceding months of July or August, and the Council shall at all times have the power to waive notice to such extent as it may think fit.

20.—Every Professor and independent Lecturer, while confining himself within the limits of the subject committed to his charge, shall have complete freedom of teaching, so far as the matter and methods of his instruction are concerned, subject only to the approval of his Faculty and of the Senate and Council in regard to the amount and times of his teaching and the scope and standard of such of his courses as form integral parts of Degree courses in the University.

EMERITUS PROFESSORS.

21.—The Court shall have power on the recommendation of the Council to confer the title of Emeritus Professor upon any Professor of the University on or after his retirement, in recognition of conspicuous services to the University. The title "Emeritus Professor" shall in no case be conferred unless the connexion with the University shall have extended over a period of not less than ten academic years, and then only so long as the Professor in question does not hold another office of a similar character. An Emeritus Professor shall for all purposes of courtesy and on ceremonial occasions, be upon the same footing as members of the Senate, but shall not be entitled to perform any administrative or executive functions as a member of the Senate or otherwise. A previous and continuous term of service in Mason University College or in Mason College, Birmingham, or in the Faculty of Medicine of Queen's College, Birmingham, shall be deemed to be service in the University for the purposes of this Ordinance.

SPECIAL LECTURERS OR READERS.

22.—The Council shall have power on the recommendation of a Faculty and of the Senate to appoint as special University teachers persons whether on the regular teaching staff or not, and to recognise the courses delivered by them as qualifying courses for University Examinations and Degrees. Such persons shall be selected on the ground of scholarship or special knowledge and ability, and shall be appointed on such terms of tenure and status as the Council may decide.

DISCIPLINE.

23.—Every student shall be subject to such regulations as shall from time to time be passed by the Senate and approved by the Council.

24.—There shall be a Committee of Discipline, consisting of the Principal, the Vice-Principal, the Deans of the Faculties, and the Secretary of the University ; which Committee shall report to the Senate.

25.—Every Professor, Reader, Lecturer, Assistant Lecturer, or Demonstrator shall have the power, and it shall be his duty, to check any disorderly conduct that may occur in a class room or laboratory, and if he deem it necessary may require any student to withdraw from the room for the day. In the event of such an occurrence in a room under the charge of an Assistant Lecturer or Demonstrator, he shall report the matter without delay to his Professor or immediate chief.

26.—Professors, Lecturers, and other officers shall have the power to check disorderly or improper conduct, or any breach of Regulations arising in any part of the precincts of the University.

27.—Any member of the Discipline Committee shall have power to exclude any student from the University or its precincts until the next meeting of the Discipline Committee which shall be held as soon as possible after each such exclusion, and the circumstances of the case shall be laid before the meeting for further adjudication.

28.—The Discipline Committee shall have power to suspend any student from attendance at the University for any period not extending beyond the next meeting of the Senate. Every such suspension shall be reported to the Senate at its next meeting, and the Senate shall have power to extend the period of suspension for the remainder of a University term, and subject to the approval of the Council, to expel.

29.—Habitual neglect of work in any class, shall be regarded as a breach of discipline, and may subject the student to suspension.

MATRICULATION.

30.—Matriculation is the formal admission of a student to membership of the University.

31.—An Examination called the Matriculation Examination shall be held by the University at least once in each year at such time and in such subjects and under such conditions as may be prescribed by Regulations.

32.—Any person who shall have paid to the University the prescribed fee, and shall have satisfied such other conditions as may be prescribed by Regulations, shall be entitled to be admitted to the Matriculation Examination.

33.—The University may by Regulations recognise the Matriculation or any other examination or examinations of any British or foreign University or of any public Educational Authority in his Majesty's dominions as exempting from the Matriculation Examination of the University or from any part thereof.

34.—Any person who shall have passed the Matriculation Examination, or a Schools' Leaving Examination of the University, or other examination or examinations recognised by the University as exempting from the Matriculation Examination, and shall have paid to the University the fee prescribed by these Ordinances, and shall have satisfied such other conditions as may be prescribed by Regulations, shall be entitled to be matriculated.

UNDERGRADUATES AND OTHER STUDENTS.

35.—Every person who has been matriculated shall be entitled to the privileges of membership of the University and of the Guild of Undergraduates, so long as he is in actual attendance on a course of study in the University approved by a Faculty of the University, but no longer.

36.—The University may admit all persons who shall have satisfied such conditions as may be prescribed by regulations to any of the courses of study offered by the University, although they have not passed the Matriculation Examination or any examination exempting from the Matriculation Examination; but such students shall not be entitled to be matriculated or to be members of the Guild of Undergraduates, nor shall they be entitled to wear the academic dress prescribed for Undergraduates.

DEGREES IN THE FACULTIES OF SCIENCE, ARTS, AND COMMERCE.

37.—In the Faculty of Science there shall be the following degrees, viz. :—

Bachelor of Science,	to be denoted by the letters	B.Sc.
Master of Science	„ „	M.Sc.
Doctor of Science	„ „	D.Sc.

In the Faculty of Arts there shall be the following degrees, viz. :—

Bachelor of Arts,	to be denoted by the letters	B.A.
Master of Arts	„ „	M.A.
Doctor of Letters	„ „	D.Litt.
Doctor of Philosophy	„ „	D.Phil.

In the Faculty of Commerce there shall be the following degrees, viz. :—

Bachelor of Commerce,	to be denoted by the letters	B.Com.
Master of Commerce,	to be denoted by the letters	M.Com.

38.—The courses of study and the number and nature of the examinations qualifying for admission to these degrees respectively shall be prescribed by regulations.

39.—Attendance upon courses of study in the University shall not in general be accepted as any part of the qualification necessary for a degree unless the candidate for the degree shall have previously been matriculated; but in exceptional cases the Senate may recognise as part of such qualification attendance on courses of study taken previous to matriculation,

provided always that no examination passed previous to matriculation be recognised as a qualifying University Examination.

40.—Except as hereinafter provided, no candidate shall be admitted to the degree of Bachelor until he shall have attended in the University the prescribed courses of study extending over a period of at least three years.

41.—No Bachelor of the University shall be admitted to the degree of Master until at least one year after the time of his admission to the degree of Bachelor.

42.—No Bachelor or Master of the University shall be admitted to the degree of Doctor until at least two years after the time of his admission to the degree of Bachelor.

43.—The Senate shall have the power of admitting graduates or persons who have passed Degree Examinations of other Universities to the courses and examinations for the higher degrees of Master and Doctor under conditions prescribed by Regulations without requiring such persons to attend the courses of study or pass the examinations qualifying for the degree of Bachelor. Such students after being matriculated shall be called Graduate Students, and shall be members of the Guild of Undergraduates.

44.—The Senate shall have the power of recognising attendance at another University or University College as part of the attendance qualifying for the Degree of Bachelor, and of recognising examinations passed at such other University as exempting from the first year's examination for such degree; provided that no candidate from another University be admitted to the Degree of Bachelor until he shall have attended in the University the prescribed courses of study extending over a period of at least two years.

PAST STUDENTS OF MASON UNIVERSITY COLLEGE.

45.—Students who have passed the Intermediate Examination in Science or Arts of the University of London after at least one session of regular study at Mason University College shall be excused the First Year's Course and the Intermediate Examination, and shall enter on the Degree Course as second year students of the University.

46.—Persons who, on October 1st, 1900, were regular students of Mason University College having passed the Intermediate Examination in Science or Arts of the University of London, and having subsequently spent at least one session at the College in regular study for the Final Examination, may be excused the first two years and the Intermediate Examination and may enter as third year students of the University if, in the opinion of their Faculty, they have fulfilled in the College conditions sufficiently nearly corresponding to those laid down for second year students.

47.—Persons who, on October 1st, 1900, were regular students of Mason University College having passed the Intermediate Examination in Science or Arts of the University of London, and having subsequently spent at least two sessions at the College in regular study for the Final Examination may be excused the Intermediate Examination and further attendance at lectures, may enter the University and take rank as if they had completed three years at the University, and may present themselves at a Final Examination for a Degree if, in the opinion of their Faculty, they have fulfilled in the College conditions sufficiently nearly corresponding to those laid down for second and third year students of the University.

48.—Past Students of Mason University College who have passed the Bachelors' Examination in the University of London, after a course of at least one year's regular study at Mason University College in two subjects at least, shall be permitted to enter the University and

present themselves at the Examination for the Masters' Degree after at least one further year of study at the University, as if they had taken the Bachelor's Degree of the University of Birmingham.

DEGREES IN THE FACULTY OF MEDICINE.

49.—In the Faculty of Medicine there shall be the following degrees, viz. :—

Bachelor of Medicine, to be denoted by the letters	M. B.
Doctor of Medicine	" " M. D.
Bachelor of Surgery	" " Ch. B.
Master of Surgery	" " Ch. M.
Bachelor of Science in Public Health	" B. Sc.
	(Public Health.)
Master of Science in Public Health	" M Sc.
	(Public Health.)
Bachelor of Dental Surgery	" " B. D. S.
Master of Dental Surgery	" " M. D. S.

50.—In the Faculty of Medicine there shall be a Diploma in Dental Surgery, entitled Licentiate in Dental Surgery (L.D.S.), which shall be registrable in accordance with the Dentists Act, 1878 (41 and 42 Vict., xxxiii., Clause xviii.).

51.—The courses of study and the number and nature of the examinations qualifying for admission to these degrees, respectively, and to the Licentiate of Dental Surgery, shall be prescribed by Regulations.

52.—No attendance upon courses of study in the University shall be accepted as any part of the qualification for a degree, unless the candidate for the degree shall have previously passed the Matriculation Examination of the University as prescribed for Medical students or an examination recognised by the University as exempting from the same.

53.—Except as hereinafter provided, no candidate shall be admitted to either or both of the degrees of Bachelor of Medicine and Bachelor of Surgery unless he shall have attended the courses of study prescribed by Regulations extending over a period of at least five years after matriculation, of which the first four years must be spent in the University, and the fifth year either in the

University of Birmingham or some other school or schools of medicine recognised for this purpose by the University.

54.—No candidate shall be admitted to the higher degrees of Master of Surgery or Doctor of Medicine unless he has attained both the degrees of Bachelor of Medicine and Bachelor of Surgery in the University, and until a further year shall have elapsed after such Bachelor's degrees were conferred.

55.—No candidate shall be admitted to the degree of Bachelor of Science in Public Health unless he has previously attained to both the degrees of Bachelor of Medicine and Bachelor of Surgery in the University.

56.—No candidate shall be admitted to the degree of Bachelor of Dental Surgery who has not obtained a License in Dental Surgery from some body legally entitled to confer such qualification, and until a period of twelve months shall have elapsed after he obtained such License.

57.—No candidate shall be admitted to the degree of Master of Dental Surgery unless he shall have previously attained to the degree of Bachelor of Dental Surgery, and until a further period of twelve months shall have elapsed after he obtained such Bachelor's degree.

58.—Notwithstanding the preceding ordinance, the Senate shall have the power of admitting graduates or persons who have passed Degree Examinations of other Universities to the courses and examinations for the higher degrees of Master and Doctor under conditions prescribed by Regulations without requiring such persons to attend the courses of study or pass the examinations qualifying for the degree of Bachelor. Such students shall be called Graduate Students, and shall be members of the Guild of Undergraduates.

59.—The Senate shall have power of recognising attendance at another University as part of the attendance qualifying for the degrees of Bachelor of Medicine

and Bachelor of Surgery, and of recognising examinations passed at such other University as exempting from the examination in Chemistry, Physics, and Comparative Anatomy, for such degrees, provided that no candidate from another University be admitted to the degree of Bachelor until he shall have attended in the University the prescribed courses of study extending over a period of at least three years.

PAST STUDENTS OF THE BIRMINGHAM SCHOOLS OF
MEDICINE AND DENTISTRY.

60.—Persons who, on October 1st, 1900, were students of the School of Medicine and who originally entered as first year students of the school, and have since regularly pursued their studies in the school, shall be permitted to present themselves for the examinations of the University without passing its matriculation examination, and without repeating any courses of lectures which they may already have taken out.

61.—Students of the School of Medicine falling under the above category who have passed any medical examinations in any British or Irish University shall be allowed to count such examination or examinations in lieu of the corresponding examination or examinations in the University of Birmingham, but no such allowance shall be made in the case of students who have passed examinations conducted by licensing bodies other than Universities. Provided that in all cases it shall be essential that the student shall pass the Final Examination of the University of Birmingham.

62.—Past students of the Birmingham Medical School who have taken out their whole course in Birmingham, and are duly qualified Medical Men, shall be permitted at any period during the seven years commencing on the 1st of October, 1900, to present themselves for a Final Examination for the Degrees of Bachelor of Medicine and Surgery.

63.—Past students of the Birmingham Dental School (including those who qualified not later than the November, 1900, Examination of the Royal College of Surgeons of England) who have taken out their whole course in the Birmingham School, and are duly qualified and Registered Dental Surgeons, shall be permitted at any period during the seven years commencing on the 1st of October, 1900, to present themselves for a Final Examination for the Degree of Bachelor of Dental Surgery.

64.—That Students who enter the Department of Dentistry in Mason University College in the years 1897 to 1899 inclusive, and have obtained both the License in Dental Surgery and the qualifications in Medicine and Surgery from some body legally qualified to confer such qualifications, and produce evidence that after having obtained the License in Dental Surgery they have received instruction in the Dental Department of a General Hospital for a period of not less than six months, be admitted to the Degree of Bachelor in Dental Surgery on passing the final examination for such Degree held by the University.

EXTERNAL EXAMINERS.

65.—The appointments of External Examiners shall be made in the first instance for one year, but may be renewed annually for the two following years.

EXAMINATIONS AND BOARDS OF EXAMINERS.

66.—The Matriculation Examination of the University shall be conducted by Professors or Lecturers of the University appointed for this purpose by the Senate, without the assistance of External Examiners.

67.—Class Examinations and Examinations provided for students who are neither undergraduates nor candidates for any Degree of the University shall be conducted by the Professors or Lecturers of the University without the assistance of External Examiners.

68.—There shall be a Board of Examiners for the Matriculation Examination, consisting of the Principal and Vice-Principal, the Examiners who are taking part in the Examination, and the Professor of Education, the Principal being Chairman of the Board.

69.—For every University Examination prescribed by the Regulations for Degrees of the University there shall be a Board or Boards of Examiners, consisting of the internal and external Examiners who are taking part in the conduct of the Examination, together with the Dean of the Faculty to which the Examination belongs. The Dean of the Faculty shall be the Chairman of all such Boards of Examiners as belong to that Faculty.

70.—The Principal and Vice-Principal shall be members of all the Boards of Examiners.

SCHEDULES OF QUALIFICATION.

71.—Before admission to any University Examination each candidate is required to present to the Registrar a Schedule of Qualification certifying that he has attended the lectures, classes, laboratory or hospital instruction prescribed by the Regulations for that examination to the satisfaction of the Professors or other teachers concerned, and that he has passed such class examinations and performed such other exercises as his teachers may prescribe in connexion with their own courses, to the satisfaction of the Faculty.

DEGREES, DIPLOMAS, SCHOLARSHIPS, AND OTHER UNIVERSITY HONOURS.

72.—The ordinary Degrees, Diplomas, Certificates, Scholarships, Prizes and Honours of the University (except Honorary Degrees) shall be awarded by the Council on the nomination of the Senate.

73.—Honorary Degrees may be conferred upon persons approved by the Council on the nomination of the Senate.

74.—Degrees whether ordinary or honorary shall be conferred at a special congregation of all members of the University to be held for the purpose at least once a year, and such persons other than members of the University as the Council may direct shall be invited to be present. The formal admission of persons to degrees shall be made by the Chancellor, or in his absence by the Vice-Chancellor. Recipients of ordinary degrees shall be presented to the Chancellor or Vice-Chancellor by the Dean of the Faculty to which the degree belongs. Each recipient of an Honorary Degree shall be presented by a member of the University specially appointed for the purpose by the Council; provided that no person shall be admitted to any degree, ordinary or honorary, until he has signed the Register of Graduates and paid the fees prescribed. No University fee shall be required of persons admitted to Honorary Degrees.

75.—Notwithstanding this ordinance, degrees may in exceptional cases, on the recommendation of the Senate, be conferred upon persons *in absentia*, by special warrant, signed by the Chancellor or the Vice-Chancellor.

76.—The Council may on the recommendation of the Senate revoke the Degree or Degrees, Diplomas, Certificates and distinctions and all privileges connected therewith of any graduate of the University who shall be convicted of felony or of any indictable misdemeanour, or whose name shall have been removed for misconduct by a properly constituted legal authority from any official register or roll of members of the profession to which he belongs, and may restore on cause being shown any person whose degree has been revoked to the degree he previously enjoyed without further examination.

77.—Degrees may be conferred on members of the teaching staff of the University *ex-officio*.

INSPECTION OF SCHOOLS.

78.—The regulations for the Inspection and Examination of Schools and other Institutions, and the

scholars and students therein, and the regulations for the award of certificates of proficiency, shall be determined by the Council after report thereon by the Senate.

AFFILIATED INSTITUTIONS.

79.—A College, School, or other Educational Institution in the Midland Counties may apply to be recognised as an affiliated institution of the University. Such recognition shall only be given upon evidence of efficiency satisfactory to both Senate and Council. Students of any such affiliated Institution shall be permitted to attend at such Institution a course of study approved by the University instead of the whole or part of the first year's course of study at the University, in the Faculties of Science, Arts, Medicine or Commerce; and after presentation of Schedules of Qualification certifying that they have attended the classes and laboratory instruction and passed the class examinations prescribed by the University, and have been matriculated in the University, shall be admitted to the first University Examinations in those Faculties.

80.—Any College, School or Institution desiring to take advantage of the foregoing ordinance must—

- (a) Give satisfactory evidence of its educational status and that it is established on a permanent and effective footing.
- (b) Submit, for the approval of the Senate, courses of study of such scope and standard as may be accepted by the University instead of the whole or part of the first year's courses in the Faculties of Science, Arts, Medicine and Commerce, or any part thereof.

81.—The University shall in no case grant the privilege of this ordinance to any College, School or Institution for a period of more than five years, but such privilege may be renewed for a further period after a report from the Senate.

82.—The University reserves the right of inspecting the libraries, laboratories and the equipment and apparatus provided for practical work, and of enquiring into the qualifications of the teachers appointed to conduct the qualifying courses.

ASSOCIATE MEMBERS OF THE GUILD OF GRADUATES.

83.—Persons who were Associates of Mason University College on October 1st, 1900, may be admitted as Associate Members of the Guild of Graduates, and on all ceremonial and social occasions they shall be put on the same footing as Members of the Guild, but without power of voting at Meetings of the Guild.

84.—Associates may make application to their respective Faculties on or before 1st October, 1905, for admission to the Degree of Bachelor. They will be required to submit at the same time copies of their contributions to Medicine, Science, or Literature, or a Thesis specially composed for the occasion, and an account of the appointments which they hold or have held. These papers shall be submitted to Assessors, one of whom shall be an external examiner, and in the event of a Thesis having been submitted, these Assessors shall be at liberty to question the candidate upon it, should they see fit, or to call upon him to pass any examination they may think proper. On the report of the Assessors the Faculty shall decide in each case whether they will recommend the Senate to nominate the candidate for a Degree.

85.—The fee payable by Associates who are Candidates for any degree shall be £5.

86.—Students and members of the staff of Mason University College who would have been eligible for the Associateship before 30th September, 1901, had the College continued to exist, shall be permitted to apply for admission to the above privileges before 30th September, 1901.

THE GUILD OF GRADUATES.

87.—Every person who has been admitted to a Degree in any Faculty of the University shall, after the lapse of such time as may hereinafter be prescribed by regulations, be eligible to be a Member of the Guild of Graduates, and may be elected a Member of the Guild after payment of such fee as may also be so prescribed.

88.—Any Member of the Guild of Undergraduates who shall become eligible to be a Member of the Guild of Graduates shall forthwith cease to be a Member of the Guild of Undergraduates.

89.—The Guild of Graduates shall be an organised Association of Graduates for the furthering of their common interests, and shall be the recognised means of communication between the Graduates on the one hand and the Court of Governors, Council, Senate, and other authorities of the University on the other hand.

90.—The Guild of Graduates may make laws for its internal management and administration, and the election of its officers, the alteration of its laws and all other matters requiring to be dealt with.

THE GUILD OF UNDERGRADUATES.

91.—The Guild of Undergraduates shall consist of all the Undergraduate Students of the University. It shall be an organised Association of such Undergraduates for the furthering of their common interests and shall be the recognised means of communication between the Undergraduates on the one hand, and the Court of Governors, Council, Senate and other authorities of the University, on the other hand.

92.—The Guild of Undergraduates may make laws for its internal management and administration, the election of its officers, the alteration of its laws and all other matters requiring regulation. but no law shall be effective until approved by the Council.

Faculties.

The following Lecturers are also members of Faculties

F. DE ARTEAGA, M.A. (Faculty of Arts),
5, Norham Road, Oxford.

J. COOLE KNEALE, M.B., Ch.B. (Faculty of Medicine).

OFFICERS OF THE UNIVERSITY.

Principal: SIR OLIVER LODGE, Kt., M.Sc.; D.Sc. (Lond., Oxon. et Vict.), LL.D. (St. And. et Glas.), F.R.S.

Vice-Principal: Professor R. S. HEATH.

Deans of Faculties:

<i>Faculty of Science</i>	...	Professor J. H. POYNTING.
<i>Faculty of Arts</i>	...	Professor H. G. FIEDLER.
<i>Faculty of Medicine</i>	...	Professor GILBERT BARLING.
<i>Faculty of Commerce</i>	...	Professor W. J. ASHLEY.

Registrar: Professor R. S. HEATH.

Professors, Lecturers, and other Officers of the University:

Mathematics.

Mason Professor: R. S. HEATH, M.Sc.; M.A. (Cantab.), D.Sc. (Lond.), late Fellow of Trinity College, Cambridge.

Lecturer: C. T. PREECE, M.A. (Cantab.), late Scholar of Trinity College, Cambridge.

Assistant Lecturers: { S. B. McLAREN, M.A. (Cantab.).
J. O. GRIFFITH, M.A. (Oxon.), Fellow
of St. John's College, Oxford.

Physics.

Mason Professor: J. H. POYNTING, M.Sc.; Sc.D. (Cantab.), D.Sc. (Vict.), F.R.S., late Fellow of Trinity College Cambridge.

Lecturer: G. A. SHAKESPEAR, B.A. (Cantab.), B.A., B.Sc. (Lond.).

Assistant { GUY BARILOW, D.Sc. (Wales and Lond.)

Lecturers: { A. DU PRE DENNING, M.Sc., Ph.D. (Heid.)

Special Lecturer on Experimental Physics: G. A. SHAKESPEAR, B.A., B.Sc.

Chemistry.

Mason Professor: PERCY F. FRANKLAND, M.Sc.; LL.D. (St. Andrews), Ph.D. (Würzburg), B.Sc. (Lond.), F.R.S.

Lecturers: { ALEX. FINDLAY, M.A., D.Sc. (Aberdeen), Ph.D. (Leipzig).
HAMILTON MCCOMBIE, M.A., B.Sc., Ph.D., A.R.C.S., A.I.C.

Demonstrators: { C. K. TINKLER, B.Sc. (Wales).
THOMAS J. MURRAY, Ph.D.

Special Lecturer on Physical Chemistry: ALEX. FINDLAY, D.Sc.

Zoology and Comparative Anatomy.

Mason Professor: T. W. BRIDGE, M.Sc.; Sc.D. (Cantab.), F.R.S.
Lecturer: (Vacant).

Special Lecturer in Economic Zoology: WALTER E. COLLINGE, M.Sc.

Botany and Vegetable Physiology.

Professor: W. HILLHOUSE, M.Sc.; M.A. (Cantab.), F.L.S.

Lecturer: GEORGE S. WEST, M.A. (Cantab.), A.R.C.S., F.L.S.

Geology and Physiography.

Professor: CHARLES LAPWORTH, M.Sc.; LL.D., F.R.S., F.G.S.

Lecturers: { THEODORE GROOM, M.A. (Cantab), D.Sc. (Lond.),
 F.G.S., Late Scholar of St. John's Coll., Camb.
 FRANK RAW, B.Sc. (Lond.), F.G.S.

Special Lecturer in Petrology: FRANK RAW, B.Sc.

Mechanical Engineering.

Chance Professor: F. W. BURSTALL, M.Sc.; M.A. (Cantab.), M.Inst.C.E., M.Inst.M.E.

Lecturer: R. C. PORTER, M.Sc. (Vict.), A.M.Inst.C.E.

Demonstrator: J. F. GILL, M.Sc. (Vict.).

Head Draughtsman: E. LANGFORD HAZEL.

Second Draughtsman: J. H. SINCLAIR, M.Sc. (Vict.).

Civil Engineering:

Professor: STEPHEN M. DIXON, M.Sc.; M.A. B.A.I. (Dublin), M.Inst.C.E.

Lecturer: F. H. HUMMEL, M.Sc.; A.M.Inst.C.E.

Assistant Lecturer and Demonstrator: JAMES BAIN, B.Sc. (Edin.).

Electrical Engineering.

Professor: GISBERT KAPP, M.Sc.; M.Inst.C.E., M.Inst.E.E.

Lecturer: D. K. MORRIS, Ph.D. (Zurich), A.M.Inst.E.E.

Assistant Lecturers and Demonstrators: E. J. KIPPS, A.M.Inst.E.E.

(Vacant).

Brewing.

Professor: ADRIAN J. BROWN, M.Sc.; F.I.C.

Lecturer: T. H. POPE, B.Sc.; A.I.C.

Demonstrator: S. RAINE.

Assistant in the Analytical Laboratory: C. H. ROBOTOM.

Metallurgy.

Professor: THOMAS TURNER, M.Sc.; A.R.S.M. F.I.C.

Lecturer: O. F. HUDSON, B.Sc.; A.R.C.S.

Assistant Lecturer and Demonstrator: D. M. LEVY, A.R.S.M.

Special Lecturer in Metallography: O. F. HUDSON, B.Sc.

Mining.

Professor: R. A. S. REDMAYNE, M.Sc.; M.Inst.M.E., M.Inst.M.M., M.A.Inst.M.E., F.G.S.

Lecturer: H. BRIGGS, A.R.S.M., F.G.S.

Demonstrator in Metal Mining: E. T. BORLASE.

Latin and Greek.

Professor : E. A. SONNENSCHN, M.A. ; D.Litt. (Oxon).

Lecturer : C. D. CHAMBERS, M.A. (Oxon.).

Lecturer in Greek : M. O. B. CASPARI, M.A. (Oxon.).

English Language and Literature.

Professor : J. CHURTON COLLINS, M.A. ; M.A. (Oxon.),
D.Litt. (Dunelm).

Lecturer : M. MACMILLAN, M.A. (Oxon.).

French Language and Literature.

Professor : C. BÉVENOT, M.A. ; M.A. (Oxon.).

Lecturer : PAUL DEMEY, Lic. ès-L.

Assistant Lecturer : Vacant.

German Language and Literature.

Professor : HERMANN GEORG FIEDLER, M.A. ; Ph.D. (Leipzig).

Lecturer : F. E. SANDBACH, M.A. (Cantab.), Ph.D. (Strass.)

Special Lecturer in Commercial German : F. E. SANDBACH, M.A.

Mental and Moral Philosophy and Political Economy.

Professor : J. H. MUIRHEAD, M.A. ; M.A. (Oxon), LL.D
(Glasgow).

Lecturer : HELEN MARION WODEHOUSE, M.A.

History.

Professor : J. H. B. MASTERMAN, M.A. ; M.A. (Cantab.).

Lecturer : ROSE SIDGWICK.

Education.

Organising Professor : ALFRED HUGHES, M.A. ; M.A. (Oxon.),
B.A. (Manch.).

Music.

Richard Pcyton Professor : SIR EDWARD ELGAR, Kt., Mus.D.
(Oxon., Cantab., Dunelm. et Yale), LL.D.

Spanish and Italian.

Lecturer : F. DE ARTEAGA, M.A., (Oxon.).

Human Anatomy and Anthropology.

Professor : ARTHUR ROBINSON, M.D. ; M.D., C.M. (Edin.).

Lecturer on Applied Anatomy : W. F. HASLAM, F.R.C.S.

Demonstrators : { THOMAS YEATES, M.B., C.M., (Edin.). B.Hy.
D.P.H. (Durham).
SEYMOUR BARLING, M.B., B.S., F.R.C.S.
VIOLET A. P. COGHILL, M.B., Ch.B. (Edin.).

Honorary Demonstrators : { W. E. BENNETT, M.B., Ch.B., F.R.C.S.
J. JAMESON EVANS, M.D. ; M.D., C.M.
(Edin.), F.R.C.S.

Physiology.

Professor : E. W. WACE CARLIER, M.Sc. ; M.D. (Edin.), F.R.S.E.

Lecturer : J. H. RHODES, M.B., Ch.B. (Edin.), M.R.C.S.

Medicine.

Professor : R. SAUNDBY, M.Sc. ; M.D. (Edin.), F.R.C.P., LL.D.

Professor : A. H. CARTER, M.Sc. ; M.D. (Lond.), F.R.C.P.

Assistant : J. W. RUSSELL, M.A., M.D. (Cantab.), F.R.C.P.

Surgery.

Professor : BENNETT MAY, M.Sc. ; M.B., B.S. (Lond.), F.R.C.S.

Professor : GILBERT BARLING, M.Sc. ; M.B., B.S. (Lond.), F.R.C.S.

Assistant : G. HEATON, M.A., M.B., B.Ch. (Oxon.), F.R.C.S.

Pathology and Bacteriology.

Professor : R. F. C. LEITH, M.Sc. ; M.A., M.B. (Edin.), F.R.C.P.E.

Assistant Lecturers in Bacteriology : { JAMES MILLER, D.Sc. ; M.D., B.Sc. (Edin.)
C. LEEDHAM-GREEN, M.B., Ch.B., F.R.C.S.
C. J. LEWIS, M.D., D.Sc., F.R.C.P. (Edin.)

Demonstrator in Pathology : J. D. STANLEY, M.D. ; M.D. (Edin.).

Assistant Curators of the Pathological Museum : { STANLEY BARNES, D.Sc. ; M.D. (Lond.),
M.R.C.P., M.R.C.S.
J. T. HEWETSON, Ch.M. ; M.D. (Edin.),
F.R.C.S.
THOMAS WILSON, Ch.M. ; M.D. (Lond.),
F.R.C.S.

Special Lecturer in Pathology : JAMES MILLER, M.D.

Hygiene and Public Health.

Professor : A. BOSTOCK HILL, M.Sc. ; M.D., D.P.H.

Assistant Lecturer in Hygiene : R. A. LYSTER, M.B., Ch.B. ; B.Sc. (Public Health) ; B.Sc. (Lond.).

Materia Medica.

Lecturer : J. COOLE KNEALE, M.B., Ch.B. ; L.R.C.P., L.R.C.S. (Edin.), M.P.S.

Demonstrator : F. R. GREENWOOD, M.B., Ch.B. ; M.D., B.S. (Lond.), M.R.C.S.

Therapeutics.

Professor : A. FOXWELL, M.Sc. ; M.A., M.D. (Cantab.), F.R.C.P.

Assistant : W. A. POTTS, M.D. ; B.A. (Cantab.), M.D., C.M. (Edin.).

Midwifery.

Professor : EDWARD MALINS, M.Sc. ; M.D. (Edin.), F.R.C.P.

Assistant : C. E. PURSLOW, M.D. (Lond.), M.R.C.P.

Gynæcology.

Professor : J. W. TAYLOR, M.Sc. ; M.D. (Brux.), F.R.C.S.

Assistant : C. E. PURSLOW, M.D. (Lond.), M.R.C.P.

Forensic Medicine and Toxicology.

Professor: J. T. J. MORRISON, M.Sc. ; M.A., M.B., B.C. (Cantab.),
F.R.C.S.

Lecturer on Toxicology: A. BOSTOCK HILL, M.Sc. ; M.D.,
D.P.H.

Assistant: R. A. LYSTER, M.B., Ch.B. ; B.Sc. (Public Health) ;
B.Sc. (Lond.).

Mental Diseases.

Professor: E. B. WHITCOMBE, M.Sc. ; M.B., Ch.B., M.R.C.S.

Operative Surgery.

Professor: JORDAN LLOYD, M.Sc., M.D. ; M.B., M.S. (Dur.),
F.R.C.S.

Ophthalmology.

Professor: PRIESTLEY SMITH, M.Sc. ; M.B., Ch.B., F.R.C.S.

Dental Surgery.

Lecturer: F. E. HUXLEY, M.D.S., M.R.C.S.

Dental Anatomy and Physiology.

Lecturer: JOHN HUMPHREYS, M.D.S., L.D.S.I., F.L.S.

Dental Mechanics.

Lecturer: A. E. DONAGAN, M.A. (Cantab.), L.D.S.

Dental Histology and Pathology.

Lecturer: H. PERCY PICKERILL, M.B., Ch.B., B.D.S.

Dental Metallurgy.

Lecturer: T. TURNER, M.Sc. ; A.R.S.M.

Medical Diseases of the Mouth, &c.

Lecturer: T. STACEY WILSON, M.D. (Edin.), M.R.C.P.

Surgical Diseases of the Mouth, &c.

Lecturer: FRANK MARSH, Ch.M. ; F.R.C.S.

Lecturer on Dental Materia Medica.

Lecturer: W. T. MADIN, L.D.S.

Dental Bacteriology.

Lecturer: JAMES MILLER, D.Sc. ; M.D.

Commerce.

Professor: W. J. ASHLEY, M.Com. ; M.A., late Fellow of Lincoln
College, Oxford.

Accounting.

Professor: LAWRENCE R. DICKSEE, M.Com. ; F.C.A.

Finance.

Professor: A. W. KIRKALDY, M.A., B.Litt. (Oxon.).

Commercial Law.

Lecturer: FRANK TILLYARD, M.A. (Oxon.), Barrister-at-Law.

UNIVERSITY EXAMINERS FOR DEGREES.

Mathematics—

F. S. CAREY, M.A.,

Professor of Mathematics in the University of Liverpool.

Professor R. S. HEATH.

Physics—

L. R. WILBERFORCE, M.A.,

Professor of Physics in the University of Liverpool.

Professor J. H. POYNTING.

Chemistry—

W. PALMER WYNNE, F.R.S.,

Professor of Chemistry in the University College,
Sheffield.

Professor PERCY F. FRANKLAND.

Zoology—

W. A. HERDMAN, D.Sc., F.R.S.,

Professor of Zoology in the University of Liverpool.

Professor T. W. BRIDGE.

Botany—

J. B. FARMER, M.A., F.R.S.,

Professor of Botany at the Royal College of Science.

Professor W. HILLHOUSE.

Geology (including Geography)—

J. E. MARR, F.R.S.,

Lecturer on Geology in the University of Cambridge;
President of the Geological Society, London.

Professor C. LAPWORTH.

Civil and Mechanical Engineering—

D. S. CAPPER, M.A., M.I.C.E.,

Professor of Engineering, King's College, London.

Professor F. W. BURSTALL.

Professor STEPHEN M. DIXON.

Electrical Engineering—

J. A. FLEMING, D.Sc., F.R.S.,

Professor of Electrical Engineering, University College,
London.

Professor GISEBERT KAPP.

Metallurgy—

W. GOWLAND, A.R.S.M.,

Professor of Metallurgy in the Royal School of Mines,
London.

Professor T. TURNER.

Mining—

W. N. ATKINSON, M.I.M.E.,
 Chief Inspector of Mines for Staffordshire.
 Professor R. A. S. REDMAYNE.

Brewing—

W. W. BUTLER, Esq.,
 Professor ADRIAN J. BROWN.

Classics—

S. G. OWEN, M.A.,
 Fellow and Tutor of Christ Church, Oxford.
 Professor E. A. SONNENSCHIEIN.

English—

W. MACNEILL DIXON, Litt.D.,
 Professor of English Language and Literature in the
 University of Glasgow.
 Professor J. CHURTON COLLINS.

French—

VICTOR KASTNER, B.ès.L., M.A.,
 Professor of French in the Victoria University of
 Manchester.
 Professor CLOVIS BÉVENOT.

German—

A. W. SCHÜDDEKOPF, M.A., Ph.D.,
 Professor of German in the University of Leeds.
 Professor H. G. FIEDLER.

Spanish and Italian—

O. H. FYNES-CLINTON, M.A.,
 Professor of Romance Languages in the University
 College of North Wales, Bangor.
 F. DE ARTEAGA, M.A.

Philosophy—

J. MACCUNN, M.A.,
 Professor of Philosophy in the University of Liverpool.
 Professor J. H. MUIRHEAD.

History—

T. F. TOUT, M.A.,
 Professor of History in the University of Manchester.
 Professor J. H. B. MASTERMAN.

Education—

JAMES WELTON, M.A.,
 Professor of Education and Master of Method in the
 University of Leeds.
 Professor A. HUGHES.
 ANNE HOLLINGWORTH JOYCE.
 FRANK ROSCOE.

Anatomy—

F. G. PARSONS, F.R.C.S., F.Z.S., F.I.L.S.,
Lecturer on Anatomy, St. Thomas's Hospital, London.
Professor A. ROBINSON.

Physiology—

C. S. SHERRINGTON, M.A., M.D., F.R.S.,
Professor of Physiology in the University of Liverpool.
Professor E. WACE CARLIER.

Medicine—

SAMUEL WEST, M.D.,
Lecturer on Medicine at St. Bartholomew's Hospital.
Professor R. SAUNDBY.
Professor A. H. CARTER.

(Clinical) O. J. KAUFFMANN, M.D. (Lond.).

Surgery—

HOWARD MARSH, F.R.C.S.,
Professor of Surgery in the University of Cambridge.
Professor BENNETT MAY.
Professor GILBERT BARLING.

(Operative) Professor JORDAN LLOYD.

(Clinical) GEORGE HEATON, M.B., Ch.B., F.R.C.S.

Ophthalmology—

Professor PRIESTLEY SMITH.

Mental Diseases—

Professor E. B. WHITCOMBE.

Pathology—

ROBERT MUIR, M.D., F.R.C.P.,
Professor of Pathology in the University of Glasgow.
Professor R. F. C. LEITH.

Hygiene and Public Health—

LOUIS C. PARKES, M.D., D.P.H.,
Lecturer on Public Health at St. George's Hospital,
London.
Professor A. BOSTOCK HILL.

Materia Medica and Practical Pharmacy—

HENRY G. GREENISH, Esq., F.I.C., F.L.S.,
Professor of Pharmaceutics in the School of Pharmacy
of the Pharmaceutical Society.
J. COOLE KNEALE, L.R.C.P., L.R.C.S. (Edin.), M.P.S.

Therapeutics and Pharmacology—

SAMUEL WEST, M.D.,
Lecturer on Medicine at St. Bartholomew's Hospital.
Professor A. FOXWELL.

Midwifery and Gynæcology—

AMAND J. M. ROUTH, M.D., F.R.C.P.,
Obstetric Physician and Lecturer on Midwifery,
Charing Cross Hospital, London.

Professor EDWARD MALINS.

Professor J. W. TAYLOR.

Forensic Medicine and Toxicology—

JOHN GLAISTER, M.D., D.P.H., F.R.S.E.,
Regius Professor of Forensic Medicine and Public
Health in the University of Glasgow.

Professor J. T. J. MORRISON.

Professor A. BOSTOCK HILL.

Dental Subjects—

J. HOWARD MUMMERY, M.R.C.S., L.D.S.,
Late Examiner in Dental Surgery, Royal College of
Surgeons of England.

Professor R. F. C. LEITH.

JOHN HUMPHREYS, M.D.S., F.L.S.

F. E. HUXLEY, M.R.C.S., M.D.S.

A. E. DONAGAN, M.A., L.D.S.

H. P. PICKERILL, M.B., Ch.B., B.D.S.

W. T. MADIN, L.D.S.

F. MARSH, F.R.C.S.

T. STACEY WILSON, M.D.

Commerce—

HENRY W. MACROSTY, B.A.,
Lecturer in the London School of Economics.

Professor W. J. ASHLEY.

Professor A. W. KIRKALDY.

Accounting—

Sir WALTER N. FISHER, F.C.A.

Professor LAWRENCE R. DICKSEE.

Commercial Law—

W. R. PHILLIPS, LL.M.,
Professor of Law in the University of Leeds.

FRANK TILLYARD, M.A.

REPRESENTATIVES OF THE UNIVERSITY

ON SCHOOLS AND OTHER INSTITUTIONS.

General Medical Council—Professor R. SAUNDBY.

Education Committees—

Birmingham—Professor R. S. HEATH.

Bridgnorth—Professor A. HUGHES.

Covcntry—F. E. SANDBACH, Esq., M.A., Ph.D.

King's Norton and Northfield—R. C. PORTER, Esq., M.Sc.

Longton—Professor R. A. S. REDMAYNE.

Leicestershire—Professor W. HILLHOUSE.

Oldbury—FRANK ROSCOE, Esq.

Rowley Regis—Miss F. M. CLARK, B.A.

Shropshire—Professor A. HUGHES.

Smethwick—Professor A. W. KIRKALDY.

Staffordshire—Professor A. HUGHES.

Sutton Coldfield—Professor STEPHEN DIXON.

Tunstall—F. HARRISON, Esq., M.A.

Warwickshire—Professor J. H. MUIRHEAD.

West Bromwich—Professor E. A. SONNENSCHNEIN.

Wolverhampton—Professor A. HUGHES.

Worcestershire—Professor T. TURNER.

Burslem Exhibition Endowment—F. HARRISON, Esq., M.A.

Alcester, Newport's School—ARTHUR L. CHANCE, Esq.

Atherstone Grammar School—SHELDON R. HART, Esq.

Bewdley Grammar School—Rev. S. R. JAMES.

Birmingham Blue Coat School—Sir JOHN C. HOLDER, Bart., and
Mr. Councillor A. J. REYNOLDS.

Birmingham, King Edward's School—Sir OLIVER LODGE.

Birmingham and Midland Institute—Professor H. G. FIEDLER.

Brewood Grammar School—Professor T. TURNER.

Burton-on-Trent Endowed School—Professor A. BROWN.

Coleshill Grammar School—Dr. R. M. SIMON.

- Coventry Grammar School*—Dr. T. WEBB FOWLER.
Derby School—W. B. WORTHINGTON, Esq.
Dudley Grammar School—Professor A. HUGHES.
Evesham, Prince Henry's Grammar School—Mrs. SONNENSCHIEIN.
Halesowen Grammar School—Dr. ALEX. FINDLAY.
Handsworth Grammar School—Professor BOSTOCK HILL and
 C. W. MILLIGAN, Esq., B.A.
Hanley Castle Grammar School—A. O. HOLBECHE, Esq., L.R.C.P.
Hartlebury Grammar School—G. W. GROSVENOR, Esq., J.P.
Hinckley Grammar School—Professor W. HILLHOUSE.
Jackson's Charity—Mr. Councillor A. J. REYNOLDS.
Kidderminster Grammar School—JOHN BRINTON, Esq.
Kinver Grammar School—JOHN PRIESTLEY, Esq., M.R.C.S.
Lady Warwick Agricultural College—Professor W. HILLHOUSE.
Lichfield Grammar School—FRANK TILLYARD, Esq.
Lutterworth Endowed Schools—Rev. JAMES WENT, M.A.
Southam Secondary School—C. D. CHAMBERS, Esq., M.A.
Stafford, King Edward's School—F. E. KITCHENER, Esq., M.A.

Yardley Charity Estate—
 W. WRIGHT WILSON, Esq., F.R.C.S. (Edin.).
-

ACADEMIC COSTUME.

GOWNS.

Undergraduates.—Gown of black stuff, similar to the Oxford Scholars' Gown, with the fore-arm seam open.

Bachelors.—Gown of black stuff with an open sleeve.

Masters.—Gown of black stuff or silk, similar to a Cambridge M.A. Gown with ribbons, but with a **L**-shaped slit in the sleeve.

Doctors.—Robe of scarlet cloth of the same shape as the Cambridge Doctors' Gown, trimmed with silk of the colour characteristic of the Faculty.

Doctors' Undress.—Gown of black stuff or silk of the same shape as the Masters' Gown, but edged with braid.

HOODS.

FACULTY OF SCIENCE.

B.Sc.—Black silk or stuff edged with silver-grey watered silk.

M.Sc.—Black silk lined with silver-grey watered silk.

D.Sc.—Scarlet cloth lined with silver-grey watered silk.

FACULTY OF ARTS.

B.A.—Black silk or stuff edged with electric-blue watered silk.

M.A.—Black silk lined with electric-blue watered silk.

D.Phil. and D.Litt.—Scarlet cloth lined with electric-blue watered silk.

FACULTY OF MEDICINE.

M.B. and Ch.B.—Black silk or stuff edged with cardinal watered silk.

Ch.M.—Black silk lined with cardinal watered silk.

M.D.—Scarlet cloth lined with cardinal watered silk.

DEPARTMENT OF DENTISTRY.

B.D.S.—Black silk or stuff edged with dark red (Grenat) watered silk.

M.D.S.—Black silk lined with dark red (Grenat) watered silk.

FACULTY OF COMMERCE.

B.Com.—Black silk or stuff edged with terra-cotta watered silk.

M.Com.—Black silk lined with terra-cotta watered silk.

HONORARY DEGREE.

LL.D.—Scarlet cloth lined with bronze-green watered silk.

CAPS.

Undergraduates, Masters, and Doctors will wear the ordinary square College Cap. and Doctors in full dress will wear a cap of black velvet with a gold cord, lined with the colour characteristic of the Faculty.

Robe-Makers to the University :—

MESSRS. EDE, SON, & RAVENSCROFT, 93 AND 94, CHANCERY LANE, LONDON.

UNIVERSITY OF BIRMINGHAM.

SESSION 1906-1907.

FACULTIES OF SCIENCE, ARTS AND COMMERCE.

The courses in Pure Science and in the Faculties of Arts and Commerce are held in the University Buildings, Edmund Street; and the courses in Applied Science (Engineering, Metallurgy, and Mining) are held in the New University Buildings, University Road, Edgbaston. The Offices of the University are situate for the present in Edmund Street, where all information respecting the admission of students may be obtained.

UNIVERSITY TERMS.

The University Session, or academic year, is divided into three terms—Winter, Spring, and Summer. The WINTER TERM commences on Monday, October 1st, and ends on Saturday, December 15th, 1906; the SPRING TERM commences on Monday, January 14th, 1907, and ends on Saturday, March 23rd; the SUMMER TERM commences on Monday, April 15th, and ends on Saturday, June 29th.

ADMISSION OF STUDENTS.

1.—All the courses of study are open to men and women on the same terms. Separate cloak rooms and reading rooms in the east wing (ground floor) are reserved for the accommodation of women students.

2.—The classes and laboratories of the University are open to all who are sufficiently prepared to take advantage of the instruction offered. Every person seeking admission as a student to a recognised course of instruction in preparation for a diploma, certificate, or other professional qualification must produce such testimonial or reference and pass such examination as shall be deemed necessary by the Vice-Principal; but no examination is as a rule deemed necessary in the case of students attending classes for the purposes of general culture, and not in preparation for any University Examination.

3.—Every student entering any Faculty is required to seek an interview with the Dean of his Faculty or the Vice-Principal before finally selecting his classes or paying his fees at the Secretary's office.

4.—Students on admission are required to sign a declaration that they will observe the Ordinances of the University and conform to such regulations as have been or may be made for the maintenance of order in the University and in the classes they attend.

5.—The Vice-Principal will be present every day (except Saturday) during the week commencing September 24th, from ten o'clock a.m. to one o'clock p.m. to confer with intending students and give them advice respecting their courses of study, and may be seen at other times by appointment. The Deans of the Faculties and the Professors will also be present on Friday, September 28th, for the same purpose.

6.—Application for admission to classes must be made either in writing or personally to the Secretary of the University. The Secretary's office is open from 9 to 1 and from 2 to 5, except on Saturdays, when it is open from 9 to 1 only.

7.—Reports on the attendance, progress, and conduct of students will be sent to parents and guardians at the end of each term on application in writing to the Vice-Principal.

8.—Students intending to take lodgings in Birmingham or the vicinity are recommended to place themselves in communication with the Secretary.

9.—Every student residing in lodgings in Birmingham is required to leave his local address at the Secretary's office, and notify the Secretary of any change in his address.

FEES.

All Fees are to be paid in advance (*i.e.*, at the beginning of the Session or Term on account of which they are due) at the Secretary's Office in the University. Cheques should be drawn in favour of Mr. Geo. H. Morley. *Students should not enter for classes until after mature consideration, as fees once paid cannot be returned.*

I.—MEMBERSHIP FEE.

Every student is required to pay a Membership Fee, which includes all charges for Registration, and for the use of the Library and Common Rooms.

The following statement shows the Membership Fees for a Session or a Term :—

	<i>Session.</i>			<i>Term.</i>			
Students attending not more than	£	s.	d.	£	s.	d.	
three hours per week... ..	0	10	6	...	0	5	0
All other Students	1	1	0	...	0	10	6

II.—FEES FOR CLASSES AND LABORATORIES.

As the courses prescribed during the different years of study in most cases allow students to choose alternative subjects, it is not practicable to give a tabular statement of the fees for every combination of subjects. The fees charged for the different courses of study in each subject are appended to the Syllabuses of the Courses. *These fees are all subject to revision from year to year.*

The following table shows the present cost of the various courses for degrees :—

(a) Courses for B.Sc. Degree in Pure Science :

First year, from $15\frac{1}{2}$ to $23\frac{1}{2}$ guineas.

Second year, from 12 to $25\frac{1}{2}$ guineas.

Third year, from 12 to $26\frac{1}{2}$ guineas.

(b) Courses for B.Sc. Degree in Engineering :

First year, Composition fee (including membership fee and caution money deposit of £1), £29 7s.

Second year, Composition fee (including membership fee), 35 guineas.

Third year, Composition fee (including membership fee), 40 guineas.

Fourth year, Composition fee (including membership fee), 40 guineas.

(c) Courses for B.A. Degree :

First year, $18\frac{1}{2}$ guineas.

Second year, $15\frac{1}{2}$ guineas.

Third year, $15\frac{1}{2}$ guineas.

(d) Courses for B.Com. Degree :

First year, Composition fee (including membership fee), 20 guineas.

Second year, Composition fee (including membership fee), 23 guineas.

Third year, Composition fee (including membership fee), 23 guineas.

III. FEES FOR EXAMINATION.

Faculty of Science.

	£	s.	d.
(i.) Intermediate Examination... ..	2	0	0
(ii.) Final B.Sc. Examination—			
Subsidiary Subjects	2	0	0
Principal Subjects	2	0	0
(iii.) First Engineering Examination	2	0	0
(iv.) First Mining Examination... ..	2	0	0
(v.) First Metallurgy Examination	2	0	0
(vi.) Second Engineering Examination... ..	2	0	0
(vii.) Second Mining Examination	2	0	0
(viii.) Second Metallurgy Examination... ..	2	0	0
(ix.) Third Engineering Examination	2	0	0
(x.) Third Mining Examination	2	0	0
(xi.) Third Metallurgy Examination	2	0	0
(xii.) Fourth Engineering Examination... ..	2	0	0
(xiii.) Master's Degree Examination	2	0	0
(xiv.) Doctor's Degree Examination	2	0	0
(xv.) Brewing Diploma Examination	2	0	0

Faculty of Arts.

(i.) Intermediate Examination... ..	2	0	0
(ii.) Second Arts Examination... ..	2	0	0
(iii.) Final B.A. Examination	2	0	0
(iv.) M.A. Examination... ..	2	0	0
(v.) D.Phil. or D.Litt. Examination	2	0	0
(vi.) Secondary Teacher's Diploma Examination	2	0	0

Faculty of Commerce.

First Commerce Examination	2	0	0
Second Commerce Examination	2	0	0
Final B. Com. Examination	2	0	0

Candidates are allowed to repeat any examination on payment of half the usual fee. The fee for re-examination in separate subjects is 10s. per subject.

IV. FEES ON ADMISSION TO DEGREES.

				£	s.	d.
(i.)	B.Sc. Degree	2	0	0
(ii.)	B.A. Degree	2	0	0
(iii.)	B.Com. Degree	2	0	0
(iv.)	M.Sc. Degree	3	0	0
(v.)	M.A. Degree	3	0	0
(vi.)	D.Sc. Degree	8	0	0
(vii.)	D.Phil. or D.Litt. Degree	8	0	0

These fees must be paid at the same time as the fee for the final Examinations for the Degrees.

**REGULATIONS TO BE OBSERVED BY
ALL STUDENTS.**

1.—Students are not permitted to be in the University buildings before 8.45 a.m., nor after 6 p.m., unless attending classes or the meetings of some Society of the University.

2.—All students are required to conduct themselves in a quiet and orderly manner whilst in the University, not only during lecture hours, but on entering and leaving the building.

3.—Smoking is prohibited in the corridors and front hall of the University buildings, and is restricted to the students' common rooms.

4.—Card playing is prohibited in all parts of the buildings.

5.—Students committing any damage to the University building, or University property, will be required to pay for making good the same, and may be excluded from the University till payment is made.

6.—Students are required to attend punctually and regularly at the lectures and classes for which their names are entered.

7.—When a student has been absent it is desirable that he should report the cause of his absence to the Professor on his return to the class. In the event of

illness or unavoidable absence notice should be sent by the absentee to the Dean of his Faculty as soon as convenient.

LIBRARY REGULATIONS.

1.—The Library is open daily during the Session from 9 a.m. to 6 p.m., except on Saturdays when it is closed at 1 p.m. It is closed at 5 p.m. during the vacations. It is also closed during the month of August for cleaning purposes.

2.—The Library being set apart expressly for study, *all conversation is strictly prohibited*. Students are required to sit at the tables, and are not permitted to stand about in any part of the Library.

3.—Students are permitted to take books from the shelves, but they are to be *returned to the Librarian* and are not to be re-placed upon the shelves by the readers.

4.—The Library is to be used by *present students, for reference and study only*, and no books, pamphlets or journals, &c., are to be taken from it, except by members of the Teaching Staff.

5.—Certain valuable books of reference (including Dictionaries and Encyclopædias) as indicated by the Council, are not allowed to be taken from the Library. Current Journals, Transactions of Societies, &c., are not allowed to be taken from the Library until after the publication of a succeeding part.

6.—In the event of a book being damaged by scribbling, tearing, &c., the person damaging it will be required to supply another copy in its place to the satisfaction of the Council. Any defect in a printed book should be pointed out to the Librarian.

7.—Books borrowed from the Library must be returned to the Librarian before the expiration of 15 days, subject to a renewal for a further period of 15 days, unless required by another reader.

8.—All books, pamphlets, &c., in the hands of borrowers must be returned to the Librarian on or before the last day of the Session.

9.—The Librarian is authorised to exclude temporarily any person infringing the regulations of the Library.

LOCKERS FOR BOOKS, &c.

Lockers are provided in the locker room (first floor), and in the hat and coat room of the Medical School to enable students to preserve their books and papers in safety, at a charge of one shilling per Term, or two shillings and sixpence per Session. Each student will be supplied with a key, upon which a deposit of one shilling will be charged. The key must be delivered up on or before the last day of the Term or Session for which payment has been made, or the deposit will be forfeited.

A master-key of all the lockers is kept in the office.

MATRICULATION REGULATIONS FOR 1907

Matriculation is the formal admission of a student to membership of the University.

Although the classes in the University are open to all students who may wish to join them, students are strongly recommended to pass some qualifying examination and be matriculated before entering the University. It is only matriculated students who can become undergraduates and enjoy the privileges of Membership of the University and of the Guild of Undergraduates, and are eligible to become candidates for degrees in the University. Undergraduates and Graduates of other Universities are required to wear academic dress when in attendance upon University lectures and examinations, when calling upon the officers of the University, and upon all official occasions. Students who are not Undergraduates or Graduates are not entitled to wear academic dress.

Students who have been matriculated are entitled to the privileges of membership of the University and of the Guild of Undergraduates only so long as they are in actual attendance on a course of study approved by a Faculty of the University.

Students may be matriculated in any Faculty provided that they have passed the Matriculation Examination or have obtained the Senior School Certificate of the University in the necessary subjects, or can produce evidence that they have passed one of the Examinations which the University accepts as exempting from the

Matriculation Examination. A schedule of such examinations is appended. Persons desiring to be matriculated by virtue of such an examination are required to pay a fee of £1.

Candidates may also be matriculated after passing the Intermediate Examination in Science or Arts, or the First Engineering Examination, or the First Mining, or First Metallurgy Examination, instead of the Matriculation Examination, provided that they also pass in such of the required subjects of the Matriculation Examination as are not included in these Examinations. The Examination in these additional subjects may be taken either at the July or September Matriculation Examination. Such candidates may then enter upon the second year's course of study in the Faculties of Science and Arts, and take the examination for the Bachelor's Degree at the end of their second year; but they will still be required to complete three years of study before being admitted to any Degree. Those candidates who pass the Final Examination for the Bachelor's Degree at the end of their second year may take the course for the Master's Degree in their third year, and be eligible for that Degree at the end of three years from entrance.

Candidates who pass the Intermediate Science Examination or the First Engineering Examination before entrance become eligible for the B.Sc. Degree in Engineering after three years instead of four.

Candidates who pass the Intermediate Arts Examination before entrance may proceed at once to the courses for the School of Modern Languages or other specialised courses, and at the end of their third year of study will be eligible for the degree of Master of Arts.

Candidates for degrees in the Faculty of Medicine may enter for the first professional examination (Chemistry and Physics) before commencing their courses in the University, provided that they have already passed the Matriculation Examination or some preliminary examination accepted by the University in lieu of its Matriculation Examination. Such candidates will become eligible

for the Final Examination for the Degrees of M.B., Ch.B. after four years of study in the University, provided that they have then been registered medical students for a period of five years.

The Intermediate Science Examination of any approved University will be accepted in lieu of the Intermediate Science or First Engineering Examination of this University, and the Intermediate Arts and Preliminary Scientific Examinations of other approved Universities will be accepted as equivalent to the corresponding examinations of this University, as qualifying students to enter on second year courses of study and entitling them to the foregoing privileges.

MATRICULATION EXAMINATION.

There will be Matriculation Examinations, commencing on Monday, July 15th, and Monday, September 23rd, 1907. Candidates for these examinations must apply to the Registrar for a form of entry, which must be returned on or before June 17th or September 2nd respectively, accompanied by a certificate of good character from the last school attended or from some responsible person, and by the proper fee.

The Fee for the Matriculation Examination is £2; and, in cases of failure or withdrawal from the examination, for each subsequent Examination £1.

The examination will be conducted partly by means of printed papers, and partly by means of *vivâ voce* examinations.

Copies of previous examination papers may be obtained from Messrs. Cornish Bros., New Street, Birmingham, price sixpence.

Every candidate must pass in *five* subjects at one examination, viz. :—

- (1) English History and Literature.
- (2) Mathematics.
- (3), (4) and (5) Three subjects (of which one must be a language) chosen from the following list :—
 - (a) Latin.
 - (b) Greek.
 - (c) French.
 - (d) German.
 - (e) Italian.
 - (f) Spanish.
 - (g) Higher Mathematics.
 - (h) Experimental Mechanics.
 - (i) Chemistry.
 - (j) Physical Geography.
 - (k) Botany.
 - (l) Animal Biology.
 - (m) Geometrical Drawing.

Candidates for Degrees in Science and Commerce are allowed free choice of subjects under the headings (3), (4) and (5), except that one of the subjects must be a language.

Candidates for Degrees in Engineering are required to take Experimental Mechanics as one of their subjects, and are further recommended to take Higher Mathematics. If these two subjects are taken, a Special Engineering Matriculation Certificate will be awarded, which is accepted by the Institution of Civil Engineers as exempting from their Students' Preliminary Examination.

Candidates for Degrees in Arts are required to take Latin and a modern language as two of their subjects.

Candidates for Degrees in Medicine are required to take Latin, another language, and either Experimental Mechanics or Chemistry as three of their subjects.

Candidates may offer six subjects for examination if they choose, but they will receive credit for only five. Candidates who have passed the examination in five subjects, but have not satisfied the special requirements for degrees in Engineering, Arts or Medicine, may qualify for entry to the courses for these degrees by passing separately at a subsequent examination in the subject or subjects omitted. The fee for examination in one subject is 10s.

The particulars of the foregoing subjects of examination in July and September, 1907, are set out in the following schedule. The books to be prepared in Latin, Greek, French, German, Italian, and Spanish are left to the choice of candidates, subject to the approval of the University, but they should be of about the same length and standard of difficulty as the books suggested under the various headings below.

1. English History and Literature.

A. History of the English People from 1066.

It is desired that students should give attention to the social and literary, as well as to the political and geographical aspects of history. The main line of treatment expected may be gathered from J. R. Green's "Short History of the English People." In general eighteen or twenty questions will be set, of which candidates will be expected to answer not more than seven or eight.

- B. English composition : Candidates will be required to write three or four short compositions on subjects drawn from *one* of the following groups, to be selected by the Candidate.

Groups for 1907 :

(a) Shakespere: As you like it, Julius Caesar, Henry V.

Milton's L'Allegro, Il Penseroso, Comus, Samson Agonistes, Areopagitica.

- (b) Pope's Rape of the Lock ;
 Addison's Sir Roger de Coverley Papers ;
 Macaulay's Essay on Addison ;
 Thackeray's English Humorists ;
 Dr. Johnson's London and Vanity of Human
 Wishes ;
 Gray's Elegy, Progress of Poesy, The Bard
 and Ode to Adversity.
- (c) Wordsworth's Laodamia, Ode to Duty, Michael,
 Song at the Feast of Brougham Castle,
 Tintern Abbey, Resolution and Independ-
 ence, Preface to the Lyrical Ballads ;
 Coleridge's Ancient Mariner ;
 Byron's Prisoner of Chillon and the third
 Canto of Childe Harold ;
 Scott's Ivanhoe ;
 Southey's Life of Nelson.
- (d) Tennyson's Enone, Ulysses, Palace of Art,
 Dream of Fair Women, Lotos Eaters,
 Tithonus, Ode on the Death of the Duke
 of Wellington ;
 Matthew Arnold's Scholar Gipsy, Thyrsis,
 Sohrab and Rustum ;
 Lamb's Essays of Elia (first series) ;
 Lowell's Essays on Chaucer, Spenser and
 Dryden.

Groups for 1908 :

- (a) Shakespere : Merchant of Venice, King
 John, Tempest.
 Dryden : Absalom and Achitophel (Part I.)
 Goldsmith : Deserted Village and Vicar of
 Wakefield.

The groups *b*, *c*, *d* remain the same as for 1907.

Candidates will be expected to show an intelligent understanding of the subject matter of the books they offer, but not a minute knowledge of allusions, parallel passages and criticisms which bear on the text of the books.

2. Mathematics.

1. *Arithmetic*.—A knowledge of recurring decimals and of the process of extracting cube root will not be required.

The use of algebraical symbols and processes will be permitted.

2. *Elementary Algebra*, viz., addition, subtraction, multiplication and division ; simple equations ; fractions ; highest common factor, lowest common multiple ; quadratic equations ; solutions of two simultaneous equations, one at least being linear ; simple graphs ; problems requiring the classes of equations specified ; simple questions on fractional indices ; the nature and simple properties of logarithms to the base 10, with easy applications of four-figure tables ; ratio and proportion ; arithmetic progression, finite geometric progressions.

3. *Geometry*.—The paper in Geometry will contain questions on Practical and on Theoretical Geometry. Every candidate will be expected to answer questions in both branches of the subject.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. In cases where the validity of a construction is not obvious, the reasoning by which it is justified may be required. Every candidate must provide himself with a ruler graduated in inches and tenths of an inch, and in centimetres and millimetres, a set square, a protractor, compasses, and a hard pencil. All figures should be drawn accurately. Questions may be set in which the use of the set square or of the protractor is forbidden.

The questions on Theoretical Geometry will consist of theorems contained in the annexed Schedule B, together with questions upon these theorems, easy deductions from them, and arithmetical illustrations. Any proof of a Proposition will be accepted which appears to the

Examiners to form part of a systematic treatment of the subject; the order in which the theorems are stated in Schedule B is not imposed as the sequence of their treatment.

In the proof of theorems and deductions from them, the use of hypothetical constructions will be permitted. Proofs which are only applicable to commensurable magnitudes will be accepted.

SCHEDULE A.

Bisection of angles and of straight lines. Construction of perpendiculars to straight lines. Construction of an angle equal to a given angle. Construction of parallels to a given straight line. Simple cases of the construction from sufficient data of triangles and quadrilaterals. Division of straight lines into a given number of equal parts or into parts in any given proportions. Construction of a triangle equal in area to a given polygon. Construction of tangents to a circle and of common tangents to two circles. Simple cases of the construction of circles from sufficient data. Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines. Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle. Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a Point.—If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse. If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.—When a straight line cuts two other straight lines, if (i) a pair of alternate angles are equal, or (ii) a pair of corresponding angles are equal, or (iii) a pair of interior angles on the same side of the cutting line are together

equal to two right angles, then the two straight lines are parallel; and the converse. Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and Rectilinear Figures.—The sum of the angles of a triangle is equal to two right angles. If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles. If two triangles have two sides of the one equal to two sides of the other, respectively, and also the angles contained by those sides equal, the triangles are congruent. If two triangles have two angles of the one equal to two angles of the other, respectively, and also one side of the one equal to the corresponding side of the other, the triangles are congruent. If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse. If two triangles have the three sides of the one equal to the three sides of the other, respectively, the triangles are congruent. If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent. If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse. Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest. The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another. If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.—Parallelograms on the same or equal bases and of the same altitude are equal in area. Triangles on the same or equal bases and of the

same altitude are equal in area. Equal triangles on the same or equal bases are of the same altitude. Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:—

$$\begin{aligned}k(a + b + c + \dots) &= ka + kb + kc + \dots, \\(a + b)^2 &= a^2 + 2ab + b^2, \\(a - b)^2 &= a^2 - 2ab + b^2, \\a^2 - b^2 &= (a + b)(a - b).\end{aligned}$$

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.—The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points. The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.—A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord. There is one circle, and one only, which passes through three given points not in a straight line. In equal circles (or, in the same circle) (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres. In equal circles (or, in the same circle) (i) if two chords are equal, they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal. Equal chords of a circle are equidistant from the centre; and the converse. The tangent at any point of a circle and the

radius through the point are perpendicular to one another. If two circles touch, the point of contact lies on the straight line through the centres. The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference. Angles in the same segment of a circle are equal; and, if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle. The angle in a semicircle is a right angle; the angle in a segment greater than a semicircle is less than a right angle; and the angle in a segment less than a semicircle is greater than a right angle. The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse. If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments. If two chords of a circle intersect either inside or outside the circle the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion and Similar Triangles.—If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse. If two triangles are equiangular their corresponding sides are proportional; and the converse. If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar. The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the external bisector externally. The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

3, 4, and 5. (a) and (b) Latin and Greek.

- (i.) Translation of easy passages at sight, with questions on Grammar (Accidence and Syntax).
- (ii.) Easy Composition.
- (iii.) A *viva voce* examination on the prepared work, including the reading aloud of passages with due regard to quantities and expression.

For prepared work any book of about the same length and standard of difficulty as, Cicero, *Pro Lege Manilia*, or a book of Cæsar or Vergil, and (for Greek), a book of Xenophon, or a Greek play, will be accepted. Candidates proposing to offer other books should obtain the approval of the University beforehand.

(c) French.

- (i.) Translation of easy passages at sight, with questions on Grammar (Accidence and elementary Syntax).
- (ii.) Easy Composition and Dictation.
- (iii.) A *viva voce* examination on the prepared book, including the reading aloud and translation of selected passages, and easy conversation based on them.

For prepared work the following book (or any other book of similar length and standard of difficulty approved beforehand by the University) may be offered in July and September, 1907 :—

Jules Verne, *Le Tour du Monde en quatre-vingts jours* (Siepmann's series) Macmillan.

(d) German.

- (i.) Translation of easy passages at sight, with questions on Grammar (Accidence and elementary Syntax).
- (ii.) Easy Composition and Dictation.
- (iii.) *Viva voce*. Reading aloud and translation of passages from the prepared book, and easy conversation based on them.

For prepared work one of the following books (or any other book of similar length and standard of difficulty approved beforehand by the University) may be offered in July and September, 1907 :—

Goebel, *Rübezahl* (Macmillan).

Fischer, *Die wandelnde Glocke* (Rivington).

(e) Italian.

(i.) Translation of easy passages at sight, with questions on Grammar (Accidence and elementary Syntax).

(ii.) Easy Composition and Dictation.

(iii.) *Viva voce*. Reading aloud and translation of passages from the prepared book, and easy conversation based on them.

For prepared work one of the following books (or any other book of similar length and standard of difficulty approved beforehand by the University) may be offered in July and September, 1907 :—

Bersezio, *Il Cane del Cieco* (Richter, Davos).

Pellico, *Le Mie Prigioni*.

(f) Spanish.

(i.) Translation of easy passages at sight, with questions on Grammar (Accidence and elementary Syntax).

(ii.) Easy Composition and Dictation.

(iii.) *Viva voce*. Reading aloud and translation of passages from the prepared book, and easy conversation based on them.

For prepared work the following book (or any other book of similar length and standard of difficulty approved beforehand by the University) may be offered in July and September, 1907 :—

Cervantes, *The Adventure of the Wooden Horse and Sancho Panza, Governor of Barataria* (Clarendon Press).

(g) Higher Mathematics.

Algebra.—Elementary properties of surds and imaginaries; simultaneous quadratics and equations like quadratics; ratio, proportion and variation; arithmetical and geometrical progressions and other simple series; theory of indices; theory and practical applications of logarithms; permutations and combinations; the binomial theorem for a positive integral exponent.

Trigonometry.—Trigonometrical ratios of acute angles; solution of right-angled triangles, and simple problems of heights and distances; circular measure of angles; length of arcs of circles; angles of any magnitude and sign; trigonometrical ratios of obtuse angles; sine, cosine, and tangent of the sum and difference of angles; formulæ for the ratios of the double angle, triple angle, and the half angle; transformation of sums and differences of sines and cosines into products, and vice-versâ; properties of triangles; solution of triangles; problems on heights and distances; the chief circles related to a triangle; regular polygons; areas of circles, sectors, and segments.

Geometry.—The substance of Euclid, Books VI. and XI., 1—21, together with properties, areas of surface, and volumes of polyhedra, cylinders, cones, and spheres; elementary theory of projection and perspective.

(h) Experimental Mechanics.

Statics. Force measured in pounds weight or grammes weight. Equilibrium under two equal and opposite forces. Equality of the action and reaction between two bodies. Transmissibility of force by strings, ropes, and rigid connexions. Experimental investigation of the conditions for the equilibrium of a body when acted on by three parallel forces. Resultant. Moment of a force about a point. Balancing of moments when a body is in equilibrium. Centre of parallel forces. Centre of gravity and the experimental investigation of its position.

Stability and instability of a body, supported from a point or on a base. Work and rate of working. Foot pound and horse power. The lever, the balance, the single string system of pulleys, the wheel and axle, the differential pulley, as illustrations of parallel forces, and of the principle of work. Experimental investigation of the conditions for the equilibrium of a body when acted on by three forces not parallel. The triangle of forces. The parallelogram of forces. Graphic resolution and composition of forces. Simple cases of resultant of two forces acting at a point. Balancing of moments when a body is in equilibrium. Inclined plane. Windmill. Sailing. Screw, toothed and worm wheels, as treated by the principle of work. Efficiency of machines always reduced by friction.

Hydrostatics. Distinction between liquids and gases. Pressure at a point in a fluid. Equality of pressure at points on the same level. Change of pressure with depth. Surface of a liquid level. Transmission of pressure in liquid. Hydraulic press. Pressure against horizontal surfaces and vertical containing walls. Archimedes' principle. Density and specific gravity. Methods of finding specific gravities. Relation between volume and pressure in a gas. Air pumps. Atmospheric pressure. Barometers. Common pumps. Force pump.

Dynamics. Units of length and time. Velocity. Uniform acceleration. Use of formulæ connecting velocity, time and distance travelled, with acceleration. Mass. Equal masses are those having equal acceleration under equal forces. Simple experiments to show that mass is proportional to weight at the same place. Constancy of mass under change of physical and chemical condition. Momentum and rate of change of momentum. Force measured by rate

of change of momentum. Dyne and poundal. Momentum measure of force proportional to its weight measure. Relation between weight measure and momentum measure. *g*. Atwood's machine. Momenta generated in two bodies by their mutual action, equal and opposite. Constancy of momentum. Kinetic energy and Work.

(i) **Chemistry.**

Gaseous, liquid, and solid states of matter.

Nature of chemical change. Elements, compounds, and mixtures.

Types of chemical action.

Solution, crystallisation, distillation, diffusion.

Chemical and physical properties of air and water.

Nature of acids, bases, and salts.

Nature, occurrence, chief modes of preparation, and principal properties of the following non-metallic elements and their more important compounds: Hydrogen, Oxygen, Carbon, Silicon, Sulphur, Nitrogen, Phosphorus, Fluorine, Chlorine, Bromine, and Iodine.

Combination by weight and volume. Symbols, equations, and calculations relating to weight and volume. Nomenclature.

Chemical and Physical characteristics of metals as illustrated by Sodium, Calcium, Iron, Zinc, Lead, Mercury, Copper, and Silver.

Candidates are required to show knowledge of a concrete and experimental character throughout.

(j) **Physical Geography.**

The Earth in its relation to the other bodies in the Solar System ; the form and size of the Globe ; its movements and their effects in day and night, the seasons, eclipses.

The Surface of the Earth. General distribution of land and water ; the contour, relief and chief features of the continental land areas.

The Atmosphere. Its composition and density ; the determination, distribution and representation of its temperature, and pressure ; the circulation of the air, permanent and periodic winds, storms ; the moisture of the air, dew, hoarfrost, fog, mist, clouds, rain, snow and hail ; general distribution of rain-fall and its causes ; weather-charts, and storm warnings, climate.

The Sea. Composition, specific gravity and temperature of sea-water ; depths of the ocean, form and deposits of its floor ; movements of the ocean water ; waves, tides and currents.

The Land. The chief constituents of the earth-crust, stratified and unstratified rocks ; the work of rain, frost, rivers and ice ; springs, glaciers, valleys, waterfalls, lakes, meadows, deltas ; earth-movement and earthquakes ; volcanoes, their phenomena and distribution.

Life. The geographical distribution of animals and plants ; biological regions.

(k) **Botany.**

A. Plant Form as a key to Relationships.

The Candidate is expected to have *practical* familiarity with

- (i) The chief characters of root, stem, bud, and leaf of the principal British plants of quite general distribution and of garden plants of general cultivation, and with the nature and structure, as determinable by eye or lens, of common bulbs, fruits, seeds, or other vegetable products in ordinary use, and universally met with in shop or market.
- (ii) The most important floral and fruiting characters of the following British Natural Orders:—Ran-

unculaceæ, Cruciferæ, Violaceæ, Caryophyllaceæ, Leguminosæ, Rosaceæ, Umbelliferæ, Compositæ, Primulaceæ, Scrophularineæ, Labiatæ, Cupuliferæ, Liliaceæ.

And also (iii) To be able to describe concisely and in systematic fashion, flowering or fruiting specimens taken from (i) or (ii) as above, the various parts being known by their technical names, but otherwise more importance being attached to accuracy of observation than to the memory of technical terms.

B. How Plants live, grow, and reproduce.

(iv) The mode of development of the plant, the elementary facts of nutrition and respiration, the nature and function of root, stem and leaf, and their relations with external conditions and forces, to be determined *experimentally* by the aid of seedlings grown in the class-room from the following typical seeds or one-seeded fruits, viz., castor-oil *or* buck wheat, pea *or* bean, sunflower, mustard *or* cress, and maize, wheat *or* barley, and the bulb of hyacinth *or* onion.

(v) The functions of the floral parts, their relations with pollination, the production and protection of seeds, and the provisions for seed-dispersal, especially as illustrated in the Natural Orders named above.

(2) **Animal Biology.**

(i) Distinctive properties of living matter or protoplasm, as illustrated by the structure and mode of life of the Proteus-animalcule *or* *Amœba*. Differences between Animals and Plants. The nature of the Cell.

(ii) The general structure of the Frog. Elementary physiology of the Frog. The organs of digestion and their use. The nature of

blood. The structure of the heart, and the arrangement of the more important blood vessels. The use of a circulatory system. The nature of excretory organs. Mode of breathing. The kidneys and their use.

- (iii) The more important facts in the structure and habits of the freshwater Polype (*Hydra*); the Earthworm (*Lumbricus*); and the Crayfish (*Astacus*).
- (iv) Methods of reproduction in animals. The egg-cell and the sperm-cell. Fertilization of the egg. Segmentation of the fertilized egg. The metamorphosis of the Frog, treated in an elementary fashion.

(m) **Geometrical Drawing.**

Plane Geometry. Construction of Scales. Areas of plane figures. Problems on construction and simple properties of polygons, and the following curves: circle, ellipse, parabola, hyperbola, cycloid, and involute of circle. Determination of mass centre of a polygon. Simple problems on loci, including point-paths in elementary link-work. The representation and solution of algebraic equations by curves.

Solid Geometry. Elementary projections of points, lines, planes, and solids, including the cylinder, cone, and sphere. Simple sections. Projection of additional plans and elevations. Developments of the surfaces of simple solids. Elementary problems in inter-penetration of prisms, cylinders and cones, and developments of penetrated surfaces. Projection of helical surfaces and screw threads.

A list of candidates who have passed the Examination will be published, arranged in two divisions, in each of which the names will be placed in alphabetical order.

A pass-certificate signed by the Registrar will be given to each successful candidate after the list is published.

Unsuccessful candidates will be informed of the subjects in which they have failed on application to the Registrar after the publication of the list.

SCHEDULE OF EXAMINATIONS

accepted in lieu of the Matriculation Examination.

1. The Previous Examination of the University of Cambridge.
2. Responsions of the University of Oxford.
3. The Preliminary or Matriculation Examination of any recognised University.
4. The Higher Certificate of the Oxford and Cambridge Examinations Board.
5. The Oxford or Cambridge Senior Local Examination.
6. The Oxford or Cambridge Junior Local Examination with First or Second Class Honours, or with Distinctions in two subjects, which may be either languages or mathematics. (*After October 1st, 1907, these examinations will no longer be accepted in lieu of the Matriculation Examination.*)

Provided that Candidates who offer any of the above Examinations have passed at one examination in all the subjects required by the regulations for matriculation.

In the Faculties of Science, Arts and Commerce, the Oxford and Cambridge Higher Local Examinations in any subject will exempt candidates from further examination in that subject in the Matriculation Examination. A written statement from the Secretary of the Oxford Delegacy or the Cambridge Syndicate certifying that the candidate has passed the examination in that subject must be presented.

RECOGNITION OF THE MATRICULATION EXAMINATION BY OTHER INSTITUTIONS.

The Matriculation Examination of the University of Birmingham is recognised by the following Institutions in lieu of their own preliminary examination :—

Incorporated Law Society (provided that Latin is one of the subjects of examination).

Institute of Chartered Accountants (provided that the Matriculation Certificate includes all the subjects required for the Institute's Preliminary Examination).

Board of Education, for admission to Training Colleges.

General Medical Council, for Registration of Medical and Dental Students.

Institute of Chemistry.

The Engineering Matriculation Certificate is accepted by the Institution of Civil Engineers as exempting from their Studentship Examination.

SCHOOL CERTIFICATES.

The conditions under which the University conducts the Inspection of Secondary Schools will be found on page 169. In schools which come under this scheme the University is prepared to award Senior and Junior School Certificates under the following conditions—

1. Senior School Certificates will be awarded to candidates who :

(a) have pursued an approved course of study for a continuous period of three years in one school, or of four years in two schools which are under the University's inspection ; (b) have attained a standard of education fully equal to that of the University Matriculation Examination in an adequate range of subjects. The Certificate shall enumerate the subjects in which the necessary standard has been reached.

2. Holders of the Senior School Certificates will be exempted from the Matriculation Examination of the University in the cases where the subjects enumerated on

the Certificate include all the subjects demanded by the Faculty which they propose to enter.

3. Junior School Certificates will be awarded to candidates who :

- (a) have pursued an approved course of study for a continuous period of three years in a school or schools which are under the University's inspection ;
- (b) have attained such a standard as may reasonably be expected of a boy or girl of 15.

The Certificate shall enumerate the subjects in which the necessary standard has been reached.

4. The Certificates shall be awarded by the University upon the results of school examinations held by the inspectors of the University ; and the school record kept for each pupil throughout his period of attendance shall be available for inspection and consideration by the inspectors and examiners.

The Senior School Certificate is recognised by the following Institutions as exempting from their preliminary examinations :—

Royal Institute of British Architects.

General Medical Council, for Registration of Medical and Dental Students (if the necessary subjects are taken).

Institute of Chartered Accountants (provided that the Certificate includes all the subjects required for the Institute's Preliminary Examination).

Institute of Chemistry.

Incorporated Law Society (if Latin is taken).

Institution of Civil Engineers (if required subjects are taken).

Board of Education, for admission to Training Colleges.

The Senior School Certificate is also one of the "Leaving Certificates" recognised by the War Office in its revised regulations for admission to Sandhurst and Woolwich.

ADMISSION TO DEGREES.

Degrees are conferred at a special Congregation of members of the University held for the purpose at least once a year. The formal admission to degrees is made by the Chancellor, or, in his absence, by the Vice-Chancellor. No candidate is entitled to the use of a degree or to any of the privileges of a graduate until he has been admitted to the degree by the Chancellor or his deputy, and has signed the Register of Graduates.

REGULATIONS FOR DEGREES IN THE FACULTIES OF SCIENCE AND ARTS.

No undergraduate can obtain a degree without attendance upon certain prescribed courses of study in the University, extending over a period of at least three sessions after matriculation ; and no attendance upon lectures in the University prior to matriculation will be accepted as any part of the qualification necessary for a degree without special leave from the Senate. The work of candidates is estimated (1) by means of periodical exercises, class examinations, and inspection of laboratory note-books throughout the session, and (2) by means of examinations at the end of the session, and the same total of marks is assigned to each of these two portions of the student's work. In ordinary cases students must attain the standard of a pass both in term work and in the sessional examination, but some weakness in the final examination may be counterbalanced by special excellence in term work. At the end of each session every undergraduate is required to present a certificate of qualification, stating that he has attended to the satisfaction of the Professors concerned not less than two-thirds of the lectures, laboratory and exercise classes, and that he has passed such class examinations and performed such other exercises as his teachers may prescribe in connexion with their own courses, to the satisfaction of the Faculty, before being admitted to the University examination.

B.Sc. DEGREE IN PURE SCIENCE.

Candidates for the Bachelor's Degree in Pure Science are required to have spent at least three sessions in attendance on courses of study in the University after matriculation in the Faculty and to pass two University Examinations, the *Intermediate* and the *Final*, in addition to the class examinations held by the Professors in connexion with the courses of study. But if the candidates before entrance to the University have passed the Intermediate Examination (or an examination recognised by the University as equivalent to that examination) they will be allowed to sit for the Final Examination after two years of study; but in no case will the degree be conferred on such candidates until they have completed a further year of study, after which they become eligible for the degree of Master of Science. Candidates are further required to pass an examination in French and German, showing that they possess a knowledge sufficient to enable them to read scientific treatises or memoirs in these languages, before being admitted to the degree. Candidates who have taken either of these languages at the Matriculation Examination will be exempted from further examination in that language.

FIRST YEAR COURSES.

After matriculation in the Faculty, candidates who have not passed the Intermediate Examination are required to attend courses of study for at least one session in three of the following subjects:—

- (i.) Pure Mathematics.
- (ii.) Physics.
- (iii.) Chemistry.
- (iv.) Elementary Biology (Zoology and Botany).

Candidates who are taking Theory and Practice of Education in one of the University Training Colleges are permitted to offer that subject in place of either Zoology or Botany under heading (iv.).

Candidates, after presenting to the Registrar the necessary schedules of qualification in two or more of the three subjects, will be admitted to the Intermediate Examination in those subjects in June.

Candidates must pass in the three selected subjects in order to complete the examination, but they may present themselves and pass in two subjects at one examination, and take the remaining subject at a later examination.

Two printed examination papers will be set in each section of the examination, and there will be a practical examination in Physics, Chemistry, Zoology and Botany. Examiners will not be precluded from holding a *viva voce* examination in any subject, if they think it desirable.

There will be a supplementary examination in September, and candidates who have taken and passed in two or more of their subjects may complete the examination in September. Candidates who have failed in any of the subjects in June may be allowed by the Board of Examiners to sit for the examination again in September, or may be required to attend a further course in that subject before being admitted to a subsequent examination.

SECOND AND THIRD YEARS' COURSES.

After passing the Intermediate Examination candidates are required to take University Courses in one principal subject and two subsidiary subjects, or in two principal subjects, under the following groups :—

Principal Subjects :—Mathematics (Pure and Applied), Physics, Chemistry, Geology, Zoology, Botany, Physiology, Anatomy and Anthropology, Biology and Chemistry of Fermentation (together with Chemistry as a double subsidiary subject).

Subsidiary Subjects :—Pure Mathematics, Applied Mathematics, Elementary Pure Mathematics together with Elementary Applied Mathematics, Physics, Chemistry, Geology, Botany, Zoology, Physiology, Logic, Psychology, Metallurgy, Mining.

Double Subsidiary Subjects (each counting as two):—Physics, Chemistry, Geology, Botany, Zoology, Anatomy and Anthropology, Physiology.

The principal subjects must be studied for two years, while subsidiary subjects need in general only be studied for one year; but Subsidiary Mathematics extends over two

years. By the selection of a double subsidiary subject, a student is enabled to continue the study of a subsidiary subject for a second year, instead of choosing a fresh subsidiary subject.

Candidates, after presenting to the Registrar the necessary schedules of qualification in the selected subjects, are admitted to the Final Examination. The examinations in principal subjects are of a higher standard and cover a wider range than the examinations in subsidiary subjects.

The examination in a subsidiary subject studied during the year following the completion of the Intermediate Examination may be taken at the end of the year.

The examination will be conducted by printed papers and also by tests of practical work ; but the Examiners will not be precluded from holding a *viva voce* examination in any subject, if they think it desirable.

The B.Sc. class lists will be published in three divisions, the first of which will be called Honours, and will contain the names of those candidates who distinguish themselves in their principal subject.

B.Sc. IN APPLIED SCIENCE.

I.—ENGINEERING.

Candidates may obtain the Degree of Bachelor of Science in any of the three branches of Engineering, viz. : (a) Mechanical Engineering, (b) Civil Engineering, (c) Electrical Engineering, after attendance on prescribed courses of study in the University extending over a period of at least four years after matriculation.

But if a candidate before entrance to the University has passed the Intermediate Science or the First Engineering Examination (or an examination recognised by the University as equivalent), he will be allowed to enter on the second year courses of study, and will be eligible for the degree after three years instead of four.

The courses of study are briefly indicated in the following tables, and further particulars of the various subjects may be found in the Engineering Syllabuses.

FIRST YEAR COURSES.

The prescribed courses for the first year are the same in all the three branches of Engineering.

- (i.) Engineering Lectures, Drawing and Workshop.
- (ii.) Mathematics, Pure and Applied.
- (iii.) Physics, Lectures and Laboratory.
- (iv.) Chemistry, Lectures and Laboratory.

SECOND YEAR COURSES.

- (i.) Engineering Lectures, Exercises, Drawing and Workshop.
- (ii.) Mathematics, Pure and Applied.
- (iii.) Physics, Lectures and Laboratory.
- (iv.) Geology, for Civil Engineers, *or* Metallurgy, for Mechanical and Electrical Engineers.

THIRD YEAR COURSES.

A. For Mechanical Engineers.

- (i.) Engineering Lectures, Laboratory, Drawing and Workshop.
- (ii.) Mathematics, Pure and Applied.
- (iii.) Workshop in the Summer Vacation.

B. For Civil Engineers.

- (i.) Engineering Lectures, Laboratory, Drawing and Workshop.
- (ii.) Mathematics.
- (iii.) Surveying in the Summer Vacation.

C. For Electrical Engineers.

- (i.) Engineering Lectures, Laboratory, Drawing and Workshop.
- (ii.) Mathematics, Pure and Applied.
- (iii.) Workshop in the Summer Vacation.

FOURTH YEAR COURSES.

Candidates in their fourth year will spend their whole time at Engineering subjects, including Lectures, Laboratory, Drawing and Workshop. Civil Engineers also attend Lectures, Laboratory and Fieldwork in Geology.

At the end of each session there will be a University Examination on the prescribed courses of study, to which candidates will be admitted after presenting to the Registrar the necessary schedules of qualification. Candidates who fail to pass in the Engineering subjects and at least one of the other subjects are required to repeat the year's courses; candidates who pass in the Engineering subjects and at least one of the other subjects are allowed to offer their remaining subjects at a subsequent examination.

There will be supplementary examinations in September for first, second and third year candidates to enable those who have passed in Engineering and one other subject to complete the examination if permitted by the Board of Examiners; but the Board of Examiners may if it thinks fit require any candidate to attend a further course of study in any subject before sitting for another examination.

The degree of B.Sc. (Engineering), provided that the Engineering Matriculation Examination be passed on entering upon the course of study, is recognised as a preliminary qualification for appointment of Assistant Engineers to the permanent establishment of the Public Works Department of India, and as exempting from the examination of the Institution of Civil Engineers for Associate Membership.

The University Laboratories in Engineering are also included in the list of suitable technical schools for the training of Engineers in the Mercantile Marine, issued by the Board of Trade.

II.—METALLURGY.

Candidates may obtain the Degree of Bachelor of Science in Metallurgy after attendance on prescribed courses of study extending over a period of three years after matriculation, and passing examinations at the end of each year.

The general arrangements for the examinations are similar to those already described in connexion with the Degree in Engineering.

The prescribed courses are as follows :—

FIRST YEAR COURSES.

- (i.) Pure Mathematics.
- (ii.) Physics, Lectures and Laboratory.
- (iii.) Chemistry, Lectures and Laboratory.
- (iv.) Metallurgy, and Laboratory.
- (v.) Engineering, Drawing and Workshop.

SECOND YEAR COURSES.

A. For Metallurgists.

- (i.) Metallurgy, Lectures and Laboratory.
- (ii.) Engineering Lectures, Drawing and Workshop.
- (iii.) Chemistry, Laboratory.
- (iv.) Geology, Lectures and Laboratory.

B. For Metallurgical Chemists.

- (i.) Metallurgy, Lectures and Laboratory.
- (ii.) Engineering Lectures, Drawing and Workshop.
- (iii.) Chemistry, Lectures and Laboratory.

THIRD YEAR COURSES.

A. For Metallurgists.

- (i.) Metallurgy, Lectures and Laboratory.
- (ii.) Metal Mining, Lectures, Surveying, and Laboratory.

B. For Metallurgical Chemists.

- (i.)[†] Metallurgy, Lectures and Laboratory.
- (ii.) Chemistry, Lectures and Laboratory.

For further particulars of these courses, see the Syllabus of Metallurgy.

III.—MINING.

Candidates may obtain the Degree of Bachelor of Science in Mining after attendance on prescribed courses of study extending over a period of at least three years after matriculation, and passing examinations at the end of each year. Candidates are further required to have practical experience in a mine for at least two months in each year, or to have had at least four months of such experience before entering on their courses in the University.

The general arrangements for the examinations are similar to those already described in connexion with the Degree in Engineering.

The prescribed courses are as follows :—

FIRST YEAR COURSES.

- (i.) Mathematics.
- (ii.) Physics, Lectures and Laboratory.
- (iii.) Geology, Lectures and Laboratory.
- (iv.) Mining, Lectures and Laboratory.

SECOND YEAR COURSES.

- (i.) Mathematics.
- (ii.) Mining, Lectures and Laboratory.
- (iii.) Geology, Lectures and Laboratory.
- (iv.) Chemistry, Lectures and Laboratory.
- (v.) Engineering Drawing.

THIRD YEAR COURSES.

- i.) Mining.
- (ii.) Engineering, Lectures and Laboratory.
- iii.) Metallurgy, Lectures and Laboratory.

For further particulars of these courses, see the Syllabus of Mining.

M.Sc. DEGREE.

Bachelors of Science may be admitted to the degree of Master of Science after a further course of study extending over not less than one academic year.* Candidates are required either—

- (i.) To present a thesis and, if the Examiners think it desirable, to pass a *viva voce* examination ;
or—
 - (ii.) To pass an examination, both written and practical.
-

D.Sc. DEGREE.

Candidates may be admitted to the degree of Doctor of Science, after the expiration of at least two academic years after qualifying for the B.Sc. degree, on the presentation and approval of a printed and published thesis embodying the results of original research, or contributing generally to the advancement of Science.

For ADMISSION OF GRADUATES from other Universities, see p. 163.

* In ordinary cases, the year of study must be spent at the University of Birmingham; but candidates desirous of pursuing some special line of study at some other place may receive permission to do so on the recommendation of the Faculty!

ORDINARY COURSES FOR THE B.A. DEGREE.

Candidates for the Degree of Bachelor of Arts are required to have spent at least three sessions in attendance on lectures in the University after having been matriculated in the Faculty, and to pass three University Examinations, the Intermediate, and the First and Second Degree Examinations, in addition to the Class Examinations held by the Professors in connexion with their courses.

Candidates who pass the Intermediate Examination before entering the University are allowed to commence their studies at the second year's courses and are eligible to sit for their final B.A. Examination after two years of study. Such candidates will not be eligible to receive the degree until they have completed another year of study, after which they will be eligible to receive the M.A. degree.

FIRST YEAR'S COURSES.

After being matriculated in the Faculty, candidates who have not passed the Intermediate Examination are required to attend courses of study for at least one session in each of the following subjects:—

- (i.) Latin.
- (ii.) English Language, Literature and History.
- (iii.) Either Pure Mathematics or Logic.
- (iv.) Two of the following, of which one must be a modern foreign language or Hellenistic Greek:—Greek (Classical or Hellenistic), French, German, Italian, Spanish, Logic or Pure Mathematics (if not already selected under iii.), a Physical or a Natural Science, Theory and Practice of Education, British Institutions, Geography.

Candidates, after presenting to the Registrar the necessary schedules of qualification in three or more of these subjects, will be admitted to the Intermediate Examination in those subjects.

Two printed examination papers will be set in each of the five subjects of Examination. There will also be a *viva voce* examination in Latin, Greek, and Modern Foreign Languages. The Examiners, however, will not be precluded from holding a *viva voce* examination in any subject, if they think it desirable.

The Intermediate pass list will be issued in three divisions, the first of which will contain the names of those candidates who pass with distinction.

There will be a supplementary examination in September, and candidates who have taken and passed in three or more of their subjects may complete the examination in September. Candidates who have failed in any of the subjects in June may be allowed by the Board of Examiners to sit for the examination again in September, or may be required to attend a further course in that subject before being admitted to a subsequent examination.

SECOND AND THIRD YEARS' COURSES.

Candidates are required to take either a two-year course of study in each of four principal subjects, or a two-year course of study in each of three principal subjects, and a one-year course in each of two subsidiary subjects. When four principal subjects are taken one subject must be selected from each of the following groups i.—iv. ; and when five subjects are taken one must be selected from each of the following groups i.—v. :—

- (i.) One Ancient Language and Literature (Latin, Greek or Hebrew.)
- (ii.) One Modern Foreign Language and Literature (French, German, Italian, Spanish, or, provided that Greek is not taken under heading (i), Hellenistic Greek).
- (iii.) Either English Literature or History (Ancient or Modern).
- (iv.) Either Mathematics or Philosophy.
- (v.) A "special subject" to be selected among the subjects taught in the University at compatible hours. This subject must be either

- (a) A fifth subject (other than the four already selected) from one of the preceding four groups, or
- (b) A fifth subject not contained in any of the above groups, studied for one year as a subsidiary subject; *e.g.*, Logic (if not already taken at the Intermediate Examination), a subject or group of subjects taught in the Faculty of Commerce, as approved by the Faculty of Arts; History of Educational Ideas, a Physical or Natural Science.

There will be a written examination at the end of each Session, at which two printed examination papers will be set in each subject studied during that Session, and candidates will be admitted to these examinations after presenting to the Registrar the necessary schedules of qualification.

There will also be a *viva voce* examination in Latin, Greek, and Modern Foreign Languages. The Examiners, however, will not be precluded from holding a *viva voce* Examination in any subject, if they think it desirable.

Candidates who pass the examination in one or more of their principal subjects shall not be required to be re-examined in those subjects, provided they have attained a standard equal to the second division at least.

The B.A. pass list will be issued in three divisions, the first of which will contain the names of those candidates who pass with distinction in one or more of their principal subjects.

Candidates who have failed in any of the subjects offered for examination may be required by the Faculty to attend a further course of study in that subject before being admitted to a subsequent examination.

M.A. DEGREE.

Bachelors of Arts may be admitted to the degree of M.A. after at least one further year of study in the University on passing an Examination in one or in two of the principal subjects taken at the B.A. Degree, and presenting a dissertation indicative of acquaintance with

the methods of research and connected with the subject or with one of the subjects offered for examination. Candidates studying for one year only will be required to give their whole time to study and to attend the lectures prescribed in their subject or subjects, but will not be required to sit for terminal examinations. Candidates who cannot give their whole time to study may extend their studies over two or more years; but in every such case candidates must obtain the Faculty's approval of the course of study they intend to pursue, and must satisfy the Faculty at the end of their first year that their work and progress are satisfactory. In ordinary cases the year or years of study must be spent at the University of Birmingham; but candidates desirous of pursuing some special line of study at some other University (British or Foreign) may receive permission to do so on the recommendation of the Faculty.

ALTERNATIVE COURSES FOR DEGREES IN ARTS.

These courses are designed to allow students, especially those who are preparing for the career of a teacher in the higher forms of secondary schools, to devote themselves to a smaller number of subjects studied at a much higher standard than those prescribed in the preceding regulations.

(a) SCHOOL OF MODERN LANGUAGES.

Candidates may be admitted to the School of Modern Languages after passing the Intermediate Examination in Arts, the following subjects being taken :—(i.) French, (ii.) German, (iii.) Latin, (iv.) English Language, Literature and History, (v.) either Mathematics or Logic.

This Examination may be taken either at entrance to the University in lieu of the Matriculation Examination, or at the end of one year's course of study at the University after passing the Matriculation Examination.

Candidates not having already been matriculated who offer Logic instead of Mathematics at the Intermediate Examination will be required to qualify in Mathematics at the Matriculation Examination, either in July or September.

After completing a three years' course of study and passing three examinations, students of the School will be admitted to the degree of Master of Arts in the School of Modern Languages.

The course for the degree of Master of Arts in the School of Modern Languages embraces the following subjects of study :—

- (i.) French *or* German, taken as a principal subject.
- (ii.) German *or* French *or* English, taken as a subsidiary subject.
- (iii.) An additional subject during the first two years of the course, viz., either German *or* French *or* English *or* Latin.

The First Examination in the School of Modern Languages will be held at the end of the first year of study.

The Second Examination in the School of Modern Languages will be held at the end of the second year of study.

The Final Examination in the School of Modern Languages will be held at the end of the third year of study, and will include papers of the standard of the ordinary M.A. Examination in the following groups, of which Groups I and II must be taken in the principal subject, and Group I in the subsidiary subject :—

French.

GROUP I.

- (i.) French Essay.
- (ii.) Unprepared French Translation.
- (iii.) Selected French Authors.
- (iv.) History of French Literature.

GROUP II.

- (i.) French History and Institutions.
- (ii.) Old and Middle French Texts.
- (iii.) Romance Philology.
- (iv.) A selected period of French Literature.

German.

GROUP I.

- (i.) German Essay.
- (ii.) Unprepared German Translation.
- (iii.) Selected German Authors.
- (iv.) History of German Literature.

GROUP II.

- (i.) German History and Institutions.
- (ii.) Old and Middle High German Texts.
- (iii.) Germanic Philology.
- (iv.) A selected period of German Literature.

English (if taken as a subsidiary subject).

- (i.) English Essay.
- (ii.) Shakspeare.
- (iii.) Selected English Authors.
- (iv.) History of English Literature.

For Scholarships tenable in the School of Modern Languages, see Harding Scholarships in German, p. 378.

(b) OTHER SPECIALISED COURSES.

Candidates shall be admitted to an advanced course in Arts after passing the Intermediate Examination in Arts; which examination may be taken either on entrance to the University in lieu of the Matriculation Examination, or at the end of one year's course of study at the University subsequent to passing the Matriculation Examination. Candidates not having already been matriculated who offer Logic instead of Mathematics at the Intermediate Examination will be required to qualify in Mathematics at the Matriculation Examination, either in July or September.

The Intermediate Examination is held twice a year in June and September, and students desiring to take it in lieu of the Matriculation Examination may be examined at either of these dates. After completing a three years' course of study and passing two examinations students shall be admitted to the degree of Master of Arts. The course of study shall embrace (1) two principal subjects studied during three years each; (2) one subsidiary subject studied during two of the three years.

The first examination shall be held at the end of the first year of study; the final examination shall be held at the end of the third year of study, and shall include at least four papers of the standard of the existing M.A. Examination in each of the principal subjects. The examination in the subsidiary subject shall be of the standard of a principal subject at the B.A. Examination, and shall be taken at the end of either the second or third year of study.

The following may be taken as principal subjects: Latin Language and Literature, Greek Language and Literature, French Language and Literature, German Language and Literature, English Language and Literature, Modern History, Mathematics, Mental and Moral Philosophy.

Any of the above or one of the following may be taken as the subsidiary subjects:—(1) Theory and Practice of Education, or (2) a Physical or Natural Science, or (3) a subject or group of subjects taught in the Faculty of Commerce, as approved by the Faculty of Arts.

D.PHIL. AND D.LITT. DEGREES.

Masters of Arts may be admitted to the degree of D.Phil. (Doctor Philosophiæ) or D.Litt. (Doctor Litterarum) on the presentation and approval of a printed or type-written dissertation embodying the results of original research or contributing generally to the advancement of learning.

ADMISSION OF GRADUATES FROM OTHER UNIVERSITIES.

FACULTIES OF SCIENCE AND ARTS.

Graduates or persons who have passed degree examinations of other Universities, who present evidence satisfactory to the Faculty concerned that they are qualified to pursue a course of advanced study or research, are allowed to enter the University and to become candidates for the degree of Master (without taking the Bachelor's degree) after two years of regular study or research, provided that they satisfy the Faculty at the end of their first year that their work is satisfactory. Under ordinary circumstances such candidates are expected to give the whole of their time to such study or research, but in special cases the Faculty may exercise its discretion in relaxing this condition. Application, with full statement of the circumstances of the case, must be made to the Dean of the Faculty before the commencement of the Session. Persons who take the Master's degree under this regulation will be allowed to become candidates for the Doctor's degree at any time after one year from the attainment of the Master's degree, without further attendance at the University.

All students admitted under this regulation must be matriculated at the commencement of their period of study, and are then called Graduate Students and are members of the Guild of Undergraduates.

SECONDARY TEACHERS' DIPLOMA REGULATIONS FOR 1906-7.

*(One of the Diplomas recognised by the Board of
Education for Registration on Column B.)*

1. Candidates for the Secondary Teachers' Diploma shall have been admitted to a Degree in the University of Birmingham or in some other University of the United Kingdom, or shall have obtained such other qualifications as shall be approved by the Senate of the University as representing a standard equivalent to such degree.

2. The course for candidates for the Diploma shall extend over one academical year, and shall consist of regular attendance in a Secondary School approved by the University for the purpose (§3) and of attendance upon courses of lectures in the University (§7).

3. The attendance at the Secondary School shall be regular and continuous throughout the year; and it shall be arranged so as to include not less than three school mornings of the week. Each candidate shall, under the general supervision of the Head Master or Head Mistress, be specially attached for given periods to the work of a Master or Mistress, who shall make the candidate as thoroughly acquainted as possible with school methods, arrangements of curriculum, &c. Any work (including preparation for lessons) done by the candidate in connection with the school shall not extend beyond the ordinary hours of morning school. The preparation of lessons need not necessarily be done at the School.

4. A satisfactory report from the Head Master or Head Mistress shall be presented before the candidate can be admitted to the examination.

5. Each candidate will be required in the course of the year to give specimen lessons to a class of the

school under the joint supervision of the Head Master or Head Mistress and of the University authorities.

6. Until 1906, persons who have acted as regular teachers for at least two years in an approved Secondary School may be exempted from the requirements of § 3.

7. Candidates shall attend courses of lectures at the University on such subjects as the following:—Theory and Practice of Teaching, History of Educational Ideas, Psychology, School Hygiene, Voice Production, and Methods of Teaching in Specific Subjects. Such lectures shall average not less than five hours per week throughout the year. It will be arranged that the lectures be delivered at the University during the afternoon. The course of attendance at the University shall also, by arrangement with the City of Birmingham Education Committee, include observation of the methods and arrangements of elementary schools.

8. The examination shall take place, as a rule, during June, and shall consist both of written papers and of the delivery of practical lessons. The examination papers, while following the general lines of the courses of lectures which have been attended at the University, will not be confined to the actual subject-matter dealt with in them, but will include examination in a wider range of reading on educational subjects. The fee for the examination is £2.

9. The list of successful candidates will be issued in alphabetical order, and no special honours will be assigned to any candidate. The Diploma will indicate at what school the candidate has attended under § 3.

The Head Masters or Head Mistresses of the following schools in the Midland district are willing to accept candidates for the Teachers' Diploma in their schools under the conditions of §§ 3, 4, 5, 6, and their schools have been approved by the University for these purposes:—

FOR BOYS :

Birmingham, King Edward's High School.
 „ King Edward's Grammar School, Aston.
 „ „ „ Camp Hill.
 „ „ „ Five Ways.
 „ Municipal Technical Day School.
 „ St. Philips' R.C. Grammar School.
 Bromsgrove School.
 Burton-on-Trent Grammar School.
 Cheltenham College.
 „ Dean Close School.
 Coventry, King Henry VIII. Grammar School.
 Denstone College.
 Derby School.
 Handsworth Grammar School.
 Kidderminster, King Charles I. Grammar School.
 Leicester, Wyggeston Boys' School.
 Malvern College.
 Newcastle-under-Lyme School.
 Repton School.
 Shrewsbury School.
 Stourbridge, King Edward's Grammar School.
 Sutton Coldfield Grammar School.
 Walsall Grammar School.
 Warwick, King's County School.
 Wolverhampton, Tettenhall College.
 Worcester, King's School.
 „ Royal Grammar School.

FOR GIRLS :

Birmingham, King Edward's Grammar School, Camp Hill.
 „ King Edward's Grammar School, Aston.
 Coventry High School for Girls.
 Dudley High School for Girls.
 Edgbaston High School for Girls.
 Leicester, Wyggeston High School for Girls.
 Shrewsbury High School for Girls.
 Stafford High School for Girls.
 Walsall, Queen Mary's High School for Girls.
 Warwick, King's High School.

Candidates for the Secondary Teachers' Diploma shall pay a fee of five guineas per session, which shall include the Entrance Fee. This fee will admit to the course on the History of Educational Ideas (Mr. Roscoe), to the course on Psychology (Professor Muirhead), and to a course on the General Principles of Teaching (Miss Joyce), and also to a number of short courses of lectures, which will be specially arranged for Diploma candidates.

Acting Teachers in Secondary Schools will be admitted to all these special courses on payment of a Composition Fee of £1 11s. 6d per session, which shall include the Entrance Fee. The fee for any one of these courses will be 10s., including Entrance Fee of 5s.

Communications may be addressed to

Professor ALFRED HUGHES,

at the University.

DIPLOMA OF ART INSTRUCTOR.

A Diploma of Art Instructor is awarded to candidates trained by the University of Birmingham in conjunction with the Municipal School of Art. Candidates for this Diploma are required to have satisfied the following conditions:—

(a) They shall have pursued for not less than four years, in the Birmingham School of Art, a course of study, and *either* shall have attained the grade of Art Teacher or Master, *or* shall have passed through a course of instruction approved by the Committee of the Birmingham School of Art.

(b) Before having attended this course of instruction they shall have passed either (1) the Matriculation Examination of the University of Birmingham, or (2) the Matriculation Examination of some other University, or (3) such other examination or examinations as may be approved of by the Senate of the University. Provided that, for the present and until the Senate shall otherwise decide, the examination alluded to in this section may be passed during or after the course of study laid down in clause (a).

(c) Subsequently to the passing of the examination mentioned in clause (b) they shall have attended in the University of Birmingham during one year, a course in English Literature, and at least two out of the following courses, each of which shall be of one year's duration. Such courses may be taken in separate years or in two years, but not, unless by special permission of the Senate, in one year:—

- (1) Modern History and Archæology.
- (2) Ancient History and Archæology.
- (3) French Language and Literature.
- (4) German Language and Literature.
- (5) Italian Language and Literature.
- (6) Latin.

(7) Greek.

(8) External forms of Plants and Animals.

(9) Earth Structure and Landscape.

(d) They shall have passed examinations in the subject of each course, which examinations may be passed separately at the termination of each course or otherwise.

(e) They shall have attended a course of Lectures on the Art of Teaching delivered in the University.

(f) Each candidate shall have acted for at least twelve months as an Assistant Teacher or Student Teacher under the supervision of one of the Teachers of the Birmingham School of Art, or of some other approved teacher, and shall have received, from such teacher, a certificate of competency to teach.

INSPECTION OF SCHOOLS.

The University undertakes to inspect and report upon Secondary Schools in the Midland District under the following conditions :—

i. The school shall be open to the inspection of the Organizing Professor of Education or other official of the University during the whole of the academical year, *i.e.*, September to July, on which the report is to be made.

ii. The representative of the University shall consider the curriculum of the school in conjunction with the Head Master or Head Mistress of the school ; he shall have the opportunity of hearing lessons given by members of the staff, and of discussing methods of teaching with them ; and he shall from time to time see written work of the scholars.

iii. It is intended, however, that much freedom shall be given to teaching staffs as regards methods and curricula; and they will not be required to conform to the conditions of any special examination.

iv. An examination will be held near the end of the school year, on which Senior or Junior School Certificates will be awarded. The papers will be set by examiners of the University, after they have made themselves fully acquainted with the aims and methods of the teachers of the classes concerned, and the scope of their work. But the school may, if preferred, make use of the papers set by the University for other purposes, *e.g.*, those of the Matriculation Examination.

v. The University will furnish a report to the authorities of the school at the end of the school year; such report will take account of the results both of examination and inspection and may deal with such matters as buildings and equipment.

vi. If desired, one department of a school (*e.g.*, a modern side) may be inspected and reported upon separately.

vii. The following will be the charges to the school:—

For Inspection, for a school of 100 scholars	
or less 	£5 os.

For Inspection, for a school of between 100	
and 200 scholars	£7 10s.

For the Report 	£2 os.
--	-----------

For the Certificate Examination (*a*) where special papers are set for the school, £1 10s. per paper; (*b*) where the papers of the Matriculation Examination are used, no charge will be made.

viii. Each scholar who qualifies for a Senior School Certificate must pay £1 before it can be issued to him, and will be required to pay £1 in addition if he uses it as the qualification for matriculating at the University.

Each scholar who qualifies for a Junior School Certificate must pay 10s. before it can be issued to him.

FACULTY OF SCIENCE.

Syllabuses of Courses.

MATHEMATICS.

Professor : R. S. HEATH, M.Sc. ; M.A. (Cantab.),
D.Sc. (Lond.), late Fellow of Trinity College, Cambridge.

Lecturer : C. T. PREECE, M.A. (Cantab.), late Scholar of
Trinity College, Cambridge.

Assistant Lecturers : S. B. McLAREN, M.A. (Cantab.).
J. O. GRIFFITH, M.A. (Oxon.), Fellow
of St. John's College, Oxford.

PURE MATHEMATICS.

PRELIMINARY COURSE.

Mondays, Tuesdays, Thursdays, and Fridays, from
10.30 to 11.30.

FEE :—£4 4s.

ARITHMETIC.—The ordinary rules, vulgar and decimal fractions, methods of manipulation of decimals in approximations, square root, proportion, interest, discount, stocks.

ALGEBRA.—Addition, subtraction, multiplication and division ; simple equations ; fractions ; highest common factor, lowest common multiple ; quadratic equations ; solutions of two simultaneous equations, one at least being linear ; simple graphs ; problems requiring the classes of equations specified ; simple questions on fractional indices ; the nature and simple properties of logarithms to the base 10, with easy applications of four-figure tables ; ratio and proportion ; arithmetic progression, finite geometric progressions.

GEOMETRY.—Practical and theoretical geometry, according to the schedules required for the Matriculation Examination.

UNIVERSITY COURSES.

I.

Mondays and Fridays, from 12.30 to 1.30.

Tuesdays and Thursdays, from 11.30 to 12.30.

FEE :—£4 4s.

ALGEBRA.—Elementary properties of surds and imaginaries; simultaneous quadratics and equations like quadratics; theory of indices; theory and practical applications of logarithms; permutations and combinations; arithmetical and geometrical progressions, and other simple series; the binomial theorem for a positive integral exponent.

TRIGONOMETRY.—Trigonometrical ratios of acute angles; solution of right-angled triangles, and simple problems of heights and distances; circular measure of angles; length of arcs of circles; angles of any magnitude and sign; trigonometrical ratios of obtuse angles; sine, cosine, and tangent of the sum and difference of angles; formulæ for the ratios of the double angle, triple angle, and the half angle; transformation of sums and differences of sines and cosines into products, and vice-versâ; properties of triangles; solution of triangles; problems on heights and distances; the chief circles related to a triangle; regular polygons; areas of circles, sectors, and segments.

GEOMETRY.—The substance of Euclid, Books VI. and XI, 1—21, together with properties, areas of surface, and volumes of polyhedra, cylinders, cones, and spheres; elementary theory of projection and perspective.

II.

Mondays, Wednesdays, and Fridays, from 10.30 to 11.30.

FEE:—£4 4s.

ALGEBRA.—Theory of quadratic functions and quadratic fractions, their graphs and maxima and minima values; the remainder and factor theorems of rational functions; theory of rational and partial fractions; the convergence and properties of the binomial, exponential and logarithmic series.

TRIGONOMETRY.—Inverse notation; graphs of the trigonometrical functions; theory of complex quantities; Argand's diagram and de Moivre's theorem; series for sine and cosine and calculation of tables; exponential forms of sine and cosine; hyperbolic functions; Gregorie's series; calculation of π .

GEOMETRY.—The elementary properties of conic sections.

DIFFERENTIAL CALCULUS.—Methods of differentiation; Taylor's and Maclaurin's theorems; theory of maxima and minima.

INTEGRAL CALCULUS.—Methods of integration; calculation of curve lengths, areas and volumes by single integration.

III.

Mondays, Wednesdays, and Fridays, from 9.30 to 10.30.

FEE:—£4 4s.

ANALYTICAL GEOMETRY up to the elementary properties of the conic sections.

DIFFERENTIAL CALCULUS.—Tangents, normals, asymptotes, singularities of curves; tracing of curves; properties of special curves (including sine-curve, logarithmic curve, cycloids and catenary).

INTEGRAL CALCULUS.—Formulae of reduction; differentiation and integration of an integral with regard to constants; properties of special curves; double and triple integration.

DIFFERENTIAL EQUATIONS.—Standard forms; singular solutions; linear and homogeneous equations with constant coefficients; special equations commonly occurring in dynamical and physical problems.

IV.

Mondays, Wednesdays, and Fridays, from 9.30 to 10.30.

FEE:—£4 4s.

ANALYTICAL GEOMETRY of three dimensions.

HIGHER DIFFERENTIAL EQUATIONS.

APPLIED MATHEMATICS.

UNIVERSITY COURSES.

I.

Mondays, Wednesdays, and Fridays, from 9.30 to 10.30; or Tuesdays and Thursdays, from 10.30 to 11.30; and Saturdays, from 9.30 to 10.30.

FEE:—£4 4s.

STATICS.—The theory of the composition and resolution of forces; the theory of moments; parallel forces and couples; equilibrium of bodies under the action of forces in one plane; force-diagrams and link-polygons; centres of gravity; the simpler machines, balances, pulleys, screw-jacks, &c.; friction and its effects in the working of machines; theory of work and efficiency of machines; statics of jointed frame-works.

DYNAMICS.—Definition, measurement, and properties of velocities and accelerations ; measurement of momentum and force ; work and energy ; motion of a body under the action of a force which is constant in magnitude and direction, including the motion of projectiles ; theory of impacts ; uniform circular motion ; harmonic oscillations ; the simple pendulum ; theory of dimensions of dynamical quantities ; change of units.

HYDROSTATICS.—Equilibrium of liquids under the action of gravity ; pressures of liquids on plane areas and on solid bodies, partially or wholly immersed ; Boyle's and Charles' laws of gases ; hydrostatic machines, such as presses, barometers, pumps, &c.

II.

Mondays, Wednesdays, and Fridays, from 10.30 to 11.30.

FEE :—£4 4s.

STATICS.—Continuation of the subjects of the Course I. and more difficult applications ; application of integral calculus to the determination of centres of gravities ; stability ; equilibrium of strings ; small curvatures of flexible beams.

DYNAMICS OF A PARTICLE.—Application of differential and integral calculus to the measurement of velocities and accelerations ; motion of chains under the action of gravity ; motion under central forces ; motions of particles on fixed curves.

RIGID DYNAMICS.—Moments of inertia ; motion of a rigid body about a fixed axis ; theory of impacts and centres of percussion ; theory of angular momentum and kinetic energy ; motions of bodies in two dimensions under the action of given forces.

HYDROSTATICS.—Metacentres, stability and small oscillations of floating bodies.

For Vacation Reading, see p. 385.

REQUIREMENTS FOR DEGREES.

Intermediate Examinations in Science and Arts:—

Course I.

B.Sc. Degree:—

(i.) Mathematics as a Principal Subject :—

Courses II and III in Pure, and Courses I and II in Applied Mathematics.

(ii.) Mathematics as a Subsidiary Subject :—

One of the following combinations :

(a) Courses II and III in Pure Mathematics.

(b) Courses I and II in Applied Mathematics (for students who know sufficient pure mathematics).

(c) Course II in Pure and Course I in Applied Mathematics.

B.A. Degree :—

(i.) (When Mathematics is taken for two years). The same combinations as for Subsidiary Mathematics for B.Sc. Degree.

(ii.) (When taken for one year only). Course II in Pure Mathematics or Course I in Applied Mathematics.

PHYSICS.

Professor: J. H. POYNTING, M.Sc.; Sc.D. (Cantab.),
D.Sc. (Vict.), F.R.S., late Fellow of Trinity College,
Cambridge.

Lecturer: G. A. SHAKESPEAR, B.A. (Cantab.),
B.A., B.Sc. (Lond.).

Assistant { G. BARLOW, D.Sc. (Lond. and Wales).
Lecturers { A. D. DENNING, M.Sc.; Ph.D. (Heid.).

Special Lecturer on Experimental Physics:
G. A. SHAKESPEAR, B.A., B.Sc.

INTRODUCTION.

All First Year Undergraduates in Pure Science, in Applied Science (including Engineering, Metallurgy and Mining) and in Medicine, are required to take Course I., which includes three lectures and two hours laboratory weekly.

Undergraduates who, having passed the Intermediate Examination in Science, select Physics as a subject for their degree, may take it as a Single Subsidiary, as a Double Subsidiary, or as a Principal Subject. The following are the courses in the different cases:—

Single Subsidiary: Course II., which includes three lectures weekly, and six hours laboratory weekly for one session.

Double Subsidiary: Course II. and six hours laboratory weekly in the second year. Course III., which includes three lectures weekly, and six hours laboratory weekly in the third year.

Principal: Course II. and nine hours laboratory weekly in the second year. Course III. and twelve hours laboratory weekly in the third year.

The lectures and laboratory are open to all students who are qualified to take them, whether they are Undergraduates or not. Beginners will take *either* the Preliminary Course on Experimental Mechanics (p. 186), *or* Course I.

UNIVERSITY COURSES.

I.

For First Year Undergraduates in Pure Science, Applied Science, and Medicine.

Lecture Hours.—Mondays, Wednesdays, and Fridays, from 11.30 to 12.30.

Practical Class.—Mondays or Fridays, 2.30 to 4.30.

For Text Books and Vacation Reading see page 385.

FEE:—£5 15s. 6d.

Position, Velocity, and Acceleration always relative to a standard. Effect of change of standard. Resolution and Composition of Velocities and Accelerations. Uniform Motion in a circle. Conical Pendulum. Determination of g . Gravitation. Dimensions and Mass of the Earth.

PROPERTIES OF MATTER.—*Solids*: Sticking and sliding friction. Strains and Stresses. Bulk Strain and Shear Strain. Various kinds of permanent change of shape and rupture. Crystalline and Amorphous Solids. *Liquids*: Viscosity. Compressibility. Surface Tension. *Gases*: Compressibility. Viscosity. Kinetic Theory of Matter. Diffusion. Solution. Osmotic Pressure.

HEAT. — Temperature. Mercury-in-glass thermometer. Determinations of high and low temperatures. Expansion of solids and liquids. Circulation and Convection in Liquids. Expansion of gases at constant pressure and increase of pressure at constant volume. Gas thermometer. Circulation and Convection in gases. Movements of the Atmosphere. Quantity of Heat. Specific Heat and simple methods of measuring it. Conduction of Heat. Conductivity. Heat a form of Energy. The forms of Energy and their transformations according to fixed rates of exchange. The Conservation of Energy. Methods of determining the Mechanical Equivalent of Heat. The nature of Heat on the Kinetic Theory of Matter. Limitation in the amount of heat which can be transformed to work. Change of State. Latent Heat. Liquid-Vapour Change. Evaporation. Boiling. Vapour Pressure. Dependence of boiling point on Pressure, and explanation. Modes of measuring Vapour Pressure. Explanation of Vapour Pressure on the Kinetic Theory. Water Vapour in the Atmosphere. Hygrometers. Cloud. Fog. Dew. Solid-Liquid Change. Melting Point. Change of volume on melting. Effect of pressure on Melting Point. Regelation. Radiation. High and Low Radiating and Absorbing Powers. Comparison of properties of radiation from hot bodies and properties of light. Identification. The Spectrum. Substances absorb the radiations which they can emit. Dark lines in Solar and Stellar Spectra.

LIGHT.—Light a form of Energy. Rectilinear Propagation. Shadows. Eclipses. Inverse Square Law. Simple Photometers. Reflection. Refraction and Dispersion. Velocity of Light. Light a form of Wave Motion. Illustrations of Interference. The Diffraction Grating. Polarisation of Light. Mirrors. Prisms. Lenses. The Eye. Simple forms of Telescope and Microscope.

SOUND.—Sound arises from vibrating sources which send out longitudinal waves in air. Characteristics of the waves, corresponding to Loudness, Pitch and Quality. Velocity of Sound in air, and other media. Determinations of Frequency. Resonance. Its use to analyse sounds. Harmonics and Upper Partial. Quality. Transverse Vibrations of Strings. Vibrations of air in Pipes. Other vibrating sources. Beats. Concord and Discord. Combination Tones.

MAGNETISM.—Properties of Magnets. The two poles, their equality and inseparability. Magnetisation by Induction. Methods of making Magnets. Inverse Square Law. Magnetic Fields and Lines of Force. Strength of poles and Moments of Magnets. The Earth as a Magnet. Declination, Dip and Intensity. Magnetic Properties of different substances. Temperature and Magnetic Qualities.

ELECTRICITY.—The two kinds of Electrification and simple modes of producing them. Conductors and Insulators. The Gold Leaf Electroscope. Electrification by Induction. Frictional Electrical Machines. The Electrophorus. The Wimshurst Machine. The Leyden Jar. Production and Disappearance of the two Electrifications, always in equal quantities. The Electric Field considered as the seat of respectively Electric Strain, Electric Forces and Electric Energy. The Inverse Square Law. The Unit of Charge. Potential, Capacity, and Energy of Charge. Electrometers. The effect of the medium. Specific Inductive Capacity.

ELECTRO-MAGNETISM.—Electric Discharge and the Magnetic Effects accompanying it. Electro-magnetic Waves. Electric Current. Voltaic and Storage Cells. The Magnetic Properties of the Current Circuit. The Ampere. Galvanometers and Ampere Meters. The Forces on Current Circuits in a Magnetic Field. Electric Motors. Ohm's Law. Resistance. The Heat developed in the Circuit. Joule's Law. The Ohm. The Volt. Electrolysis. Electro-chemical equivalents. Thermo-electricity. The Induction of Currents. Lenz's Law and Faraday's Law. The Dynamo. The Induction Coil. The Transformer.

NOTE.—Every member of the class is required to have a slide rule for calculations. Slide rules, price 3s. 6d. each, may be obtained in the Laboratory.

II.

Lectures on Elementary Mathematical Physics for all Undergraduates taking Physics as a subject for a degree.

Lecture Hours.—Mondays, Wednesdays, and Fridays, from 11.30 to 12.30.

FEE for Lectures :—£3 13s. 6d.

Laboratory Hours.—Six hours weekly if Physics is a Subsidiary Subject, nine hours weekly if it is a Principal Subject, at times to be arranged.

FEE :—Six hours weekly, £6 6s. ; nine hours weekly, £7 17s. 6d.

For Text Books and for Vacation Reading see page 385.

The lectures will be on such parts of the following syllabus as can be dealt with in the time. The laboratory work extends over the whole range.

MECHANICS.—Simple Harmonic Motion. Simple Pendulum. Motion of a body round a fixed Axis. Compound Pendulum. Methods of determining relative and absolute values of g . Ballistic Pendulum. Gravitation. Methods of determining G .

PROPERTIES OF MATTER.—*Solids*: Friction. Moduli of Elasticity and methods of determining them.—*Liquids*: Viscosity. Bulk Modulus of Elasticity. Surface Tension. *Gases*: Viscosity. Compressibility. Kinetic Theory of Gases. Molecular Dimensions.

SOUND.—Nature of Sound Waves in Air. Velocity of Sound. Measurements of Frequency. Forced Vibrations. Analysis of Waves. Strings. Pipes. Maintenance of Vibrations. Interference of Sound. Waves. Beats. Concord and Discord. Combination Tones.

LIGHT.—Photometry. Mirrors. Prisms. Lenses. Dispersion. Achromatic Combinations. Optical Instruments. Wave Theory. Interference. Diffraction. Polarisation by Reflection and Refraction. General account of Polarisation by Crystals. Circular and Elliptic Polarisation. Rotation of Plane of Polarisation. Polarimeters.

HEAT.—The Laws of Thermodynamics. Absolute Scale of Temperature. Volume-pressure and Entropy-temperature Diagrams and their use. Solution. Osmotic Pressure. Exact Measurements in Heat.

MAGNETISM AND ELECTRICITY.—General propositions with regard to an inverse square field of force. *Magnetism*: Magnetic Measurements. The Earth's Field. Paramagnetism and Diamagnetism. Theory of the Magnetic Field. *Electricity*: Theory of the Electric Field. Electric Measurements. *Electro-magnetism*: Electric Discharge. Magnetic Properties of Current Circuits. Heating Effects. Chemical Effects. Thermo-electricity. Current Induction. Electro-magnetic Measurements. Theory of the Electro-magnetic Field.

III.

Lectures during the Winter and Spring Terms on the parts of the syllabus of Course II not dealt with in the previous Session. The work is more advanced than that of Course II. Lectures will also be given on Methods of Experiment. Members of the Class will be required to write essays on Physical Subjects, to be read to, and discussed by, the Class.

Lecture Hours.—Mondays, 4 to 5, Tuesdays and Thursdays, 10.30 to 11.30.

FEE:—£3 3s.

Laboratory Hours.—Six hours weekly if Physics is a Double Subsidiary Subject, twelve hours weekly if it is a Principal Subject, at times to be arranged.

FEES:—Six hours weekly, £6 6s.; twelve hours weekly, £9 9s.

CONFERENCE ON RECENT ADVANCES IN PHYSICS.

A conference will be held on Tuesdays, at 5.30, for members of the Staff, Graduates, and Advanced Students, at which recent work will be described and discussed.

Those who wish to join the Conference should consult the Professor.

*LABORATORY WORK FOR GRADUATES OR FOR
STUDENTS DESIRING SPECIAL COURSES.*

The Laboratory is open for purposes of Research or for Special Courses, from 10 to 1 and 2 to 5 daily, except Saturdays.

FEES:—Six hours weekly, £6 6s.; nine hours, £7 17s. 6d.; twelve hours, £9 9s.; each succeeding six hours, £2 2s.

*PRELIMINARY COURSE ON EXPERIMENTAL
MECHANICS.*

Class Hours.—Mondays, 11.30 to 12.30, and Wednesdays, 11.30 to 1.

The work of this class is chiefly tutorial, supplemented by experiments performed by the students.

It is suited for students preparing for the Matriculation Examination in Experimental Mechanics.

FEE:—£4 4s.

STATICS.—Force measured in pounds weight or grammes weight. Equilibrium under two equal and opposite Forces. Equality of the Action and Reaction between two bodies. Transmissibility of Force by strings, ropes, and rigid connections. Experimental investigation of the conditions for the equilibrium of a body when acted on by three parallel forces. Resultant. Moment of a force about a point. Balancing of moments when a body is in equilibrium. Centre of Parallel Forces. Centre of Gravity and the experimental investigation of its position. Stability and Instability of a body, supported from a point or on a base. Work and Rate of Working. Foot pound and Horse Power. The lever, the balance, the single string system of pulleys, the wheel and axle, the differential pulley, as illustrations of parallel forces, and of the Principle of Work. Experimental investigation of the conditions for the equilibrium of a body when acted on by three forces not parallel. The Triangle of forces. The Parallelogram of Forces. Graphic resolution and composition of Forces. Simple cases of resultant of two forces acting at a point. Balancing of Moments when a body is in equilibrium. Inclined Plane. Windmill. Sailing. Screw, toothed and worm wheels, as treated by the principle of Work. Efficiency of Machines: always reduced by friction.

HYDROSTATICS.—Distinction between liquids and gases. Pressure at a point in a fluid. Equality of pressure at points on the same level. Change of pressure with depth. Surface of a liquid at rest is level. Transmission of pressure in liquid. Hydraulic Press. Pressure against horizontal surfaces and vertical containing walls. Archimedes' Principle. Density and Specific Gravity. Methods of measuring specific gravities. Relation between volume and pressure in a Gas. Air Pumps Atmospheric Pressure. Barometers. Common Pumps. Force Pump.

DYNAMICS.—Units of Length and Time. Velocity. Uniform acceleration. Use of formulæ connecting velocity, time, and distance travelled, with acceleration. Mass. Equal masses are those having equal acceleration under equal forces. Simple experiments to show that at the same place mass is proportional to weight. Constancy of mass under change of physical and chemical condition. Momentum and rate of change of momentum. Force measured by rate of change of momentum. Dyne and poundal. Momentum measure of Force proportional to its weight measure. Relation between weight measure and momentum measure. The value of g . Atwood's machine. Momenta generated in two bodies by their mutual action, equal and opposite. Constancy of Momentum. Kinetic Energy and Work.

CHEMISTRY.

Professor : PERCY F. FRANKLAND, M.Sc. ; Ph.D., LL.D.,
F.R.S.

Lecturers : { ALEX. FINDLAY, M.A., D.Sc., Ph.D.
HAMILTON McCOMBIE, M.A., B.Sc., Ph.D.,
A.R.C.S., A.I.C.

Demonstrators : { C. K. TINKLER, B.Sc.
THOMAS J. MURRAY, Ph.D.

Special Lecturer on Physical Chemistry :
ALEX. FINDLAY, D.Sc.

PRELIMINARY COURSE.

Tuesdays and Thursdays, at 11.30, during the Winter
and Spring Terms.

FEE :—£2 2s.

Gaseous, liquid, and solid states of matter.

Nature of chemical change. Elements, compounds,
and mixtures.

Types of chemical action.

Solution, crystallisation, distillation, diffusion.

Chemical and physical properties of air and water.

Nature of acids, bases, and salts.

Nature, occurrence, chief modes of preparation, and
principal properties of the following non-metallic
elements and their more important compounds :
Hydrogen, Oxygen, Carbon, Silicon, Sulphur,
Nitrogen, Phosphorus, Fluorine, Chlorine,
Bromine, and Iodine.

Combination by weight and volume. Symbols,
equations, and calculations relating to weight
and volume. Nomenclature.

Chemical and Physical characteristics of metals as
illustrated by Sodium, Calcium, Iron, Zinc,
Lead, Mercury, Copper, and Silver.

This course of experimental lectures is adapted to the
needs of those who are entirely unacquainted with
Chemistry, and for those who are preparing for the
Matriculation Examination of the University.

UNIVERSITY COURSES.

I.

A. This part of the course is arranged (1) to give a full exposition of the general principles of Chemical Science, (2) for the systematic study of the properties of the more important elements and their compounds, and (3) to indicate some of the chief applications of Chemistry in the Arts and Manufactures.

Four hours weekly during the Winter and Spring Terms. Some of the above meetings of the class will be devoted to tutorial work. Attendance at this tutorial class is compulsory, as is the performance of the exercises set by the Professor.

Lecture hours.—9.30 to 10.30 a.m. on Mondays to Thursdays inclusive.

FEE:—£4 4s.

B. This part of the course includes an introduction to the study of Organic Chemistry, with a description of the properties, relations, and methods of preparation of the more important groups of Carbon-compounds.

Three hours weekly during the Summer Term.

Lecture hours.—9.30 to 10.30 a.m. on Mondays, Wednesdays, and Fridays.

FEE:—£1 11s. 6d.

In connection with these Courses, I A and I B, a Tutorial Class will be held on Wednesdays, from 2 to 2.45 p.m., during the Session. Attendance at this class is compulsory, except in the case of students who have been exempted by the Professor.

No fee.

II.

A. *Advanced Organic Chemistry.*—This course extends over two years, and is divided into two parts:—

(i.) Carbon-compounds of the Fatty Series.

(ii.) Aromatic and other Cyclic Compounds.

Only one of these parts will be taken in each year. The class meets twice weekly by arrangement during the Winter and Spring Terms.

FEE for each part:—£2 2s.

B. General and Physical Chemistry.—This course will extend over two years, during the first of which the following subjects will be discussed:—

Principles of scientific investigation. Induction and deduction. Laws, hypotheses and theories.

The fundamental laws and theories of chemistry.

PROPERTIES OF GASES: Laws of Boyle and of Gay-Lussac; Avogadro's hypothesis; determination of the density of gases and of molecular weights; kinetic theory of gases; specific heat of gases; spectrum analysis.

PROPERTIES OF LIQUIDS: Vaporisation and liquefaction; heat of vaporisation and Trouton's rule; critical phenomena; theory of van der Waals; refractivity and dispersivity; optical activity; density and specific volume; surface tension; viscosity; dielectric constant.

PROPERTIES OF SOLIDS: Amorphous and crystalline condition; specific heat; sublimation; fusion and solidification; superfusion and velocity of crystallisation; isomorphism and polymorphism.

SOLUTIONS: General definition; vapour pressure of liquid solutions; fractional distillation.

DILUTE SOLUTIONS.—I. *Non-electrolytes.*—Osmotic pressure; van't Hoff's theory; freezing point and boiling point of dilute solutions; determination of molecular weights in solution.

DILUTE SOLUTIONS.—II. *Electrolytes.*—General properties as distinguished from solutions of non-electrolytes.

ELECTRO-CHEMISTRY.—I. Electrolytic conduction; theory of ionisation; transport numbers; mobility of ions, and ionic conductivities; relations between chemical constitution and conductivity; complexions.

CHEMICAL DYNAMICS. — I. *Reaction velocity and equilibria in homogeneous systems.* Law of mass action; The order of a chemical reaction and its significance. Equilibria in homogeneous gas and liquid systems; equilibria in solutions of electrolytes; affinity constants of acids and bases; avidity; hydrolytic dissociation; solubility product; distribution of a substance between two solvents.

Students attending the above course, or the following course, III. C on Physical Chemistry, are urgently recommended to make themselves acquainted with at least the rudiments of the differential and integral calculus. For this purpose they may read Edser's Introduction to the Differential and Integral Calculus, or certain portions of Mellor's Higher Mathematics for Students of Chemistry and Physics. Advice on this point may be received from the Lecturer.

The class meets once weekly by arrangement during the Winter and Spring, and twice weekly during the Summer term.

FEE:—£1 11s. 6d.

III.

A. Advanced Organic Chemistry.—Part (i.) or (ii.) of Course II. A.

The Class meets two hours weekly by arrangement during the Winter and Spring Terms.

FEE:—£2 2s.

B. Advanced Organic Chemistry.—Lectures on special subjects attracting attention at the time, will be delivered during the Winter and Spring Terms. A course of lectures on the Terpenes will be delivered during the Summer Term.

The class meets once weekly.

FEE:—£1 1s.

C. General and Physical Chemistry. (Continuation of Course II. B.)

THERMO-CHEMISTRY.—I. Heat of reaction, solution, combustion, neutralisation. Laws of maximum work, thermo-neutrality, and constant heat summation.

THERMO-CHEMISTRY.—II. The laws of thermo-dynamics and their applications in chemistry and electro-chemistry.

ELECTRO-CHEMISTRY.—II. Relation between chemical and electrical energy. Concentration cells. Electrode potentials. Polarisation. Decomposition potentials. Electrolytic deposition and separation of metals.

RADIO-CHEMISTRY: Phenomena of radio-activity and their interpretation.

CHEMICAL DYNAMICS.—II. *Equilibria in heterogeneous systems.* General discussion of the conditions of equilibrium in systems of one, two, three, and four components, from the point of view of the Phase Rule.

The class meets once weekly by arrangement during the Winter, Spring and Summer Terms.

FEE:—£1 1s.

SPECIAL COURSES ON ELECTRO-CHEMISTRY.

By Dr. ALEX. FINDLAY.

Should a sufficient number desire it, courses in theoretical and practical Electro-chemistry will be arranged during the Session.

Further particulars will be announced later.

PRACTICAL CHEMISTRY.

I.

Not less than nine hours weekly during the three terms must be devoted to Laboratory work.

The Course will include:—

Preparation of pure substances, gaseous, liquid, and solid.

Experiments illustrating the laws of combination.

Simple qualitative analysis, simple gravimetric and volumetric determinations.

II.

Not less than fifteen hours weekly during the three terms must be devoted to Laboratory work.

The Course will include :—

Advanced qualitative and quantitative analysis.

Simple organic preparations.

III.

Not less than fifteen hours weekly during the three terms must be devoted to Laboratory work.

The Course will include :—

Gas analysis, molecular weight, and other physical determinations.

Advanced organic preparations and identification of organic compounds.

LABORATORY PRACTICE.

The Laboratory will be open daily from 9.30 to 5, except on Saturdays, when it will be closed at 1 p.m.

Each student will pursue an independent Course of study to be determined after consultation with the Professor. He will be guided in his operations by the Professor or his Assistants.

TEXT BOOKS.—Newth's Manual of Chemical Analysis, Qualitative and Quantitative (Longmans); Fresenius' Quantitative Analysis (Churchill); Sutton's Volumetric Analysis (Churchill); Cohen's Practical Organic Chemistry; Gattermann's Practical Methods of Organic Chemistry; Elbs' Electrolytic Preparations; Smith's Electro-chemical Analysis; Ostwald's Physical Chemical Measurements.

FEES:—

	All day.	Three hours per day.	Three hours per day; five days a week.	Three hours per day; three days a week.
	<i>Guineas.</i>	<i>Guineas.</i>	<i>Guineas.</i>	<i>Guineas.</i>
One Term ...	7	4½	4	2½
Two Terms ...	13	8½	7½	5
Three Terms...	18	12	11	6½

Laboratory students, upon admission, pay a deposit of £1 as caution money. This is returned at the end of the course, after deducting the cost, for breakages, &c., incurred. Caution money will not be repaid unless claimed by the student within one year of finally leaving the University.

Each student will be required to provide himself with a set of simple apparatus, the total cost of which need not exceed 30s.

Gas, water, and all ordinary reagents (except methylated spirit, ether, chloroform, silver nitrate and platinum perchloride) are supplied by the University, and the larger forms of apparatus may be obtained on loan from the Laboratory store, on condition that breakages are made good.

Some of the special chemicals required for organic preparations have to be purchased by the Student.

Some additional Apparatus will also be required by each student upon commencing QUANTITATIVE ANALYSIS AND ORGANIC PREPARATIONS.

Special arrangements are made by the Professor for students pursuing Research.

PRACTICAL CLASS.

For Laboratory Students.

A special class on the Theoretical Foundations of Analytical Chemistry is held every Saturday morning from 9.30 to 10.30. Attendance is compulsory for first-year students.

No Fee.

Chemical Library.

The departmental library, adjoining the Laboratories, is open for the use of Students during working hours, subject to the rules prescribed by the Professor.

University Chemical Society.

The Society meets on alternate Mondays at 5.30 p.m., during the Winter and Spring Terms, for the reading and discussion of papers.

All Students are eligible for membership.

Excursions.

During previous Sessions permission has been obtained to visit some of the great factories in and near Birmingham, in which chemical and metallurgical industries are carried on. Students have thus had most valuable opportunities of gaining a practical acquaintance with some branches of Applied Science. The privilege thus courteously granted by several manufacturers will, it is hoped, be enjoyed in every future Session. The excursions will be conducted by the Professor.

For Vacation Reading, see p. 386.

*REQUIREMENTS FOR DEGREES.**Intermediate Examination in Science :—*

Lectures, Course I. (A and B.)

Laboratory, Course I.

B.Sc. Degree :—

(i.) Chemistry as a principal subject :

Lectures, Courses II and III.

Laboratory, Courses II and III.

(ii.) Chemistry as a subsidiary subject :

One of the following combinations :

(a) Lecture Courses II and III in Organic Chemistry, in successive years, with not less than fifteen hours weekly in the Laboratory during one Session.

(b) Lecture Courses II and III in General and Physical Chemistry, with not less than fifteen hours weekly in the Laboratory during three terms.

B.A. Degree :—

Lecture Course I, with not less than nine hours' Laboratory work weekly.

TIME TABLE.

CHEMISTRY.			Mon.	Tues.	Wed.	Thurs.	Fri.

Manufacturers or Managers of Works having vacancies are requested to apply to the Professor.

ZOOLOGY AND COMPARATIVE ANATOMY.

Professor: T. W. BRIDGE, M.Sc.; Sc.D. (Cantab.), F.R.S.

Lecturer: (Vacant.)

Special Lecturer in Economic Zoology:

W. E. COLLINGE, M.Sc., F.Z.S.

Museum Assistant: F. W. CRISPE.

PRELIMINARY COURSE.

Lecture days and hours to be fixed by arrangement with the class, which will meet on the first Saturday of the Winter Term, at 11.30.

A course of about twenty lectures on Animal Biology, with practical demonstrations, will be given during the Session. The course will meet the requirements of Matriculation Candidates who desire to take Animal Biology as one of their optional subjects.

FEE:—£1 11s. 6d.

SYLLABUS.

- (1) Distinctive properties of living matter or protoplasm, as illustrated by the structure and mode of life of the Proteus-animalcule or *Amæba*. Differences between Animals and Plants. The nature of the Cell.
- (2) The general structure of the Frog. Elementary physiology of the Frog. The organs of digestion and their use. The nature of blood. The structure of the heart, and the arrangement of the more important blood vessels. The use of a circulatory system. The nature of excretory organs. Mode of breathing. The kidneys and their use.
- (3) The more important facts in the structure and habits of the freshwater Polype (*Hydra*); the Earthworm (*Lumbricus*); and the Crayfish (*Astacus*).
- (4) Methods of reproduction in animals. The egg-cell and the sperm-cell. Fertilization of the egg. Segmentation of the fertilized egg. The metamorphosis of the Frog, treated in an elementary fashion.

UNIVERSITY COURSES.

I.

Lecture Days:—Tuesdays and Thursdays, at 12.30

A course of about fifty lectures on Elementary Zoology.

A. Living and non-living matter.—Distinctive properties of living matter or protoplasm, as illustrated by the study of the Proteus animalcule or *Amæba*.—Distinction between Animals and Plants.—Comparison of the unicellular *Amæba* with the complex multicellular Frog.—Origin of the Frog. The egg-cell or ovum.—Segmentation of the ovum, and the subsequent formation of physiologically different groups of cells or tissues. Structure of the various elementary tissues of the Frog. Epithelia, connective, muscular, and nervous tissues. The combination of tissues to form organs.

B. The anatomy and histology of the various systems of organs in the Frog, and the elementary physiology of the organs of digestion, circulation and excretion. Physiological division of labour and morphological differentiation of structure.

C. This part of the course will treat of the structure of the following typical animals, viewed from a comparative standpoint :—

The Proteus-animalcule (*Amæba*), the Bell-animalcule (*Vorticella*), the freshwater Polype (*Hydra*), the Earthworm (*Lumbricus*), the Crayfish (*Astacus*), the Dog-fish (*Scyllium*), the Frog (*Rana*), and the general structure of the Rabbit (*Lepus*).

D. The concluding lectures of the course will deal with the phenomena of Reproduction. Asexual and Sexual Reproduction. Ova and Spermatozoa. Spermatogenesis. Fertilization and Segmentation of the ovum in *Amphioxus* and *Rana*. The development and larval history of the Frog, treated in an elementary fashion.

Practical Class.

In the Practical Class, which will be conducted in connexion with this course, the above-mentioned animal types will be dissected or microscopically examined.

Laboratory.—Tuesday afternoon, from 2.15 to 4.30, in the Winter and Spring Terms, and on Tuesday and Thursday afternoons during the Summer Term.

FEE.—For lecture and laboratory courses, £3 3s.

II.

Lecture Days.—Mondays, Tuesdays, Wednesdays, and Fridays, at 12.30, or at such times as may be fixed by arrangement with the class.

The course will include a more or less detailed description of the Morphology and Embryology of selected examples of certain of the principal groups of animals, and of the more important modifications of structure which are met with within the limits of each group. The Phylogenetic relations of each group will also be discussed, as well as the more elementary facts of its Geographical Distribution and Bionomics.

SYLLABUS OF GROUPS AND TYPICAL EXAMPLES.

PHYLA.	EXAMPLES.
PROTOZOA.	
(i.) Rhizopoda	<i>Amœba, Gromia, Miliola, Globigerina, Actinophrys, Thalassicolla.</i>
(ii.) Mycetozoa	<i>Fuligo.</i>
(iii.) Mastigophora	<i>Monas, Codosiga, Ceratium, Noctiluca.</i>
(iv.) Ciliata	<i>Paramecium, Stentor.</i>
(v.) Acinetaria.....	<i>Acineta.</i>
(vi.) Sporozoa	<i>Monocystis, Coccidium.</i>
PORIFERA.	
(i.) Calcareæ	<i>Ascetta, Sycon.</i>
(ii.) Non-calcareæ	<i>Spongilla, Euspongia.</i>
CœLENTERATA.	
(i.) Hydrozoa	<i>Tubularia, Obelia, Car- marina, Physophora, Millepora.</i>
(ii.) Scyphozoa.....	<i>Aurelia.</i>
(iii.) Anthozoa—	
(a) Alcyonaria	<i>Alcyonium, Gorgonia.</i>
(b) Zoantharia	<i>Actinia, Edwardsia, Flabellum, Madrepora.</i>
(iv.) Ctenophora	<i>Pleurobrachia.</i>
PLATYHELMINTHES.	
(i.) Turbellaria	<i>Convoluta, Polycelis, Der- drocalum, Leptoplana.</i>
(ii.) Trematoda.....	<i>Distomum.</i>
(iii.) Cestoda	<i>Tœnia.</i>
NEMERTEA	<i>Carinella, Cerebratulus.</i>

ANNELIDA.	EXAMPLES.
(i.) Archiannelida	<i>Polygordius.</i>
(ii.) Chætopoda	<i>Nereis, Lumbricus.</i>
(iii.) Hirudinea	<i>Hirudo.</i>
POLYZOA.	
(i.) Entoprocta	<i>Loxosoma.</i>
(ii.) Ectoprocta	<i>Bugula.</i>
BRACHIOPODA	<i>Waldheimia, Lingula.</i>
MOLLUSCA.	
(i.) Pelecypoda	<i>Nucula, Mytilus, Anodonta.</i>
(ii.) Scaphopoda	<i>Dentalium.</i>
(iii.) Gastropoda	
(a) Isopleura	<i>Chiton.</i>
(b) Anisopleura	<i>Patella, Haliotis, Buccinum, Aplysia, Helix.</i>
(iv.) Cephalopoda	<i>Nautilus, Sepia.</i>
ARTHROPODA.	
(i.) Crustacea	<i>Apus, Daphnia, Cyclops, Lepus, Nebalia, Astacus.</i>
(ii.) Arachnida	<i>Limulus, Scorpio.</i>
(iii.) Onychophora	<i>Peripatus.</i>
(iv.) Myriapoda	<i>Scolopendra, Julus.</i>
(v.) Insecta	<i>Periplaneta.</i>
ECHINODERMA.	
(i.) Crinoidea	<i>Antedon.</i>
(ii.) Holothuroidea	<i>Holothuria.</i>
(iii.) Stelleroidea	<i>Asterias, Ophiura.</i>
(iv.) Echinoidea	<i>Echinus.</i>
CHORDATA.	
(i.) Hemichorda	<i>Balanoglossus.</i>
ii.) Urochorda	<i>Appendicularia, Ascidia, Pyrosoma, Salpa.</i>
(iii.) Cephalochorda	<i>Amphioxus.</i>
(iv.) Craniata [Vertebrata].	
(a) Cyclostomata	<i>Petromyzon, Myxine.</i>
(b) Pisces	<i>Scyllium, Chimæra, Polypterus, Gadus, Ceratodus.</i>
(c) Amphibia	<i>Rana, Triton.</i>
(d) Reptilia	<i>Lacerta, Chelone, Boa, Crocodilus.</i>
(e) Aves	<i>Columba.</i>
(f) Mammalia	<i>Echidna, Macropus, Lepus.</i>

Laboratory Course.

In the practical class, which will be conducted in connexion with this course, a selection of the above-mentioned animal types will be dissected and microscopically examined.

FEE:—For lectures and laboratory course, £6 6s.

III.

The course for Third Year Students will consist mainly of Laboratory (at least eight hours weekly) and Museum work, but occasional lectures on special aspects of the subject will be given at times to be fixed by arrangement with the class.

FEE:—Lectures and Laboratory, £8 8s.

Zoological Laboratory.

The Laboratory will be open daily, from 10 to 5 (Saturdays, 10 to 1). In addition to students taking up practical work in connection with the various lecture courses, the Laboratory will be open to all who may desire to engage in any special course of practical work, or to pursue original investigations, with a view to the requirements for the higher University Degrees of M.Sc. and D.Sc.

LABORATORY FEE:—£3 3s. per term.

For Vacation Reading, see p. 386.

THE PORT ERIN BIOLOGICAL LABORATORY.

The Council of the University makes an annual grant to the Marine Biological Laboratory at Port Erin, in the Isle of Man, in return for which one of the tables in the Laboratory is reserved solely for the free use of those students in the Zoological Department of the University who wish to study Marine Zoology, or pursue some branch of research. During the occupation of the table each worker will be entitled to the use of microscopes, re-agents, including a specified allowance of methylated

spirit, and other apparatus, and of the boats, dredges, tow nets belonging to the laboratory, so far as is compatible with the claims of other workers and with the routine work of the station.

Facilities will also be given to workers to make their own collections of marine organisms.

Students wishing to avail themselves of the privilege are requested to apply to Professor Bridge, from whom further information may be obtained.

REQUIREMENTS FOR DEGREES.

Intermediate Examinations in Science and in Arts:—
Course I in the first year.

B.Sc. Degree :—

- I. Zoology as a Subsidiary Subject : Course II in the second year.
- II. Zoology as a Principal Subject : Course II in the second year, and Course III in the third year.

*B.A. Degree :—*Course II.

M.Sc., D.Sc.—Students who have taken the degree of B.Sc., and who desire to proceed to the higher University degrees of M.Sc. and D.Sc., may confer with the Professor as to the choice of a subject for the thesis (M.Sc.), or for original research (D.Sc.).

TIME TABLE.

ECONOMIC ZOOLOGY.

Special Lecturer: WALTER E. COLLINGE, M.Sc.

The Department is located at present at 55, Newhall St.

This Department was established for the purpose of providing a consultative and experimental research department in connection with Economic Zoology.

It will provide Farmers, Fruit Growers, Stock Breeders, Nurserymen, Market Gardeners, and others with information relating to the various animals, injurious or beneficial to crops, live stock, etc. So far as the facilities of the Departments' Laboratory permit determinations will be made of the organisms causing any particular trouble, and definite instructions as to the treatment to be followed will at all times be furnished to those desiring assistance.

Agriculturists and horticulturists can receive information relative to insect and other pests and parasites. Public bodies having the care and maintenance of public parks, gardens, lakes, and reservoirs, etc., can receive information as to pests to ornamental trees, timber, etc., the character and quantity of microscopical animals in any particular water, etc.

Inspections will be made of crops, orchards, etc., in any part of the Midland Counties, so far as the routine work of the Department will permit, and Mr. Collinge will be pleased to advise or confer with the Agricultural Committees of the County Councils, Chambers of Agriculture, Farmers', Horticulturists', and Gardeners' Associations, etc., or to attend the meetings of these bodies when subjects relating to Economic Zoology are being discussed.

Research Laboratory and Museum.

These will be opened daily from 10 to 5 (Saturdays 10 to 1), and facilities will be given to a few students who desire to engage in any special course of practical work, or to pursue original investigations under the direction of Mr. Collinge, to whom applications should be made.

The Museum.

Amongst other collections, the Museum is particularly rich in specimens illustrating the destruction of timber trees and timber by various animals.

LECTURES.

Special Evening Course.

During the Spring Term a Course of Evening Lectures entitled

“Some Common Garden Pests”

will be delivered.

The Course is specially intended for gardeners and nurserymen. A detailed syllabus will be issued early in January, 1907.

Lectures to Farmers, Fruit Growers, &c.

Mr. Collinge will be pleased to lecture before the members of Associations of Fruit Growers, Farmers' Clubs, Gardeners' Associations, etc., in so far as his engagements permit.

The following are the titles of some of the lectures:—

Insects Useful and Injurious.	
Insects Injurious to Fruit Trees.	
”	” Vegetables.
”	” Root Crops.
”	” Cereals.
”	” Hops.

Green Flies and Snow Flies.
Scale Insects.
Ticks and Disease.
Animal Parasites.
Sheep Scab and Allied Diseases.
Parasites injurious to Live Stock.
Insects injurious to Timber.
Insect Parasites of Insects.
Beneficial and Injurious Wild Birds.
The Black Currant Gall-Mite.

Publications.

Reports treating of the life-history of various injurious insects, etc., together with suggestions for preventive and remedial measures, are issued from time to time, and will be forwarded post-free to farmers, fruit growers, etc., in the counties of Worcester, Warwick, Stafford, Leicester, Shropshire, Gloucester, and Hereford.

Application should be made by letter in the first instance stating the particular crops or branch of agriculture the applicant is interested in. Such names will be placed upon the Department's Register to receive future Reports.

BOTANY AND VEGETABLE PHYSIOLOGY.

Professor: W. HILLHOUSE, M.Sc.; M.A. (Cantab.), F.L.S.

Lecturer and Demonstrator: GEORGE S. WEST, M.A.
(Cantab.), A.R.C.S., F.L.S.

PRELIMINARY COURSE.

(MR. WEST.)

On Tuesdays in the Winter and Spring Terms, and on Tuesdays and Thursdays in the Summer Term (up to May 31st), from 11.30 to 1, there will be a course of Lectures, practical work and demonstrations, serving as an introduction to botanical study, and for those preparing for the Matriculation Examination.

A. *Plant Form, as a Key to Relationships.*

- (1) The chief characters of root, stem, bud, and leaf of the principal British plants of quite general distribution and of garden plants of general cultivation, and the nature and structure, as determinable by eye or lens, of common bulbs, fruits, seeds, or other vegetable products, in ordinary use, and universally met with in shop or market.
- (2) The most important floral and fruiting characters of the following British Natural Orders:—Ranunculaceae, Cruciferae, Caryophyllaceae, Leguminosae, Rosaceae, Umbelliferae, Compositae, Scrophularineae, Labiatae, Liliaceae.

B. *How Plants Live, Grow and Reproduce.*

- (3) The mode of development of the plant, the elementary facts of nutrition and respiration, the nature and function of root, stem and leaf, and their relations with external conditions and forces, to be determined *experimentally* by the aid of seedlings grown in the class-room, &c., from the following typical seeds or one-seeded fruits, viz., castor-oil (*or* buck-wheat), pea (*or* bean), sunflower, mustard (*or* cress), and maize (*or* wheat *or* barley), and the bulb of hyacinth (*or* onion).
- (4) The functions of the floral parts, their relations with pollination, the production and protection of seeds, and the provisions for seed-dispersal, especially as illustrated in the Natural Orders named above.

FEE:—£2 2s.

UNIVERSITY COURSES.

I. (VEGETABLE BIOLOGY).

Lecture Days.—Mondays and Fridays at 4, excluding Fridays in the Summer Term. For the convenience of Students in the Faculty of Arts the Monday Lectures will, if necessary, be repeated at some other time.

Laboratory.—The course will be illustrated by practical work in Morphology, external and internal, and Physiological experiments, at the following *alternative* times, viz., in the Winter and Spring terms, Tuesdays 2.30 to 5, or Saturdays 10.30 to 1; in the Summer Term, Fridays 2.30 to 5, or Saturdays 10.30 to 1. Some of these laboratory periods, especially those in the Summer Term, will be spent in the Experiment House at the Botanical Gardens, Edgbaston.

FEE :—Lectures and Laboratory, £3 3s.

The Morphology of the Seed; Germination; the external morphology of the Seedling. The physiology of germination; the general nature of the reserve food-stuffs; the relations of the seedling with external conditions and natural forces; the theory of Irritability. Growth to exhaustion, and the general conditions of active life and self-nutrition.

The general morphology of the Plant Body, and the principal modifications in form and distribution of the vegetative members, Root, Shoot, and Leaf.

The Living Principle of the plant—Protoplasm; the Cell, and its principle modifications for special purposes; evolution and distribution of the Tissues, considered especially from a biological standpoint.

The Leaf as a bio-anatomical study; epidermis, vascular bundles, ground-tissue, intercellular spaces.

The internal morphology of the Stem in its chief modifications; the results of cambial activity; the secondary protective tissues, Cork and Bark. The Root.

The Bud; the principal characteristics of increase in length in shoot and root.

The phenomena of climbing, and illustrations of special powers of movement.

The elementary facts in the Nutrition of the plant, including the nature and sources of the raw materials of food, and the constitution of the soil; Absorption and the Transpiration current; the nature and functions of Chlorophyll; the broad principles of metabolism, and the distribution, storage, and utilisation of its products. Respiration.

Nutrition without chlorophyll, and special fermentative changes, illustrated by Yeast, Bacteria, Moulds and *Pythium*. Degrees of Parasitism in Flowering Plants. Insectivorous Plants.

Reproduction. Asexual and Sexual, further illustrated by *Spirogyra*, *Vaucheria*, *Fucus* and *Agaricus*. The primary divisions of the Vegetable Kingdom, viz. :—Thallophyta ; Bryophyta (illustrated by a moss-plant) ; Pteridophyta (a fern-plant, and *Selaginella*) ; and Phanerogamia (flowering plants).

The general character and structure of the reproductive organs in Phanerogamia ; pollination, and its methods ; fertilisation ; the development of the seed and the fruit ; seed protection and dispersal ; the natural spread of plants, and its limitations.

The Flower, and its chief modifications in structural plan, as illustrated in the following Natural Orders of the British Flora, viz. :—Ranunculaceae, Cruciferae, Violaceae, Caryophyllaceae, Leguminosae, Rosaceae, Umbelliferae, Compositae, Scrophularineae, Labiatae, Cupuliferae, Liliaceae, Gramineae ; and the description of plant specimens in semi-technical language.

Botanical Excursions. A few will be arranged for alternate Saturday afternoons in the Summer Term, and will be concerned with the Local Flora in its environment relations ; as *e.g.* Moor, Marsh and Bog ; Meadow and Riverside ; Woodland, Hedgerow, and Climbers ; Roadside and cultivated ground.

II. (GENERAL COURSE).

Lecture Days.—Mondays and Fridays at 9.30, Tuesdays and Thursdays at 11.30, or other, if more convenient, hours.

Laboratory.—Six hours weekly, with two extra hours in the Summer Term. More time should be given by students taking Botany as a principal or double subsidiary subject.

FEE :—Lectures and Laboratory, £6 6s.

A. *Life-history and Classification.*

The outlines of morphology, external and internal, embryology, and phylogenetic relationships of the chief groups of plants, and their most important sub-divisions, will be studied by the aid of the following selected examples, which, so far as possible, will be dealt with in Laboratory and the field as well as Lecture Room.

Thallophyta.

PROTOTHALLOPHYTA.

- i. Flagellata.
- ii. Myxomycetes.
- iii. Schizomycetes (Bacteria).
- iv. Cyanophyceae (Schizophyceae).

ALGAE.

- i. Diatomeae.
- ii. Peridineae.
- iii. Conjugatae
- iv. Chlorophyceae (a) Protococcoideae *Desmids, Spirogyra.*
Sphaerella, Volvox;
Pleurococcus, Hydrodictyon.
- (b) Confervoideae *Ulothrix, Cladophora,*
Edogonium, Coleochaete.
- (c) Siphoneae *Vaucheria.*
- v. Phaeophyceae (a) Phaeosporeae *Laminaria.*
- (b) Fucaceae *Fucus.*
- (c) Dictyotaceae.
- vi. Rhodophyceae *Batrachospermum.*
- vii. Characeae *Chara, Nitella.*

HYPHOMYCETES (FUNGI).

- i. Phycomycetes (a) Oomycetes *Pythium, Phytophthora.*
- (b) Zygomycetes *Mucor.*
- ii. Ascomycetes (a) Perisporiaceae *Erysiphe, Eurotium.*
- (b) Discomycetes *Peziza.*
- (c) Pyrenomycetes *Nectria, Claviceps.*
- (d) Tuberaceae *Tuber.*
- (e) Exoasci *Exoascus.*
- (f) Saccharomycetes *Yeast.*
- iii. Basidiomycetes (a) Ustilagineae *Ustilago, Tilletia.*
- (b) Uredineae *Puccinia.*
- (c) Hymenomycetes *Psalliota (Agaricus).*
- (d) Gasteromycetes *Lycoperdon.*
- iv. Lichenes *Collema, Parmelia (or Anaptychia).*

Bryophyta.

- i. Hepaticae
 - (a) Ricciaceae
 - (b) Marchantiaceae *Marchantia*.
 - (c) Anthocerotaceae
 - (d) Jungermanniaceae *Jungermannia* (or *Pellia*).
- ii. Musci
 - (a) Sphagnaceae *Sphagnum*.
 - (b) Andreaeaceae
 - (c) Phascaceae
 - (d) Bryineae *Funaria*, *Polytrichum*.

Pteridophyta.

- i. Filicineae
 - (a) Filices *Botrychium*, *Pteris*.
 - (b) Hydropterideae *Salvinia*, *Pilularia*.
- ii. Equisetineae *Equisetum*.
- iii. Lycopodinae
 - (a) Lycopodiaceae *Lycopodium*.
 - (b) Selaginellaceae *Selaginella*.
 - (c) Isoetaceae

Phanerogamia (Spermaphyta).

- i. Gymnospermae
 - (a) Cycadales
 - (b) Ginkgoales
 - (c) Coniferales *Pinus*.
 - (d) Gnetales
- ii. Angiospermae
 - Monocotyledones
 - Dicotyledones

Palaeobotany.—The elements of the distribution of the chief groups of plants in time.

Field Botany.—In addition to the general morphology, &c. of the Phanerogamia, the course will include the characters and relationships of the most important Natural Orders in the British Flora and their centres of extra-British distribution; and the chief sub-orders of the following: Ranunculaceae, Rosaceae, Solanaceae, Cupuliferae, Coniferae; the description of plants (not necessarily British) in technical language; the origins of the British Flora.

B. *Physiology and Experimental Morphology.*

The stability of the Plant Body.

Aeration.

Nutrition; the processes of absorption of water and dissolved substances, and their distribution; Root-pressure; Transpiration.

The metabolic processes. Respiration.

The phenomena of growth and movement. Irritability; the transmission of stimuli, and the mechanism of movement.

In the Laboratory the most important of the above phenomena will be experimentally studied, in the main qualitatively.

III.

Short Courses of Lectures upon special branches of work, as may be arranged.

Third Year Laboratory. Students who make Botany a Principal Subject will have taken the General Course in their second year, with extended Laboratory practice; and in their third year will give more special attention to one of the following divisions:—

(a) General Morphology, Embryology, and Development, with Classification and Distribution in time and space;

(b) Cytology, Physiology and Experimental Morphology, and Plant Diseases.

Micro-chemistry, and the practice of modern histological methods, will be studied in either case.

FEE :—Lectures and Laboratory, £8 8s.

For Vacation Reading, see p. 388.

REQUIREMENTS FOR DEGREES.

Intermediate Examination in Science :—Course I.

B.Sc. Degree. Botany as a Principal Subject :—
Courses II (with extended laboratory work),
and one of alternative Courses III.

Botany as a Subsidiary Subject :—Course II, or,
in certain cases, parts of one of alternative
Courses III and of II ; as a Double Subsidiary
Subject, Course II, with extended laboratory
practice, and parts of alternative Courses III.

Course I is also appropriate for the following :—Inter-
mediate Science or Preliminary Scientific of
the University of London (with Supplementary
Laboratory work) ; the first examination for
the degrees in Science or Medicine of the
Universities of Edinburgh and Glasgow ; and
the Minor Examination of the Pharmaceutical
Society.

Course II.—London Int. Sci. Honours, and Pass B.Sc.

BOTANICAL LABORATORY.

The Laboratory is open daily from 9.30 to 5, for the
purpose of study or research. In connexion with it is
a large *Experiment House* in the Botanical Gardens
of the Birmingham Botanical and Horticultural Society,
Edgbaston, which is especially adapted for work in
Vegetable Physiology and Experimental Morphology.

BOTANICAL MUSEUM.

Amongst other collections, the Museum is rich in
specimens illustrating the Fungous Diseases of plants, and
the destruction of timber trees and of timber.

Botanical Gardens, Edgbaston. Students attending any
of the above classes can obtain from the
Professor a card of admission to these Gardens.

GEOLOGY

(WITH PHYSIOGRAPHY AND GEOGRAPHY).

Professor: CHARLES LAPWORTH, M.Sc. ; LL.D. (Aber.),
F.R.S., F.G.S.*Senior Lecturer on Geology and Geography*:

THEODORE GROOM, M.A. (Cantab.), D.Sc. (Lond.), F.G.S.

Lecturer: F. RAW, B.Sc. (Lond.), F.G.S.*Special Lecturer in Petrology*: F. RAW, B.Sc.

GEOLOGY.

UNIVERSITY COURSES.

I.

Lectures.—Tuesdays, Thursdays, and Saturdays, at 9.30.In the Summer Term the Saturdays are devoted to
Excursions only.*Laboratory*.—Tuesdays, Thursdays, and Saturdays, at
10.30.

FEE:—£5 5s.

Physical Geology.*General characters* of the simple rock types, clastic and
crystalline.*Origin of the materials of the clastic rocks*.—Denudation by
weather, rivers, glaciers, and the sea ; deposition of
sediments, and structures resulting from it ; consolida-
tion and cementation.*Classification of clastic rocks* and characters of the chief
types ; breccia, conglomerate, grit, sandstone, clay,
shale, limestone, coal, salt, gypsum.*Origin and classification of the crystalline rocks*.—Volcanoes ;
their action and the rocks produced by them. Minerals :
quartz, feldspars, mica, augite, hornblende, olivine,
calcite, salt, kaolin, serpentine. Textures of the
crystalline rocks : Chief types of volcanic rocks ;
rhyolite, trachyte, obsidian, pitchstone, pumice,
andesite, basalt and tachylite ; clastic volcanic rocks :
Chief types of plutonic rocks ; granite, syenite, diorite,
gabbro, dolerite.*Rock structures*.—Folds, faults, cleavage, joints ; mineral
veins.

Arrangement of rocks in the earth's crust ; geological maps and sections.

Foliated, metamorphic and altered rocks.—Gneiss, grannlite, schist, quartzite, porcellanite, marble ; minerals of metamorphism, chistolite, mica, garnet ; contact and dynamic metamorphism.

Historical Geology.

Introductory.—The laws and generalizations of *Stratigraphy* and *Palæontology* : *Fossils*, their mode of petrification, and uses in Geology : The order of superposition : The Geological Record.

The Eozoic Era.—General physical characters and relationships of the *Pre-Cambrian* Rocks.

The Protozoic Era.—General characters of the rocks and fossils of this era : Outlines of the classification of the formations and organic remains of the *Cambrian*, *Ordovician*, and *Silurian* Systems in Britain.

The Deutozoic Era.—Chief characteristics of strata and organic remains of British rocks of this era : The *Devonian* and Old Red Sandstone Period : The *Carboniferous* System of Britain ; its main divisions and fossils ; chief British coalfields and their economic products : The *Permian* Rocks, and their peculiar phenomena.

The Mesozoic Era.—Physical features of the *New Red Sandstone* rocks of Britain and Germany : British salt producing districts : The *Jurassic* Formations and their ironstones, building stones, and most abundant fossils : The *Cretaceous* Rocks, conditions of their deposition and life.

The Cainozoic Era.—Contrasts between Mesozoic and Cainozoic life : Chief divisions and zoological features of British *Tertiary* Rocks : Crust disturbances during Tertiary time.

The Glacial Epoch.

Local Geology.

Summer Term.—*Lectures and Laboratory* with the addition of Saturday Excursions.

Outlines of the geology and physiography of the Birmingham District. In addition to the lectures the students attend the series of *Excursions* on Saturday afternoons during the Summer Term.

II.

Lectures.—Mondays, Wednesdays, and Fridays, at 11.30.

Laboratory.—Mondays and Wednesdays at 10.30, and Fridays at 9.30.

FEE:—£4 4s.

(a) Petrological.

The description and determination by chemical, physical, and microscopic tests of the chief rock-forming minerals: study and recognition in hand specimens and thin slices of the chief rock types: practical determination and explanation of rock textures: methods of occurrence and distribution in space and time of the chief rock types, and the structures characteristic of them.

(b) Structural.

The structure and relations of rock masses in the field and on a large scale: study and interpretation of maps and sections: principles of geological surveying: relationships of rock structure to the relief and economics of a country.

(c) Stratigraphical.

The stratigraphy, palaeontology, and distribution of the geological formations of Britain; their chief representatives abroad: The geological systems and their subdivision into series and stages: The life of the systems: Characteristic fossils and principles of correlation: Physical geography of the geological periods: Volcanic history of Britain: The economic products connected with the rocks of the different systems. Physiographical geology in general, and in its application to two or three typical districts.

(d) Areal Geology.

A detailed study of the stratigraphy of a definite area in the Midlands considered as a type: The development of its different rock-systems, their inter-relations and fossils. In addition to attending the Lectures the students study the selected area in the field, making one field excursion each week during the Summer Term.

III. A.

APPLIED GEOLOGY.

Lecture and Laboratory hours, Mondays and Fridays at 12.30, in the Winter Term, and by arrangement in the Spring and Summer Terms. *Field Work* on Fridays, in Summer.

FEE:—£4 4s.

1. The Economic Geology of Britain.

Water: Overground supplies; drainage areas, reservoirs; sanitation; underground supplies; springs, wells, drainage areas, calculation of resources, effects of rock-structure and surface configuration, contamination, &c. *Building Materials*: Stone, brick-clay, slate, cement; testing; distribution and qualities of building materials; ornamental stones; road metals; building sites. *Fuels*: Position, and succession of coal-bearing rocks; Coal and coalfields; distribution of coals; the Midland coalfields; structure and correlation of coalfields; hidden coalfields; petroleum. *Ores*: Characters and distribution of the chief metalliferous minerals; nature and structure of the chief kinds of ore deposits; chief ore-bearing districts in Britain.

2. Structural and Field Geology.

The methods and practice of geological surveying as applied to some single district: relief of the ground; succession of rocks: delineation of rocks on maps; relative resistance of rocks to denudation; effect on the physiography, and its use in elucidating underground structure; working out of structure from surface indications; preparation of vertical and horizontal sections; detection of faults and unconformities and their economic results.

A special district is surveyed and mapped in detail. One whole day (Friday) in each week is devoted to this work in the Summer Term.

Mining Students take III A in their third year, and Engineering Students in their fourth year.

III. B.

BIOLOGICAL GEOLOGY (PALEONTOLOGY).

Lecture and Laboratory hours by arrangement.

FEE:—£4 4s.

1. General Palæontology.

The nature and preservation of fossils: The general succession of life as revealed by the geological record; the imperfection of the record; a special study of the hard parts of each of the principal classes of the invertebrata and cryptogamia; the structure, classification and range of the chief families and their most important genera; a general knowledge of the fauna and flora of the geological systems.

2. Detailed Palæontology.

A detailed study of one of the fossil orders of the invertebrata or cryptogamia; or of the fauna or flora of some one geological system and its divisions.

III. C.

PETROLOGICAL GEOLOGY (MINERALOGY AND PETROGRAPHY).

Lecture and Laboratory hours by arrangement.

FEE:—£4 4s.

1. Mineralogy.

Form and structure of minerals; nature of crystalline form; systems of crystalline form; isomorphism; pseudomorphism: Chemical composition of minerals: Classification of minerals: Description and determination of minerals by microscopic, chemical, and physical tests; crystal optics and the use of convergent and plane polarised light.

2. Petrography.

Classification and determination of rocks by microscopical, physical, and chemical means in hand specimens and rock-slides; study of the occurrence and distribution of rocks in Britain and the principal and typical foreign localities; principles underlying the genesis and classification of rocks; dynamical and thermal metamorphism of rocks.

IV.

HIGHER STRATIGRAPHY, PALÆONTOLOGY AND PETROLOGY.

Lecture Days and hours by arrangement.

FEE for each Term :—Lectures and Laboratory (four hours weekly), £2 2s.

This Course is projected for candidates for the degree of M.Sc., and for those who desire to study in detail the Petrological, Historical, and Biological aspects of Geology. The Course extends over one year, the student taking up the several sections of the subject in sequence, and accompanying each stage by a study of the books and publications in the University Library, and of the illustrative series of fossils and rocks in the University Museum. During the third Term the pupil prepares a Thesis upon some selected subject in Petrology, Geology, or Palæontology.

V.

RESEARCH WORK IN GEOLOGY AND PALÆONTOLOGY.

FEE for each Term :—£2 2s.

Advanced students who have completed their systematic College Courses, those who have obtained the degree of M.Sc. and are preparing for the Doctorate, and occasional geological students, British or Foreign, studying some special branch of Geology or Palæontology, work in the Museum and Laboratory during term time, under the direction of the Professor and Lecturers, with use of the collections and microscopes.

The chief subjects at which such students may work include (1) Graptolites, Trilobites, Brachiopoda, &c., British and Foreign; (2) Field Geology and Geological Mapping; (3) Zonal Geology; and (4) Petrography.

The large collections of rocks and fossils in the Geological Museum from the older rocks, the range and variety of the geological formations in the Birmingham District, and the proximity and availability of the classical geological ground of the West of England, afford research

students especial opportunities and facilities for the prosecution of original work.

VI.

PRACTICAL WORK.

LABORATORY CLASSES.

In connexion with the foregoing Courses, Practical classes are held in the Geological Laboratory, upon such days and hours as are found most convenient to the students. The instruction given has reference to the actual study and examination of the minerals, rock-specimens and fossils noticed in the lectures; the methods of mounting, and determining of fossils; the preparation of rock specimens for the microscope and cabinet; the drawing of figures, maps, sections, &c.

Persons not attending Lectures, but wishing to work in the Geological Laboratory and Museum, can do so at all times when open, on payment of a terminal fee of £2 2s., or for two hours weekly, 10s. 6d. each term. Such students will be encouraged and assisted in the prosecution of their private studies or original work.

For Vacation Reading, see p. 388.

REQUIREMENTS FOR DEGREES.

B.Sc. Degree. 1. Geology as the *principal* subject; Course I in the first year; Course II in the second year, together with part A, B, or C of Course III.

2. Geology as a *subsidiary* subject:—

(a) One year, Course I.

(b) Two years. Course I and Course II.

(c) *B.Sc. Degree in Mining.* Course I in the first year, Course II A in the second year, and Course III A in the third year.

(d) *B.Sc. Degree in Engineering.* Course I in the second year; Course III A in the fourth year.

B.A. Degree. Geology as a *subsidiary* subject:—

(a) One year, Course I.

(b) Two years, Course I. and Course II.

TIME TABLE.

GEOLOGY.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
Course I.	9.30	...	9.30	...	9.30
Laboratory	10.30	...	10.30	...	10.30
Excursions (Summer)	Aft.
Course II.	11.30	...	11.30	...	11.30	...
Laboratory	10.30	...	10.30	...	9.30	...
Field-work (Summer)	10.30	...
Courses III, IV, V, VI.	...	<i>By arrangement.</i>		

ECONOMIC GEOLOGY.

This Course is projected for those who are unable to attend a complete systematic Course in Geology, but who are desirous of knowing the principles and practice of the science in so far as they can be utilised in business, and in professional and every-day life.

This Course will commence with a section dealing with the fundamental facts and principles of Geology. This will be followed by sections dealing with Geology as applied to water-supply, sanitation, agriculture, &c., and a further group of sections dealing with the application of geology to architecture, mining, &c.

Section I must be taken by all; Sections I and II by Brewing Students and Candidates for the Diploma in Public Health. The remaining sections are elective.

Each Section will include about ten lectures and ten demonstrations, two hours a week, during the Winter and Spring Terms.

FEE for each Section :—£1 1s.

WINTER TERM. Mondays and Fridays at 12.30.

I. *The Outlines of Geology*.—The rocks and rock-formations; geological maps and sections, their interpretation and uses.

II. *Geology and Water Supply*.—

(a) Overground waters and their action and employment; drainage, sanitation, water supply, reservoirs.

(b) Underground waters and water supply, water, bearing rocks and formations, springs, wells, hard and soft waters.

SPRING TERM. Mondays and Fridays at 12.30, or by arrangement.

III. *Geology and Architecture*.—Chief British building stones, their characters and distribution; fire-clays; brick-clays; cements; building sites; road metals.

IV. *Mining Geology*.—Fuels of Britain; the coal-fields; coal and coal-mining, &c.; ores and ore-bearing formations; chief ore-bearing districts of Britain and the Colonies.

AFTERNOON CLASSES.

The Outlines of Geology.

Winter and Spring Terms.

During the Winter and Spring terms, a Course of about Twenty Afternoon Lectures (ten in each term) is delivered on the *Outlines of Geology*.

These Lectures are of a popular and untechnical character, and present a summary of the chief principles, methods, and conclusions of the Science of Geology. They are illustrated by a series of diagrams, rock specimens, and fossils. This course is intended for beginners in geology, for amateurs, for those persons of leisure who desire a knowledge of the outlines of the science, and for those who intend to join the Summer Excursion Class.

Admission to the first lecture free.

SYLLABUS.

Physical Geology.

WINTER TERM.

Lecture Hour.—Thursdays, at 2.30 p.m.

FEE :—10s. 6d.

1. *The Exterior of the Earth-Crust.*

Form and size of the Earth ; the atmosphere ; oceans ; the land and water areas of the globe.

2. *The Materials of the Earth-Crust.*

Rock-forming minerals, rock structure, classification of rocks.

3. *Agents concerned in altering the form and structure of the Earth-Crust.*

(a) *Internal.*—Volcanoes, Geysers, Earthquakes, &c.

(b) *External.*—

Destructive : The air, rain, rivers, frost, glaciers, the sea.

Re-constructive : The atmosphere, rivers, lakes, plants, animals, the sea.

4. *Architecture of the Earth-Crust.*

(a) *The Sedimentary rocks.*—Their stratification, jointing, inclination, contortion and faulting.

(b) *The Igneous rocks.*—*Intrusive*: granites, porphyries, &c. *Contemporaneous*: lavas, tuffs, and ash beds.

(c) *The Altered rocks.*—Their cleavage, contact-metamorphism and regional-metamorphism.

(d) *The Mineral Veins* and ore beds.

TEXT BOOKS RECOMMENDED.—Watts: *Geology for Beginners* (Macmillan). Lapworth; *Intermediate Text Book of Geology* (Blackwood). Judd; *The Student's Lyell* (Murray).

Historical Geology.

SPRING TERM.

Lecture Hour.—Thursdays, at 2.30 p.m.

FEE:—10s. 6d.

1. *The Life of the Present.*—Classification of animals and plants; distribution of life forms; theories of biological evolution; mode of preservation of animal and vegetable remains.
2. *The Geological Record.*—History of geological discovery; principles of chronological classification of formations; the history of the geological record.
3. *The Fundamental Rocks.*—The crystalline formations; their extent; richness in minerals, and barrenness of life.
4. *The Dawn of Existence.*—The primeval islands and shallow seas of Western Europe; their prolific and remarkable forms of animal life.
5. *The Continental Period.*—The western mountain ranges, and great British lakes of Old Red Sandstone time; the coral banks and fern forests of the Coal period; the great salt-lakes and sandy deserts of the Permian and Trias.
6. *The Great Depression.*—The coral-reefs of the Jura and the Midlands; gigantic sea lizards and ammonites. The vast ooze-covered sea-floor of the Chalk.
7. *The Re-emergence.*—The gradual development of the Old World; formation of the Alps and Himalayas. The British Andes, volcanoes and plant life; warm climates and remarkable mammalian life of Tertiary time.
8. *The Age of Man.*—The Ice period, its ice sheets and glaciers, appearance of early man, disappearance of the mammoth and its contemporaries, progress of man through pre-historic times.

9. *The Evolution of the Earth Crust*, and the life types with which its surface has been successively peopled.

ADDITIONAL TEXT BOOK RECOMMENDED. — Jukes-Browne ; *The Building of the British Isles* (Bell).

Local Geology and Excursion Class.

SUMMER TERM.

GEOLOGY OF BIRMINGHAM AND DISTRICT.

The main object of this course is to afford the student a practical knowledge of the geological structure of the neighbourhood of Birmingham and of the Midlands generally. The various geological formations found within thirty miles of Birmingham are described in a series of Lectures, illustrated by typical rocks and fossils.

Upon every Saturday when practicable, Excursions are made by the members of the class to the more important geological localities of the district, and the visible phenomena studied in the field.

The members of this class are encouraged and assisted in the collection, determination and preservation of representative rocks and fossils.

This class is intended not only for ordinary students of the science, but also for amateurs and persons of leisure, ladies, collectors, miners, architects, and for all those who take an interest in the geology of the district.

Lecture Hour.—Thursdays, at 2.30 p.m.

FEEs for the Course:—Excursions and Lectures, £1 1s.; Lectures only, 10s. 6d.

TEXT BOOK RECOMMENDED.—Lapworth, Watts, and Harrison ; *A Sketch of the Geology of the Birmingham District* (Stanford).

GEOLOGICAL EXCURSIONS.

As a general rule the Excursions take place on Saturday after 1 p.m. A few whole-day excursions are made by arrangement with the members of the class.

FEE for the Excursions:—£1 1s.

Advanced Geology.**WINTER AND SPRING TERMS.**

An afternoon Class in Advanced Geology will also be formed during the Winter and Spring Terms.

Lecture Hour.—Thursdays, at 3.30 p.m.

FEE:—10s. 6d. for each Term.

The lectures in Advanced Geology deal with some special aspect of the science (*a*) in which research is still in progress, (*b*) which is of interest from the theoretical point of view, or (*c*) which is related to the advancement of other sciences. Among the subjects already treated of are (1) Geology and Scenery, (2) the Relief of the Globe, (3) Earth and Man, (4) Palæontology and Evolution, (5) the Face of the Globe, (6) Tectonic Geology, (7) Landscape and Geology, (8) The Geological Systems, (9) Recent advances in Glacial and in Alpine Geology.

Elementary Physiography.

(For Matriculation Examination.)

Lectures.—Tuesdays and Thursdays, at 3.30, during the Winter Term, and the first half of the Spring Term.

FEE:—£1 11s. 6d.

(See page 229).

Advanced Physiography.

(See page 230).

GEOGRAPHY.

Senior Lecturer: THEODORE GROOM, M.A. (Cantab.),
D.Sc. (Lond.), F.G.S.

Lecturer: F. RAW, B.Sc. (Lond.), F.G.S.

I. THE PRINCIPLES OF GEOGRAPHY.

PHYSICAL AND POLITICAL.

This course of Lectures extends over two years, Physical and Political Geography being taken concurrently.

The first year course will embrace the more elementary portions of both branches of the subject ; the second year course, while dealing chiefly with Advanced Political Geography, will also treat of Advanced Physical Geography, and particularly with its application to the political side of the subject.

This course of lectures embraces (1) a summary of the chief facts known concerning the present *Surface Features*, and the grander *Natural phenomena* of the Earth upon which we live—its lands, its waters, its climates, and its inhabitants ; (2) a study of the *Agents of Change*, organic and inorganic, which have brought about the present form and characteristics of its visible surface, and the distribution and arrangement of its living creatures ; (3) a brief sketch of the *Past history* and changes of the earth's surface ; and (4) an investigation of the present relations of this surface *to Man and his works*, his industries, his commerce, his distribution and progress, in so far as they can be traced through the outlines of the Political Geography of the present day.

In other words, the special aims of the Lectures are :—First, to give the student a general knowledge of the present physical features, the climates and productions of the earth ; next, to show how all these probably came into being, and how they are in continual process of change and development ; and finally, to show how man himself is related to the phenomena of the earth upon

which he dwells, how he has peopled its surface, and availed himself of its productions.

I (a) Physical Geography. (Physiography.)

This course includes thirty Lectures on Elementary Physical Geography delivered to First Year Students and thirty Lectures on Advanced Physical Geography delivered to Second Year Students.

FEE for each Course:—£1 11s. 6d.

Elementary Physical Geography.

Lectures.—Tuesdays and Thursdays, at 3.30, during the Winter Term, and first half of the Spring Term.

The Earth in its relation to the other bodies in the Solar System : The form and size of the globe ; its movements and their effects in day and night, the seasons, eclipses.

The Surface of the Earth : General distribution of land and water ; the contour, relief, and chief features of the continental land areas.

The Atmosphere : Its composition and density ; the determination, distribution, and representation of its temperature and pressure ; the circulation of the air, permanent and periodic winds, storms ; the moisture of the air, dew, hoar-frost, fog, mist, clouds, rain, snow and hail ; general distribution of rainfall and its causes ; weather-charts and storm-warnings ; climate.

The Sea : Composition, specific gravity, and temperature of sea-water ; depths of the ocean, form and deposits of its floor ; movements of the ocean-water, waves, tides, and currents.

The Land : The chief constituents of the earth-crust, stratified and unstratified rocks ; the work of rain, frost, rivers, and ice ; springs, glaciers, valleys, water-falls, lakes, meadows, deltas ; earth-movement and earthquakes ; volcanoes, their phenomena and distribution.

Life : The geographical distribution of animals and plants ; biological regions.

TEXT BOOKS RECOMMENDED.—Page and Lapworth : Introductory Text Book of Physical Geography (Blackwood). Huxley's Physiography, new edition by Gregory (Macmillan). Philip's Classbook of Physical Geography (Philip). Morgan ; Elementary Physiography (Longmans). Simmons ; Physiography for Beginners (Macmillan).

I (b) Advanced Physical Geography.

Lectures.—Mondays at 3.30 and Tuesdays at 9.30 during the second half of the SPRING TERM, and the whole of the SUMMER TERM.

The inter-relation, composition, movements, and origin of the earth, moon, planets, fixed stars, and other celestial bodies; the bearing of spectrum analysis on these investigations; the nebular and meteoric theories.

The mass and density of the earth: The condition of the interior. Latitude and longitude: Their use and determination; globes, maps, and projections; terrestrial magnetism.

The precession of the equinoxes, and the revolution of the apsides and their geographical effects.

The Atmosphere: Light and colour; atmospheric electricity; climates, and their distribution in space and time; glacial and genial climates.

The Hydrosphere: Classification, history and origin of the ocean-basins; tides in their relation to planetary evolution; life in the oceans; coral reefs.

The Lithosphere: The composition, arrangement and history of the materials of the earth-crust; formation of rocks; crust movements and their effects; theories of volcanoes and earthquakes, with regard to the state of the earth's interior; relief of the lithosphere and its causes; plateaux, mountains, plains.

Landscape: Origin and development of landscape features; escarpments and drainage systems; adjustment of streams; divides; terraces; effects of earth movement; youth, maturity, and old age of streams; form and development of coast-lines; history of landscape.

The Physiography of the continents, islands, and ocean basins.

Biological Geography: Classification of animals and plants; ocean life; terrestrial life; causes of distribution: Distribution of the races of mankind: Man as a geographical agent.

TEXT BOOKS RECOMMENDED.—Mill; *Realm of Nature* (Murray). Hinman; *Eclectic Physical Geography* (Sampson Low). Davis; *Physical Geography* (Ginn).

I (c and d) Elementary and Advanced Political Geography.

This course includes about thirty Lectures on Elementary Political Geography delivered to First Year Students, and about thirty Lectures on Advanced Political Geography delivered to Second Year Students.

Lectures :—*Elementary*, Tuesdays, at 3.30, during the second half of the Spring Term, and the whole of the Summer Term : *Advanced*, Mondays at 3.30 and Tuesdays at 9.30, during the Winter Term and the first half of the Spring Term.

FEE for each course :—£1 11s. 6d.

The object of this course is to afford the student a broad view of the facts and principles of Political Geography in general, and to show how these facts and principles are illustrated and employed in the detailed study of one or more typical countries in each of the grander divisions of the globe. Commencing with a brief description of Man in general, his races, languages, industries, &c., the course treats of the chief geographical and political divisions of the globe in order. Each of the great continental divisions, its physiography, productions, peoples, and political sections is developed in outline, and two or more of its most typical countries worked out in fuller detail. In Europe, the British Islands are primarily selected for detailed study, and in other parts of the world chief regard is paid to the British colonies and dependencies.

The following is a general syllabus of the course :—

The Earth and Man.

1. *Man in General*.—(a) *Races of Mankind*; (b) *Languages*; (c) *Modes of Existence*; (d) *Trades and Commerce*; (e) *Grades of Civilisation*; (f) *Modes of Government*.

The Countries of the Earth.

2. *Europe*.—(a) Europe in general, its divisions, physiography, countries, chief cities, inhabitants, and productions.

(b) British Islands, relief, climate, products, industries, towns, trade, divisions, and government.

(c) France; (d) German Empire; (e) Russian Empire.

3. *Asia*.—(a) Asia in general; (b) India and other British possessions; (c) China; (d) Turkish Empire.

4. *Africa*.—(a) Africa in general; (b) Egypt; (c) British Africa.

5. *America*.—(a) North America in general; (b) British America; (c) South America in general; (d) Brazil.

6. *Australasia*.—(a) Australasia in general; (b) Australia; (c) New Zealand.

TEXT BOOKS RECOMMENDED.—Keith Johnson; A School Geography, Physical and Descriptive (Stanford). Meiklejohn; A New Geography (Holden). Mill; The International Geography.

II. COMMERCIAL COURSE ON GEOGRAPHY.

A Course of Lectures on the Principles of Geography, with special reference to their application to Commerce.

Lectures.—Tuesdays and Thursdays, at 12.30.

FEE for the Course :—£3 3s.

Physical Geography. Winter Term.

1. Day and night, seasons, latitude and longitude, time, climates.
2. Maps and projections.
3. The Earth's surface.
4. The Air ; Temperature, pressure, movements, storms, rain.
5. The Seas ; Ocean basins, temperature, currents, tides.
6. The Lands ; relief, composition.

Geography of Societies. Spring Term.

1. Distribution of Animals and Plants.
2. Antiquity of Man and early civilisations.
3. Races, migration, and languages of mankind.
4. Governments and Education.
5. Trade ; principles, commodities, transport.

Geography of Nations. Their resources and communications. Summer Term.

1. Europe.
2. British Isles.
3. France, Germany, and Russia.
4. The United States.
5. British Empire and its relations.

TEXT BOOKS RECOMMENDED.—Hebertson's Commercial Geography ; Mill's Elementary Commercial Geography ; Chisholm's Commercial Geography.

REQUIREMENTS FOR INTERMEDIATE ARTS EXAMINATION.

Courses Ia, Ic, and II.

HUMAN ANATOMY AND ANTHROPOLOGY.

Professor: ARTHUR ROBINSON, M.D.; M.D., C.M. (Edin.)

Demonstrators { T. YEATES, M.B., C.M., B.Hy.
SEYMOUR BARLING, M.B., B.S., F.R.C.S.
VIOLET A.P. COGHILL, M.B., Ch.B. (Edin.)

Hon. Demonstrators: W. E. BENNETT, M.B., Ch.B., F.R.C.S.
J. JAMESON EVANS, M.D.; C.M. (Edin.), F.R.C.S.

The courses in Human Anatomy will be found fully described in the Medical section of the Calendar. The following information relates to candidates taking the above subject for the B.Sc. examination.

I.—In Human Anatomy the candidate must have pursued the entire medical course for two Winter and one Summer Sessions as detailed in the regulations for medical degrees. He must also produce evidence that he has dissected the whole body at least once.

II.—In Anthropology the candidate must have attended the following courses of lectures:

- (i.) The course on Embryology, including the Principles of Teratology.
- (ii.) A course of lectures and practical instruction in Anthropology and Ethnology. This course will include a general review of the province of Anthropology. Zoological and Anthropological characters of Man. Physical measurements on the living subject. Cranial and other skeletal measurements.

FEES for these Courses:—

I. For the two Winter and one Summer

Sessions	£26	5	0
Incidental Fees	3	13	6

II. For the Courses detailed under this

section	4	4	0
---------	-----	-----	-----	-----	---	---	---

PHYSIOLOGY.

Professor : E. W. WACE CARLIER, M.Sc. ; M.D. (Edin.),
F.R.S.E.

Lecturer : J. H. RHODES, M.B., Ch.B. (Edin.), M.R.C.S.

UNIVERSITY COURSES.

I.

The courses prescribed in the Faculty of Medicine under II. and IV.

II.

The courses prescribed in the same Faculty under I. and V. The syllabus of V. is here appended :—

Advanced Practical Physiology.

Mondays and Fridays, from 2.30 to 4.30, during the whole Winter Session.

The Course will include the more advanced problems of experimental physiology, histology and physiological chemistry. The experimental part includes the physiology of muscle, nerve, heart, circulation, respiration, central nervous system and organs of sense and voice. The chemical section includes the analysis of organic substances found in the body, the chemical and spectroscopic examination of the blood and its derivatives, the chemistry of the digestive products and the results of their activity. The histological part consists in the practice of the more advanced and complicated methods of histological research and of the results obtained by their use.

FEE for the Course, £6 6s. including an incidental fee of £1 1s.

Students desiring to prosecute research or other independent work in the laboratory will be allowed to do so *at the discretion of the Professor* on the payment of a fee of 2 guineas, including an incidental fee of £1 1s., for each period of three months.

REQUIREMENTS FOR DEGREES.

B.Sc. Degree :—

- (1) Physiology as a Principal Subject : Students must take Course I. as above in their first year, and Course II. in their second year.
- (2) Physiology as a Subsidiary Subject : Courses I. and IV. of the Medical Syllabus.

ENGINEERING.

GENERAL INTRODUCTION.

The full courses extend over four years, and lead to the degree of Bachelor of Science in Engineering. Candidates for the degree must be matriculated before entering the courses.

Candidates for the degree who, before entrance to the University, have passed the First Engineering Examination (or an Examination recognised by the University as equivalent) under the conditions specified on p. 126, will be allowed to enter the second year, and will be eligible for the degree in three years, instead of four.

Students who are unable to take a full course, or who have not been matriculated, will be admitted to the classes as far as room permits, and on leaving the University will receive a certificate stating the courses they have taken and their position in the examinations; but before entering, such students are required to pass an entrance examination in Mathematics, and in either Experimental Mechanics or Chemistry up to the matriculation standard.

Students, without taking a systematic course, may be admitted to any special course, provided that they can satisfy the Professor concerned that their previous knowledge is such as to enable them to follow with advantage the instruction given.

REQUIREMENTS FOR DEGREES.

The courses for the first year are the same for all branches of Engineering, but after the first year students must take up definitely one of the branches, Mechanical, Civil, or Electrical Engineering. The time-tables for the classes in all subjects taken by Engineering Students are appended. Full details of the various Engineering courses will be found in the syllabuses of Mechanical, Civil, and Electrical Engineering, and of the Science courses in the syllabuses of the respective subjects.

FIRST YEAR.

FOR ALL STUDENTS OF ENGINEERING.

- (a) Engineering—Lectures, Course I.
 Drawing.
 Workshop.
- (b) Mathematics—Course I (Pure);
 or, for more advanced students—
 Course II (Pure) and
 Course I (Applied).
- (c) Physics—Lectures, Course I and Laboratory.
- (d) Chemistry—Lectures, Course I (A) and Laboratory.

MECHANICAL AND ELECTRICAL
ENGINEERING.*SECOND YEAR.*

- (a) Engineering—Lectures, Course II.
 Exercises.
 Drawing.
 Workshop.
- (b) Mathematics—Course II (Pure) and
 Course I (Applied);
 or, for more advanced students—
 Course III (Pure) and
 Course II (Applied).
- (c) Physics—Lectures, Course II.
- (d) Metallurgy—Lectures, Course II and Laboratory.

THIRD YEAR.

- (a) Engineering—Lectures on—
 Mechanical Engineering, Course V.
 Civil Engineering, Course IX.
 Electrical Engineering, Course XIII.
 Machine Design, Course III.
 Heat Engines, Course IV.
 Laboratory (Strength of Materials).
 „ (Heat).
 „ (Electrical).
 Drawing (Mechanical).
 „ (Electrical).
 Workshop.
- (d) Mathematics—Special Course.

FOURTH YEAR.

Engineering—Lectures, Course VI. (Mechanical).
Lectures, Course XIV. (Electrical).
Laboratory (Mechanical).
„ (Heat).
„ (Electrical).
Designing (Mechanical).
„ (Electrical).
Workshop.
Accounting.

CIVIL ENGINEERING.

FIRST YEAR.

The courses are exactly the same as those laid down in the first year for Mechanical Engineers.

SECOND YEAR.

- (a) Engineering—Lectures : Course II (Mechanical).
„ Course VII (Civil).
Exercises.
Drawing.
Workshop.
Surveying.
- (b) Mathematics—Course II (Pure) and
Course I (Applied).
or, for more advanced students—
Course III (Pure) and
Course II, (Applied).
- (c) Physics—Lectures : Course II.
- (d) Geology—Lectures : Course I.
Laboratory.
-

THIRD YEAR.

- (a) Engineering—Lectures : Course VIII (Civil).
 ,, Course IX (Civil).
 ,, Course III (Mechanical).
 ,, Course IV (Mechanical).
 ,, Course XIII (Electrical).
 Drawing and Surveying.
 Laboratory, (Heat, Strength of
 Materials, and Electrical).

(b) Mathematics—Special Course.
-

FOURTH YEAR.

- (a) Civil Engineering—Lectures : Course X.
 ,, Course XI.
 ,, Course XII.
 Designing, Course XB.
 Laboratory, (Strength of
 Materials, Hydraulic).

(b) Geology—Lectures and Laboratory.
 Field Work.

(c) Accounting.
-

FIRST YEAR MECHANICAL, CIVIL, AND ELECTRICAL ENGINEERING TIME TABLE.

SUBJECTS.	CLASS HOURS.

MECHANICAL ENGINEERING.

UNIVERSITY BUILDINGS, BOURNBROOK.

Professor : F. W. BURSTALL, M.Sc. ; M.A. (Cantab.), M.I.C.E.,
M.I.M.E.

Lecturer : R. C. PORTER, M.Sc., A.M.I.C.E.

Demonstrator : J. F. GILL, M.Sc.

Head Draughtsman : E. LANGFORD HAZEL.

Second Draughtsman : J. H. SINCLAIR, M.Sc. (Vict.).

The training throughout the course is largely practical and experimental in its character ; the University workshops, consisting of forge, foundry, machine shop and pattern-making shop, are very extensive, and equipped with the most modern tools.

In the later part of the course attention is directed to experimental work in the Engineering Laboratories, which are fitted with modern appliances for demonstration of the principles underlying engineering practice.

The University Power Station constitutes the heat engineering laboratory, in which the experimental work on steam and gas engines is carried out. The boiler room contains two water tube boilers of different makes, two marine boilers, a locomotive boiler, a gas fired superheater, four feed pumps of various designs, a feed heater, etc. Two of the boilers are fitted with mechanical stokers for purposes of comparison with ordinary hand-fired furnaces. The engine room contains two high-speed steam engines of different designs, a triple-expansion marine engine, a steam turbine, four different types of condensers, a two-stage air compressor, two gas engines of different types, and an oil engine, which latter drives an ammonia refrigerating plant.

The size of the plant is sufficient for obtaining satisfactory results, the steam engines having a total out-put of 400 h.p., and the gas engines of 160 h.p., while the boilers can evaporate 25,000 lbs. of water per hour. Every engine has its own electric generator, and artificial loads are provided for absorbing the current when it is not required for lighting purposes. Attached to the Power

Station is a Mond gas generating plant, large enough to gasify five tons of coal per day, and produce 30,000 c.ft. of gas per hour.

The whole University being dependent on this Power Station for lighting, heat, and power, students can learn by actual experience the work involved in running such a station.

On account of the importance and responsibility of working in this laboratory, no student who is not an undergraduate will be allowed to take a course there unless he previously passes a special examination to show that his general engineering knowledge is sufficient to ensure that he can do so with profit.

The Foundry is 50 feet long and 25 feet wide, and is equipped with an ample supply of boxes, tools, etc., besides an over-head travelling crane for handling heavy moulds, and a mortar mill for preparing the sand. A drop-bottom cupola provided with an electric blower is placed just outside the Foundry for melting the iron, while brass is melted in a gas-fired furnace; gas is also used for the core-drying stove.

The Drawing Office is capable of accommodating 120 students. It is 50 feet wide, and 100 feet long, and furnished with suitable tables, each fitted with an independent electric light, drawers and lockers for storing students' drawings and instruments, and modern vertical drawing tables for the use of senior students. It is also equipped with a set of sectional models of machine parts. Drawing boards of suitable dimensions are supplied for students, but the student must provide for himself a set of standard instruments and materials, particulars of which will be given by the Lecturer.

Adjoining the Drawing Office is the Blue Print Room, where students receive instruction in blue printing, and other methods of the rapid reproduction of drawings. It is fitted with a modern electric blue printing machine, developing baths, and drying arrangements.

The Machine and Fitting Shop together have a floor space of 7,500 square feet, and are equipped with modern plant, including standard lathes, grinding machines, horizontal and vertical milling machines, planing and shaping machines, and boring machines; and a large assortment of small tools, micrometers, limit gauges, etc. There are also in this department specially constructed tools for the demonstration of the use of high speed steels. Students must provide certain standard small tools, particulars of which will be given by the Instructors.

The Pattern Shop has a floor space of 2,500 square feet, and is equipped with standard hand and power wood working tools, including power, planing, and thicknessing machines, band, circular, and dimension saws, lathes, hand trimmers, and a large assortment of general hand wood-tools. Students must provide certain standard small tools, particulars of which will be given by the Instructor.

The Smithy is the same size as the Foundry, and contains twelve hearths supplied with air blast by an electric blower, and a three-hundredweight power hammer. Oil tanks, air blast, etc., are also provided for hardening and tempering tool steel.

LECTURE COURSES.

FIRST YEAR.

COURSE I.

DESCRIPTIVE COURSE.

Tuesdays and Thursdays, 4 to 5, throughout the Session.

During the first term the Lectures will include the description of tools used in Engineering, and will be illustrated by a large collection of lantern slides.

For the second term the lectures will deal with steam boilers, steam engines, and gas and oil engines.

Hand Tools for Wood and Iron.—The plain lathe, engine lathe, slide rest, screw cutting, self-act and cross traverse, large lathes, special lathes (such as the capstan lathe), milling machine, planing machines, shaping machines, slotting machines, drilling machine, sensitive and multiple drills, grinding machines, boring machines.

Types of Boilers and Boiler Fittings.—Cornish, Lancashire, vertical, locomotive, marine, water tube, feed heaters, economizers, super-heaters.

Steam Engine parts.—The cylinder, slide valve, piston, stuffing box, kinds of packing, crosshead, guides, connecting rod, crank shaft, eccentric, bearings, lubrication, flywheels, cocks and valves.

Types of Steam Engines.—Mill engine, locomotive, marine, high speed, pumps and pumping engines, duplex pumps, feed pumps, centrifugal pumps.

Gas and Oil Engines.—Otto cycle, valves, governors, ignitors, Priestman oil engines, Hornsby oil engine, Diesel motor.

The third term will be devoted to an introduction into Electrical Engineering, consisting mainly of a descriptive and demonstrative course in which the students will be made acquainted with the general types of electrical machinery and apparatus. The lectures will include an exposition of construction and principle of action of the following: Dynamo Machines for continuous and alternating current; Transformers; Measuring Instruments, such as Ampere Meters, Volt Meters, Galvanometers, Wheatstone's Bridge, Electricity Meters: Types of Cables: Secondary Batteries, Switches and Switchboards, Fuses, various types of Electric Lamps.

The lectures will be combined with demonstrations in the Laboratory where students will be shown the various machines and appliances described in the lectures.

SECOND YEAR.*COURSE II.***APPLIED MECHANICS.**

Tuesdays and Thursdays at 12, Saturdays at 10, throughout the Session.

The lectures on Tuesdays and Thursdays will be on Graphics, according to the following syllabus:—

(a) **Graphical Mensuration.**—Areas of polygons, closed curves, and surfaces. Volumes.

Vectors.—General properties, rules for addition and subtraction, position vectors.

Mass Centres, by vectors and other constructions. Points, lines, surfaces, and solids. Moment of Inertia.

(b) **Graphical Statics.**—Derivation of vector and link polygons, and conditions of equilibrium using these. Supporting forces. Force diagrams for roofs and girders. Diagrams of bending moment and shearing force. Maximum bending moments and shearing forces for rolling loads. Arches and chains in equilibrium. Problems in hydrostatics.

THIRD YEAR.*COURSE III.***MACHINE DESIGN.**

Saturdays at 11.

General Principles—Properties of materials. Straining actions. Stress, physical constants for ordinary materials, factors of safety, working stress for dead and live loads.

Fastenings, Screws.—Standard forms and dimensions of threads, multiple threaded screws. Screw bolts, studs, set screws.

Keys and Cotters.—Forms of keys. Taper and dimensions. Gib and cotter joint. Special precautions to be taken with alternating stresses, methods of adjustment and fastening.

Riveted Joints.—Proportions of rivets, riveting, punching, drilling, caulking. Forms and proportions of joints. Shearing resistance of rivets and tenacity of plates before and after riveting, calculation of pitch. Arrangement of groups of rivets in ties, etc. Graphic method of designing joints. Efficiency of joints.

Boilers.—Thickness of shell, junction of plates, stays, angles.

Shafting and Couplings.—Strength of shafts, twisting moment and transverse loads, variation in twisting moment.

Calculations for shafts to resist twisting and combined bending and twisting. Mean and maximum twisting moments.

COURSE IV.

HEAT ENGINES.

Wednesdays at 11, Fridays at 12, Summer term.

The laws of heat, properties of air, specific heat, properties of steam, latent heat. The Carnot cycle for air and steam; Rankine cycle for saturated and superheated steam; comparison of actual and perfect engines. Reversed heat engines on air, ammonia, and carbon dioxide.

Elementary theory of the internal combustion engines; calculation of temperature.

Testing of steam and gas engines, indicators, brakes; working out of engine tests and analysis of results.

COURSE V.

MECHANICAL ENGINEERING.

Mondays and Fridays, 11 to 12, throughout the Session.

General theory of friction, static and kinetic; applications to brakes, earthwork, bearings, pivots, transmission of power by belts, ropes and friction couplings. Fluid friction: applications to skin resistance of ships and bearings. Lubrication.

Teeth of wheels, cycloidal and involute. Helical teeth, bevel wheels, screw and worm wheels, skew bevel wheels : epicyclic and variable gears.

Valve gears, Zeuner diagrams, cut-off valves, link gears, radial gears, trip gears.

Governors: isochronism, stability, and inertia. Watt governors, loaded governors, spring loaded governors, wheel governors.

FOURTH YEAR.

COURSE VI.

MECHANICAL ENGINEERING.

Tuesdays, Wednesdays and Thursdays at 12.

Advanced theory of the heat engine, entropy diagrams for saturated and superheated steam, behaviour of steam in the cylinder, clearance wire drawing, plotting of engine tests on the entropy diagram ; discharge of steam through nozzles, turbines. Theory of the gas and oil engine, properties of producer gases ; working out of gas engine tests.

Theory of the air compressor, different forms of compression, types of air motors, theory of reheating.

General principles of refrigerating machinery.

Transmission of power by air, water, gas. Cost of power, Effect of load factor.

Advanced machine design. Properties of stress and strain, composition of stresses, ellipse of stress, deflection and shear of beams, strength of cylinders, stability of chimneys, strength of crank shafts, connecting rods, effect of repeated loads, working loads.

LABORATORY COURSES.

THIRD YEAR.

HEAT LABORATORY.

SUMMER TERM.

Tuesdays, 2 to 5.

The first two meetings will be devoted to lectures on Engine and Boiler Testing and the methods of deducing the results, casting up the heat balance, etc.

Tests will then be made on the Babcock, Niclausse, and locomotive boilers, and on the Willaus, Belliss, and McLaren engines.

FOURTH YEAR.

HEAT LABORATORY.

Civil and Mechanical Engineers.—Fridays, 10.30 to 5.

Electrical Engineers.—Fridays, 10.30 to 5.

The course will include the experimental study of all the forms of heat engines.

Attention will be directed to the steam consumption of the slow speed engines, the quick revolution engines, steam turbine, the economy of using superheated steam, the use of variable expansion and feed heating. Boiler trials will be made on the water tube and locomotive boilers with different kinds of coal.

Experiments on the efficiency of producers at different rates of working, and the influence of the regeneration will be made.

Comparison of slow speed and quick revolution gas engines, efficiency trials at various loads, influence of water cooling on barrel, cover, piston, exhaust valve, influence of scavenging.

Experiments can also be made on the Diesel oil engine and the refrigerating plant.

MACHINE DRAWING COURSES.

FIRST YEAR.

COURSE I.

Wednesdays, 2 to 5.

After a few exercises to familiarise the student with the use of scales and drawing instruments, he proceeds to make drawings of simple joints and machine parts. These drawings which are at first left in pencil, are in every case made from dimensioned freehand sketches, which the student himself makes from a model.

SECOND YEAR.*COURSE II.*

Thursdays, 2 to 5, and Saturdays, 11 to 1.

The second year course is a direct continuation of the first year one. The same methods are employed, but the models from which the drawings are made are more complex, and the student will eventually proceed to make drawings of complete machines, and also of parts of structures such as complex joints in girder or roof work, supports, foundations, &c.

THIRD YEAR.*COURSE III.***MACHINE DESIGN.**

Electrical Engineers, Mondays, 2 to 5.

Civil and Mechanical Engineers, Mondays and Fridays, 2 to 5.

During the first and second years the student has only made drawings from existing machines, but in the third year his drawings are the results of calculations, wherever possible, deduced from strength considerations, and in other cases from empirical formulæ based upon approved practice. It is a course in practical design.

The course in general engineering will include lectures on machine design, and the drawings made will be based upon the substance of these lectures.

The course will include :—

Fastenings.—Bolts, nuts, keys, cotters, pipes and pipe joints, riveted joints, the civil engineering students giving more attention to the joints that occur in constructional work, and the others to joints in boiler and similar work.

Machinery of transmission.—Shafts, couplings, pulleys, bearings, belts, ropes, chains. Friction gearing spur and bevel wheels, helical and screw gearing.

After this may follow problems in which the strength considerations are more complicated, as in axles, journals, crank shafts, where bending and twisting moment diagrams are necessary.

In addition to the above the civil engineering students will take some simple designs bearing upon their special work, such as joists, trussed beams, bridge floors, culverts, and sewer sections.

Electrical engineering students will be required to make from patterns exact working drawings of details, and later on calculations and working drawings of complete electrical apparatus and machinery.

FOURTH YEAR.

COURSE IV.

MACHINE DESIGN.

Mechanical and Electrical Engineers :—Tuesdays and Thursdays, 2 to 5.

In the fourth year students largely specialise in their design work, the designs being based upon the special lecture courses.

The designs will be of a more complex character, and in all cases at least one complete design from specification and plans will be required.

The mechanical and electrical engineering students will deal with the following :—

Cylinders for steam and gas engines. Valves and valve gears of various types. Governors, fly-wheels, &c. Complete engines and boilers. Factory arrangements. Machine tools.

WORKSHOP COURSES.

The Workshops are open from 10 to 5, Saturdays 10 to 1, to those who wish to take up Special Courses, at a sessional fee of £1 11s. 6d. per hour per week.

MACHINE AND FITTING SHOP.

Instructors: W. R. CHURCHWARD and F. H. A. HALL.

In this department the course of instruction consists of a series of graduated exercises, both on machines and vice arranged to familiarise the student with all cutting and fitting operations, and general methods of construction.

Exercises.—Vice work. Exercises in chipping and filing plane and curved surfaces, and finishing to gauge and surface plate.

Machine Work.—Plain turning in cast iron, wrought iron, steel, brass, screw-cutting, and chuck work, Milling, Planing, Shaping, and Drilling exercises. Finishing to Micrometer and limit gauge. General engineering practice.

PATTERN SHOP.

Instructor: V. O. CLARKE.

In this department the course of instruction consists of a series of graduated exercises, on lathe and bench, arranged to familiarise the student with cutting and jointing operations in wood, and general engineering pattern making. The students are only allowed to use the lathes and hand machines in this department, the other machines being dangerous; the uses of these machines are however fully demonstrated during the session.

Exercises.—Sawing, and parallel planing, halved, tenon, mortice, and dovetail joints, frame work. Lathe work, and general engineering pattern making.

SMITHY.

Instructor : R. GODWIN.

Exercises in bending and shaping bar iron, welding, forging rings and chains, forging chisels and tools, hardening and tempering of steel. Forging under the Power Hammer.

FOUNDRY.

Instructor : W. R. BATES.

Moulding in green sand, dry sand, and loam, core-making. Charging and working the Cupola. Mixing, melting and casting iron, brass and gun-metal.

CIVIL ENGINEERING.

UNIVERSITY BUILDINGS, BOURNBROOK.

Professor : STEPHEN M. DIXON, M.Sc. ; M.A., B.A.I. (Dub.),
M.Inst.C.E.

Lecturer : F. H. HUMMEL, M.Sc., A.M.Inst.C.E.

Assistant Lecturer and Demonstrator : JAMES BAIN, B.Sc.

The courses of study in the department are carried on by lectures, workshop, drawing, laboratory exercises, and field work, the object being to give the student a thorough training, both theoretical and practical, in those subjects, a knowledge of which is necessary in the practice of the profession of Civil Engineering.

The Strength of Materials and Hydraulic Laboratories are in this department, and are being equipped in the most complete manner for investigating the laws of elasticity and strength of materials in tension, compression, bending, straining, and torsion, and for experimental work in Hydraulics.

In the Strength of Materials Laboratory the equipment already in working order and being erected consists of the following apparatus :—A horizontal testing machine of 700,000lbs. capacity for making tension, compression, and bending tests on full-sized structural members up to twenty-five feet in length ; a 200,000lbs. vertical testing machine for tension and compression tests, and capable of testing beams sixteen feet long ; a testing machine of 122,000lbs. capacity for tension, compression, and bending tests ; a 5,000lbs. wire testing machine ; an impact testing machine ; a torsion machine, capacity 10,000 inch lbs. ; apparatus for measuring deflections of beams under various loads ; complete apparatus for testing cements, mortars, bricks, and building stones.

In the Hydraulic Laboratory experiments are made on the flow of water in pipes and open channels, efficiency of turbines and pumps, forms of orifices, and effects of various kinds of resistances. The equipment consists of a steel tank, four feet square and thirty feet high, for experiments on jets and flow of water under small heads ;

two steel measuring tanks, each of about two hundred and fifty cubic feet capacity ; a twenty h.p. duplex differential pump capable of dealing with 600 gallons per minute, and a maximum head of 250 feet ; a twenty h.p. centrifugal pump ; a six h.p. centrifugal pump ; a nine h.p. Pelton wheel ; a double vortex turbine, three h.p. ; a Gerard turbine, eight h.p. ; an eddy current brake ; a Froude water dynamometer ; hydraulic accumulator and three-throw pump ; weirs and meters ; standard orifices and nozzles ; mercury gauges.

LECTURE AND LABORATORY COURSES IN CIVIL ENGINEERING.

SECOND YEAR.

COURSE VII.

LAND SURVEYING.

Wednesdays and Fridays, 2 to 5. Throughout the Session.

The work of this course is carried on throughout the year by lectures, field work, and drawing, the time devoted to it being six hours each week. The use and adjustments of the various surveying instruments are discussed in the class room, and surveys are carried on in the field, while in the drawing office, plans, profiles, and contour maps are made.

THIRD YEAR.

COURSE VIII.

STRENGTH OF MATERIALS AND HYDRAULICS.

(a) **Strength of Materials.**

Tuesdays and Thursdays, at 11, during the Winter and Spring Terms.

In this course the following subjects are discussed in class :—(a) Tension. Behaviour of materials in tension, stress-strain curves, elastic limit, yield point, and breaking

load. Effects of impact and repetition of stress. Strength of pipes and thin cylinders. (b) Compression. Short struts, strength of long columns, Euler's formula and formulae derived from experiments. (c) Bending. Neutral axis, moment of resistance, moment of inertia, graphic methods. The design of beams and simple plate girders for various systems of loading. (d) Shear. Properties of shear, stress and strain, shear modulus, and strength of materials in shear. (e) Torsion. Strength and stiffness of shafts.

(b) Hydraulics.

Tuesdays and Thursdays at 11, during the Summer Term.

A course of sixteen lectures in the third term, the subjects discussed being : General principles ; the laws of flow of water and methods of measurement ; hydraulic resistances ; flow of water in pipes and channels.

COURSE IX.

RAILWAY AND HIGHWAY ENGINEERING.

(a) Railway Work.

Mondays, 11, Wednesdays, 10, and Fridays, 2 to 5, during the Session.

Preliminary and location surveys. Curves for railways, tram lines, roads and sewers.

Setting out work, computations of quantities, excavation, tunnelling, permanent way, and construction and maintenance of streets and roads. In the drawing office the field notes taken during the survey carried out in the vacation are plotted, and detailed drawings are made of smaller railway structures.

(b) Masonry and Foundations.

The subjects discussed will be masonry materials, foundations, walls, culverts, arches.

(c) Structural Details.

Mondays, 2 to 5, throughout the session.

This course is a series of exercises in design to supplement courses on strength of materials and masonry. In it will be worked out details of a design of a right masonry arch, including abutments, foundations, centres, and bill of quantities, and also details and working drawings of a roof truss, and a simple highway bridge truss.

(d) Railway Field Work and Drawing.

Three weeks in Summer.

The field work of this course will be carried out in three weeks of the long vacation. During this time the work will be conducted from a camp and will consist of preliminary and location surveys for a short line of railway. The work will be carried on systematically and under strict supervision, and each student will be required to work nine hours per day, the instrument men being required in addition to keep maps and profiles showing each day's progress.

FOURTH YEAR.**COURSE X.****THEORY OF STRUCTURES AND DESIGNING.****(a) Theory of Structures.**

Tuesdays and Thursdays, at 12, throughout the Session.

A course of fifty lectures in the fourth year. The subjects discussed are:— Pressure of earth, ellipse of stress, design of retaining walls, hydrostatic and geostatic arches, Alexander and Thompson's method of the catenary. Masonry dams, tunnels. Design of plate

girders and riveted and pin-connected trusses. Continuous girders, cantilevers, swing bridges, metal arches, with and without hinges. The work of these lectures is closely followed by that of the next course.

(b) Designing.

Mondays, Wednesdays, and Thursdays, 2 to 5.

In this course the instruction given in (a) is supplemented by work in the drawing office. Students are required to make complete designs for the following engineering structures:—Winter Term, retaining walls and masonry arch; Spring Term, steel railway bridge; Summer Term, steel arch hinged at crown and springings. Besides these designs numerous graphical exercises illustrating the work of the lectures will be required.

COURSE XI.

HYDRAULIC ENGINEERING.

(a) Hydraulic Engineering.

Tuesdays and Thursdays at 11, throughout the Session.

The work of this course is carried on by lectures and drawing, and treats of the following subjects:—

- (i.) Flow of water in pipes; sources, storage, and filtration of water; details of reservoir construction; distribution of water.
- (ii.) Flow of water: open channels; canals and rivers; river regulation; irrigation.
- (iii.) Principles of drainage; sewers and sewerage; various systems of sewage disposal.
- (iv.) Hydrographic surveying; tidal phenomena; waves and coast defence.

(b) Hydraulic Power Engineering.

Tuesdays and Fridays, at 10, Summer term.

Hydraulic cylinders, packing, joints and valves. Accumulator lifts, cranes, presses. Hand, power, and steam pumps. Motors, water wheels, and turbines.

COURSE XII.

CITY SURVEYING.

Saturdays, 10 to 1, throughout the session.

This course consists of a series of exercises in the field and drawing office, carried out by students in the fourth year, the time devoted to it being three hours per week.

LABORATORY COURSES IN STRENGTH OF MATERIALS AND HYDRAULICS.

THIRD YEAR.

(a) Elementary Course in Strength of Materials.

Tuesdays, 2 to 5. Winter and Spring Terms.

This course is arranged for all engineering students, and the following series of experiments is made: measurements of centrifugal force, energy of rotation, the laws of friction, and the efficiency of machines, deflection of beams, wire testing, breaking loads and elongations, tension tests and determination of elasticity of specimens on one of the large testing machines.

FOURTH YEAR.

(b) Testing of Masonry and Timber.

Fridays, 2 to 5, during the Winter Term.

This course is arranged as a series of laboratory exercises for the course on masonry and foundations. A regular series of tests of cement is made according to the British and foreign standards, and concrete, bricks, building and paving stone, and timber are also tested.

(c) Advanced Laboratory Course in Strength of Materials.

Wednesdays or Mondays, 2 to 5, during the Winter and Spring Terms.

This is a short course specially arranged for electrical and mechanical engineering students, and in it the following work is carried on: systematic tests of various metals, tension and investigation of the elastic properties,

compression tests of small metal cylinders, transverse tests of cast iron and wood, strength and elasticity of various metals in torsion, impact tests.

(d) Advanced Laboratory Course in Strength of Materials.

Mondays, 2 to 5, Winter and Spring Terms, Fridays, 2 to 5, Spring Term.

The work of this course, arranged for civil engineering students is as follows: Investigation of influence of the proportion of a specimen on its strength and elongation in tension. Elastic tests on standard bars. Properties of materials strained beyond elastic limit. Effects of rate of loading. Compression of wood, stones, and concrete. Elasticity on compression. Tests of struts. Hardness tests by indentation. Tests of beams of various sections and materials. Torsion tests. Impact tests.

(e) Hydraulics.

Mondays, 2 to 5, Summer term.

This course is arranged as a series of laboratory exercises to supplement Courses IX.(b) and XIII.(b), and in it the following measurements are made:—Flow of water through orifices and weirs; tests of meters; measurements of hydraulic resistances, pipes, bends, valves; efficiency tests of various types of pumps and motors.

ELECTRICAL ENGINEERING.

UNIVERSITY BUILDINGS, BOURNBROOK.

Professor : GISBERT KAPP, M.Sc. ; M.INST.C.E., M.INST.E.E.

Lecturer : D. K. MORRIS, Ph.D. (Zurich), A.M.INST.E.E.

Assistant Lecturers & Demonstrators : E. J. KIPPS, A.M.INST.E.E.,
and (Vacant.)

The course for Electrical Engineering students is the same as that for Mechanical Engineers for the first two years, and only differs in the third and fourth years in the increased time spent in the electrical engineering laboratory and on the design of examples of electrical machinery and apparatus.

The Electrical Engineering Laboratory is provided with appliances for all classes of electrical testing work.

Advanced students are encouraged to take up some line of investigation of technical interest, for which every facility is provided.

LECTURE COURSES.

THIRD YEAR.

COURSE XIII.

ELECTRICAL ENGINEERING.

Lecture Days.—Tuesdays and Thursdays at 12, and Saturdays at 10.

One hour a week is devoted to the working out of simple electrical engineering problems.

Principles of Electric and Magnetic Action.—Elementary theory of potential. Lines of force. Electric and magnetic fields. Carrying force of magnets. Energy of magnetic field. Force between current and magnet and between two currents. Exciting force and resulting field. Applications to dynamos. Electrostatic attraction. Theory of electric images and its application to the determination of the capacity of aerial lines. Absolute system

of measurement. Relation between the electrostatic and electro-magnetic systems. Practical units. Induced E.M.F. and application to dynamos.

Continuous Currents.—Generation by mechanical, thermal, and chemical means. Energy of an electric circuit. Power of a current. Varying currents. Time constant.

Alternating Currents.—Vector diagrams. Generation by mechanical means. Frequency. Effective value. Form factor. Power. Power factor. Wattless currents. Self-induction and impedance. Application to choking coils. Natural frequency.

Materials.—Resistance. Specific resistance and temperature—Co-efficient of conductors. Heating of single conductors and coils. Magnetic quality of iron. Hysteresis and eddy current losses. Insulating materials. Construction of resistances.

Measurements.—Standards of resistance and E.M.F. Test room instruments. Potentiometer. Shunted Amperemeters. Electricity meters. Ballistic galvanometer. Tests for conductivity, insulation, magnetic flux, self-induction and capacity. Magnetic tests of iron. Photometry.

Continuous Current Dynamos.—Simple forms of armature windings. Calculation of voltage. Field magnet windings. Compounding characteristics. Regulation. Motors for special purposes. Losses in dynamos. Efficiency.

Alternators.—Armature winding for single and poly-phase currents. E.M.F. curve. Calculation of effective E.M.F. characteristics. Transformers. Elementary theory of synchronous and induction motors.

Installations.—Small isolated plant. Use of batteries. Parallel running of continuous current dynamos. Switchboards. Arrangement of generating plant. Short distance power transmissions by direct current. Cost of working.

FOURTH YEAR.

COURSE XIV.

ELECTRICAL ENGINEERING.

Lecture Days.—Tuesdays, Wednesdays, and Thursdays, at 10.

One hour a week is devoted to the working out of more advanced electrical engineering problems.

Design of Continuous Current Dynamos.—Armature windings. Commutation. Field winding. Commutating Coils. Heating and Ventilation. Losses. Efficiency and its experimental determination. Mechanical Construction. Types for special purposes.

Design of Alternators and Transformers.—Determination of the E.M.F. and current curves. Harmonic analysis. Armature winding. Heating and Ventilation. Losses. Efficiency. Characteristics. Short circuit current. Drop. Mechanical construction. Parallel running. Hunting. Influence of damping coils. Theory of transformers. Core and shell types. Inductive and ohmic drop. Methods of cooling. Special designs for large output and high pressure. Mechanical construction.

Design of Alternating Current Motors.—Synchronous Motors and Converters. Induction Motors. Commutator Motors.

Continuous and Alternating Current Circuits.—Influence of capacity, and self induction. Resonance. Free and damped oscillations. Lightning protection. Protection against disruptive discharges. Design of long distance transmission lines.

Central Stations and Distribution of Current.—Selection of system. Arrangement of machinery and switch gear in Power House. Use of batteries. Boosters. Sub-stations. Electrical tramways and railways. Feeders and distributing mains. Cost of working. Meters and tariffs.

ELECTRICAL LABORATORY COURSES.

THIRD YEAR.

COURSE XIII (A).

Electrical Engineers.—Six hours a week, Thursdays and Fridays, 2 to 5.

Civil and Mechanical Engineers.—Three hours a week. Thursdays, 2 to 5.

Magnetic field of currents and magnets. Carrying capacity of wires. Fuse testing. Heating of wires and coils. Exact comparison of electrical instruments. Measurement of resistance and conductivity. Insulation resistance. Resistance of armature windings. Magnetic testing. Intensity of magnetic field in air-gaps of machines. Forces on currents in magnetic fields. Torque of motor at rest. Tests on arc and glow lamps. Meter testing and calibration. Capacity of storage cells at different rates of discharge. Tests on the characteristics of different kinds of direct current motors and dynamos. Efficiency. Separation of losses in electrical machinery. Speed regulation. Alternating currents, elementary tests. Power factor. Use of Watt-meter.

FOURTH YEAR.

COURSE XIV (A).

Electrical Engineers.—Six hours a week during three terms. Mondays, 10 to 5.

Mechanical Engineers.—Three hours a week during Winter and Spring terms. Wednesdays, 2 to 5.

The work in the Laboratory is arranged to give students an opportunity of testing practically the conclusions arrived at theoretically in the corresponding lectures. Students make accurate measurements on machines, transformers, batteries, cables and instruments, the tests being arranged to correspond with the requirements of practical work.

DRAWING AND DESIGNING.

THIRD YEAR.

COURSE XIII(B).

Three hours a week. Mondays, 2 to 5.

In the Winter term the work is the same as for Mechanical Engineers (Course III), and during the Spring and Summer terms students make drawings from patterns of electrical machinery and apparatus, and parts thereof.

FOURTH YEAR.

COURSE XIV(B).

Mechanical Designs, three hours a week throughout the session.

Electrical Designs, three hours a week in the Winter and Spring terms, and nine hours a week in the Summer term.

The work done in this course consists in the calculations, design, and preparations of working drawings of generators, motors, transformers, and other apparatus to definite specifications, and the design of complete installations.

METALLURGY.

UNIVERSITY BUILDINGS, BOURNBROOK.

Professor: THOMAS TURNER, M.Sc.; A.R.S.M., F.I.C.

Lecturer and Instructor in Assaying:

O. F. HUDSON, B.Sc.; A.R.C.S.

Assistant Lecturer and Demonstrator:

D. M. LEVY, A.R.S.M.

Special Lecturer in Metallography: O. F. HUDSON, B.Sc.

The Metallurgical Department provides instruction for those engaged in or connected with the staple metal industries of this country, and also trains men who propose to follow a metallurgical career in the colonies or in any other part of the world.

The courses of study are intended to meet the requirements of

1. Metallurgists, who devote the greater part of their time to metallurgy.
2. Metallurgical chemists, who specialize in chemistry.
3. Metallurgical engineers, who devote most of their time to engineering.
4. Mining and Geological students, who follow the courses prescribed in their respective departments.
5. Dental students.
6. Others interested in Metallurgy.

The courses of study include lectures, laboratory teaching, practical work in the smelting laboratories, and visits to works.

The instruction is given at the new buildings of the University at Bournbrook, the postal address of which is The University, Edgbaston, Birmingham.

The buildings occupied by the Metallurgical Department are in two separate portions, one situate in the main building, and the other in a self contained block near the power house. The former comprises the lecture rooms, laboratories, and museums, while the latter includes the smelting labora-

tories. In the main building about 20,000 square feet of floor space is devoted to metallurgy. The department is chiefly placed on the main ground floor, on which there is a spacious and well-lighted suite of sixteen rooms, including elementary and advanced laboratories capable of accommodating sixty students at one time; a balance room, lecture room, advanced class room, and a dry assay room. There are also rooms devoted to ore sampling, metal preparing, pyrometry, metallography, and electro-metallurgy; together with chemical stores, Professor's laboratory, and Lecturers' private room. This portion covers 13,000 square feet, while upwards of 6,000 square feet on the first floor is devoted to museum and similar purposes. The separate smelting laboratory includes a steel section with a two-ton new form Siemens' furnace with electric hoist, crane, ladle, ingot pit and boiler. There is also a section of similar area devoted to the smelting of metals other than iron and steel, the plant in which includes a hand-fired reverberatory furnace, a Brückner roaster, a water jacketed blast furnace, a cupellation furnace, a cyanide plant for gold ores, a chlorination equipment, and a filter press plant. Smaller rooms will be employed as brass and steel foundry, and as an electric smelting laboratory respectively. Immediately adjacent are the power house, the iron foundry, the smith's shop, and the Mond gas plant of the Engineering Department.

LECTURE COURSES.

I.—JUNIOR COURSE.

A Course of twenty lectures will be delivered on Saturdays at 10 during the Winter and Spring Terms. During the Winter and Spring terms a Practical Class is held in the Laboratory on Saturday mornings, from 11 to 1 for Dental students, or on Tuesdays from 2 to 5 for others throughout the Session. This Course is intended to serve as an introduction to Metallurgy, and will also cover the ground required by students of Dentistry.

SYLLABUS.

PART I.

Physical, Mechanical, Chemical, and Electrical Properties of the Common Metals. Properties of Alloys. Melting, Casting, and Working of Metals. Varieties of Furnaces. Furnace Materials. Slags and Fluxes. Metallurgical Terms. Fuel. Gaseous Fuel. Gas Furnace.

PART II.

Preparation, Properties and Uses of the following :—

Gold, Silver, Mercury, Copper, Tin, Zinc, Lead, Iron, Platinum, Iridium, Palladium, Cadmium, Bismuth, Aluminium, and Nickel, together with their chief alloys, and amalgams.

FEE FOR THE COURSE: Lectures and Laboratory, £3 3s.

TEXT BOOKS RECOMMENDED :—

Huntington and Macmillan's "Metals" (Longman).
Smith's "Dental Metallurgy."

II.—GENERAL COURSE.

This Course is intended to give a general outline of the subject, and is attended by Metallurgical and Engineering students in their second year. The Lectures are delivered on Tuesdays and Thursdays at 11 throughout the Session.

SYLLABUS.

(a) *Introductory*.—Physical, Mechanical, and Chemical Properties of Metals. Nature of Alloys. Metallurgical Terms and Processes. Classification of Furnaces. Furnace Materials :—Acid, Basic, and Neutral. Composition of Fire Clay. Manufacture and Testing of Fire-bricks and Crucibles. Slags and Fluxes. Composition and Character of Slags. Utilization of Slag. Calculation of Furnace Charges. Physical and Chemical Properties of Fuel. Principles of Combustion. Calorific Power and Intensity. Calorimeters. Pyrometers and Pyrometry. Gaseous Fuel. Preparation of Coke, Charcoal, and Patent Fuels. Electric Furnaces.

(b) *Iron and Steel*.—Composition, Characters, and Preliminary Treatment of Iron Ores. Manufacture of Cast Iron. The Blast Furnace. Details of Construction and Working. Furnace Burdens. Subsidiary Appliances. Theory of the Blast Furnace. Chemical and Mechanical Properties of Cast Iron. Foundry Practice. Manufacture of Wrought Iron. Chemistry of the Puddling Furnace. Properties of Wrought Iron. Manufacture and Properties of Steel. Puddled, blister, shear, and crucible steel. Bessemer and Siemens' Steel. The Basic Process. Other important Steel Processes. Chemical Composition and Mechanical Testing of different varieties of Iron and Steel.

(c) *Metals and Alloys*.—Preparation, Properties, and Principal Alloys of Copper, Zinc, Tin, Antimony, Bismuth, Nickel, Aluminium, Gold, Silver, Lead, Mercury, Platinum, Iridium, and Palladium. Principles of Electro-Metallurgy. The more important Electro-metallurgical Processes. The Microscopic Examination of Metals.

FEE for the Course :—£3 3s.

TEXT BOOKS RECOMMENDED :—

Roberts-Austen's Introduction to Metallurgy. (Griffin.)

Turner's Iron. (Griffin.)

For Electro-Metallurgical Work :—

Macmillan's Electro-Metallurgy (Griffin).

It will be necessary to assume that students taking this Course possess some knowledge of Chemistry and Physics.

III.—SENIOR COURSE.

A Course of about sixty Lectures for senior students is given each session. The class will meet throughout the session on Tuesday and Thursday afternoons, at 4, or by arrangement.

The course will be divided into six separate portions, each of about ten lectures, the subjects being chosen to meet the requirements of the class ; the general classification will be somewhat as follows :—

Part 1. Fuel, Pyrometry, Calorimetry, Combustion, Gaseous Fuel.

„ 2. Metallography ; including the nature and structure of alloys.

„ 3. Steel ; including special steels, microscopic examination, heat treatment, &c.

„ 4. Foundry practice, including Iron, Brass, and other metals and alloys.

„ 5. Gold and Silver, Copper, Lead and other Metals.

„ 6. The Design and Equipment of Metallurgical Works.

FEE :—£3 3s. One section only, 10 lectures, 10s. 6d. (or 15s. 6d. inclusive of entrance fee).

TEXT-BOOKS RECOMMENDED—Collins' Silver (Griffin). Harbord's Steel (Griffin). Rose's Gold (Griffin). Osmond's Metallography (Griffin).

PRACTICAL METALLURGY.

The course of study in the laboratories is designed with the object of teaching the properties of the materials used by the metallurgist, and the changes which take place during the production of metals and alloys.

Instruction is given in the properties of metals, alloys, ores, slags, and other metallurgical products ; in assaying ; in the reactions which underlie various metallurgical processes ; and in pyrometry and metallography.

All students work independently, and as far as practicable at the hours best suited to their arrangements. Special facilities will be offered to proprietors, managers, and others engaged in technical or professional work, who desire either to study the technology of their subject, or to work out improvements. Students may commence work in the laboratory at any time. Senior students are encouraged to undertake research work bearing upon their intended future avocations.

Syllabus of Practical Metallurgy and Assaying.

GENERAL COURSE LABORATORY.—PART I.

Examination of Fuel.—Commercial Analysis, including Ash, Moisture, Sulphur, Coke, and Calorific Power.

Furnace Materials.—Examination and testing of fire-clay.

Metals and Alloys.—Properties of Copper, Zinc, Tin, Lead, &c. Preparation of different varieties of Brass, Bronze, &c.

Oxidation and Reduction.—Experiments illustrating the use of oxidising and reducing agents in metallurgy. Lead Assay.

Slags and Fluxes.—Experiments illustrating the composition, formation, and melting points of slags.

Iron Assay.—Assay of Iron Ores for Iron, Silica, Phosphorus, Moisture, and Loss on Ignition.

Silver.—Determination of Muffle Temperatures. Experiments with Cupellation. Preparation of Silver Alloys. Assay of Silver Bullion and Silver Ores.

Gold.—Assay of Gold Ores, Lemel, and Bullion.

GENERAL COURSE LABORATORY.—PART II.

Students select from the following, among other, subjects of further instruction.

Fuel.—Complete Analysis of Coal, Coke, &c. Gas Analysis as applied to metallurgical operations.

Pyrometry.—Measurements of High Temperatures.

Calorimetry.—Use of more accurate Calorimeters.

Furnace Materials.—Chemical and Physical tests of Clay, and other fire-resisting materials.

Iron and Steel.—Complete Analysis of Iron Ores, Cast Iron, Wrought Iron, and Steel. Preparation and Properties of various Irons, Steels, and Ferro-Alloys.

Copper.—Assay of Copper Ores; Preparation, Properties, and Analysis of Brass, Bronze, German Silver, and other Copper Alloys.

Tin, Lead, Zinc, Antimony, Nickel, Cobalt, and Aluminium.—Assay of Ores and Analysis of Commercial Metals and of most important Alloys.

Electro-Metallurgy.—Electro-deposition of Gold, Silver, Copper, Brass, and Nickel. Electro-refining of Metals, &c.

Microscopy.—Preparation of Samples and Examination of Metals under the Microscope. Micro-Photography.

SMELTING LABORATORIES.

A Practical School, extending over about a month will be arranged during the Vacation, to enable students to take part in the working of the Siemens' furnace, the

blast furnace, the iron foundry, and other appliances. The plant will also be employed for teaching and experimental work throughout the session.

LABORATORY FEES :—

	All day.	Three hours per day.	Three hours per day ; three days a week.
	<i>Guineas.</i>	<i>Guineas.</i>	<i>Guineas.</i>
One Term ...	8	5½	3
Two Terms ..	14	10	5½
Three Terms...	21	14½	8

The above fees entitle the student to work in the Smelting Laboratories. The time to be so spent will be determined by the Professor, and it may be during term or in vacation as may be found necessary. As a rule not more than one-sixth of the student's time may be spent in the smelting laboratories without additional payment at the rate of one guinea per week. For students taking the smelting laboratory only the fee is 25s. per week, with a minimum of £5 5s., which includes entrance fee. The accommodation in this section is limited, and only such students will be admitted as are able to satisfy the Professor that their previous training has been such as will enable them to profit by the instruction.

For Engineering students the fee for the Practical Class throughout the session, three hours weekly, together with occasional work in the smelting laboratory, is £3 3s.

Gas, fuel, water, and ordinary reagents are supplied by the University, but students must provide themselves with a small set of Apparatus; also with crucibles, and with materials when large quantities are required.

TEXT-BOOKS RECOMMENDED—Beringer's Text-Book of Assaying (Griffin). Brearley and Ibbotson—Analysis of Steel Works Materials (Longmans). Howe's Metallurgical Laboratory Notes (Sauveur and Whiting.)

Visits to Works.

Excursions to Metallurgical Works in the neighbourhood of Birmingham are arranged throughout the Session. Such visits will usually be in connection with the University Metallurgical Society. The number and variety of Metallurgical industries in the district afford an unusually good opportunity of seeing important processes in operation.

TIME TABLE.

REQUIREMENTS FOR DEGREES.

Candidates for the Degree of B.Sc. in Metallurgy must be matriculated students of the University before commencing their degree course, and must, after matriculation, attend the prescribed courses of study for at least three academic years.

The work for the first year, or Intermediate Examination, for those who propose to become Metallurgists, is as follows :—

Mathematics, Course I. (Pure).

Physics, Lectures, Course I. and Laboratory.

Chemistry, Lectures, Course I. (A) and Laboratory.

Engineering, Drawing, and Workshop.

Metallurgy, Junior Course, Lectures and Laboratory.

The subjects of the Second Year Metallurgical Course are as follows :—

Metallurgy. Lectures (General Course), two lectures weekly.

Laboratory. At least nine hours, by arrangement.

Engineering. Lectures. Course I., two lectures weekly.

Drawing. Three hours weekly.

Workshop. Three hours weekly.

Chemistry. Laboratory. Three hours weekly, by arrangement.

Geology. Lectures (Course I.), three lectures and two hours laboratory, weekly.

The subjects of the Third Year's Courses for Metallurgists are as follows :—

Metallurgy. Lectures (Senior Course), two hours weekly.

Laboratory, at least fifteen hours per week.

Metal Mining. Courses I A and II A together with Mine Surveying and Metal Mining Laboratory. (See Syllabus of Mining).

The following alternative course may be taken by students who desire to become Metallurgical Chemists:—

FIRST YEAR.

Mathematics, Course I. (Pure).

Physics, Lectures, Course I. and Laboratory.

Chemistry, Lectures, Course I. (A and B) and Laboratory.

Engineering, Drawing, and Workshop.

Metallurgy, Junior Course, Lectures and Laboratory.

SECOND YEAR.

Metallurgy. Lectures (General Course), two lectures weekly.

Laboratory. At least nine hours, by arrangement.

Engineering. Lectures. Course I., two lectures weekly.

Drawing. Three hours weekly.

Workshop. Three hours weekly.

Chemistry. Lectures (Course II. B) in General and Physical Chemistry.

Laboratory. Six hours weekly, by arrangement.

THIRD YEAR.

Metallurgy. Lectures (Senior Course), two lectures weekly.

Laboratory. Fifteen hours weekly, by arrangement.

Chemistry. Lectures (Course III. C) in General and Physical Chemistry.

Laboratory. Nine hours weekly, by arrangement.

Students must in addition afford satisfactory evidence that they have, during their course of study regularly attended, for a period at least equal to a University term,

at some metallurgical establishment previously approved by the Professor. They will be expected to give full and accurate descriptions of the plant and of the processes in which they have taken part, and in the final examination marks will be awarded for this part of the work. Attendance can be conveniently made during University vacations, or in connection with the Vacation Courses in Metallurgy, attendance at which will be accepted for not more than two months of the required period.

Students who propose to take Metallurgy as a double subsidiary subject take the General Course Lectures and Laboratory in their second year; they take the Senior Metallurgical Lectures in their third year, and a portion of Practical Metallurgy (Part II.) selected after consultation with the Professor under whom they are principally engaged. They are also recommended to take a Vacation Course in the Smelting Laboratory.

Mining and Geological students, and those who take Metallurgy as a single subsidiary subject, take the General Course Metallurgical Lectures, and also Practical Metallurgy (General Course, Part I.) together with such portions of Part II. as may be of special importance in any particular case.

Engineering Students take Metallurgy (Lectures, General Course), in their second year, and a Special Laboratory Class, which will meet on Wednesday afternoons from 2-5 throughout the Session.

Dental students take the Junior Course, Lectures and Laboratory.

Manufacturers or Managers of Works having vacancies are requested to apply to the Professor.

MINING.

UNIVERSITY BUILDINGS, BOURNBROOK.

COAL MINING AND METAL MINING.

Professor: R. A. S. REDMAYNE, M.Sc. ; M.I.M.E. ;
M.I.M.M. ; M.A.I.M.E. ; F.G.S.

Lecturer in Surveying and Demonstrator in Coal Mining:
H. BRIGGS, A.R.S.M. (Honours) : F.G.S.

Demonstrator in Metal Mining: E. T. BORLASE.

The time of the mining students at the University is not entirely devoted to theoretical work ; much of it is of a thoroughly practical character. There are weekly visits to the mines of the neighbourhood, and either a few weeks are devoted by the students each year, in company with the Professor, to the inspection and study of some group of metal or other mines in Britain or abroad (Summer Mining School), or arrangements are made for the students to have from two to three months' practical experience at a mine.

The courses have been so arranged as to meet the requirements of those who intend to become:—

1.—Practising and Consultative Mining Engineers, where a thorough knowledge of mining *in all its branches* is necessary ;

2.—Colliery Managers ;

3.—Managers of Metal Mines ;

4.—Teachers of Mining ;

5.—Mine Surveyors ;

6.—Land and Estate Agents ;

7.—Landowners, owners of Collieries, and those generally interested in mines and quarries.

CERTIFICATE OR DIPLOMA IN MINING.

Students who desire to obtain the Diploma in Coal Mining must take the special lecture and laboratory courses laid down under the headings Courses I and II,*

* With the exception of Course II in Mathematics.

extending over two years, together with certain lectures and laboratory work in the allied sciences. The complete courses are described on page 286.

They must further have practical experience in a mine for a couple of months at least in each year, or have had a minimum of four months of such experience prior to entering on the Diploma Course, to enable them to take the Diploma in Mining. But time spent by the students in visiting mines (under-ground) in company with the Professor counts towards the four months required. The time so spent will, however, only be taken as an alternative for so much of the four months practical experience as it is fairly equivalent to.

SUMMER SCHOOL.

A few weeks of each long vacation may be devoted to visiting and making a thorough inspection of the mines in some metalliferous or coal mining district, either in Britain or abroad. The students are required to take detailed daily notes, and to furnish a full report upon the termination of the school. This practical course is open to other than University Students on the payment of a fee of £5 5s., the fee charged to University Students being £3 3s. Or the Summer School may take the form of two to three months of the vacation being devoted by the students to practical experience at a mine.

B.SC. DEGREE IN MINING.

(In which is comprehended the Diploma in Mining.)

Candidates for a Degree in Mining are required to be matriculated in the Faculty of Science before entering on the courses of study for the degree. After matriculation, students are required to attend courses of study in coal and metal mining* and the allied sciences, for a period of at least three years, and to have had the practical experience specified under the heading "Certificate or Diploma in Mining."

* Courses I, I A, II, II A, and III.

CERTIFICATES OF COMPETENCY UNDER THE COAL MINES REGULATION ACT.

The clause of the Coal Mines Regulation Act, regulating the granting of Certificates of Competency to intending Colliery Managers was on June 30th, 1903, so amended as to allow of a *diploma*, gained after a course of study of at least two years in scientific and mining subjects, at a University, University College, Mining School or other Educational Institution approved of by a Secretary of State, or a *degree* gained at any University so approved of, which includes study in mining and allied sciences, being accepted instead of two of the five years practical experience otherwise imperative. The regulations for the Diploma in Mining and the B.Sc. degree in Mining of the University have been accepted by the Secretary of State for the Home Department as qualifying for the foregoing privilege.

COURSE IN METAL MINING.

Courses IA and IIA are specially drawn up to meet the requirements of students undergoing a training in metal-mining, and those otherwise interested in the subject. In addition to these courses, metal-mining students studying for the Diploma must take such portion of Courses I, II, and III as bear on their subject.

LABORATORY PRACTICE.

Laboratory practice is essential in the curriculum of the regular Mining Student, but advanced Laboratory practice is also designed for those who have already passed through a Mining course at other Schools.

COURSES OF STUDY.

The following curriculum is provisional, and may be hereafter altered or extended as experience of the wants and requirements of mining students and the mining public may determine.

These mining courses comprise an education in the principles and practice of coal mining, metal mining, quarrying, mine surveying, plan making, and mining

jurisprudence ; and, in connexion therewith, the students attend lectures and laboratory classes in the sciences allied to mining.

FIRST YEAR.

- 1.—Mathematics, Course I.
- 2.—Physics, Course I, and Physical Laboratory.
- 3.—Geology, Course I.
- 4.—Elementary Mining and Mining Engineering, Course I and Course I A. † Surveying Course I.
- 5.—Engineering Course I.

SECOND YEAR.

- 1.—Mathematics, Course II.*
- 2.—Chemistry, Course I A, and Chemical Laboratory.
- 3.—Geology, Course II.
Applied Geology, Course III, A. and C.
- 4.—Engineering—Drawing, Course II.
- 5.—Mining, Course II, Course II A † and Surveying, Course II.

THIRD YEAR.

- 1.—Mining, Course III.
- 2.—Engineering Courses IX, XI and XV, with Laboratory, and Steam Engineering practice in the power station.
- 3.—‡ Metallurgy and Metallurgical Laboratory.
- 4.—Special Mining and Engineering Geology.

Metallurgical Students will take Courses I and III, and can omit Course II.

* "Diploma" Students are not required to take this Course.

† This Course is intended for Students specialising in Metal Mining. It is not necessary, therefore, that it should be taken by Students entered for the Diploma in Coal Mining. Degree Students must take both Courses.

‡ Coal Mining Students take "General Course" Lectures, first two terms only, and Laboratory three hours weekly, but may be excused the latter (see third year Time Table.)

Metal Mining Students take "General Course" Lectures three terms and Laboratory nine hours weekly.

LECTURE AND LABORATORY COURSES.

I.

FIRST YEAR'S COURSE.

Two lectures a week, on Tuesdays and Fridays, at 3 o'clock.

FEE:—£3 3s.

(a) A course of about sixty lectures will be given during the session on General Mining, which will follow the lines of the subjoined syllabus.

Syllabus.

- Common to
Course I and
I A. {
- Objects and Conditions of Mining.*—Scope of the subject. Qualifications of a Mining Engineer.
 - Prospecting and Boring.*—Outcrops, surface indications, coal and other mineral deposits, costeaning, shoadng, position of boreholes, various methods of boring, cost of boring. Surveyor of boreholes.
 - Breaking Ground.*—Sinking shafts, position, number, shape, and size of shafts, manner of sinking and securing shafts, sinking through running ground, various costs in connection with sinking.
 - Underground Development and Systems of Working.*—Laying out a colliery underground. Preliminary operations in coal mines. Various systems of working coal seams. Coal cutting. Blasting. Timbering in colliery workings.
 - Transport.*—Underground and Surface transport, haulage by hand, by horse, mechanical haulage, main rope, main and tail rope, and endless rope systems of haulage self-acting inclines, locomotive and electric haulage, Ropes, surface transport, aerial ropeways, horse, steam, and electric tramways.
 - Winding.*—Kibbles, skips, cages, ropes, pit-head frames, pulleys, guides, keps, onsetting and banking, surface arrangements. Winding engines, drums.
 - Drainage.*—Water levels, dams, underground pumping and pumps, pumping by ropes, steam, compressed air, electric and hydraulic pumps, surface pumps and pumping.
 - Ventilating.*—The atmosphere and mine gases. Natural ventilation. Furnaces, fans, and other ventilators, underground air-currents. Splitting and measuring air-currents.
 - Lighting of Mines.*—Safety lamps.
 - Screening of Coals—Preparation for the Market.*—Tipplers, types of screens, washing, coking.

(b) *Mine and Land Surveying and Plotting extending over two years.*—Half of each year's Course will be devoted to surveying in the field or underground, or to plotting surveys in the drawing office.

FEE:—£1 1s. per annum.

This course is intended for students in Mining, Agriculture, Civil and Electrical Engineering. Besides the practical work in the field, underground, and in the drawing office, there will be lectures on the subject.

N.B.—Students are expected to be able to work with logarithms and to be conversant with elementary plane trigonometry.

Syllabus.

I.

The Object of Surveying.—Qualifications of surveyor.

Direct Measurement of Distances.—Chains, Steel Tapes, measurement on slopes, correction for slope. Underground measurements. Simple chain surveying; offsets; ranging lines. Methods of booking and plotting.

The Miners' Dial.—Construction; limitations. Secular, annual, and diurnal variations of magnetic meridian; magnetic storms. Loose needle dialling; method of booking. Loose needle dialling in presence of iron. Fast needle dialling; principle of the vernier; the three-stand method; the one-stand method; method of booking. The dial as a rough theodolite.

Plotting Dial Surveys.—By protractor; by chords.

Calculation of Areas.—"Give and take" lines; ruled paper method; reduction to triangles; use of planimeter. Assessing royalty dues.

Calculation of Volumes.—Contour lines. Contents of reservoirs, heaps, embankments, etc.

Levelling.—Forms of levelling instruments; their construction. Levelling staffs. Simple levelling; compound levelling; flying levels; underground levelling. The plotting of section levels.

Theodolite.—Construction. Specifications for mine-surveying purposes. Simple traversing, underground and surface.

Co-ordinates.—Mode of calculating; their value and accuracy. Method of plotting.

Mine Plans.—Their object. C.M.R.A. regarding plans. Construction of plans; scales; printing; colouring, etc. The copying of plans.

II.

The Theodolite.—Methods of measuring angles ; transit method ; repetition ; reiteration ; deflection angles. Traversing underground and surface ; methods of booking.

Triangulation.—Choice of base-lines and stations. Measurement of base-lines ; extension of short bases. The best shape of triangles. Measurement of angles. Fixing subsidiary points ; the “three-point problem.” Solution of triangles ; calculation of co-ordinates : mode of plotting. Filling in details ; plane table ; prismatic compass.

Levelling.—

(a) *Geometrical Levelling.*—The dumpy ; the Y-level ; contouring by level. Levelling steep drifts. Measuring depths of shafts.

(b) *Trigonometrical Levelling.*—By theodolite. By tachometer ; subtense method of measuring distances ; the stadia ; Reichenbach’s formula ; booking tachometer readings ; reduction of tachometer readings ; plotting ; contouring by tachometer ; method of making complete survey by tachometer.

(c) *Physical Levelling.*—The hypsometer ; the mountain barometer ; the aneroid.

Carrying bearing underground.—In the case of adits. In the case of two vertical shafts. In the case of one vertical shaft ; Weisbach’s method ; Gauss’ method. Best shape of triangles. Replacing plumb-lines by pins ; clamping plumb-lines ; Schmidt’s apparatus. In case of inclined shafts. Corrections in use of side-telescope and top-telescope.

Adjustments of Theodolite.—Temporary adjustments. Permanent adjustments for line of collimation ; for horizontal axis ; for index error ; for spirit levels. Makers’ adjustments ; testing centering, centre line of telescope, graduations, centricity of plates, etc.

Adjustment of Dumpy and Y-Levls.—Temporary. Permanent ; collimation, top level, and “three-peg” adjustments.

Determination of Latitude and Longitude.—By sun ; by stars. “Dead reckoning.”

Determination of Azimuth.—From Ordnance map, by sun, by pole-star, method of equal altitudes, “Alioth” method.

Setting-out.—Maintaining gradient and alignment underground. Underground curves. Railway and drainage tunnels. Ranging railway curves. Miscellaneous problems.

Miscellaneous.—Surveying boreholes, and related problems. Isometrical projection. General surveying problems.

As part of the Final Examination in Surveying, Students will be required to produce at the end of their second Session :

I. A plan of an underground traverse, with notes.

II. A sectional levelling made in a mine, with notes.

III. A surface survey, with notes.

(c) *Visits of Inspection to Mines.*—On Saturdays there will be, whenever possible, visits to the coal mines in the neighbourhood, when much that has been treated by the Lecturer during the week will be emphasized by the practical demonstration then witnessed. These visits will be common to the students attending all or any of the mining courses.

The first year course constitutes in itself a complete outline mining course, and can be taken as such by occasional students, but those students who have entered for the Mining Diploma or the degree of B.Sc. in Mining will have to proceed in the one case to Course II and in the other to Courses II and III.

I A.

(METAL MINING COURSE.)

The lectures of the first term of Course I are common to both Courses, but during the Spring and Summer Terms one lecture a week, on Tuesdays, at 4 o'clock, will be given in accordance with the following syllabus.

FEE:—£1 11s. 6d.

Syllabus.

The working of Ore Deposits.

Occurrence of minerals, veins and ore deposits of various kinds, rock-forming minerals, blasting and rock drilling, mining tools, cross-cutting and driving of levels, stoping, costs, timbering and supporting of excavations, various systems of working mineral veins and ore deposits, quarrying of slate and building stones.

II.

SECOND YEAR'S COURSE.

One Lecture a week, on Tuesdays, at 10.30.

FEE:—Lectures £1 11s. 6d. Laboratory (Coal Mining) £2 12s. 6d.

A course of about thirty lectures will be given during the Session, which will follow the subjoined Syllabus.

Colliery and Mine Management.—Pumping, re-opening of drowned-out mines; special instances described. Colliery explosions. Mode of procedure in work of rescue and reclamation; special instances treated. Steam, compressed air, water, and electricity as sources of power in Mining. Systems of employment and payment of men. Relations of Capital and Labour. Examination and Valuation of Mines and Mineral Properties. Mine Reports. Commercial considerations.

Mining Jurisprudence.—Mining Laws and Regulations. Acts of Parliament relating to Coal Mines. Ownership of Minerals, Royalties, Concessions, Leases, Dues. Foreign Mining Laws.

II A.

One lecture a week, on Tuesdays, at 11.30.

FEE:—Lectures £1 11s. 6d. Laboratory £2 12s. 6d.

A course of about thirty lectures will be given during the Session, which will follow the accompanying syllabus.

Hydraulicieing. Dredging. Transmission of Power. Means of Ascent and Descent of Mines. Winding. Pumping. Air Compressors. Electricity applied to Metal Mining. Sampling. Estimation of Reserves. Management of Metal Mines. Laying out of Surface Erections and Plant. Principles of Employment. Metalliferous Mines Regulation Act.

III.

THIRD YEAR'S COURSE.

FEEs:—Lectures, £2 2s.; Laboratory, £5 5s.

A considerable part of the time of the third year's Mining Course will be given to practical work in the laboratory, but there will be a series of lectures on Foreign Coal and Metal Mining, also instruction in the theoretical

principles involved in the dressing of gold, silver, copper, lead and other ores, and of fuels. These lectures and the instruction will be in accordance with the following Syllabus:—

FOREIGN COAL AND METAL MINING.

Coal and Mineral Deposits.—Methods of Classification. Various classes of Deposits, with illustrative typical examples of each. Chief coal and ore deposits of the world. Their mode of occurrence, distribution and importance.

Working of Coal and Ore Deposits.—Special methods adopted in different parts of the world to meet special requirements. Brown coal, bituminous coal, the anthracites of America and elsewhere. Foreign metal mines.

DRESSING OF MINERALS AND FUELS.

Objects and Principles.

Hand Sorting.—Spalling, Picking, Picking Belts, Tables.

Crushing.—Rock-breakers, Rolls, Stamps, Disintegrators, Coal-breakers.

Sizing.—Sieving, Screens of various types, Hydraulic Sizing.

Hydraulic Dressing.—Principals, Jigs, Coal-washers, Buddles, Blankets, Vanners.

Pneumatic Dressing.

Magnetic Separation.

Applications of methods to special cases.—Coal Washing. Cleaning Iron Ores. Dressing of Lead, Copper, Zinc Ores. Tin Stamping. Gold Milling. Concentrating Silver Ores. Gem Washing. The Designing and Erection of Mineral Dressing Plant.

BOOKS RECOMMENDED FOR GENERAL READING.

Text Books on Coal Mining:—

“A Text Book on Coal Mining” (H. W. Hughes).

“Colliery Working and Management” (H. F. Bulman and R. A. S. Redmayne).

“Gases met with in Coal Mines, and General Principles of Ventilation” (J. J. Atkinson).

Or instead of the latter—“Coal, Mine-Gases, and Ventilation” (J. W. Thomas).

Laboratory :—

“The Investigation of Mine Air” (C. Le Neve Foster and J. S. Haldane).

Mine Surveying :—

“A Treatise on Mine Surveying” (Bennett H. Brough).

Metal Mining :—

“Ore and Stone Mining” (C. Le Neve Foster).

“Ore Dressing” (Richards).

Electrical :—

“Electricity as applied to Mining” (Lupton, Parr & Perkin).

The following are recommended for consultation :—

The Transactions of the North of England Institute of Mining
Mechanical Engineers.

„	„	Federated Institute of Mining Engineers.
„	„	British Society of Mining Students.
„	„	Institute of Mining and Metallurgy.
„	„	American Institute of Mining Engineers.

Mine Owners or Managers having vacancies are requested to apply to the Professor.

BIOLOGY AND CHEMISTRY OF FERMENTATION.

Professor: ADRIAN J. BROWN, M.Sc. ; F.I.C.

Lecturer: THOMAS H. POPE, B.Sc. ; A.I.C.

INTRODUCTION.

This Department is intended to provide instruction and encourage research in the Biology and Chemistry of Fermentation, and is associated with the School of Brewing which has been founded to provide scientific and technical instruction in the principles of brewing and the fermentation industries generally.

The courses of instruction provided are :—

1. A Degree Course in the Biology and Chemistry of Fermentation.
 2. A Diploma Course in the Technology of Brewing.
 3. Shorter Courses of study in the Technology of the fermentation industries.
-

DEGREE COURSE.

The Degree Course is recommended to those students who contemplate taking up Biological work in connection with such subjects as the Fermentation Industries, Agriculture, Bacteriology in connection with water supply and the treatment of sewage, &c. It is also suitable for students who are candidates for the associate-ship of the Institute of Chemistry in the branch of Biological Chemistry.

Candidates for the degree of B.Sc. are required to be matriculated in the Faculty of Science, and during their first year to attend the courses laid down for students in Pure Science, viz. :—Chemistry, Elementary Biology, and *either* Pure Mathematics *or* Physics, and pass the Intermediate Science Examination. In their second and third years they must take the Biology and Chemistry of Fermentation as a principal subject and Chemistry as a double subsidiary subject.

The courses are set out in detail in the following table :

SECOND YEAR COURSES.

- (i) Vegetable Physiology and Morphology, with special reference to the Fungi (Botany, Course II) with Laboratory.
- (ii) Advanced Organic Chemistry, together with General and Physical Chemistry (Course II), with Laboratory.

THIRD YEAR COURSES.

- (i) Biology and Chemistry of Fermentation.
 - (a) Lectures and practical work, comprising a study of the Micro-Organisms of Fermentation—their culture, classification, morphology, physiology, and chemical actions.
 - (b) Lectures and practical work, comprising a study of the Carbo-Hydrates and the special methods employed in their examination ; and of the Proteids and their products of decomposition.
 - (c) Lectures and practical work, comprising a study of Enzymes and their actions.

FEE : £12 12s.

- (ii) Advanced Organic Chemistry, together with General and Physical Chemistry (Course III), with Laboratory.

DIPLOMA COURSES.

The Diploma Courses extend over a period of three years. In the first year Elementary Inorganic Chemistry, Physics, Botany, Mathematics, and Engineering Drawing are taken, with a modern language as an optional subject ; but this course of study is subject to alteration according to the students' previous education.

The second year's course includes advanced Chemistry, both inorganic and organic, with an extended course of

laboratory work, practical elementary Bacteriology. Engineering and Electrical Engineering, and a short course of lectures on Geology.

The third year's course consists of lectures on the Technology of Brewing and practical work in the Brewing Laboratory.

SPECIAL DIPLOMA FOR GRADUATES.

Graduates who have taken the degree of B.Sc. with the Biology and Chemistry of Fermentation as a principal subject may obtain a Special Diploma in the Technology of Brewing after a further course of study of one year in the Department.

SHORT COURSES.

Shorter courses of instruction in the technology of brewing and the fermentation industries generally, comprising both lectures and laboratory work, are also arranged.

For full information regarding the Diploma Course in Brewing and the shorter courses of study the student is referred to the special syllabus of the School of Brewing.

The Laboratory of the Department is open from 9.30 a.m. to 5.30 p.m. for special study and research work, under the direction of Professor Adrian Brown, to whom applications should be made.

FACULTY OF ARTS.

Syllabuses of Courses.

LATIN.

Professor : E. A. SONNENSCHN, M.A. ; D.Litt. (Oxon)

Lecturer : C. D. CHAMBERS, M.A. (Oxon.)

The *Preliminary Course* in Latin is designed to secure a knowledge of the language (including Grammar and Composition), such as is necessary for students entering on University Courses in this subject.

The *University Courses* in Latin for the ordinary B.A. degree are designed to embrace a study of representative masterpieces of Latin literature, which will be treated as literary wholes and from a literary point of view. These Courses bring the student into contact with typical specimens of Latin literature in the fields of epic, lyric, and didactic poetry, and of historical and philosophical prose and literary criticism, and thus provide a basis for the historical and comparative study of literature. At the same time the grammatical and philological study of the language and the practice of composition will be maintained and developed, mainly in connexion with the prose works selected under each course.

Course IV is reserved as an advanced and specifically linguistic course, in preparation for the M.A. Examination. The subjects read in this course will be varied from year to year in accordance with the needs of students.

LECTURES ON LATIN LITERATURE. — The Professor proposes to deliver during each session two or three popular lectures on *Latin Literature*, with particular reference to the authors not read in the B.A. Course. It is hoped that all students in Courses I, II, and III will attend these lectures during their course of study.

VACATION READING.—Students will find it of great advantage to them to read some at least of the books recommended for Vacation Reading in preparation for Courses I—III (see page 390).

PRELIMINARY COURSE.

Tuesdays, Thursdays, and Fridays, at 4.30.

In this Course students are prepared for the Matriculation Examination of the University of Birmingham.

SUBJECTS : *Pro Patria*, a Latin story by Professor Sonnenschein, together with Cicero, *Pro Lege Manilia*. The edition recommended is that by J. Hunter Smith, published by Swan Sonnenschein & Co., who also publish *Pro Patria*.

FEE :—£3 13s. 6d.

UNIVERSITY COURSES.

COURSE I.—THE EPIC (WITH SOME LIVY).

Mondays and Thursdays, at 2.30.

SUBJECTS : (1) Vergil, *Aeneid* IV. and VI., with a literary study of the *Aeneid* as a whole.

(2) Selections from Livy.

BOOKS RECOMMENDED :

Vergil : *Aen.* I.—VI., edited by Page (Macmillan's Classical Series).

Translation of the whole *Aeneid*, in verse, by J. Rhoades (Longman); or of *Aeneid* I.—VI. in verse, by Bowen (Murray).

Latin Literature, by J. W. Mackail (Murray).

FEE :—£2 12s. 6d.

COURSE II.—LYRIC POETRY (WITH SOME TACITUS).

Tuesdays and Fridays, at 2.30.

SUBJECTS—(1) Select lyrics of Horace and Catullus.

(2) Tacitus, *Agricola*.

BOOKS RECOMMENDED :

Horace : *Odes*, edited by Page (Macmillan's Classical Series) or by Gow (Pitt Press).

Students taking Latin as a principal subject for the B.A. are recommended to get the whole works of Horace, edited in one volume, by Page, Palmer and Wilkins (Macmillan).

Translations : verse, by De Vere (Bell), or select *Odes* in W. Scott's *Canterbury Poets*.

Catullus : *Select Poems*, edited by Simpson (Macmillan's Classical Series).

Translation : verse, by Martin (Blackwood).

Tacitus : *Agricola*, edited by Walters (Blackie), or by Furneaux (Clarendon Press).

Translation by Church and Brodribb (Macmillan).

FEE :—£2 12s. 6d.

COURSE III.—DIDACTIC VERSE AND PROSE.

Tuesdays and Thursdays, at 3.30.

SUBJECTS : (1) Horace, *Select Satires and Epistles*, including the *Ars Poetica*.

(2) Juvenal, *Satires*, III and X.

(3) Seneca, *De Clementia* and Selections from the *Epistles to Lucilius*.

BOOKS RECOMMENDED :

Horace, complete works by Page, Palmer and Wilkins (see Course II.), or *Epistles* alone by Wilkins (Macmillan's Classical Series).

Translation of the *Epistles* in verse by Conington (Bell).

Juvenal, edited by Strong (Clarendon Press).

Seneca, text by Hosius, vol. I., Fasc. II. (Teubner).

FEE :—£2 12s. 6d.

COURSE IV.—ADVANCED COURSE ON LANGUAGE.

Mondays at 4.30, and Wednesdays at 2.30, or by arrangement.

The subjects of the Course will be chosen with a view to the M.A. Examination, and may include select plays of Plautus, with a study of Old Latin metres and grammar.

EDITION RECOMMENDED :

T. Macci *Plauti Comœdiæ*, edited by Lindsay
(in the *Scriptorum Classicorum Bibliotheca
Oxoniensis*, vol. I.)

FEE :—£2 12s. 6d.

COURSE V.—ANCIENT HISTORY.

For course of lectures on this subject (by Mr. M. O. B. Caspari), see History, p. 338.

Composition Sets.

Sets will be formed for the practice of Latin Composition of various stages of difficulty, and will meet at the following hours :—Set 1 (*a*), Fridays, at 2.30 ; (*b*) Wednesdays, at 3.30 ; Set 2, Thursdays, at 2.30 ; Set 3, Fridays, at 3.30. More advanced students will be taken separately, at hours to be fixed at the commencement of the session.

BOOK RECOMMENDED :

For Set 1 : *Third Latin Reader and Writer*, by
C. M. Dix (Swan Sonnenschein & Co.)

FEE :—£1 11s. 6d.

REQUIREMENTS FOR DEGREES.

Intermediate Arts Examination : Course I.

Ordinary B.A. Examination :

- (i.) When Latin is a principal subject : Courses II. and III. in successive years.
- (ii.) When Latin is a subsidiary subject : *either* Course II. *or* Course III.

M.A. Examination:

All candidates for the M.A. degree in Latin will be examined in the four following subjects:—

- (i.) Composition.
- (ii.) Unseen translation.
- (iii.) Selected authors (see below).
- (iv.) Latin literature and philology.

Candidates who offer Latin alone will be required to show a special knowledge of *four* Latin authors, to be selected by themselves and approved by the University. Candidates who offer Latin together with another subject will be required to show a special knowledge of only *two* Latin authors.

The subject of the dissertation required for the M.A. degree should be selected in consultation with the Professor as early in the session as possible.

TIME TABLE.

LATIN.			Mon.	Tues.	Wed.	Thurs.	Fri.

* Composition.

† Or by arrangement.

GREEK.

Professor : E. A. SONNENSCHN, M.A. ; D.Litt. (Oxon.).

Lecturer : M. O. B. CASPARI, M.A. (Oxon.).

The *Preliminary Course* in Greek is designed to secure a knowledge of the language (including Grammar and Composition) such as is necessary for students entering on University Courses in this subject.

The *University Courses* in Greek for the ordinary B.A. Degree are designed to embrace a study of representative masterpieces of Greek literature, which will be treated from a literary point of view and with reference throughout to their background of Greek life and art. In the Advanced Course (Course IV) there is a fuller treatment of the historical and archæological questions arising in connexion with the subject matter of the books read.

During the Winter and Spring Terms a course of popular lectures on some literary or archæological subject is usually delivered.

The course of lectures on *New Testament Greek* (Course V) is designed partly for theological students preparing for the Intermediate Arts Examination, partly for students who have no examination in view.

Any students desiring to study Greek outside the regular University Courses should apply to the Professor on or before the first day of the session.

VACATION READING.—Students are strongly recommended to prepare themselves for the several Degree Courses by reading some at least of the books prescribed for study during the vacations. (See p. 391.)

PRELIMINARY COURSE.

Mondays, Thursdays, and Fridays, at 2.30.*

In this Course students are prepared for the Matriculation Examination of the University of Birmingham.

SUBJECTS: *Greek War of Independence*, by C. D. Chambers. Professor Sonnenschein's Greek Accidence.

FEE :—£3 13s. 6d.

* These hours and days are subject to modification by arrangement.

UNIVERSITY COURSES.

COURSE I.—HISTORICAL AND ORATORICAL PROSE.

Two hours weekly, by arrangement.

SUBJECTS—(1) Thucydides, IV, chapters 1—41.

(2) Demosthenes, *Third Philippic*.

BOOKS RECOMMENDED :

Thucydides, IV, edited by Graves (Macmillan).

Demosthenes, *On the Peace*, *Second Philippic*, *Chersonese*, and *Third Philippic*, edited by Sandys (Macmillan).

FEE :—£2 12s. 6d.

COURSE II.—THE DRAMA.

Two hours weekly, by arrangement.

SUBJECTS : (1) Æschylus, *Prometheus*, with a literary study of the Greek Drama.

(2) Selections from *Florilegium Tironis Græcum*.

BOOKS RECOMMENDED :

Æschylus, *Prometheus*, edited by Haines (Swan Sonnenschein and Co.).

Art culture in Germany. Music and the Drama. Modern German architecture and handicraft. Modern German Painters and Sculptors.

The lectures will be illustrated by maps, diagrams and limelight views.

FEE :—10s. 6d.

PHILOLOGY.

(c) Mondays at 12.30: Germanic Philology. Lectures will be given (in English) on the principles and methods of the Science of Language and the history and philology of the Germanic languages, with special reference to the relation of English and German. The Gothic version of the Gospels will be read.

FEE :—£1 11s. 6d.

(d) Mondays at 10.30 : Old High German Grammar, with Interpretation of O.H.G. texts.

FEE :—£1 11s. 6d.

(e) Tuesdays at 10.30: Introduction to the study of Middle High German and Historical German Grammar. Reading of easy M.H.G. texts.

FEE:—£1 11s. 6d.

(f) Thursdays at 3.30: Interpretation of more difficult M.H.G. and sixteenth century texts.

FEE:—£1 11s. 6d.

SEMINAR.

(g) Mondays at 3.30: Essay Writing. Discussion of Literary and Philological problems. Introduction to Bibliography and Methods of Research.

FEE:—£1 11s. 6d.

VACATION READING: see page 393.

REQUIREMENTS FOR DEGREES.

Intermediate Examination in Arts: Course I.

B.A. Degree:

(a) When German is a principal subject: Courses II and III, in successive years.

(b) When German is a subsidiary subject: Course II.

M.A. Degree:

(a) Candidates who desire to take the M.A. Degree in German alone will be required to take the following eight subjects:—

- (i.) German Essay and Composition.
- (ii.) Unseen Translation.
- (iii.) Selected Authors.
- (iv.) History of German Literature.
- (v.) German History and Institutions.
- (vi.) Old and Middle High German Texts.
- (vii.) Germanic Philology.
- (viii.) A selected period of German Literature.

(b) Candidates who desire to take the M.A. Degree in German together with another subject will be required to select four subjects from the above list, of which (i.) and (iii.) are compulsory.

SCHOOL OF MODERN LANGUAGES.

The following courses are recommended :

(a) If German is the principal subject :—

First year : Courses II, III, IVb, c.

Second year : Courses III, IVa, c, d, e, f.

Third year : Course III, IVa, d, e, f, g.

(b) If German is the subsidiary subject :

First year : Courses II and IIIa.

Second year : Courses III and IVa.

Third year : Courses IVa, b, c, e.

ANGLO-SAXON.

ADVANCED.—Mondays at 5.30, or by arrangement.

The books set in Group B of the M.A. examination in English (University of Birmingham) will be studied.

FEE:—£1 11s. 6d.

Students joining this class are expected to attend the lectures on Germanic Philology (IV, c.).

FEE:—£1 11s. 6d.

PHILOSOPHY.

Professor : JOHN HENRY MUIRHEAD, M.A. ; LL.D.

Lecturer : HELEN MARION WODEHOUSE, M.A.

UNIVERSITY COURSES.

I.

Logic.

The aim of this Course is to familiarise students with the general conditions of right reasoning in ordinary life, and in observational and experimental science. A good deal of time is given to the analysis of familiar types of argument.

Lecture Days :—Mondays, Tuesdays and Thursdays, at 9.30.

NATURE AND SCOPE OF LOGIC : Judging and Reasoning, and the General Laws that underlie them. General Analysis of the Process of Reasoning.

DOCTRINE OF TERMS : Kinds of Terms ; Connotation and Denotation ; Definition of Terms and Division of Kinds as aids to Thought.

PROPOSITIONS : The Interpretation of Propositions : Categorical, Hypothetical, Disjunctive Propositions ; Opposition and Implication of Propositions.

DEDUCTIVE INFERENCE : Syllogism : Laws and Forms of ordinary Syllogism ; Conditional and Disjunctive Syllogism ; Trains of Reasoning ; Non-Syllogistic Inference ; Fallacies of Deductive Inference.

INDUCTIVE INFERENCE : General Nature of Induction ; Methodical Observation ; Analysis of Idea of Causal Sequence ; Explanation ; Analogy : Hypothesis and Theory ; Fallacies of Inductive Inference.

THE NATURE OF THOUGHT.—Judgment and the Chief Types of Judgment ; the Laws of Thought : Knowledge as a System ; the Nature and Conditions of Inference.

BOOKS RECOMMENDED FOR CONSULTATION : Mill's *System of Logic* ; Keynes's *Formal Logic* ; Venn's *Empirical Logic* ; Jevons's *Principles of Science*.

FEE :—£3 13s. 6d.

PREPARATORY READING.—Students intending to take this course should make themselves familiar with Jevons's *Primer* (Macmillan), and with the chapters 3 to 9 and 13 to 15 in *An Introductory Logic*, by Edwin Creighton (Macmillan).

II.

Psychology.

This Course is given in alternate years. It will be next given in October, 1907. Its aim is to give such an analysis of the chief elements in consciousness as may form an introduction to Mental Philosophy on the one hand and to the Principles and Practice of Education on the other.

Lecture Days.—Tuesdays, Thursdays and Fridays, at 12.30.*

SCOPE AND METHOD OF THE SCIENCE: What is meant by Mind; Consciousness and Subconsciousness; Relation of Psychology to other Sciences; Psychological Methods.

BODY AND MIND: Outlines of the Nervous System; Relation of Body and Mind.

GENERAL ANALYSIS OF MIND: Knowledge, Feeling, and Action as Modes of Consciousness; their general relation to one another.

KNOWLEDGE: Elementary processes implied in Knowledge: Attention, Retention and Habit, Discrimination and Assimilation. THE SENSES: General Treatment; Law of Relativity. PERCEPTION: Our knowledge of Things in Space and Time. IDEAS: Association; Memory; Imagination. CONCEPTION: General Nature of Conceptual Thinking; Relation of Language to Thought; Categories of Thought; The Idea of a Physical World; the Idea of Self.

FEELING: General Nature and Conditions of Feeling. The Affective side of Perceptive and Ideational Experience. Emotion. The Emotions and their Expression. The Sentiments.

ACTIVITY: Instinctive and Automatic Action. Voluntary Action; Desire and Motive; Deliberation and Choice. Habit and Character.

* NOTE.—Some of these hours may be altered to suit the convenience of Students.

BOOKS RECOMMENDED FOR CONSULTATION: Stout's *Manual of Psychology*; Höffding's *Outlines of Psychology*; James's *Principles of Psychology*; Wundt's *Outlines of Psychology*; Ward's Art. in *Encycl. Brit. Psychology*, with Supplement.

FEE:—£3 13s. 6d.

PREPARATORY READING.—Students intending to take this course should read Stout's *Groundwork of Psychology* (University Tutorial Press).

III.

Moral Philosophy.

The aim of this Course is to give an outline of the leading principles of moral and social obligation as at present understood and to illustrate them by bringing them into connexion with typical historical theories and modern problems.

Lecture Days:—Mondays, Wednesdays, and Fridays at an hour to be arranged to suit students.

- I. GENERAL PRINCIPLES: SCOPE AND METHOD OF STUDY. THE PSYCHOLOGY OF THE WILL: Desire and Will; The Idea of Self. THE STANDARD OF MORAL JUDGMENT: Egoism and Altruism; The Happiness Theory.
- II. PERSONAL MORALITY: Virtue and Duty. The Unity of Virtue, Cardinal Virtues: Courage; Temperance; Truthfulness; Justice; Charity.
- III. SOCIAL ETHICS: ORGANISED SOCIETY AS THE EXPRESSION OF WILL: The Social Organism. LAW AND MORALITY: The basis of Right. Rights and Duties. Who have Rights? Are there Natural Rights? PHASES OF ORGANISED SOCIETY: 1. THE FAMILY: Natural basis and ethical purpose of the Family. The State's interest in the Family. The Family under modern conditions of life. 2. INDUSTRIAL SOCIETY: Alleged course of development from Status and Contract. Modern Industrial conditions. The Social Problem, Private Property. Individualism and Socialism. 3. THE

STATE : The basis and end of the State. The Democratic Ideal. Liberty and Legislation. Reward and Punishment.

BOOKS RECOMMENDED FOR CONSULTATION : Bradley's *Ethical Studies*; Green's *Prolegomena to Ethics* and *Lectures on Political Obligation*; Bosanquet's *Philosophical Theory of the State*; Aristotle's *Ethics* (Peters).

FEE :—£3 13s. 6d.

PREPARATORY READING : Muirhead's *Elements of Ethics* and *Chapters from Aristotle's Ethics*.

IV.

Metaphysics A.

1. Introduction to Philosophy. 2. Greek Idealism (Plato and Aristotle).

One Lecture a week. One hour discussion class.

Times to be arranged with students.

FEE :—£1 11s. 6d.

V.

Metaphysics B.

1. History of Modern Philosophy, with special reference to Kant and Hegel. 2. Modern Metaphysical and Ethical Problems.

One Lecture a week. One hour discussion class.

Times to be arranged.

FEE :—£1 11s. 6d.

REQUIREMENTS FOR DEGREES.

B.A. Degree :

1. For Candidates taking Philosophy as a subsidiary subject, having already taken Logic at the Intermediate : either Course II or Course III. For candidates who have not taken Logic : either Course I, along with Bosanquet's *Essentials of Logic*, or Course II, or Course III.

2. For Candidates taking Philosophy as a principal subject, having already taken Logic at the Intermediate Examination : Courses II and III in successive years.

For Candidates who have not taken Logic at the Intermediate Examination, any two of Courses I, II, III, in successive years, with book work as above.

A second Philosophical subject may be taken along with any other Philosophical subject as a second subsidiary subject.

M.A. Degree :

For Candidates taking Logic as a subsidiary subject, Course I.

For Candidates taking Psychology as a subsidiary subject : Course II, with Külpe's *Outlines of Psychology*, Part I.

B.Sc. Degree :

A.—SUBJECT OF EXAMINATION.

1. Candidates taking Philosophy alone for the M.A. Degree will be examined in :

- (1) **PSYCHOLOGY** : Ward's Article on Psychology (Encyclop. Brit. with Supplement) ; Stout's *Analytic Psychology* and *Manual of Psychology* ; James's *Principles of Psychology*.
- (2) **LOGIC AND METAPHYSICS** : Mill's *System of Logic* ; Bradley's *Logic* ; Bosanquet's *Logic* ; Bradley's *Appearance and Reality* ; Wallace's *Logic of Hegel* with *Prolegomena* ; Taylor's *Elements of Metaphysics*.
- (3) **MORAL AND POLITICAL PHILOSOPHY** : Plato's *Republic* ; Aristotle's *Ethics* ; Kant's *Theory of Morals* (Abbott) ; Green's *Prolegomena to Ethics* ; Hegel's *Philosophy of Law* (Dyde's English Translation). Bosanquet's *Philosophical Theory of the State*.
- (4) The General History of Philosophy, together with portions of important writers to be read under the direction of the Professor, and the special history of one of the above departments of Philosophy.

2. Candidates taking Philosophy together with another subject for the M.A. Degree will be examined in :

- (1) **PSYCHOLOGY**: Ward's Article on Psychology (Encyclop. Brit. with Supplement); Stout's Analytic Psychology and Manual of Psychology.
- (2) **LOGIC AND METAPHYSICS**: Mill's System of Logic; Wallace's Logic of Hegel with Prolegomena; Bosanquet's Logic.
- (3) **MORAL PHILOSOPHY**: Aristotle's Ethics; Green's Prolegomena to Ethics; Hegel's Philosophy of Law (Dyde's English Translation). Bosanquet's Philosophical Theory of the State.
- (4) The General History of Philosophy, with portions of important writers to be read under the direction of the Professor.

B.—ATTENDANCE ON LECTURES AND CLASSES.

Candidates taking the M.A. Degree in one year must attend both of the Courses IV. and V., with the discussion classes connected with them.

Candidates taking the M.A. Degree in two years must take at least one of them in the first year, the other in the second year, with the discussion classes.

TIME TABLE.

THEORY AND PRACTICE OF EDUCATION.

Organising Professor: ALFRED HUGHES, M.A.;
M.A. (Oxon.); B.A. (Manch.)

UNIVERSITY COURSES.

I.

ELEMENTARY COURSE IN PSYCHOLOGY AND LOGIC.

Professor: JOHN H. MUIRHEAD, M.A., LL.D.

Lecturer: HELEN M. WODEHOUSE, M.A.

Syllabus.

Tuesdays, at 10.30* p.m., and Fridays, at 10.30.

A. ELEMENTS OF PSYCHOLOGY.

Body and Mind. Evolution of Mind. The Senses and their Training. Perception and Observation. Ideas and their Sequence. Memory and the Training of Memory. Fancy and Imagination. Conception and Thinking. Language and Conception. Feeling and the Feelings. The Sentiments and their Training. Will and Conduct. Habit and Character.

TEXT BOOK RECOMMENDED.—James's Text Book of Psychology (selected chapters).

B. ELEMENTS OF LOGIC.

The Art of Thinking. Terms and their Meaning. The Analysis of Judgments. Kinds of Judgments. Reasoning. Types of Reasoning. Syllogism. Analogy. Analysis of Observation and Experiment. Hypothesis and Verification.

TEXT BOOK RECOMMENDED.—Creighton's Introductory Logic (Macmillan).

C. PLATO'S REPUBLIC.

Books II—IV. (Bosanquet's *Education of the Young*).

FEE:—£3 3s.

II.

THEORY AND PRACTICE OF TEACHING.

Lecturers: { FRANK ROSCOE.
 { ANNE HOLLINGWORTH JOYCE, B.A.

Lectures:—Wednesdays, 10.30 and 11.30.

Tutorial Classes:—Tuesdays, 10.30; Mondays, 11.30.

*This lecture will be repeated on Thursdays, at 4.45 p.m.

Criticism Lessons:—Wednesdays, 2.30 to 4.30; Fridays, alternately, 9.30 to 11.30 and 2 to 4.

These hours are for women students; they are subject to alteration in case of men students.

The Course in Theory and Practice of Teaching includes in addition to the above not less than 75 hours of school practice per year.

The whole Course may extend over two years.

Syllabus.

WINTER TERM.

Aims of Education, past and present.

Development of Modern Ideals of Education.

General Principles of Education.

Interest and its bearing on Education. Necessary stages of Rational Method.

Theory of Five Formal Steps.

Notes of Lessons.

SPRING TERM.

Curricula and subjects of instruction.

Choice and scope of school studies; Educational values; Correlation of studies; "Concentration schemes."

Methods of Teaching.

(1) *Humanistic Studies; general treatment.*

Mother tongue; Literature; History; Foreign languages; Drawing.

(2) *Naturalistic Studies; general treatment.*

Object lessons; Nature studies; Lessons in Elementary Science; Geography; Arithmetic and Geometry.

SUMMER TERM.

Physical Education, aims and methods.

School organisation and administration.

School Hygiene.

Discipline, its basis, practical aids.

TEXT BOOKS RECOMMENDED.—

Talks to Teachers: James.

School Hygiene: Hope and Brown.

Teaching and Organisation: P. A. Barnett.

Lectures on Teaching: Fitch.

Stimulus: Sidgwick.

FEE:—£4 4s.

III.

HISTORY OF EDUCATIONAL IDEAS.

Lecturer: FRANK ROSCOE.*Lectures*:—Three hours per week by arrangement.**Syllabus.**

WINTER TERM.

Greek Education: Music and Gymnastic. Theories of Plato, Aristotle, Xenophon.*Roman Education*: Early Period. Theories of Quintilian.*Mediæval Education*: Scholasticism. Trivium and Quadrivium. Rise of Universities. Abelard.

SPRING TERM.

The Renaissance: Classicism. Vittorino da Feltre. Erasmus. Luther.*Teaching of Languages*: Sturm. The Jesuits. The Jansenists. Ascham. La Salle.*Revolt from Classicism*: Rabelais. Montaigne. Fénelon. Comenius. Milton. Locke.

SUMMER TERM.

18th and early 19th Century: Return to Nature. Rousseau. Kant. Pestalozzi. Froebel.*19th Century Education*: Bell. Lancaster. Rise of Scientific Psychology. Herbart. Bain. Spencer. Modern tendencies.*Special Period for 1907*: Greek Education.**TEXT BOOKS RECOMMENDED:**

The Educational Ideal (F. O. Munroe).

General: History of Pedagogy (Compayré).

Educational Reformers (Quick).

[Students are also required to obtain adequate acquaintance with the original authorities as directed during the lectures].

For Special Period: Aristotle (Davidson).

Greek Education (Mahaffy).

Plato's Republic (Trans. Davies and Vaughan).

Theory of Education in Plato's Republic (Nettleship).

FEE:—£3 13s. 6d.**REQUIREMENTS FOR DEGREES.***Intermediate Science or Arts Examination*: Courses I and II.*B.Sc. or B.A. Degree* (subsidiary subject): Course III.

MUSIC.

(Chair of Music, founded in 1905 by Mr. Richard Peyton.)

Professor : Sir EDWARD ELGAR, Mus.D. (Oxon., Cantab.,
Dunelm et Yale, U.S.A.), LL.D.

Lectures will be given on Orchestration.

These lectures will be given in November. The dates of these and of further lectures on special subjects will be announced later.

The Professor may be consulted at the University on musical matters on certain days which may be ascertained on application to the Secretary.

SPANISH AND ITALIAN.

Lecturer : F. DE ARTEAGA, M.A. (Oxon.)

Spanish.

UNIVERSITY COURSES.

I.

Tuesdays at 3.30, Thursdays at 10.30, and Saturdays at 11.30.

FEE :—£3 13s. 6d.

WINTER TERM. — Accidence, Elementary Syntax, Easy Conversation. Arteaga, "Practical Spanish."

SPRING TERM.—Advanced Syntax, Idioms. Conversation. Larra, "Artículos."

SUMMER TERM.—Composition, Proverbs. Cervantes, "Don Quixote" (selected chapters).

II.

Tuesdays at 2.30, Thursdays and Saturdays at hours to be arranged.

FEE :—£3 13s. 6d.

WINTER TERM.—Synonymes, Advanced Composition. Letter-writing, Spanish Readings.

SPRING TERM.—Abridged Course of Spanish Literature. Readings in Verse and Prose from the best Spanish Authors (especially modern Authors).

SUMMER TERM.—Abridged Spanish History (principally modern history). Readings from the best Spanish Historians.

III. (COMMERCE.)

Tuesdays and Thursdays, at hours to be arranged.

FEE:—£2 12s. 6d.

WINTER TERM.—Commercial Correspondence.

SPRING TERM.—Commercial Geography and Institutions of Spain.

SUMMER TERM.—Spanish Commercial and Industrial Literature.

Italian.

UNIVERSITY COURSES.

I.

Tuesdays and Thursdays, at 11.30 ; Saturdays at 12.30.

FEE:—£3 13s. 6d.

WINTER TERM.—Accidence, Elementary Grammar, Easy Conversation. Perini, "An Italian Conversation Grammar."

SPRING TERM.—Advanced Syntax, Idioms, Conversation. De Amicis, "Cuore."

SUMMER TERM.—Composition. Proverbs. Manzoni, "I Promessi Sposi."

II.

Tuesdays, Thursdays and Saturdays, at hours to be arranged.

FEE :—£3 13s. 6d.

WINTER TERM.—Synonymes, Advanced Composition.
Letter Writing, Italian Readings.

SPRING TERM.—Abridged Course of Italian Literature. Readings in Verse and Prose from the best Italian Authors, especially modern Authors.

SUMMER TERM.—Abridged Italian History, principally modern history. Readings from the best Italian Historians.

III. (COMMERCE.)

Tuesdays and Thursdays, at hours to be arranged.

FEE :—£2 12s. 6d.

WINTER TERM.—Commercial Correspondence.

SPRING TERM.—Commercial Geography and Institutions of Italy.

SUMMER TERM.—Italian Commercial and Industrial Literature.

SOCIAL STUDY.

EXECUTIVE COMMITTEE.

Professor Ashley.	Professor Muirhead.
Professor Fiedler.	John Robertson, M.D., B.Sc.
Professor Masterman.	Miss Sidgwick, <i>Librarian</i> .
Professor Kirkaldy, <i>Hon. Secretary</i> .	

The following Courses of Lectures will be given during the coming Session, beginning Tuesday, October 16th, at 8.15 p.m., in the Medical Theatre.

I. THE SOCIAL IDEAL. Professor J. H. MUIRHEAD, LL.D. 1. The Need of Knowledge. 2. Some Fundamental Facts of Life and Mind. 3. What Makes Life Human? 4. Social Progress. 5. Individualism and Socialism.

II. SOCIAL ECONOMICS. Professor A. W. KIRKALDY, M.A., B.Litt. 1. The Basis and Development of Economic Life. 2. What the Landlord does and what he gets. 3. What the Manufacturer does and what he gets. 4. What the Workman does and what he gets. 5. Possible and impossible ideals.

III. INDUSTRIAL ORGANISATION. Professor W. J. ASHLEY, M.A. 1. The Problem of Co-operation. 2. The Problem of the Factory. 3. The Problem of Capitalist Combination. 4. The Problem of Trade Unionism. 5. The Problem of State Interference.

IV. LOCAL ADMINISTRATION. Professor J. H. B. MASTERMAN, M.A. 1. Principles of English Local Government. 2. History of the English Poor Law. 3. Poor Law Administration. 4. National Education. 5. The Education Act of 1903.

V. PUBLIC HEALTH AND HOUSING. JOHN ROBERTSON, M.D. 1. Definitions of Health. 2. Communicable Diseases. 3. Nutritional Requirements. 4. Environment. 5. Housing.

The Lectures will be followed by discussion.

Fee for the Session 5/-, or 1/- for each of above Courses of five Lectures.

Tickets to be had at the Office.

First Lecture Free.

In connexion with the above a Library is being formed for the use of students attending this Course. The fee for the Lectures includes the use of the Library.

FACULTY OF COMMERCE.

The purpose of the Faculty of Commerce is to furnish a systematic training, extending over a period of three years * for students who look forward to business careers. In planning the courses of instruction two objects have been kept in view—(1) the combination of liberal culture with utility; and (2) a due regard for the different requirements of different branches of commercial life. Certain parts of the curriculum are believed to be serviceable for all classes of business men, and are therefore prescribed for all students in the Faculty. In other parts a large freedom of choice is allowed, in accordance with the prospects, interests and aptitudes of individual students.

Two main alternatives are presented:—(1) Students who expect to be engaged in the *commercial* conduct of *manufacturing* and similar businesses will naturally desire to combine with the specifically commercial courses, and with a certain amount of linguistic study, some attention to the scientific and technical subjects which most nearly touch the business in which they are interested. Under the arrangement set forth in detail below, they can devote, if they so choose, about one third of their time to work in Applied Science. And a similar choice will often be expedient for those who are likely to be concerned in the commercial management of collieries and other mines, or of agricultural undertakings, as well as for those who propose to enter upon business life in Australia, Canada, or S. Africa. (2) Students, on the other hand, who expect to be ultimately engaged in the work of a *merchant*, in the narrower sense of the word, will usually prefer (after due provision has been made for the strictly commercial courses) to enlarge their knowledge of foreign languages, and to gain access, in this and other ways, to a wider range of economic, financial and administrative studies. A like choice, with the necessary modifications

* Two in the case of approved Graduates of other Universities. See p. 357.

in detail, may be appropriate for those who are likely to be occupied in railway or shipping management, in consular or municipal service, in the employment of Chambers of Commerce, or as accountants, or masters on the "modern sides" of schools. But in every case the choice among the several optional subjects will only be made after the student has had an opportunity of consultation with the Dean of the Faculty.

Students who have been matriculated in the University, and have acquitted themselves with credit in the requisite class-work and examinations, will be admitted to the degree of Bachelor of Commerce. Students may matriculate on passing the Matriculation Examination of the University, or on producing evidence that they have passed one of the examinations which the University accepts in lieu thereof. A schedule of the exempting examinations is given in the Regulations for Matriculation.

Every candidate presenting himself at the Matriculation examination must pass in *five* subjects at one examination, viz. :—

- (1) English History and Literature.
- (2) Mathematics.
- (3), (4) and (5) Three subjects (of which one must be a language) chosen from the following list:—
 - (a) Latin.
 - (b) Greek.
 - (c) French.
 - (d) German.
 - (e) Italian.
 - (f) Spanish.
 - (g) Higher Mathematics.
 - (h) Experimental Mechanics.
 - (i) Chemistry.
 - (j) Physical Geography.
 - (k) Botany.
 - (l) Animal Biology.
 - (m) Geometrical Drawing

The requirements in the several subjects will be found in the Regulations for Matriculation.

But although a large freedom is allowed in the choice of subjects to be offered at the Matriculation Examination, those who look forward to entering the office of a merchant are *strongly recommended* to make at any rate a beginning with the study of two modern foreign languages while they are at school. They will do well to make such a beginning even though they should ultimately choose to offer one or both classical languages at the Matriculation Examination. If only one modern language can be studied at school, German is recommended: the other languages included in the syllabus of the Faculty of Commerce are French, Spanish and Italian.

Similarly, those who anticipate the career of a manufacturer, especially in the direction of Engineering, are urged to give special attention at school to mathematics.

It should be understood, however, that the best general preparation at school for the work of the Faculty of Commerce is a good all-round education. This should always include some practice in simple narrative and argumentative composition in English.

It is unwise for boys who desire a higher commercial education to leave school before they can pass an examination qualifying for Matriculation. And even after passing such examination, students may be too immature to benefit by a training which calls for the constant exercise of judgment. Accordingly, although no age limit will be set, and every case will be determined upon its merits, the Faculty of Commerce reserves the right of postponing the admission of students who appear insufficiently mature in mind and character to benefit by the instruction. Such students may be advised to spend a preliminary year in a workshop or counting-house. The same plan may properly be recommended in some cases to students who look forward to entering businesses in which early practical experience is desirable. It is, however, often possible to get valuable practical experience in the office or workshop during the vacations.

All new students who propose to enter upon the curriculum leading to the degree of Bachelor of Commerce, are required to call upon the Dean of the Faculty at the University, on the morning of any day between September 24th and September 28th, between 10 a.m. and 1 p.m., to inform him as to their previous training, and to consult him as to their choice of studies. Lectures will begin on Tuesday, October 2nd. Students unavoidably prevented from meeting the Dean at those times are requested to communicate with him by letter, on, or as soon as possible after, September 24th, to arrange an interview.

Students of the Second and Third Years are required to see the Dean on the morning of October 1st.

Before any person will be permitted to register in the Office of the Secretary for any course under the Faculty of Commerce, he will be required to produce a card signed by the Dean, or by the teacher in charge of the particular course.

The intention of this rule is to give every student an opportunity to obtain the advice of the teachers of the Faculty before committing himself by registration.

Foreign Students :

1. Foreign students, who propose to enter the University of Birmingham, are desired to communicate with the Dean of the Faculty of Commerce, and to furnish him with particulars as to their previous training, in time to receive an answer before it is necessary for them to leave their country.

2. Foreign students will be admitted to Matriculation without further examination on producing evidence satisfactory to the Registrar that they have attained in the schools of their own country a standard of general education substantially equivalent to that demanded by the Matriculation Examination of the University of Birmingham.

3. Foreign students who are unable to satisfy the above requirement will be permitted to attend the lectures if they are qualified to benefit by them, without passing any examination at entrance. But if they desire to proceed ultimately to the Degree of B.Com., they must pass the Matriculation Examination. They will, however, be allowed, in suitable cases, to offer their native language in lieu of the prescribed English. Candidates who propose to offer other languages than French, German, Italian, and Spanish, at the June examination, are requested to communicate with the Registrar before April 20th; if at the September examination, before June 16th. They will still be required to satisfy the examiners in another language, and will be allowed to offer for that purpose any one of the following:—English, French, German, Spanish, Italian, Latin, Greek.

4. Foreign *graduate* students may, under suitable conditions, be admitted to the Degree of B.Com. within two years after their Matriculation. The Ordinance on this subject will be found below.

5. All foreign students are required to reside in lodgings on the Secretary's list, and to give notice in the office of any change of address.

Curriculum for the Degree of B.Com.

Candidates for this degree are required to have attended the following courses of study, and to have passed the University Examinations thereon at the end of each of the three years. There will be a *vivâ voce* examination in foreign languages in each year; and also in such other subjects as the Examiners may determine. Candidates may offer themselves for the whole or any part of the Examination in any year. Only matriculated students will be admitted to University Examinations (in which External Examiners co-operate with the University staff). The class examinations, to which non-matriculated students will be admitted, will be conducted by the University staff alone. The scope

of the several courses will be learnt from the syllabuses which follow the curriculum; and (in the case of courses in Languages, History, Mathematics, Science—Pure and Applied, and Philosophy) from those in the announcements of the Faculties of Arts and Science.

FIRST YEAR.

1. Commerce I.
2. Accounting I.
3. Economic Analysis.
4. The Commerce Seminar.
5. A Modern Language (German, Spanish, French, Italian, or,—in the case of foreign students,—English).
6. A Science applicable to Manufacture
Or
A second Modern Foreign Language
7. An approved Course selected from any of the Departments under the charge of the Faculties of Science or Arts.

SECOND YEAR.

1. Commerce II.
2. Accounting II.
3. Economics of Transport.
4. The Commerce Seminar.
5. A Modern Foreign Language.
6. A Science applicable to Manufacture
Or
A second Modern Foreign Language.
7. An approved Course selected from any of the Departments under the charge of the Faculties of Science or Arts.

Regulations as to First and Second Year Courses.

Commercial Courses Proper.—For these see the syllabuses below.

Languages.—Every candidate for the Degree of B.Com. must attend, in accordance with Requirement 5 in the above lists, three full courses in one modern Foreign Language, one in each of the years of the curriculum. The minimum requirement for the degree in the language selected is the passing of the Matriculation and Intermediate Arts Examinations, as well as of the examination in Commercial Literature and Correspondence. The higher standard reached by those students who are also able to pass the language examination of the Second Year in Arts will be recorded in the class-list.

Besides this, every candidate for the degree will be allowed, under Requirement 6 above (and Requirement 9 in the third year), to choose between a Course in Science appropriate to a business career, and a Course in a second Foreign Language. If he is especially interested in the language or literature of either of the two foreign countries, he may, if he so choose, take a further advanced course under Requirement 7 in the first and second years.

Pure and Applied Sciences.—The intention of the choice here allowed is to enable a student, if he so desires, to give a considerable proportion of his time to the scientific study which is likely to be of service to him subsequently. A student who wishes to become a technical expert will enter the Faculty of Science: the opportunities afforded in the Faculty of Commerce are only such as are desirable for one who will be engaged mainly in the *commercial* management of a business. Such a student may, under Requirement 6 in the first and second years (and Requirement 9 in the third year), take one of the courses rendered available by the time table in any scientific subject definitely associated with manufacture. This course must consist

of at least three hours of lectures per week, or their equivalent in laboratory or workshop hours; two laboratory or workshop hours being reckoned for this purpose equivalent to one lecture hour. He may, under Requirement 7 in the first and second years, take an additional scientific course, such as may be suitable in conjunction with the other in the judgment of the Dean; this course also to consist of not less than three hours of lectures a week or their equivalent. When both these choices are made, the total number of hours required, viz. six, may be divided between two courses in such a way as may be most advantageous or convenient. If more lectures in the Faculty of Science are taken than seven a week in the first and second years, and four in the third year, an addition will be made to the composition fee.

Any course, however, under the Faculty of Science may be taken to satisfy Requirement 7 of the first and second years, without any purpose of business utility, and simply as an element in a general education, *if* the other requirements of the curriculum are at the same time satisfied.

Courses under the Faculty of Arts.—Under Requirement 7 in the first and second years there is complete freedom of choice among courses rendered available by the time table, subject only to the condition that the number of lectures a week must not be less than three. In suitable cases two shorter courses may be taken instead of a longer one.

But every student is asked to consult with the Dean before making his choice, and he is urged to make a selection only after a careful consideration of his intellectual interests. Unless he has a valid reason for some other choice he is *strongly recommended* to take in the first year the course on *British Institutions*, and in the second year that on *European History since 1789*; while in many cases a course in *English Literature* will also be very advisable.

THIRD YEAR.

1. Commerce III.
2. Accounting III.

3. Technique of Trade, including Banking and Exchange.
4. Public Finance.
5. Methods of Statistics.
6. Commercial Law.
7. The Commerce Seminar.
8. A Modern Foreign Language.
9. A Science applicable to Manufacture

Or

A second Modern Foreign Language.

Regulations as to Third Year Courses.

Commercial Courses Proper. — For these see the syllabuses below.

Languages.—The work in this year will deal with Commercial Literature and Correspondence. The object of this course will be not only to give facility in the conduct of correspondence, but also, by accustoming the student to the perusal of typical examples of foreign commercial, financial, statistical, and industrial literature, to enable him to keep abreast for the future with important economic developments in other countries.

Students will be allowed to select the course in Commercial Literature and Correspondence only in those languages in which they have reached the proficiency demanded at the Intermediate Examination.

Pure and Applied Sciences.—See the regulations of the First and Second Years.

Admission of Graduates from other Universities.

Graduates, or persons who have passed degree examinations of other Universities or institutions of University rank, who present evidence satisfactory to the Faculty of Commerce that they are qualified to pursue a special course of study prescribed by the Faculty, are allowed to matriculate and enter the University and to become candidates for the Degree of B.Com. after *two* years of

regular study or research, provided that they satisfy the Faculty at the end of their first year that their work is of sufficiently high quality.

FEES.

The Composition Fee for the whole curriculum of instruction is £21 for the first year, and £24 3s. for the second and third years. This includes the Membership Fee of £1 1s. Graduate Students proceeding to the Degree of B.Com. in two years pay the fees of the second and third years.

The other fees during the course of the three years are as follows:—

	£	s.	d.
Matriculation	2	0	0
Matriculation by virtue of any of the examinations accepted in lieu of the Matriculation Examination of this University	1	0	0
First Examination	2	0	0
Second Examination	2	0	0
Third Examination	2	0	0
Admission to B.Com. Degree ...	2	0	0

Non-Matriculated Students.

Each of the classes in the Faculty of Commerce is open to all persons who are capable of taking advantage of the instruction offered, whether they have matriculated or not; and pass-certificates will be granted to non-matriculated students at the end of each session on the results of the class examinations.

The conditions of admission in the case of non-matriculated students are identical with those for similar students in the Faculties of Science and Arts. They include Registration in the Secretary's office, the payment of a variable Membership Fee (*e.g.*, for a single course running through the whole session, 10s. 6d.), and the payment of Fees for the particular courses selected (given below with the several syllabuses).

But although only students who have been matriculated can, as a rule, become candidates for the degree of Bachelor of Commerce, the Senate has power to recognise the attendance of non-matriculated students at courses of study as part of the qualification for a degree.

HOURS OF LECTURES.

The hours assigned in the following syllabuses to the several courses are altogether provisional. Owing to the wide range of choice allowed in the requirements for the degree of B.Com., it will often be impossible definitely to arrange the hours before the beginning of term.

SYLLABUSES OF COURSES.

COMMERCE AND FINANCE.

Professor of Commerce: W. J. ASHLEY, M.Com.; M.A. (Oxon.), late Fellow of Lincoln College, Oxford.

Professor of Finance: A. W. KIRKALDY, M.A., B.Litt. (Oxon.)

COMMERCE.

COURSE I. FIRST YEAR.

PROFESSOR ASHLEY.

The Industrial and Commercial Organization and Resources of the British Empire; with particular regard to the great self-governing colonies and to India.

Tuesdays and Thursdays, at 9.30.

FEE:—£4 4s.

COURSE II. SECOND YEAR.

PROFESSOR KIRKALDY.

The Industrial and Commercial Organization and Resources of the United States, Germany, Russia, France, Italy, South America, &c.

Mondays and Fridays, at 2.30.

FEE:—£4 4s.

The two foregoing courses will set forth the modern development and the structure and position of industry and trade to-day in the leading countries of the world. This will involve a consideration of geographical position and natural resources on the one side, and, on the other side, of the recent economic history, of the present supply and organisation of capital and labour, and of the state of the mechanical arts.

Commercial History and Commercial Geography will be largely introduced; but they will be treated in relation to one another, and in close connection with the consideration of underlying economic causes.

COURSE III. THIRD YEAR.

PROFESSOR ASHLEY.

Business Policy, in its main principles, as indicated by industrial and commercial experience.

Mondays and Wednesdays, at 11.30.

FEE:—£5 5s.

The course will deal with such topics as the following; The Location and Laying-out of Works and Offices; Capitalization; Production on Large and Small Scale; Differentiation and Consolidation of Manufactures; Combinations of Manufacturers or Merchants; Limited Companies, Private and Public,—their Advantages and Disadvantages; Factoring and Manufacturing; Machinery—its Financial and Industrial Consequences; Works Management; Relations of Employers and Employed, Methods of Remuneration, Hours of Labour; Choice of Markets; Market Fluctuations and their Interpretation; Advertisement; Negotiation; Relation of Selling Price to Cost, Fixed Charges; Methods of Sale and Purchase; Credit; Goodwill; and Trade Cycles.

ECONOMIC ANALYSIS.

FIRST YEAR.

PROFESSOR KIRKALDY.

Thursdays, at 2.30.

FEE:—£1 11s. 6d.

This course will take a rapid survey of the whole of the wealth-producing and wealth-distributing activity of society. It will seek to disentangle the larger forces at work, to direct attention to the complex relations of cause and effect, and to indicate the general causes and criteria of national prosperity. It will deal systematically with most of the general topics usually treated of in the text books of Political Economy, including the functions of money and credit. It will thus supplement the courses on Commerce by (1) emphasizing the general considerations only incidentally touched upon therein, and (2) connecting commerce with other sides of national life.

ECONOMICS OF TRANSPORT.

SECOND YEAR.

PROFESSOR KIRKALDY.

Wednesdays, at 12.30.

FEE:—£1 11s. 6d.

The course will give an outline survey of the various means of transportation, with a more particular treatment of railways—their development and organization. The forces influencing railway rates will be considered, and the attempts of various governments to control or manage railways will be explained and criticised. Some attention will also be given to ocean freights; as well as to canals and other means of internal communication.

PUBLIC FINANCE.

THIRD YEAR.

PROFESSOR ASHLEY.

Thursdays, at 11.30

FEE:—£1 11s. 6d.

This course will treat of Public Expenditure, Public Revenue and Public Credit, as illustrated especially in the national, county and municipal experience of Great Britain. It will discuss the principles and methods of Taxation, and the methods of contracting and extinguishing Debt; and it will include a comparison with foreign systems of raising revenue.

Students will examine the last British Budget, and will read a number of the more important Budget speeches of recent decades.

The course is recommended to students who propose to enter, or are already engaged in, municipal or banking service.

TECHNIQUE OF TRADE.

(INCLUDING BANKING AND EXCHANGE.)

THIRD YEAR.

PROFESSOR KIRKALDY.

Tuesdays, at 11.30, and Fridays at 12.30.

FEE:—£4 4s.

This course will deal with the organization of the great staple markets and commercial institutions at home and abroad, the chief technical terms, and the most important mercantile documents. It will include an account of the English Banking System as compared with those of the United States and Germany; and it will explain the mechanism of the Money Market and of Foreign Exchange.

STATISTICS.

THIRD YEAR.

PROFESSOR ASHLEY.

Fridays, at 11.30, during the Winter and Spring Terms.

FEE:—£1 1s.

This course is intended to serve as an exposition of the statistical methods most commonly employed rather than as a description of mere results. The chief governmental statistics of Great Britain, dealing with trade and manufactures, will be examined; and an attempt will be made to indicate, after a consideration of

the mechanism for securing information employed in each case, the extent to which the results are of value, and the way in which they might be rendered more serviceable.

THE COMMERCE SEMINAR.

PROFESSORS ASHLEY AND KIRKALDY.

THROUGHOUT the THREE YEARS; Saturdays, 9.30 to 11.30.

FEE:—£4 4s.

The purpose of the Seminar is to train students in independent investigation and reasoning; and the attendance of all candidates for the degree of B. Com., is compulsory. A subject is assigned some weeks beforehand to each member of the Seminar. He consults the literature of the subject and makes such inquiries as the Professor may suggest; and then prepares a paper, which is read in the Seminar, and there discussed and criticized. Incidentally an effort is made to give the members of the Seminar some practice in the art of clear and vigorous exposition and to accustom them to the preparation of terse and business-like reports.

ACCOUNTING.

Professor: LAWRENCE R. DICKSEE, M.Com.; F.C.A.

COURSE I. FIRST YEAR.

Thursdays, at 12.30.

FEE:—£1 11s. 6d.

This Course provides systematic instruction in the elements of book-keeping both by Double and Single Entry; but, like the more advanced course, it aims at providing the students with a sound knowledge of the science of accounting, rather than at training them in the craft of keeping books. The Course comprises a description of all the usual subsidiary books, dealing separately with non-trading, trading, and manufacturing concerns; the posting of the Ledger or Ledgers; the extraction of

the Trial Balance; and the preparation therefrom of the periodical Balance Sheet, and of Trading and Profit and Loss Accounts. The distinction between Capital and Revenue, between Fixed and Floating Assets, and the nature and limitations of Accounts generally will also be fully dealt with.

COURSE I. A.

The Professor of Mathematics (Dr. Heath) will, from time to time, give during the Winter Term a short course of lectures on the Theory of Compound Interest, Annuities and Sinking Funds, together with an explanation of the construction and use of Interest, Annuity, Life and Sinking Fund Tables. Opportunity will also be taken in connexion with this course to give some training in rapid arithmetical methods. The course is recommended for Accountants, Surveyors and Actuaries, but is not obligatory on students in the Faculty of Commerce.

Students who propose to take this course are desired to inform the Dean on or before September 28th.

FEE:—10s. 6d.

COURSE II. SECOND YEAR.

SECTION A, Thursdays, at 4.30.

FEE:—£1 11s. 6d.

This course deals with the more advanced problems arising on the application of the principles of Accounting to practical business, and includes *inter alia* an explanation of the following matters:—The Sectional Balancing of Ledgers in a large undertaking; the formation of Periodical Accounts; the general Organisation of Accounts; and Systems of Internal Check designed to avoid errors in balancing and fraud. The nature and scope of staff and professional audits will also be considered.

The course further comprises a survey of the chief matters of importance in connection with Company Accounts, with especial reference to the problems arising in connection with new companies, the general principles underlying assessment for Income Tax, and the preparation of Accounts for Income Tax Returns and Appeals,

and for claims for the return of Income Tax overpaid. It embraces also an explanation of the salient features in connexion with Executorship Accounts, and of Accounts arising from the insolvencies of individuals and of Companies, as well as in connection with the reconstruction of Companies. These latter questions will be discussed from the point of view of the Creditors. The principal difficulties arising in connection with Partnership Accounts, and the most fruitful causes of dispute between partners will also be considered.

Special attention will be given during this course to the Double-Account System, and to the various methods in use for provision against the Depreciation of Plant, Machinery, and other Wasting Assets. Card and Loose-leaf Ledgers will be dealt with, together with other labour-saving devices of recent introduction.

Students may be exempted, with the consent of the Dean of the Faculty, from such parts of this course as are too special or technical for their individual requirements; and a choice of questions will be allowed in the examination.

SECTION B, Thursdays, at 11.30.

FEE:—£1 11s. 6d.

This course will be utilised to some extent to deal at greater length with some of the more important subjects comprised in Section A; and it is especially designed to meet the requirements of those students, who, for want of practical experience, may find it difficult to follow the course of instruction there given. In addition, however, attention will be directed to the higher purposes of Accounting, to giving students a grasp of the principles which will enable them to comprehend the significance of accounts and to understand the various processes by which business results are computed. Special attention will be given to such questions as Reserves, Reserve Funds, Sinking Funds, Profits, Goodwill, and the like. Periodical returns will also be discussed with the object of making students familiar with their value not merely for

the purposes of periodical Balance Sheets, but also for providing that prompt information which is essential for the due success of business undertakings.

COURSE III. THIRD YEAR.

Thursdays, at 3.30.

FEE :--£4 4s.

The course will begin with a discussion of Statistical Accounts and of Head Office and Branch Accounts, and a consideration of systems for centralizing the book-keeping of branches.

But it will be mainly devoted to a consideration of Departmental Book-keeping and Accounts, Stock and Stores Accounts, and advanced Costing and Cost Accounts, suitable for various undertakings.

Attention will be called to the several possible systems of Costing, and the merit and weaknesses of each; the several circumstances to be borne in mind in various typical businesses when constructing a system; and the necessary limitations of cost accounts.

A number of representative published Balance Sheets will be studied, and students will be instructed in their interpretation.

The course will also include an outline of the distinctive features of the accounts of different classes of undertakings connected with the various leading industries, while the special characteristics which mark the accounts of Local Authorities and other public undertakings will also be included.

ACCOUNTING FOR ENGINEERING STUDENTS.

Fridays, at 9.30.

COMMERCIAL LAW.**THIRD YEAR.**

Lecturer: FRANK TILLYARD, M.A. (Oxon.),
Barrister-at-Law.

Mondays and Thursdays, at 12.30.

FEE:—£2 12s. 6d.

The course will begin with Money and substitutes for money, and will deal with Cash, Legal Tender, Bank Notes, Cheques and Bills of Exchange.

Then legal and mercantile persons will be considered. This part will include sole traders, the use of trade names, partnerships, corporations and incorporated trading companies (private and public), and also factors, brokers and other agents.

The law of contracts will be studied with special reference to the sale of goods, contracts of transport and insurance, and to the legal principles governing good faith and fraud.

Lending and borrowing on security will be dealt with at some length, and this part will cover guarantees, mortgages and debentures, and deposits of bills of lading, warrants and the like.

Bankruptcy and winding up will be treated, and various topics arising out of the relation of master and workman such as the law as to combinations, factory legislation, accidents, &c.

Patent Law will be studied, and, if time permits, some of the simpler legal incidents of foreign trade in peace and war.

EXHIBITIONS AND SCHOLARSHIPS.

ENTRANCE EXHIBITIONS.

Two Entrance Exhibitions, not exceeding in value the sum of £25 each, will be awarded on the results of the Matriculation Examination in July 1907, or Intermediate Science and Arts Examinations in June 1907, provided that a proper standard is reached by the candidates. Candidates for the Exhibitions must be under the age of nineteen years on the first day of the examination. The Exhibitions will be tenable at the University during the Session immediately following the Examination, provided that the exhibitor becomes a matriculated student of the University and attends courses leading to a degree, and will be paid solely in the form of remission of class fees.

SANDS-COX SCHOLARSHIP.

See page 413.

THEODORE MANDER SCHOLARSHIP.

A fund raised by private subscription organised by the Citizens of Wolverhampton to establish a memorial of the late Mr. Samuel Theodore Mander, Mayor of Wolverhampton, has been devoted to the foundation of a Theodore Mander Scholarship. The Scholarship, of the value of about £24 per annum, is open to sons and daughters of burgesses of Wolverhampton, and is tenable at the University of Birmingham. The Scholarship is awarded upon the results of the Matriculation Examination in July, or Intermediate Science and Arts Examination in June in each year, and preference will be given to candidates desirous of attending courses in connexion with or preparatory to Degrees in Science or Commerce. The Scholarship is tenable for two or three years, according to the length of time necessary to obtain a degree in the Faculty chosen. Forms of entry may be

obtained from the Registrar of the University, and should be returned duly filled up on or before the first Monday in May.

POLYTECHNIC BURSARIES.

Two Bursaries, of the approximate annual value of £45 each for three years, will be awarded on the result of the Matriculation Examination in June, 1906, to candidates who have for a period of five years resided in the city of Birmingham or any of the following parishes, viz., Yardley, Castle Bromwich, Erdington, Aston Manor, Handsworth, Smethwick, Halesowen, Northfield, King's Norton, and the incomes of whose parents (if alive) do not together exceed the sum of £150 per annum, or who if their parents or either of them be deceased are in receipt of an income of not more than 15s. a week. Candidates are required to satisfy the Standing Committee appointed by the Founders that they belong to the class of persons for whom the Scholarships were intended. Forms of application may be obtained from Mr. J. E. Berry, Secretary of the Birmingham Trades Council, 260, Albert Road, Aston, Birmingham, and must be returned to him on or before the first Monday in May.

HESLOP MEMORIAL SCHOLARSHIP.

A Scholarship of the annual value of about £25, in commemoration of the long and valuable services rendered to the city of Birmingham by the late Dr. Heslop, was founded in 1885, by private subscription. The Scholarship is open to all candidates who have been pupils in any of the schools on the foundation of King Edward VI. in Birmingham for not less than two years immediately preceding the award of the Scholarship. The Scholarship is awarded by the University in alternate years on the results of the Intermediate Examinations in Science and Arts, and is tenable for two years at the University. The next award will be made in June, 1907. The Scholarship is paid solely in the form of remission of fees.

THE ASCOUGH SCHOLARSHIP.

A Scholarship of the value of about £36, founded by the daughters of the late Mr. Jesse Ascough, in memory of their father, will be awarded to the candidate who is most distinguished in Chemistry at the Intermediate Science Examination held in June. Candidates may take the part of the examination which relates to Chemistry for the purpose of competing for the Scholarship, without taking the whole of the Intermediate Examination. The Scholarship is tenable for one year, but may be renewed for a second and third year at the discretion of the Faculty of Science. The Scholarship will be paid in three terminal instalments, and it shall be competent for the Faculty at any time to withhold further payments if the conduct, diligence, or progress of the scholar is regarded as unsatisfactory. Forms of entry may be obtained from the Registrar of the University, and should be received duly filled up on or before the first Monday in May.

GEORGE HENRY MARSHALL SCHOLARSHIP.

The George Henry Marshall Scholarship in Classics, of the value of £40 per annum, tenable for three years, is awarded on the results of the Intermediate Arts examination, the following subjects being taken :—(1) Latin, (2) Greek, (3) A Modern Language, (4) English Language, Literature and History, and (5) *either* Mathematics *or* Logic, supplemented by such papers in Greek and Latin as the Faculty may from time to time decide. Should Candidates of sufficient merit be forthcoming there will be an award in June, 1907.

EDUCATION COMMITTEE SCHOLARSHIPS.

The University annually awards free Scholarships to the Students entering the University as holders of Scholarships given by the Birmingham Education Committee, by remitting all fees for instruction.

The Scholarships are tenable at the University for *three* years, and at King Edward's School or the Technical

School for such preceding period as may be necessary to fit the scholars to enter the University. The scholars must obtain from the Vice-Principal a written approval of the course of study they intend to pursue. The continuance of the Scholarships is at all times subject to satisfactory reports as to the fulfilment of the conditions under which they are held.

ANNIE DEAKIN PRIZE.

The "Annie Deakin Prize" founded in memory of the late Miss Annie Deakin, of Handsworth, by friends and former pupils of her School, of the value of about £1 5s. is awarded annually to the woman who passes the July Matriculation Examination with the highest distinction among those candidates who declare their intention of becoming teachers in Secondary Schools.

UNIVERSITY EXHIBITIONS.

Two exhibitions, not exceeding in value the sum of £30, tenable for one year, are awarded on the results of the Intermediate Examinations in Science and Arts on the nomination of the Faculties concerned. The exhibitions are tenable during the University Session immediately following the examinations, and will be paid solely in the form of remission of class fees.

The exhibition in the Faculty of Science may be renewed for a second year upon receipt of reports of satisfactory progress. An exhibition held by a student in Engineering may be renewed for a third year, on the recommendation of the Faculty of Science.

In the Faculty of Arts, an exhibition tenable during the student's third year will be awarded on the result of the Second Year Arts Examination.

UNIVERSITY SCHOLARSHIPS.

Four University Scholarships of the value of £50 a year, tenable for one year after graduation, may be awarded on the nomination of the Faculties of Science

and Arts. These scholarships will carry with them free admission to lectures and laboratories in preparation for the Master's Degree.

RESEARCH SCHOLARSHIPS.

In addition to the Priestley and Bowen Research Scholarships, about four Research Scholarships of the value of £50 a year, tenable for one year, may be awarded on the nomination of the Faculties of Science and Arts. The scholarships will carry with them free admission to the Library and Laboratories of the University for the purposes of research. They will be held subject to the progress and good conduct of the holders, at the discretion of the Faculty concerned.

Applications should be sent to the Registrar on or before the 1st of June.

BOWEN SCHOLARSHIPS IN ENGINEERING.

(Founded by the late T. Aubrey Bowen, of Melbourne.)

Two Scholarships of the value of about £96 each, tenable for one year (except as hereafter mentioned), are awarded annually.

The objects of these scholarships are to encourage research in the scientific portions of engineering. The scholarships will be held under the condition that the holder devotes his whole time to research as a student in the University of Birmingham.

Candidates must have spent three years in the Engineering Department of a University College; preference will be given to candidates who hold an Engineering degree.

In each year two scholarships will be offered tenable for one year, but in special cases where the scholar has shown considerable capacity for research work, the scholarship may be extended for a further year. The scholarships will be paid in three instalments, and in the event of a scholar's attendance, diligence, or progress being at any time unsatisfactory, the subsequent instalments may be withheld.

The University Fee payable by Bowen Scholars will be £30 for the year, payable in three sums of £10 each, this sum to include the use of the ordinary apparatus and materials, as well as the purchase of such special apparatus and materials as the Professor shall consider desirable.

Applications, supported by details of educational training and references to former teachers and others, should be sent to the Registrar on or before the 1st of June.

PRIESTLEY SCHOLARSHIPS IN CHEMISTRY.

(Founded by the late T. Aubrey Bowen, of Melbourne.)

Three Scholarships of the value of about £96 each, tenable for one year (except as hereafter mentioned), are awarded annually.

The object of these scholarships is to encourage and afford greater facilities for the higher study of chemical science at the University. As far as possible this higher study will take the form of original experimental or theoretical investigation in some branch of Chemistry, pure or applied, to be carried on in the Laboratories of the University, under the direction of the Professor of Chemistry.

In the selection of candidates for these scholarships, preference will naturally be given to present or past students of the University, although outside candidates bearing the necessary credentials will also be eligible. As a general rule only such candidates as have passed through an approved three years' course of study in chemistry and the allied sciences will be accepted.

Under ordinary circumstances the scholarships will be tenable for one year, but the power is reserved of renominating for a second or third year in the event of such a course being considered desirable as tending to promote the object which the foundation of these scholarships has in view.

Priestley Scholars will be regarded as ordinary students of the University, and must conform to all the general rules of the University as well as to the special ordinances of the Chemical Department. The scholarships will be paid in three instalments, and in the event of a scholar's attendance, diligence, or progress being at any time unsatisfactory, the subsequent instalments may be withheld.

The University Fee payable by Priestley Scholars will be £30 for the year, payable in three sums of £10 each, this sum to include the use of the ordinary apparatus and chemicals, as well as the purchase of such special apparatus and chemicals as the Professor shall consider desirable.

At the close of his year's tenure of the scholarship, or at any time previous thereto that the Professor may think fit, a scholar shall present the results of his work in the form of a thesis, the arrangements for the publication of which shall be left to the discretion of the University authorities.

Applications, supported by details of educational training and references to former teachers and others, should be sent to the Registrar on or before the 1st of June.

BOWEN SCHOLARSHIP IN METALLURGY.

(Founded by the late T. Aubrey Bowen, of Melbourne.)

A Scholarship of the value of about £96, tenable for one year, is awarded annually.

This scholarship will be held on precisely similar terms to those laid down above for chemistry, the work engaged on by the scholar having a direct or theoretical bearing on some department of metallurgy. As the prosecution of this work may from time to time entail the visiting of works for the purpose either of personal observation or actual experiment, the Professor will be empowered to authorize the expense of such visits being either wholly

or in part defrayed out of the above-mentioned fee paid by the scholar.

Applications, supported by details of educational training and references to former teachers and others, should be sent to the Registrar on or before the 1st of June.

WILLIAM COOK AND COMPANY SCHOLARSHIP.

REGULATIONS.

1. This Scholarship of the annual value of £21 has been presented to the University by Messrs. William Cooke and Co. Ltd., the Tinsley Steel, Iron and Wire Rope Works, Sheffield.

2. The Scholarship will be awarded on the result of a biennial examination, the details of which are given below.

3. The Scholarship will be awarded only to students who intend taking the Mining Diploma, and is tenable for two years.

4. Those eligible for the Scholarship are :

(a) Mining students articled to Mining Engineers, Colliery Managers, or Colliery Proprietors, whose mines or offices are situated within the area which is educationally under the control of the University of Birmingham.

(b) Other persons actually employed underground or who have been so employed for a period exceeding three years at a Colliery in the area mentioned in Section 4 (a), provided that in both cases the applicant has attained the age of 18 years, and that he intends, as soon as he is properly qualified, to present himself for the Colliery Manager's First Class Certificate of Competency to manage a mine.

5. Regular attendance at lectures and classes and examinations is compulsory.

6. The Scholarship may be withdrawn at any time on account of irregular attendance, failure to pass examinations, or bad behaviour.

EXAMINATION.

1. The first examination will be on or before September 24th, 1906, and candidates must apply to the Registrar for a form of entry which must be returned on or before August 30th, accompanied by a certificate of good character from the last school attended, or from some responsible person, and by a fee of £1.

2. The examination will be conducted partly by means of printed papers, and partly by means of a *viva voce* examination.

3. The subjects in which candidates will be examined are :—

- (1) English History and Literature (History of the English People from 1066. English Composition).
- (2) Mathematics (Arithmetic, Elementary Algebra, Geometry).
- (3) Experimental Mechanics (Statics, Hydrostatics, Dynamics), or Chemistry (Elementary Inorganic).
- (4) Elements of Coal Mining.
- (5) Geology (Elementary, Physical, and Palaeontological).

THE CORBETT SCHOLARSHIP.

(Founded by the late John Corbett, of Impney, Droitwich.)

The Corbett Scholarship, of the value of about £28 a year, payable in the form of remission of fees, is tenable for one year, and is awarded to the student who is recommended to the Senate as the most promising and distinguished student in Mathematics at the end of his or her second year after registration.

SCIENCE RESEARCH SCHOLARSHIP.

Awarded by the Royal Commissioners for the Exhibition of 1851.

The Royal Commissioners for the Exhibition of 1851 annually place at the disposal of the University the nomination to a Science Scholarship of the value of £150 a year, tenable for two years, the continuation for the second year being dependent on the work done in the first year being satisfactory to the Scientific Committee appointed by the Commissioners. The student nominated must have studied in the University for three years at least, and must undertake to devote himself to scientific research or the application of scientific knowledge to industries. The scholarship may be held at any University at home or abroad, or in some other properly equipped institution to be approved of by the Commissioners. The nomination of candidates by the University is subject to revision by the Commissioners, and the privilege of nomination may be withheld by them at any time.

Applications should be made to the Registrar on or before the 1st of January.

GOVERNMENT AID TOWARDS THE INSTRUCTION OF SCIENCE TEACHERS.

In accordance with a minute adopted by the Right Honourable the Lords of the Committee of Her Majesty's Most Honourable Privy Council on Education, June, 1881 (Science Form, No. 1,126), their Lordships are prepared to pay three-fourths of the fees for courses of laboratory instruction, as stated below, for a limited number of Teachers engaged in Science Teaching, on condition that satisfactory reports of their progress (to be ascertained by examination), and of their conduct, be received at the end of the Winter, Spring, and Summer Terms.

Applications for this privilege must be made to the Secretary, Board of Education, South Kensington, London, S.W., not later than the 31st August.

The selection of the applicants will rest with the Board of Education.

The fees for two days a week for the Session, from October to June, are :—

*For the Chemical or Metallurgical	£	s.	d.
Laboratories 	9	9 0
*For the Physical Laboratory	9	9 0
*For the Biological Laboratories.. 	7	7 0

NOTE.—One-fourth of the fee for the whole Session must be paid by the student on entrance, under the usual conditions of the University. The remaining three-fourths of the fee will be paid by the Board of Education, in equal instalments, at the commencement of each term subject, however, to the right of the Board to withhold payment of the second and third instalments should the reports not be satisfactory.

HARDING SCHOLARSHIPS IN GERMAN.

A Scholarship of the annual value of £50, tenable during three years by students of German in the School of Modern Languages, may be awarded by the Faculty of Arts on the nomination of the Professor of German.

At the close of the third year a further Travelling Scholarship of £100 for one year may be awarded to the scholars, provided that he or she has taken the M.A. degree in the School of Modern Languages and that his or her work and conduct for the previous three years have been satisfactory. The Travelling Scholarship will be tenable at a German University to be approved by the Faculty of Arts.

* Including such of the Lectures as the Teachers are able and willing to attend.

This Scholarship is offered with the intention of inducing students of marked aptitude for linguistic and literary studies to devote themselves to a special course of study with a view to becoming teachers of modern languages in secondary schools in England. It will be continued only so long as the progress and conduct of the holder is satisfactory to the Faculty.

THE SUNDERLAND SCHOLARSHIP.

A Scholarship of the value of £50 per annum, tenable for three years on the annual recommendation of the Faculty of Commerce, will be awarded triennially, if a suitable candidate presents himself. A new election will be made in June, 1908.

THE DUDLEY SCHOLARSHIP.

A Scholarship of the value of £30 per annum, given by the Dudley Education Committee will be awarded by that Committee to a candidate from that district who is qualified to enter the Faculty of Commerce in the University, in October, 1906.

PRIZES.

The Karl Dammann Memorial Prize.

The "KARL DAMMANN MEMORIAL PRIZE," of the value of about £5, founded by a friend of the late Dr. Karl Dammann, the first Professor of German Language and Literature in Mason College, is awarded annually to the student who is recommended to the Senate as the most promising and distinguished student in German at the end of his or her second or third year after registration. The prize is given in the form of works in the German language.

Ehrhardt Prize.

A prize of £5 provided by Dr. E. F. Ehrhardt is awarded annually on the recommendation of the Professor of Chemistry for a piece of research work conducted in the Chemical Laboratory.

The Panton Geological Prize.

The "PANTON PRIZE," of the value of Two Guineas—founded by Mrs. Panton in memory of her husband, the late G. A. Panton, Esq., F.R.S.E.—is awarded to the best student in the class of Local Geology; the prize being given upon the result of a competitive examination upon the Geology of the neighbourhood of Birmingham, or as a reward for a special thesis upon the Geology of the Birmingham District.

Bunce Prize.

The "BUNCE PRIZE," of the value of about £3, founded by the late J. Thackray Bunce, is awarded annually on the result of a special examination held in the month of June. Further information relating to the subjects of examination for June 1907, may be obtained from the Registrar.

Candidates should send in their names to the Registrar on or before June 1st.

Gladstone Memorial Prize.

The Committee of the Gladstone Memorial Fund offers annually to students of the University a prize of Books, of the value of £5, for an Essay on a subject connected with History, Political Science, or Economics.

Candidates are recommended to consult the Professors of History and Commerce as to the proposed subject for the essay.

The essays should be sent in to the Registrar on or before June 1st.

Austin Prize.

A prize of the value of about £2, founded in memory of the late Mr. W. H. Austin, M.A., Lecturer in Mathematics, is awarded annually to the student of the highest merit in Pure Mathematics at the Examination for the B.Sc. or B.A. degree.

The Birmingham and Midland Scottish Society's Prize.

An annual prize of books to the value of £5 5s. is offered by the Birmingham and Midland Scottish Society, and is open to all students of the University below the standing of Master of Arts or Science. The prize is awarded for the best essay on a subject relating to Scottish History or Literature determined from year to year by the Faculty of Arts. Further information relating to the subject of the essay may be obtained from the Registrar.

The essays should be sent in to the Registrar on or before June 1st.

GOLD MEDALS.

The Heslop Memorial Medal.

The "HESLOP GOLD MEDAL," provided out of the proceeds of a bequest to the College by the late Thomas Pretious Heslop, M.D., is awarded annually by the University, on the recommendation of the Senate, for the best Dissertation or Essay upon a subject to be selected by the candidate. The Medal is open to all past and present students of not less than two years' standing.

The subjects are arranged in the following divisions:—

- a.* Language, Literature, and Philosophy.
- b.* Mathematical and Physical Science, including Metallurgy and Engineering.
- c.* Biological and Geological Science, including Mining.

The award will be in division *c* for 1907, and *a* for 1908, *b* for 1909.

Candidates are at liberty to select any subject under the above headings, and are advised to consult their Professors in making their choice.

The essays must be sent in to the Registrar under a motto, not later than the 30th of April, accompanied by a sealed envelope, with the motto outside, containing the name of the candidate. The exercise should not be in the handwriting of the candidate.

If in any year the Medal be not awarded it may be offered again in the following year in the same group of subjects, in addition to the Medal naturally offered for that year in another group, and so on until the completion of the cycle of subjects.

The Constance Naden Medal.

The "CONSTANCE NADEN GOLD MEDAL," founded by Surgeon Lieut.-Colonel R. Lewins, M.D., in memory of the late Miss Constance Caroline Woodhill Naden, is

awarded annually by the University, on the recommendation of the Senate, for the best exercise under one of the following headings :—

- a.* An English Poem.
- b.* A dissertation on a literary subject.
- c.* A dissertation on any subject relating to mental and moral science.
- d.* An examination of any of the fundamental principles or axioms of science, with their bearings upon modern thought.

The competition for the medal is open to all present or past students of the University, who have attended systematic courses during two sessions.

The exercises must be sent in to the Registrar, under a motto, not later than the 30th of April, accompanied by a sealed envelope, bearing the motto, and containing the name of the candidate. The exercise should not be in the handwriting of the candidate.

HUXLEY LECTURESHIP.

A Huxley Lectureship of the value of £20 per annum has been endowed as a token of profound esteem on the part of the founder for the character of the late Professor Huxley, F.R.S., and in memory of his life and work. A lecture open to all members of the University without payment, is delivered in the Winter term of each Session.

HUXLEY LECTURERS.

- 1904.—Professor Sir Michael Foster, K.C.B., F.R.S.
1905.—Professor E. B. Poulton, F.R.S.
1906.—Sir Archibald Geikie, LL.D., F.R.S.
-

UNIVERSITY EXTENSION LECTURES.

Courses of Lectures on Literature, History, Economics, Law, Languages, Education, Physics, Chemistry, Zoology, and Botany, are available for evening delivery within a reasonable distance from Birmingham, *i.e.*, in centres from which return to Birmingham on the same night after the Lecture is possible. In some cases the Lecturer may be available for afternoon Lectures, or for evening Lectures at such a distance as to involve return next morning.

The Secretary, Professor A. W. Kirkaldy, will be glad to confer with Local Secretaries as to proposed Courses; or, free of cost, to visit Local Centres for the purpose of advice or consultation, or for the arrangement of Courses or systems of Courses, with special application to local needs.

Vacation Reading.

FACULTY OF SCIENCE.

MATHEMATICS.

C. L. Dodgson, Euclid and his Modern Rivals.
Pillow Problems.

H. H. Turner, Modern Astronomy.

W. W. R. Ball, Mathematical Recreations and Problems.

A Short History of Mathematics.

PHYSICS.

Students about to enter Course I. may read :—

Tyndall's Sound.

S. P. Thompson's Light, Visible and Invisible.

Those about to enter Courses II. and III. may read some of the following :—

Perry's Spinning Tops.

Ball's Time and Tide.

Newcomb's Astronomy.

Boys' Soap Bubbles.

Rotch's Sounding the Ocean of Air.

Roscoe's Spectrum Analysis.

Clarke's System of the Stars.

Thomson's Electric Discharge in Gases.

Or students may prefer to read some part of Text Books suitable for the different courses.

Text Books for Course I.

Larden's School Course in Heat, or Wright's Heat.

Glazebrook's Light.

Catchpool's Text Book of Sound.

Poyser's Advanced Magnetism and Electricity.

Or for the whole course :—

Deschanel's Natural Philosophy, or Everett's Text Book of Physics.

Text Books for Course II.

Worthington's Dynamics of Rotation.

Poynting and Thomson's Properties of Matter.

Poynting and Thomson's Sound.
Poynting and Thomson's Heat.
Edser's Light.
Foster and Porter's Electricity and Magnetism.

CHEMISTRY.

A. Students intending to enter for the First Year's Course may profitably read :—

- (1) Newth's Inorganic Chemistry.
- (2) Dobbin and Walker's Chemical Theory for Beginners.
- (3) Holleman's Inorganic Chemistry.

B. Students intending to enter for the Second Year's Course may profitably read :—

- (1) Ostwald's Foundations of Analytical Chemistry.
- (2) Ostwald's Principles of Inorganic Chemistry.
- (3) Walker's Introduction to Physical Chemistry.
- (4) Wade's Organic Chemistry, especially the introductory chapters and those relating to the fatty compounds.

C. Students intending to enter for the Third Year's Course may profitably read :—

- (1) Wade's Organic Chemistry (revision).
- (2) Holleman's Organic Chemistry.
- (3) Walker's Introduction to Physical Chemistry (revision).
- (4) Nernst's Theoretical Chemistry (2nd edit.) or Van't Hoff's Lectures on Theoretical and Physical Chemistry.
- (5) Lachman's Spirit of Organic Chemistry.
- (6) Ernst v. Meyer's History of Chemistry.
- (7) Findlay's Phase Rule.
- (8) Leffeldt's or Le Blanc's Electro-chemistry.

ZOOLOGY.

FIRST YEAR.

The Study of Animal Life, by J. Arthur Thompson
(John Murray).

The Colours of Animals, by E. B. Poulton (International Science Series).

Darwinism, by A. R. Wallace (Macmillan & Co.)

Lectures on the Darwinian Theory, by A. Milnes Marshall (David Nutt).

Outlines of Zoology, by J. Arthur Thompson (Young J. Pentland).

Text-book of Zoology, by T. J. Parker and W. A. Haswell (Macmillan & Co.).

SECOND YEAR.

The Origin of Species, by Charles Darwin (John Murray).

Descent of Man, by Charles Darwin (John Murray).

Island Life, by A. R. Wallace (Macmillan & Co.).

The Malay Archipelago, by A. R. Wallace (Macmillan & Co.).

Notes by a Naturalist on H.M.S. Challenger, by H. N. Moseley (John Murray).

Animal Life, by Karl Semper (International Science Series).

The various volumes of The Cambridge Natural History (Macmillan & Co.).

Amphioxus and the Ancestry of Vertebrates, by Arthur Willey (Macmillan & Co.).

The Cell in Development and Inheritance, by E. B. Wilson (Macmillan & Co.).

An Introduction to the Study of Mammals, living and extinct, by W. H. Flower and R. Lydekker (A. & C. Black).

Vertebrate Embryology, by A. Milnes Marshall (Smith, Elder & Co.).

Vertebrate Palæontology, by A. Smith Woodward (Cambridge University Press).

Geographical Distribution of Animals, two vols.,
by A. R. Wallace (Macmillan & Co.).

The Professor will be glad to advise students in their
choice of books

BOTANY.

(1) *After Matriculation and before entering University.*

FIELD BOTANY, with the aid of Groom's Elementary Botany (Bell & Sons), or Henslow's How to Study Wild Flowers (Religious Tract Society).

Lubbock's "Flowers, Fruits and Leaves" (Macmillan's "Nature" Series).

(2) *At end of First University Year.*

FIELD BOTANY, using Hooker's "Students' Flora of the British Isles" (Macmillans). As a convenient book for the pocket, Hayward's "Botanists' Pocket Book" (Bell & Sons).

Lubbock's "British Wild Flowers in relation to Insects" (Macmillan's "Nature" Series). Coulter's "Plant Relations" (Appleton, New York). "Darwinism," by A. R. Wallace (Macmillan). "The Naturalist in Nicaragua," by Thos. Belt (Bumpus). Sachs' "History of Botany" (Clarendon Press).

(3) *At end of Second University Year*, special suggestions will be made.

The Professor's holiday advice to students in general is—live so far as can be in the open air, and study Nature face to face, finding out her methods first hand.

GEOLOGY.

Preliminary Reading.

Students desirous of preparing themselves for entering the Classes in the Geological Department should read any of the ordinary

text-books upon Physiography and Physical Geography, such as (1) Page and Lapworth's *Elementary Physical Geography* (Blackwood), (2) Mill's *Realm of Nature*, (3) Huxley's *Physiography*, new edition by Gregory (Macmillan), or (4) Hinman's *Eclectic Physical Geography*.

The pupil is recommended to continue his reading in the subject in such works as Geikie's *Scenery and Geology of Scotland*, or Davis' *Physical Geography* (Ginn).

The deeper the student's acquaintance with the facts and principles of Physical Geography, the more rapid and certain will be his future progress in the science of Geology.

Long Vacation Reading.

The nature of the Long Vacation Reading will depend to a certain extent upon the special branch of the subject which the student is taking up for his degree. All students, however, should read Lapworth's *Intermediate Geology* (Blackwood), Nicholson's *Ancient Life-History of the Earth*, Green's *Physical Geology*, or the Dynamic portion of Geikie's *Text Book of Geology*, Jukes-Browne's *Building of the British Isles*, Marr's *Scientific Study of Scenery*.

Those who are desirous of reading outside their ordinary work may study Lyell's *Principles of Geology*, Kayser and Lake's *Comparative Geology*, James Geikie's *Great Ice Age*, the English edition of Suess' *Face of the Earth*.

FACULTY OF ARTS.

The following books are suggested to students about to commence their first, second, or third year's course for the B.A. Degree :—

LATIN.

IN PREPARATION FOR COURSE I.

The *Aeneid* of Vergil in the verse translation of Rhoades (Longman).

Mackail, *Latin Literature* (Murray).

Oman, *Seven Roman Statesmen*.

IN PREPARATION FOR COURSE II.

Select Odes of Horace, translated in verse by De Vere (W. Scott's Canterbury Poets).

Catullus, translated in verse by Martin (Blackwood).

Tacitus, *Annals*, Book XII., chapters 31—40, and Book XIV., chapters 29—39, in Church and Brodribb's translation (Macmillan).

IN PREPARATION FOR COURSE III.

Horace's Satires and Epistles, translated in verse by Conington (Bell).

Sellar's Roman Poets of the Augustan Age: Horace and the Elegiac Poets (Clarendon Press).

Tacitus, *Annals*, Book XIV., chapters 51—65, Book XV., chapters 19—23, 38—74, and Book XVI., chapters 1—35, in Church and Brodribb's translation (Macmillan).

Seneca, *Morals*, a selection from his prose translated by Clode (Camelot Series, published by W. Scott).

GREEK.

IN PREPARATION FOR COURSE I.

Oman's *History of Greece*, chapters 22—43 (from B.C. 470—338).

Butcher's *Demosthenes*, in "Classical Writers," edited by J. R. Green (Macmillan).

Jebb's *Primer of Greek Literature* (Macmillan).

IN PREPARATION FOR COURSE II.

Aeschylus, *The House of Atreus* (translation of the *Oresteia*), by Morshead (K. Paul).

Balaustion's Adventure, by Robert Browning (Smith, Elder & Co.).

The Student's Manual of Greek Tragedy, edited by Verrall (Swan Sonnenschein & Co.).

The Attic Theatre, by Haigh (Clarendon Press).

IN PREPARATION FOR COURSE III.

Homer, *Iliad*, translated by Leaf, Lang, and Myers (Macmillan).

Jebb's *Introduction to Homer* (Maclehose), and *Development of Greek poetry* (Macmillan).

Plato, *Crito*, *Gorgias*, and *Phædo*, translated by Jowett (Clarendon Press), or by Cary (Routledge).

Murray's *Euripides* (containing translation of the *Hippolytus* and *Bacchæ*, and of Aristophanes' *Frogs*).

The Greek view of life, by G. L. Dickinson (Methuen).

ENGLISH.

FIRST YEAR.

One or more of the following works :—

Dowden's *Shakspeare : His Mind and Art*.

Bagehot's *English Constitution*.

Russell Lowell's *Essays on Chaucer and Spenser*.
(*My Study Windows*, Camelot Series.)

Mandeville's *Travels*.
 Malory's *Mort D'Arthur* (Selections).
 Kingsley's *Westward Ho!*

SECOND YEAR.

One or more of the following works :—

Bacon's *Advancement of Learning*.
 Russell Lowell's *Essays on Dryden and Pope*.
 Pepys' *Diary* (Selections).
 Hakluyt's *Voyages* (Selections).
 Addison's *Sir Roger de Coverley Papers*.
 Arbuthnot's *John Bull*.
 Defoe's *Journal of the Plague*.
 Thackeray's *Esmond*

THIRD YEAR.

One or more of the following works :—

Walpole's *Letters*, and *Castle of Otranto*.
 Myers' *Wordsworth* (English Men of Letters Series).
 Richardson's *Pamela*.
 Thackeray's *English Humourists* and *The Four Georges*.
 Scott's *Heart of Midlothian*.
 Carlyle's *Sartor Resartus*.

FRENCH.

FIRST YEAR.

Les Français en Voyage, Mlle Wolf.
 Vie de Collège en France, par Laurie (Hetzel, Paris).
 Dialogues des Morts, par Fénelon (Delagrave, Paris).

SECOND YEAR.

Pages choisies de Balzac (G. Lanson), (Colin & Cie, Paris).
Pellissier, Le mouvement littéraire au XIX^e siècle (Hachette, Paris).
Taine, Voyage aux Pyrénées (Hachette, Paris).
Robiquet, Histoire municipale de Paris. Scènes et récits historiques (Hachette, Paris).

Mézières, La Société française (Perrin, Paris).

Texte, Etudes de littérature européenne (Colin, Paris).

THIRD YEAR.

Stapfer, Molière et Shakspeare (Hachette, Paris).

Jusserand, Les Anglais au Moyen-Age (Hachette, Paris).

Lemaistre, L'Institut de France et nos grands établissements scientifiques (Hachette, Paris).

Brunetière, L'évolution des genres dans la littérature (Hachette, Paris).

Pellissier, Etudes de littérature contemporaine (Perrin, Paris).

GERMAN.

FIRST YEAR.

W. H. Dawson, German Life in Town and Country (George Newnes & Co.).

E. Mörike, Mozart auf der Reise nach Prag (Harrop).

SECOND YEAR.

K. Francke, Social Forces in German Literature (Bell & Sons).

S. Whitman, Imperial Germany (Trübner and Co.)

Behaghel-Trechmann, A Short Historical Grammar of the German Language (Macmillan and Co.)

Goethe's *Götz von Berlichingen*, translated by Sir Walter Scott (Bohn's Library).

Schiller's *Wallenstein*, translated by Coleridge (Bohn's Library).

Balladen und Romanzen, The Golden Treasury of the Best German Ballads and Romances (Macmillan & Co.).

Scheffel's *Ekkehard*, edited by H. Hager (Whittaker and Co.).

THIRD YEAR.

W. Scherer, Geschichte der deutschen Litteratur (Berlin, Weidmann).

F. Paulsen, die deutschen Universitäten (Berlin).

O. Weise, Unsere Muttersprache (Leipzig, Teubner).

G. H. Lewes, The Life and Works of Goethe.

Thomas Carlyle, The Life of Friedrich Schiller.

J. R. Seeley, Goethe Reviewed after sixty years (London, Seeley and Co.).

Deutsche Lyrik. The Golden Treasury of the Best German Lyrical Poems (Macmillan and Co.).

Goethe's Faust in the original, and Sir Theodore Martin's Translation.

Gottfried Keller, Die Leute von Seldwyla, Erzählungen (Berlin, W. Hertz).

Gustav Frenssen, Jörn Uhl.

Clara Viebig, die Wacht am Rhein.

STANDING COMMITTEES, BOARDS, &c.

LIBRARY COMMITTEE.

Professor H. G. Fiedler (*Chairman*).
 The Principal.
 The Vice-Principal.
 Professor W. J. Ashley.
 Professor P. F. Frankland.
 Professor J. T. J. Morrison.
 Professor J. H. Muirhead.
 Professor R. A. S. Redmayne.
 Professor A. Robinson (*Secretary*).
 The Librarian (Mr. W. H. Cope).

BOARD OF MANAGEMENT OF THE BREWING SCHOOL.

Principal Sir Oliver Lodge.
 Vice-Principal R. S. Heath.
 Edward Ansell, Esq.
 Mr. Archibald S. Bennett.
 Mr. W. W. Butler.
 Mr. John E. Chambers.
 Mr. Thomas Earp.
 Mr. W. Geoghegan.
 Sir J. C. Holder, Bart.
 Mr. T. Watson Loviband.
 Mr. Cornelius O'Sullivan.
 Mr. Frank Wilson.
 Mr. Harry G. Younger.
 Professor Adrian J. Brown.
 Professor F. W. Burstall.
 Professor P. F. Frankland.
 Professor W. Hillhouse.
 Professor C. Lapworth.
 Professor R. F. C. Leith.
 Professor J. H. Poynting.
 Mr. Geo. H. Morley (*Secretary*).

Professor C. Lapworth.

Professor J. H. B. Masterman.

Professor J. H. Muirhead.

Professor R. A. S. Redmayne.

Professor T. Turner.

PROFESSORS COMMON ROOM COMMITTEE.

Professor E. Wace Carlier (*Secretary*).

Professor H. G. Fiedler.

Professor P. F. Frankland.

Mr. W. E. Collinge.

Mr. F. H. Hummel.

FACULTY OF MEDICINE.

There are two Sessions in the academical year, and students may commence their studies at the beginning of either, but are recommended to enter in October. A student can, however, enter at any time during the Sessions.

THE WINTER SESSION begins on the 1st of October, 1906, and terminates on the 23rd of March, 1907.

To inaugurate the opening of the Winter Session on October the 1st, a *Conversazione* is held in the buildings of the Medical Faculty, when the various Laboratories and Museums are open for inspection, and Exhibitions and Demonstrations are given by members of the teaching staff.

THE SUMMER SESSION commences on the 15th of April, 1907, and terminates on the 29th of June, 1907.

The Dean's Office is open daily, and all information may be obtained there. The Dean attends during Term on Tuesdays from 12 to 1, and at other times by appointment. During vacations information may be obtained by letter.

All Fees are payable in advance (*i.e.* at the beginning of the Session on account of which they are due), at the Secretary's Office in the University. Cheques should be drawn in favour of Mr. Geo. H. Morley.

All the Courses, Scholarships, Degrees, and Diplomas in the University are open to students of both sexes.

Students, on entrance, are required to produce a testimonial or such other evidence of good character as shall be satisfactory to the Dean, and to sign an engagement that they will conform to such regulations as have been or may be made for the maintenance of order in the University.

Students intending to take lodgings in Birmingham or the vicinity are requested to place themselves in communication with the Secretary.

REGULATIONS FOR MEDICAL AND SURGICAL DEGREES.

The University confers the degrees of Bachelor and Doctor of Medicine (M.B. and M.D.) and of Bachelor and Master of Surgery (Ch.B. and Ch.M.) The course for the Bachelors' degrees extends over five years from the date of registration with the General Medical Council.

As a rule the first four of these years must be spent in the University, but the Senate has power of recognising attendance at another University as part of the attendance qualifying for these degrees and of recognising examinations passed at such other Universities as exempting from the examinations in Chemistry, Physics, and Elementary Biology. In the case of such students at least three years must be spent in attendance upon classes at the University. The fifth year may be spent at any other school or schools of medicine recognised by the University.

Candidates are allowed to enter for Part I. of the First Professional M.B., Ch.B. Examination (Chemistry and Physics) before commencing residence in the University, provided that they have already passed the Matriculation Examination or some Preliminary Examination accepted by the University in lieu of its Matriculation, such candidates to be eligible for the Final Examination for M.B., Ch.B., after four years residence in the University, and by producing evidence that they have been registered Medical Students by the General Medical Council for a period of five years.

Candidates for the above degrees must have complied with the following regulations:—

They must have passed (a) the Matriculation Examination of the University in Chemistry or Experimental Mechanics, English Language, Literature and History; Latin; Mathematics; and one other foreign language; or (b) some other examination recognised as equivalent to the Matriculation.

A Matriculation Examination will be held on the 24th of September, 1906, and succeeding days, for the convenience of students desiring to commence their medical studies in October. Entries for this examination must be sent to the Registrar of the University prior to August 30th.

The Matriculation Examination is held in June and September in each year. The Regulations for the Matriculation Examination will be sent on application to the Registrar.

For the present the University will recognise any one of the following examinations, in lieu of its own Matriculation, in the case of Medical students, provided always that such examination shall have included the subjects of English, Latin, Mathematics, or any one of the following : Greek, French, German, or any other modern foreign language, together with Chemistry or Experimental Mechanics or some other branch of Experimental Physics ; and that all the subjects have been passed at one examination.

- (a) The Previous Examination of the University of Cambridge.
- (b) Responsions of the University of Oxford.
- (c) The Preliminary or Matriculation Examination of any recognised University.
- (d) The (Higher) Certificate of the Oxford and Cambridge Examinations Board.
- *(e) The Oxford or Cambridge Junior Local Examinations, with First or Second Class Honours, or with distinctions in two subjects, which may be either languages or mathematics.
- (f) The Oxford or Cambridge Senior Local Examination.

* The acceptance of this Examination will be discontinued after October 1st, 1907.

Candidates must pursue the prescribed curriculum of study, and pass the prescribed examinations, subject to the following regulations:—

- (a) The Winter Session includes the Winter and Spring Terms, and the Summer Session corresponds with the Summer Term as set down in the Calendar.
- (b) At the end of each course of lectures or practical instruction, the student must obtain the signature of his teacher in the schedule book, which he will be required to lodge with the Registrar when entering his name for an examination.
- (c) This certificate must contain a statement that the student has attended to the satisfaction of the Professor, Lecturer, or Hospital Teacher not less than two-thirds of the lectures, practical classes, or clinical instruction, of which the course consists, together with such class examinations or other exercises as each teacher may prescribe in connection with his own course. In cases of illness duly certified, the Dean has a discretionary power to relax the rule as to the attendance at two-thirds of the lectures.
- (d) For the subjects included in the First Medical Examination, Medical students will conform to the regulations of the Faculty of Science in the matter of class examinations and term work, and the marks given for terminal work will be dealt with by the Board of Examiners in the same manner as in the examinations of the Faculty of Science; but in the subjects of all the subsequent Medical Examinations class Examinations will be held at the discretion of

each Professor, but at least once in each Term, and students are strongly recommended to attend these. No particular standard of marks will be exacted, but the students' class and examination work will be submitted to the Examiners at the University Examination and will be taken into consideration by them.

- (e) The classes in the University must be taken out in the order and during the years specified in the Time Table, unless the student shall have received written permission from the Dean to vary the order of his study. In no case will students be permitted to enter upon Hospital study, other than that set down for the second year, until the Second Examination shall have been passed.
- (f) In each examination, except the first and third, the student will be required to pass in *all* the subjects set down for that examination; failure in any one subject will entail the loss of the examination.
- (g) The First, Second, Third, and Fourth Medical Examinations take place in the month of June in each year, but Supplementary Examinations will also be held in the month of September. Students are in general required to take the ordinary Examinations in June, but in cases of illness or in other special circumstances the Dean of the Faculty may at his discretion allow students to postpone their Examinations until September. Students who fail at the June Examination may be allowed, at the discretion of the Board of Examiners, to present themselves for re-examination in the following September. Students who pass in the practical

examination in a subject at the June Examination may be excused the practical examination in such subject in the following September, at the discretion of the Board of Examiners. The Board of Examiners may, at their discretion, require a candidate who has failed at an examination to attend during a second year courses of Practical or Theoretical Study or both, in the subject or subjects in which he has failed.

- (h) The final examination takes place in June and December in each year. In the case of failure in the final examination, the student will be required, before being re-admitted to examination, to produce a certificate as evidence of six months further attendance on clinical work at some recognised hospital or hospitals.

NOTE.—Every candidate will be required to produce a certificate of having been registered as a medical student by the General Medical Council before admission to the first medical examination.

COURSE OF INSTRUCTION FOR DEGREES IN MEDICINE AND SURGERY.

FIRST YEAR.

Anatomy.—One course of lectures during the Winter Session, with practical work extending over the same period.

Chemistry.—One course of lectures and practical work during the Winter Session, with a second course, accompanied by practical work during the Summer Session.

NOTE.—Students are strongly recommended to study Elementary Chemistry before entering on this course.

Physics.—One course of lectures accompanied by practical work, extending over the Winter and Summer Sessions.

Elementary Biology.—A course of lectures during the Winter and Summer Sessions, with practical work extending over the same period.

At the end of the First Summer Session students will be eligible for the First Examination, viz., Chemistry and Physics, and Elementary Biology.

NOTE.—Students who have passed the Intermediate Examination for Degrees in Science in these subjects will be exempt from further examination in them.

SECOND YEAR.

Anatomy.—One course of lectures during the Winter Session, and one during the Summer Session, with practical work extending over the same period.

NOTE.—The certificate in Anatomy must show that the student has dissected the entire body *at least* once.

Physiology.—One course of lectures accompanied by practical work during the Winter Session, and a course of lectures and practical work during the Summer Session. Before commencing this course students will be required to provide themselves with a microscope subject to the regulations on page 421.

Hospital.—Attendance on special Surgical Tutorial Classes will be required on Saturday mornings during the Winter and Summer Sessions.

At the end of the second Summer the student who has duly followed the above courses will be eligible for the Second Examination, viz., Anatomy and Physiology. Students must present themselves for both of these subjects, and a candidate must pass in the two subjects in order to secure credit for the Examination.

THIRD YEAR.

Surgery.—One course of lectures during the Winter Session.

Pathology.—One course of lectures and practical work during the Winter Session, with a course of practical work during the Summer Session. Before attending this course the student will be required to add to his microscope the additional parts mentioned in the Regulations on page 421.

Materia Medica.—One course of lectures during the Summer Session, with a practical course of instruction in Pharmacy during the same Session.

Hospital.—The course of instruction as set down in the Regulations for Hospital work must be followed. (See p. 455.)

At the end of this year the student who has been duly certified may present himself for the Third Examination in Pathology and Bacteriology and Materia Medica and Practical Pharmacy at the end of the Summer Session.

FOURTH YEAR.

Medicine.—One course of lectures during the Winter Session.

Surgery.—One course of lectures during the Winter Session.

Hygiene and Public Health.—One course of lectures during the Winter Session.

Midwifery.—One course of lectures during the Winter Session.

Forensic Medicine and Toxicology.—One course of lectures accompanied by practical work in both subjects during the Summer Session.

Mental Diseases.—One course of lectures during the Summer Session.

Hospital.—The course of instruction as set down in the Regulations for Hospital work must be followed. (See p. 455.)

At the end of this year the student who has been duly certified for the courses prescribed for the fourth year will be eligible to present himself for the Fourth Examination, viz., Forensic Medicine, Toxicology and Public Health.

FIFTH YEAR.

Medicine.—One course of lectures during the Winter Session.

Gynaecology.—One course of lectures during the Winter Session.

Therapeutics.—One course of lectures during the Winter Session.

Surgical and Medical Anatomy.—One course of lectures extending over three months during the Winter Session.

Operative Surgery.—One course of practical instruction during the Winter Session.

Ophthalmology.—One course of lectures during the Winter Session.

Hospital (General Clinical).—The course of instruction as set down in the regulations for Hospital work must be followed. (See p. 455.)

Fever Hospital.—A course of instruction extending over not less than three months.

NOTE.—The certificate must include a statement that the student has personally taken notes of not less than six cases of fever.

Asylum Practice.—A course of instruction extending over not less than three months.

NOTE.—The student will be expected to present to the examiners at the time of examination at least four properly filled up certificates of lunacy drawn up by himself after personal examination of insane patients, and notes of two cases taken by himself, both to be certified by his teacher.

Vaccination.—The student must follow the course laid down by the instructions of the Local Government Board. (See p. 478.)

In addition to evidence that the above courses have been duly completed, the student will, on presenting himself for the final examination, be required to produce the following additional certificates :—

- (a) Of having attained his twenty-first year.
- (b) Of having during his third and fourth years performed the duties of clerk and dresser according to the rules laid down in the regulations for Hospital work.
- (c) Of having attended during at least twelve months the demonstrations given in the *post-mortem* room of a recognised Hospital, and of having acted for three months as *post-mortem* clerk.
- (d) Of having attended during three months the practice of an Obstetric Department or Hospital recognised by the University or of having attended not less than twenty cases of labour, the first five at least of which shall have been conducted under the personal supervision of a registered practitioner, and of having continued such attendance throughout the puerperal period.
- (e) Of having, during at least three months, received in either a general or special Hospital, recognised by the University, Clinical instruction in the Diseases peculiar to Women.

NOTE.—The student will be expected to present to the examiners, at the time of his examination, notes of at least six cases of this character taken by himself and certified as such by the teacher from whom he received his instruction.

- (f) Of having, during at least three months, received in either a general or special Hospital, recognised by the University, Clinical instruction in Ophthalmology.

NOTE.—The Certificate must state that the student has received personal instruction in the detection and correction of errors of refraction.

- (g) Of having received practical instruction in the administration of Anæsthetics.

On presenting the above certificates, the student will be eligible to enter for the Final Examination in Medicine, Surgery, Midwifery, Gynæcology, Therapeutics, Ophthalmology, and Mental Diseases.

On passing this examination the student will be permitted to proceed to the Degrees of Bachelor of Medicine and Bachelor of Surgery.

At the end of one year from the date of having passed this examination the candidate will be eligible to present himself for the higher Degrees of either Doctor of Medicine or Master of Surgery or both.

ATTENDANCE AND SCHEDULES.

I.—Before attending any class, students must obtain a card from the Dean, which they must *at once* present to the Secretary, paying at the same time any fees which may be due. Students are however particularly requested to notice that the card which they obtain from the Dean must be lodged at once with the Secretary whether any fees are payable at the same time or not. Until this is done no credit will be given for attendance upon any course.

II.—Students, whether composition or occasional, who have taken out all the classes for which they have paid, must understand that they have no further *right* to use the University Class-rooms, Library, or the Common Room. But all Composition Students can obtain permission from the Dean to use the Museums and Library, etc. The Dean will issue cards to such students each Session, and the cards may be required to be produced at any time. It

must be distinctly understood that such cards are held subject to the good conduct of the student, and that the Dean may at any time cancel any student's card.

Occasional students can receive similar cards on paying the terminal Membership Fee.

III.—No Student's Schedule will be signed unless he shall have attended at least *two-thirds* of the lectures given in the course.

IV.—Should any student desire to obtain credit for lectures from which he has been absent on account of illness, he must apply to the Dean, and lodge a medical certificate in the Dean's office on his return to work.

V.—All students may be required to attend an Examination before their Schedules are signed for any Examination of any examining body.

VI.—Schedules for *all* Examinations must be left in the Dean's office *at least two days* before they are required. The student's name and address must be filled in in ink, and the date of attendance on the several courses of lectures filled in in pencil. Schedules will not be attended to unless the above rules are carried out.

VII.—Schedules sent in during vacations may be much delayed. Students should, therefore, obtain all necessary signatures before the last day of each term.

Students and others desiring information on any subject connected with the Medical Curriculum can obtain the same by applying at the Dean's Office in the University Medical Buildings.

DEGREES OF M.D. AND Ch.M.

At the end of one year from the date of having passed the Final M.B., Ch.B. examination the candidate will be eligible to present himself for the higher degrees of either Doctor of Medicine or Master of Surgery or both.

Candidates for either of these Degrees will be required to comply with the following Regulations :—

For the Degree of M.D.

Every candidate for this degree shall present a Thesis embodying observations in some subject embraced in one of the departments of the medical curriculum enumerated below, and in addition he will be required to pass a general examination in Principles and Practice of Medicine. It will be in the power of the Board of Examiners to exempt a candidate whose Thesis is of exceptional merit from any part of these examinations.

A Thesis may be presented in any of the following departments of study :—

- (a) Anatomy, including Comparative Anatomy.
- (b) Physiology.
- (c) Human or Comparative Pathology.
- (d) Bacteriology.
- (e) Pharmacology.
- (f) Therapeutics.
- (g) Medicine.
- (h) Mental Diseases.
- (i) Preventive Medicine or Public Health.
- (j) Toxicology.
- (k) Legal Medicine.
- (l) Midwifery.

For the Degree of Ch.M.

Candidates are required to comply with the following Regulations :—

1. Every candidate shall present a Thesis embodying observations in some subject embraced in one of the departments of the medical curriculum enumerated below. In addition the candidates will be required to pass a general examination in Principles and Practice of Surgery, and to perform operations on the Cadaver.

2. It will be in the power of the Board of Examiners to exempt a candidate whose Thesis is of exceptional merit from any part of these examinations.

3. The candidate may be examined in that department of the medical curriculum from which the subject of his Thesis is chosen, and the Examiners may require to see the notes of original observations on which the Thesis is based :—

- (a) Surgery.
- (b) Pathology.
- (c) Bacteriology.
- (d) Gynæcology.
- (e) Ophthalmology.

The Fee for either of these Examinations is Ten Pounds.

COMBINED COURSE FOR SCIENCE AND MEDICAL DEGREES.

Students in the Faculty of Medicine, by devoting six years to study in the University instead of five years, may obtain a degree in Science (B.Sc.) in addition to their medical degrees. The course of study for the first year is that prescribed for the Intermediate Science Examination in Physics, Chemistry and Biology. After passing the Intermediate Science Examination, students must during the following two years devote themselves entirely to the study of Anatomy (including Anthropology) and Physiology, taking one of these subjects as a principal subject, and the other as a double subsidiary subject for the degree of Bachelor of Science. Candidates who have passed the degree examinations in these subjects will be excused the first and second Medical Examinations, and can enter on the final three years' curriculum for medical degrees.

SCHOLARSHIPS AND PRIZES.

SANDS-COX SCHOLARSHIP.

The Sands-Cox Scholarship, of the value of £42, is awarded annually to the Candidate amongst those entering as students of the Faculty of Medicine in the month of October, who shall have obtained the highest marks at the Matriculation or First Medical Examination in the previous months of July and June respectively.

Provided that

- (a) No Candidate shall be elected whose age exceeds nineteen on the first day of the examination.
- (b) No Candidate shall be elected who shall not have attained to a position in the first class, and satisfied the Examiners that he has shown sufficient merit for the award.
- (c) The payment shall be made in two annual instalments, and in the form of remission of fees.
- (d) The second instalment shall not be paid until the scholar presents a certificate from the Dean, showing that his first year's work has been satisfactory.

SYDENHAM SCHOLARSHIPS.

1. One or more Scholarships of the value of £42 each will be offered annually.

2. The Scholar or Scholars will be elected by vote of the Council on the recommendation of the Faculty of Medicine.

3. The Scholarships are limited to the orphan sons of legally qualified Medical Men on entrance as first year students of the University.

4. The orphan sons of former students of the Birmingham Medical School will have priority of election.

5. No Sydenham Scholar will be elected whose age exceeds 23 years on the day of election.

6. The Scholarship may be held for three years, subject to good behaviour ; and one-third of the Scholarship will be paid annually.

7. All applications for a Sydenham Scholarship should be addressed to the Dean of the Medical Faculty on or before the 3rd of October in each year, and each candidate is required to furnish such evidence of eligibility as he considers necessary.

QUEEN'S SCHOLARSHIPS.

Queen's Scholarships of the value of £10 10s. each are allotted annually, on the recommendation of the Examiners, to the students taking the first place at the second, third, fourth, and final University Examinations respectively.

In the Third Examination the Scholarship is awarded to the Student obtaining the highest marks in Pathology and Bacteriology, provided that such student passes at the same examination in the subjects of Materia Medica and Practical Pharmacy.

INGLEBY SCHOLARSHIP.

The Ingleby Scholarship (value £10), founded in memory of the late Dr. Ingleby, formerly Professor of Midwifery in the Queen's College, will be offered annually to the candidate who obtains at the June Final Examination the highest marks in the subjects of Midwifery and Gynæcology.

RUSSELL MEMORIAL PRIZE.

This prize was founded by students of the Queen's College in memory of the late Dr. James Russell, formerly Honorary Physician to the General Hospital. It is a prize of books awarded annually to the student who, not being of more than six years' standing as a student of the School of Medicine of the University, shall pass the best examination in the subject of nervous diseases.

**THE WALTER MYERS TRAVELLING
STUDENTSHIP.**

In memory of his son, Dr. Walter Myers, who died of yellow fever when making an investigation of that disease for the Liverpool School of Tropical Medicine, his father,

Mr. George Myers, of Birmingham, has founded and endowed a travelling studentship in the University of Birmingham. Holders of this studentship, which will be awarded early in October in each year, must possess the degrees in medicine and surgery of the University of Birmingham. They must also possess the degree of B.Sc., which must have been obtained either at the University of Birmingham or London, or at either of the Universities of Oxford or Cambridge, should such degree be obtainable at either of those Universities. They must study for a year at one of certain Universities in Germany, and any papers that they may publish must appear under the name of the Walter Myers Studentship. The studentship, which will be of the value of £150, will only be awarded should a candidate of sufficient promise present himself. The subjects in which the student may pursue investigations are pathology or clinical medicine, combined with pathological research. The studentship may be prolonged over a second year, but at a diminished stipend. The Deed of Foundation of the studentship is printed in the Calendar, from which further particulars may be obtained.

Applications for this studentship must be sent in to the Dean of the Medical Faculty on or before October 1st.

GEORGE HENRY MARSHALL SCHOLARSHIP.

The George Henry Marshall Scholarship of the value of £10 is offered annually for the encouragement of research work in Ophthalmology under regulations prescribed by the Faculty of Medicine.

WILLIAM RICHARDS MEMORIAL PRIZE.

This prize, value £3 3s., which belongs to and is adjudicated upon by the University Medical Society, is awarded to the student member of the Society who shall send in the best paper during the year, such paper to be read at a meeting of the Society.

ENTRANCE SCHOLARSHIP FOR DENTAL STUDENTS.

1. One will be offered annually of the value of £37 10s.
2. It will be awarded to the student who, entering for the Dental Degree of the University in October, or having entered not earlier than the previous April, shall pass the best examination in the subjects studied during his apprenticeship.
3. Candidates must be under the age of twenty-one years.
4. Application for admission must be sent to the Dean on or before October 12th.

CLINICAL PRIZES.

The following Prizes are given annually by the Clinical Board.

Senior Medical Prize, for students during their "final" year, to the value of	£5	5
Senior Surgical Prize, ditto	£5	5
Junior Medical Prize, for students before the commencement of their "final" year, to the value of	£3	3
Junior Surgical Prize, ditto	£3	3
Midwifery Prize, for students during their "final" year, to the value of	£4	4
Regulations for these Prizes will be found on page 466.				

UNIVERSITY FEES.

I. — Membership Fees.

Composition Students on entering pay a Membership Fee of £3 3s., which admits them to the University for five years. At the expiration of this period they may, at the discretion of the Dean, be called upon to pay the membership fees demanded from occasional students.

Occasional or Class Students are required to pay £1 1s. for each Winter Session and 10s. 6d. for each Summer Session during which they are in attendance at the University.

II.—Composition Fee.

The Composition Fee, £85, is inclusive and payable in four annual instalments, viz. :—£25, £25, £15, and £20 at the commencement of each year. This fee covers all the courses necessary for the Degrees of this and other Universities, and the ordinary qualifications of the Licensing Boards. It does not include, however, courses for Public Health Diplomas, nor those for the Preliminary Scientific Examination of the University of London, nor the additional courses required for the Fellowship of the Royal College of Surgeons, and other such higher diplomas and degrees. It is not a *perpetual* fee, and students allowing their courses to fall into arrear, without having previously obtained the written permission of the Dean to do so, are liable to the forfeiture of the unused portion of their Composition Fee.

III.—Total Cost.

For the convenience of those desiring to ascertain the total cost of obtaining the degrees of Bachelor of Medicine and Bachelor of Surgery, the following table has been drawn up. It presumes that the student enters by the Composition system and makes no allowance for failures at examinations.

No allowance is made either for the cost of books, instruments, etc., or for private tuition, should such be required.

	£	s.	d.	£	s.	d.
MATRICULATION	2	0	0	2	0	0
FIRST YEAR.—Membership Fee	3	3	0			
First Composition	25	0	0			
First Examination	2	0	0	30	3	0
SECOND YEAR.—Second Composition	25	0	0			
First Hospital Composition	12	0	0			
Second Examination	2	0	0	39	0	0
THIRD YEAR.—Third Composition	15	0	0			
Second Hospital Composition	15	0	0			
Third Examination	2	0	0	32	0	0
FOURTH YEAR.—Fourth Composition	20	0	0			
Third Hospital Composition	15	0	0			
Fourth Examination	2	0	0	37	0	0
FIFTH YEAR.—Vaccination	1	11	6			
Fever Hospital	2	2	0			
Asylum	3	3	0			
Final Examination	2	0	0	8	16	6
Admission to Degree				6	0	0
				<u>£154</u>	<u>19</u>	<u>6</u>

NOTE.—All fees (except those for Hospital) are payable to the Secretary. Cheques should be drawn in favour of Mr. Geo. H. Morley.

IV.—Class Fees.

Students wishing to do so can pay for each class as they take it, the following table showing the fees for each course :—

	£	s.	d.
Anatomy Lectures (each Winter)	6	6	0
Practical Anatomy (each Winter)	5	5	0
Anatomy and Practical Anatomy (one Summer)	3	3	0
Physiology	6	6	0
Physiology, Practical	4	4	0
Medicine	6	6	0
Surgery.....	6	6	0

	£	s.	d.
Chemistry.....	4	4	0
Chemistry, Practical	3	3	0
Elementary Biology.....	5	5	0
Physics.....	5	5	0
Materia Medica and Pharmacy	2	2	0
Pathology.....	4	4	0
„ Practical	4	4	0
Therapeutics.....	4	4	0
Forensic Medicine and Toxicology	4	4	0
Public Health	3	3	0
Operative Surgery	2	2	0
Lunacy and Mental Diseases.....	2	2	0
Ophthalmology	1	1	0
Applied Anatomy	1	1	0
Midwifery	4	4	0
Gynæcology	2	2	0

NOTE.—Composition Students desiring to repeat any course will be required to pay a half fee for such course. In the case of Practical Anatomy this will be £3 3s. The fee for three months Practical Anatomy in the Winter is £2 2s. For repeating the Summer course in Anatomy the fee is £1 11s. 6d.

V.—Incidental Fees.

Composition students taking courses for the first time are not required to pay these fees. But any Composition Student desiring to repeat a practical course will have to pay the incidental fee as well as the half-fee for attendance. Class Fee Students are required to pay the incidental fee as well as the class fee.

	£	s.	d.
Dissecting Room (each Winter)	1	11	6
„ „ (each Summer)	0	10	6
Practical Physiology	2	2	0
„ Pathology	1	11	6
„ Pharmacy	0	10	6
Operative Surgery	0	10	6
Practical Forensic Medicine and Toxicology	0	10	6

NOTE.—All these sums are payable to the Secretary.

VI.—Microscopes.

It is essential that every well-educated medical man should possess his own microscope. Students will, therefore, be required to provide themselves with a satisfactory instrument before attending the course of Practical Physiology. Before attending the Practical Course in Pathology, they will be required to add a higher power lens and such other accessories as are necessary for the study of Bacteriology. Students can provide themselves with instruments, but in that case each instrument will have to be submitted to the Professor of Physiology, and its further accessories to the Professor of Pathology, and no student will be permitted to use in class an instrument which has not been approved by the Professor. The instrument recommended by the Faculty is the Delepine pattern microscope, manufactured by Messrs. Swift and Son. Students desiring to do so, can procure this instrument through the University by paying the sums set down below, in the Dean's office, when paying their other fees. All students, not already possessing a suitable instrument are advised to follow this course since they will obtain a substantial reduction in price by so doing. Moreover, all instruments purchased in this way will have been carefully examined by the Professors of Physiology and Pathology, so that the purchaser will be certain that he is obtaining a first-class microscope. The price of the microscope with the parts necessary for the Course of Practical Physiology will be £8 11s. 0d., and this sum must be paid at the commencement of the second winter. The accessories necessary for the Course of Practical Pathology will cost in addition, £5 6s. 6d., and this sum will have to be paid at the commencement of the third winter. These sums include the charge for engraving the student's name on the various parts of the instrument.

VII. Examination and Admission Fees.

The fees payable before a student is admitted to any of the examinations are set down below. Students failing at any examination will be called upon to pay a half-fee when next presenting themselves for the same examination.

	£	s.	d.
Matriculation	2	0	0
First Examination	2	0	0
Second „	2	0	0
Third „	2	0	0

Admission to Degrees M.D. or Ch.M. ...	8	0	0
Admission to Diploma in Public Health...	6	0	0
Admission to B.Sc. in Public Health.....	6	0	0

Admission fees must be paid at the same time as the fees for the Final Examinations for the Degrees or Diplomas.

LOCKERS FOR BOOKS, &c.

Lockers are provided in the hat and coat room of the Medical Department, to enable students to preserve their books and papers in safety, at a charge of one shilling for the Summer Session, two shillings for the Winter Session, or two shillings and sixpence per year. Each student will be supplied with a key, upon which a deposit of one shilling will be charged. The key must be delivered up on or before the last day of the Session for which payment has been made, or the deposit will be forfeited.

A master-key of all the lockers is kept in the office.

FACULTY OF MEDICINE.

Syllabuses of Courses.

ANATOMY.

Professor: ARTHUR ROBINSON, M.D.; M.D., C.M. (Edin.)

Demonstrators: { T. YEATES, M.B.C.M., B.Hy.
SEYMOUR BARLING, M.B., B.S., F.R.C.S.
VIOLET A. P. COGHILL, M.B., Ch.B.
(Edin.).

Hon. Demonstrators: W. E. BENNETT, M.B., Ch.B., F.R.C.S.
J. JAMESON EVANS, M.D.; C.M. (Edin.), F.R.C.S.

I.—Descriptive Anatomy.

The *First Year's Course* includes a general account of the main systems of the body and a more detailed description of the Anatomy of the Upper and Lower limbs. The lectures are delivered during the Winter Session at 10.30 o'clock, on Mondays and Wednesdays.

The *Second Year's Course* is partly given during the Winter, partly during the Summer Session. In the *Winter* lectures, which are delivered at 12 o'clock, on Mondays, Tuesdays, Wednesdays and Thursdays, the Anatomy of the Head and Neck, Thorax, and Abdomen is considered, except the Anatomy of the Brain and the Organs of the Special Senses. In the *Summer* lectures the Central Nervous System and the Organs of Special Sense are dealt with on Mondays, Wednesdays and Fridays at 10 o'clock.

All these courses are accompanied by Demonstrations and Classes specially arranged to follow up the instruction given in the Lecture Theatre.

The course of Lectures on *Human Embryology* is given during the second Winter Session, on Tuesdays at 3 p.m.

Dental Course.

The Human Anatomy part of the Dental curriculum includes two Summer and one Winter's dissections, commencing in the first Summer, and two Summer Courses of Lectures. The Lectures in the first Summer are delivered at 2 p.m. on Mondays, Tuesdays, and Thursdays, and those in the second Summer on Mondays at 11 p.m. and on Tuesdays and Thursdays at 12 o'clock noon.

A course of Demonstrations on Elementary Anatomy is arranged for students who wish to acquire an elementary knowledge of *Human Anatomy* but who do not intend to take either Medical or Dental qualifications.

II.—Practical Anatomy.

The Dissecting Room is open during term time from 9 a.m. to 5 p.m., except on Saturdays, when it is closed at 1 p.m. One or more of the Staff of the Department is always in charge of the room and ready to help students finding themselves in any difficulty with their parts. Information as to the detailed working of the Department will be found in the Guide which is presented to every student on entering for a course of Anatomy.

There is a separate Dissecting Room for Women Students in charge of Dr. Coghill.

The Museum, which is open to all students, contains a large collection of frozen sections and dissections mounted in spirit, also of specially prepared and marked bones. There are a number of embryological models.

III.—Medical and Surgical Anatomy.

Lecturer: WILLIAM F. HASLAM, F.R.C.S.

A Course of Lectures and Demonstrations for students in their fifth year will be given by the Lecturer on Applied Anatomy on Mondays, Wednesdays and Fridays, from October to December inclusive, at 2 p.m.

PHYSIOLOGY.

Professor : E. W. WACE CARLIER, M.Sc. ; M.D. (Edin.),
F.R.S.E.

Lecturer : J. H. RHODES, M.B., Ch.B. (Edin.), M.R.C.S.

I.—Systematic Physiology.

A Course of Lectures in Physiology will be delivered at 10.30 a.m. each day, except Monday and Saturday, throughout the Winter Session, and at 3 p.m. on Tuesdays and Thursdays throughout the Summer Session. It will consist of 100 lectures.

The Course will comprise :—

WINTER.

- (1) General Chemistry of the Animal Body.
- (2) Structure, Chemistry and Physiology of the Cell and of the Simple Tissues.
- (3) Muscle and Nerve.
- (4) General Nutrition, including circulation of the blood and lymph, respiration (voice and speech), alimentation, nutrition of the tissues, internal secretions, excretion and the minute structure of the organs concerned.
- (5) Animal Heat, its production and regulation.
- (6) Dietetics.
- (7) Reproductive System.
- (8) The Senses and Sense Organs.

SUMMER.

- (9) The Sense Organs continued.
- (10) The Central Nervous System, its structure and functions.

II.

A Course of Lectures of a less advanced kind for Dental students will be delivered on Mondays, Wednesdays, and Fridays, at 12 o'clock noon throughout the Winter Session.

The Course will comprise :—

- (1) Elementary General Chemistry of the Animal Body.
- (2) The Cell and the Tissues,
- (3) The principles of General Nutrition, including circulation of the blood and lymph, respiration, alimentation, nutrition of tissues, internal secretions, excretion, with the structure and functions of the organs concerned.

- (4) Milk, and the principles of Dietetics.
 - (5) Animal Heat,
 - (6) Muscle and Nerve.
 - (7) Elementary Physiology of the Central Nervous System and the Sense Organs.
-

III.—Elementary Physiology.

A course of Lectures on Elementary Physiology is given during the Winter Session to meet the requirements of School Teachers and others.

IV.—Practical Physiology.

The Course will extend over one Summer and one Winter Session.

A. HISTOLOGY.—This Class will meet in the Physiological Laboratory every day, except Saturday, throughout the Summer Session from 11.0 to 1. Each student will have the use of a microtome and will be supplied with all re-agents, but he will be expected to furnish himself with a microscope (see p. 421), slides, cover-glasses, a razor and other sundries.

Each student will prepare and study microscopical specimens of most of the tissues and organs of the body, and will receive practical instruction in the use of the microscope and in elementary technique.

B. EXPERIMENTAL PHYSIOLOGY.—The Class will meet in the Physiological Laboratory on Thursday of each week from 2.30 to 4.30 during the first half of the Winter Session.

Each student will perform the simpler experiments, illustrating the physiology of muscle, nerve, heart and reflex-action, and will receive practical instruction in the use of the sphygmograph, cardiograph, stethograph, laryngoscope, and ophthalmoscope.

The student must supply himself with a dissecting case. This course will be repeated on Fridays if necessary.

C. **PHYSIOLOGICAL CHEMISTRY.**—This Class will meet in the Physiological Laboratory on Thursday of each week during the latter half of the Winter Session from 2.30 to 4.30.

Each student will perform the qualitative and quantitative analyses of the urine in its normal and abnormal conditions with special reference to clinical work, with additional practical exercises on the chemistry of the proteids, carbohydrates, food stuffs and their digestion, blood and bile. This course will be repeated on Fridays if necessary.

V.—Advanced Practical Physiology.

SEE FACULTY OF SCIENCE.

The Physiological Laboratory is open daily, except Saturday, during both Summer and Winter Sessions from 10 a.m. to 5 p.m. for the prosecution of original research. Application to be made to the Professor.

VI.—Dental Histology.

A Combined Lecture and Practical Course on Dental Histology is held during the Summer Session. (For Syllabus, see page 498).

CHEMISTRY.

Professor: PERCY F. FRANKLAND, M.Sc. ; Ph.D. (Würzburg), B.Sc. (Lond.), LL.D. (St. And.), F.R.S.

Lecturers: { ALEX. FINDLAY, M.A., D.Sc. (Aber.), Ph.D. (Leipzig.)
HAMILTON MCCOMBIE, M.A. (Aber.), B.Sc. (Lond.), Ph.D. (Strasb.), A.R.C.S., A.I.C.

Demonstrators: { C. K. TINKLER, B.Sc.
THOMAS J. MURRAY, Ph.D. (Leipzig).

Special Lecturer on Physical Chemistry: ALEX. FINDLAY, D.Sc.

Lecture Course on General Inorganic Chemistry.

The Lectures are delivered at 9.30 a.m. on Mondays, Tuesdays, Wednesdays and Thursdays during the Winter Session.

Some of the above meetings of the class will be devoted to tutorial work. Attendance at the tutorial meetings of the class is compulsory, as is the performance of the exercises set by the Professor.

In connection with this course a tutorial class will be held on Wednesdays, from 2 to 2.45 p.m., during the Session. Attendance at this class is compulsory, unless the student has been exempted by the Professor. No fee.

Lecture Course on Organic Chemistry.

The Lectures are delivered at 9.30 a.m. on Mondays, Wednesdays, and Fridays, during the Summer Session.

Candidates for the First Medical Examination may be required to show knowledge of any of the subjects set forth in the following Syllabus:—

I. GENERAL.

Nature of chemical change. Elements and compounds.
Chemical affinity and the modes of chemical action.
Regularities exhibited in the formation of compounds.

Indestructibility of matter. Laws of constant, multiple, and equivalent proportions. Atomic theory. States of matter. Properties of Gases. Kinetic theory. Molecular theory. Avogadro's hypothesis. Atomic and molecular weights. Vapour density, isomorphism, atomic and molecular heats.

Chemical nomenclature, formulæ, equations. Valency.

Solution. Osmotic pressure. Electrolysis. Ionic theory. Acids, bases, and salts.

Thermo-chemistry. Energy, its transformation and conservation. Liquefaction of Gases.

II. SPECIAL.

Hydrogen. Oxygen. Ozone. Allotropy. Water; physical properties, natural waters. Hydrogen peroxide. Nitrogen; circulation of, in nature. The Atmosphere. Compounds of nitrogen with hydrogen; oxides of nitrogen; oxyacids of nitrogen; halogen compounds of nitrogen.

Carbon, its circulation in nature. Coal. Oxides of carbon. Hydro-carbons; methane, ethylene, acetylene. Combustion, flame, and luminosity.

Coal-gas, producer-gas, water-gas, oil-gas. Artificial illumination.

Chlorine and the halogens. Their compounds with hydrogen, their oxides, and oxyacids.

Sulphur; compounds with oxygen, hydrogen, and carbon; oxyacids of sulphur.

Phosphorus; compounds with hydrogen, and oxygen; oxyacids of phosphorus. Arsenic, antimony, and bismuth; comparison of their properties and compounds with those of phosphorus and nitrogen.

Boron and Silicon, and their more important compounds.

Classification of the Elements. Periodic law.

METALS.

Occurrence, modes of isolation, and general properties of the following metals, and their more important compounds:—Sodium, potassium, barium, strontium, calcium, magnesium, iron, chromium, aluminium, zinc, manganese, nickel, cobalt, mercury, copper, bismuth, cadmium, lead, tin, silver, and gold.

TEXT BOOK.—Newth's Inorganic Chemistry.

III. ORGANIC CHEMISTRY.

Analysis of Organic compounds. Formulæ. Isomerism. Structure.

Hydro-carbons. Paraffins, Ethylene, Acetylene. Halogen derivatives. Chloroform. Iodoform.

Alcohols. Fermentation. Ether. Aldehydes. Chloral. Fatty Acids. Fats, Soap, and Saponification. Glycerine. Glycol. Oxalic acid. Succinic acid. Tartaric acid. Lactic acid. Citric acid.

Carbo-hydrates.

Cyanogen compounds and Amines.

Urea, Glycocoll, Uric acid.

Aromatic compounds. Benzene, Phenol, Aniline, Benzoic acid, Salicylic acid.

TEXT BOOK.—Remsen's Organic Chemistry.

Practical Chemistry.

The Class meets at 2 p.m. on Mondays and Wednesdays during the Winter Session, and on Mondays, Tuesdays, Thursdays and Saturdays, during the Summer Session.

The practical work in the laboratory is intended to supplement the instruction given in the lectures, and to make the student personally familiar with the preparation of pure substances, and with the elements of qualitative and quantitative analysis.

Sanitary Chemistry.

Laboratory Course (Times by arrangement).

B.Sc. or Diploma in Public Health.—The Course extends over six months (not less than six hours weekly).

Synopsis of the Course.

The use of the balance.

The methods of volumetric analysis, including the preparation of standard solutions, alkalimetry and acidimetry.

Kjeldahl's method for the determination of nitrogen.

The analysis of water, including the estimation of total solids (lime, magnesia, sulphates, chlorides, nitrates and nitrites, ammonia and poisonous metals); determination of temporary and permanent hardness, including the preparation of standard soap solution; organic impurities, acidity and alkalinity.

The detection of polluting gases.

Estimation of the amount of carbon dioxide in air.

Simple methods of eudiometry.

Analysis of milk, butter, beer.

Acidity of vinegar.

Determination of Urea.

Estimation of cane and grape sugars.

Microscopic examination of starches, muscular fibre, and the fibres of wool, cotton, and silk.

FEE:—£8 8s.—Caution Money Deposit £1.

PHYSICS.

Professor: J. H. POYNTING, M.Sc.; Sc.D. Cantab., F.R.S., D.Sc. (Vict.), late Fellow of Trinity College, Cambridge.

Lecturer: G. A. SHAKESPEAR, B.A. (Cantab.), B.A., B.Sc. (Lond.).

Assistant Lecturers: { G. BARLOW, D.Sc. (Lond. and Wales)
A. D. DENNING, M.Sc.; Ph.D. (Heid.)

Special Lecturer on Experimental Physics:

G. A. SHAKESPEAR, B.A., B.Sc.

During the Winter Session the Lectures will be on Mondays, Wednesdays and Fridays, at 11.30.

During the Summer Session the Lectures will be on Tuesdays and Thursdays, at 9.30.

The Practical Class will be held in the Laboratory on Fridays, at 2.30 p.m. in both Sessions.

Syllabus of Course.

Properties of Solids—

Sticking and sliding friction. Strains and stresses. Bulk strain and shear strain. Various kinds of permanent change of shape and rupture. Crystalline and amorphous solids.

Properties of Liquids—

Viscosity. Compressibility. Surface tension.

Properties of Gases—

Compressibility. Viscosity.

Kinetic theory of matter. Diffusion, solution, osmotic pressure.

Heat—

Temperature. Mercury in glass thermometer. Determinations of high and low temperature. Expansion of solids and liquids. Circulation and convection in liquids. Expansion of gases at constant pressure and increase of pressure at constant volume. Gas thermometers. Circulation and convection in gases. Movements of the atmosphere.

Quantity of heat. Specific heat and simple modes of measuring it.

Conduction of heat. Conductivity.

Heat a form of energy. The forms of energy and their transformations according to fixed rates of exchange. The conservation of energy. Joule's method of determining the mechanical equivalent of heat. The nature of heat on the kinetic theory of matter. Limitation in the amount of heat which can be transformed to work.

Change of state. Latent heat. Liquid vapour change. Evaporation. Boiling vapour pressure. Dependence of boiling point on pressure and explanation. Modes of measuring vapour pressure. Explanation of vapour pressure on the kinetic theory. Water vapour in the atmosphere. Hygrometers. Cloud. Fog. Dew. Solid-liquid change. Melting points. Change of volume on melting. Effect of pressure on melting point. Regelation.

Radiation. High and low radiating and absorbing powers. Comparison of properties of radiation from hot bodies and properties of light. Identification. The spectrum. Substances absorb the radiations which they can emit. Dark lines in solar and stellar spectra.

Light—

Light a form of energy. Rectilinear propagation. Shadows. Eclipses. Inverse square law. Simple Photometers. Reflection, refraction, and dispersion. Velocity of light.

Light a form of wave motion. Illustrations of interference. The diffraction grating. Polarisation of light.

Mirrors. Prisms. Lenses. The eye. Simple forms of telescope and microscope.

Sound—

Sound arises from vibrating sources which send out longitudinal waves in air. Characteristics of the waves corresponding to loudness, pitch, and quality. Velocity of sound in air, and other media. Determinations of frequency. Resonance; its use to analyse sounds. Harmonics and upper partials. Quality.

Transverse vibrations of strings. Vibrations of air in pipes.
Other vibrating sources.

Beats. Concord and discord. Combination tones.

Magnetism—

Properties of magnets. The two poles; their equality and inseparability. Magnetisation by induction. Methods of making magnets. Inverse square law. Magnetic fields and lines of force. The earth as a magnet. Declination, dip, and intensity.

Electricity—

The two kinds of electrification and simple modes of producing them. Conductors and Insulators. The gold leaf Electroscope. Electrification by induction. Frictional Electrical Machines. The Electrophorus. The Wimshurst Machine. The Leyden Jar. Production and disappearance of the two electrifications always in equal quantities. The electric field, considered as the seat of electric strain, electric force, and electric energy. The inverse square law. Potential and capacity. Distribution on conductors.

Electro-magnetism—

Electric discharge and the magnetic effects accompanying it. Electro-magnetic waves. Electric current. Voltaic and Storage cells. The magnetic properties of current circuits. The ampere. Galvanometers and amperemeters. Electric motors. Ohm's Law. Resistance. The heat developed in the circuit. Joule's Law. The ohm. The volt. Electrolysis. Electro-chemical equivalents. The induction of currents. Lenz's Law and Faraday's Law. The Dynamo. The Induction Coil.

ELEMENTARY BIOLOGY.

Professor: T. W. BRIDGE, M.Sc.; Sc.D. (Cantab.), F.R.S.,
F.L.S.

Lecturer: (Vacant).

A Course of about Fifty Lectures will be given during the Winter and Summer Sessions of the first year.

Lecture Days.—Tuesdays and Thursdays, at 12.30.

SYLLABUS.

A. Living and non-living matter.—Distinctive properties of living matter or protoplasm, as illustrated by the study of the Proteus animalcule or *Amæba*.—Distinction between Animals and Plants.—Comparison of the unicellular *Amæba* with the complex multicellular Frog.—Origin of the Frog. The egg-cell or ovum.—Segmentation of the ovum, and the subsequent formation of physiologically different groups of cells or tissues. Structure of the various elementary tissues of the Frog. Epithelia, connective, muscular, and nervous tissues. The combination of tissues to form organs.

B. The anatomy and histology of the various systems of organs in the Frog, and the elementary physiology of the organs of digestion, circulation and excretion. Physiological, division of labour and morphological differentiation of structure.

C. This part of the course will treat of the structure of the following typical animals, viewed from a comparative standpoint:—

The Proteus-animalcule (*Amæba*), the Bell-animalcule (*Vorticella*), the freshwater Polype (*Hydra*), the Earthworm (*Lumbricus*), the Crayfish (*Astacus*), the Dog-fish (*Scyllium*), the Frog (*Rana*), and the general structure of the Rabbit (*Lepus*).

D. The concluding lectures of the course will deal with the phenomena of Reproduction. Asexual and Sexual Reproduction. Ova and Spermatozoa. Spermatogenesis. Fertilization and Segmentation of the ovum in *Amphioxus* and *Rana*. The development and laval history of the Frog, treated in an elementary fashion.

Laboratory Class.

The Practical work will include the microscopic examination or dissection of the above-mentioned animal types.

Practical Class.—Tuesdays in the Winter Session, and Tuesdays and Thursdays in the Summer Session from 10.30 till 12.30.

MEDICINE.

Professor : R. SAUNDBY, M.Sc. ; M.D. (Edin.), F.R.C.P.
LL.D.

Professor : A. H. CARTER, M.Sc. ; M.D. (Lond.), F.R.C.P.

Assistant : J. W. RUSSELL, M.A., M.D. (Cantab.), F.R.C.P.

Lecture Days.—Tuesday, Wednesday, and Friday, at
3 p.m.

This course extends over two Winter Sessions, and includes—

1. An explanation of the nomenclature and classification of disease. The principles of etiology, symptomatology, diagnosis, prognosis, and treatment of disease in general.
2. A description of special diseases, together with their causation, prevention, diagnosis, prognosis and treatment.

Specific Infectious Diseases.

Diseases of the Nervous System, Functional and Organic ;
of the Brain, Spinal Cord, and Peripheral Nerves.

Diseases of the Muscles.

Diseases of the Heart and of the Blood Vessels.

Diseases of the Respiratory System, Functional and Organic ;
of the Larynx, Trachea, Lungs, and Pleural Sacs.

Diseases of the Digestive System.

Diseases of the Kidneys.

Constitutional Diseases.

The Intoxication and Sunstroke Diseases of the Blood and
Ductless Glands.

Diseases due to Animal Parasites.

Diseases of the Skin.

The Course will be illustrated by specimens from the Pathological Museum, and by drawings, diagrams, and charts.

Written Class Examinations are held during each term and all students are advised to attend them. Regular tutorial instruction is given by Dr. Russell to all students of the Class who wish to attend.

SURGERY.

Professor : BENNETT MAY, M.Sc. ; M.B., B.S. (Lond.),
F.R.C.S.

Professor : GILBERT BARLING, M.Sc. ; M.B., B.S. (Lond.),
F.R.C.S.

Assistant : GEORGE HEATON, M.A., M.B. (Oxon.),
F.R.C.S.

Lecture Days.—Tuesday, Wednesday, and Friday, at
4 p.m.

This Course, extending over two Winter Sessions, is devoted to a systematic consideration of the Principles and Practice of Surgery. It includes a complete description of—

1. General Principles, as illustrated by Repair and its aberrations.

Inflammation and its results.

The various forms of blood poisoning.

Tuberculosis. Syphilis.

Tumour formations, &c.

2. The Surgery of Special Regions as far as possible.

The Assistant to the Chair of Surgery gives tutorial instruction to Senior Students, and holds preparatory classes for the final Examination. Class Examinations are held during each term and all Students are advised to attend them.

The Course will be illustrated by Specimens from the Pathological Museum, and by drawings, diagrams, and charts.

PATHOLOGY AND BACTERIOLOGY.

Professor: R. F. C. LEITH, M.Sc.; M.A., B.Sc., M.B. (Edin.), F.R.C.P.E.

Assistants: { JAMES MILLER, D.Sc., M.D., M.R.C.P.E.
C. J. LEWIS, M.D., D.Sc., F.R.C.P. (Edin.)

Special Lecturer in Bacteriology: JAMES MILLER, M.D.

Assistant Lecturer in Bacteriology: C. LEEDHAM-GREEN, M.B., Ch.M., F.R.C.S.

Demonstrator in Macroscopic Morbid Anatomy:
J. D. STANLEY, M.D.

Assistant Curators of the Pathological Museum: { J. T. HEWETSON, Ch.M., M.D. (Edin.),
F.R.C.S.
THOMAS WILSON, Ch.M., M.D. (Lond.),
F.R.C.S.
A. S. BARNES, M.D., D.Sc., M.R.C.P.

A.—Ordinary course for Medical Students.

This Course consists of two parts, viz., (1) a Systematic Course of Lectures on General Pathology and Bacteriology given in the winter term, and on Special Pathology given in the spring term, and (2) a Practical Course upon the same subjects, given partly concurrent with (1) and partly in the following summer term.

I.—The Systematic Course.

The Lectures commence on October 2nd, and are given daily, at 2 o'clock. They are fully illustrated by Macroscopic, Microscopic and Lantern Preparations, and a Special Series of Demonstrations on Macroscopic Morbid Anatomy is also given weekly. The Lectures include:—

1. GENERAL PATHOLOGY AND BACTERIOLOGY :—

- (1) Altered conditions of the circulation.
- (2) Inflammation.
- (3) Retrogressive Disturbances of Nutrition.
- (4) Tumours.
- (5) Animal Parasites.
- (6) Pathogenic Bacteriology.

2. SPECIAL PATHOLOGY :—

The systematic study of the Etiology, Morbid Anatomy, and Histology of the diseases of the systems and organs of the body.

II. (a)—The Winter Practical Course.

This Course is intended to fit in with and illustrate as far as possible the subjects treated of in the Systematic Lectures. It will meet on Mondays and Thursdays, at 3, immediately after the lectures throughout both the Winter and Spring Terms, each meeting lasting two hours. Special attention will be given to Inflammation, Healing Processes, Tumours, Animal Parasites and Bacteriology.

II. (b)—The Summer Practical Course.

The Summer part of this Class commences on Friday, April 26th, at 2 o'clock, and meets on Monday and Friday of each week, each meeting occupying two hours. The Histological and other Methods of practical pathological investigation are studied, and the various diseased organs and tissues are examined in detail, both macroscopically and microscopically by each student.

Each student is supplied with all the necessary re-agents and apparatus, but students must provide themselves with a microscope. (See Regulations, p. 421).

B.—Course of Advanced Bacteriology.

This Class begins on Tuesday, January 15th, at 3.30 o'clock, and meets on Tuesday, Wednesday, and Friday of each week until the end of March, each meeting occupying two hours. In addition there are special meetings in sections according to arrangement. This Course qualifies for the various Diplomas and Degrees in Public Health of this University and other Bodies. It consists of lectures, demonstrations, laboratory instruction, and practical work in Bacteriology, especially in relation to disease, public health, its application to various industries, the disposal of sewage, &c.

It includes :—

I. GENERAL.—Methods of Sterilisation. Preparation of Culture Media. Isolation and Cultivation of Germs. Methods of Examination, staining, &c., of Bacteria. The separation of their products, &c.

II. SPECIAL.—(1) The systematic study of the various pathogenic and the more important non-pathogenic bacteria in regard to cultural and morphological characters, methods of producing disease, antitoxin treatment and immunity. (2) The examination of water, milk, foods, &c. (3) Antiseptics and sterilisation in detail, &c., &c.

FEE :—Four Guineas.

INCIDENTAL FEE :—One Guinea.

C.—Course of Clinical Pathology & Bacteriology.

A Course suited to qualified medical men is given in the Summer Session, commencing on Tuesday, April 23rd. It meets twice or thrice weekly for about two months; hours of meeting, 3.30 to 5.30, or by arrangement. It is devoted to the pathological and bacteriological methods of practical importance in the diagnosis of disease in hospital or private practice. It includes demonstrations and practical work in—

- (1) Histological Methods for the examination of tumours, pieces of tissue and uterine scrapings.
- (2) The examination of the urine, chemically and microscopically.
- (3) The examination of the gastric contents, for free HCl, for disintegrated blood, &c.
- (4) The examination of the sputum.
- (5) The examination of fluids obtained by puncture of serous and other effusions, by lumbar puncture, by puncture of echinococcal and other cysts.
- (6) The examination of the blood.
- (7) A short consideration of those bacteria commonly met with in pathological processes in man, *e.g.*, the Staphylococci and streptococci, the gonococcus, the pneumococcus, the typhoid bacillus and colon bacillus, the diphtheria bacillus and the tubercle bacillus.

Systematic explanations of these subjects, illustrated by lantern demonstrations, will also be given, in addition to the practical work of the course.

FEE :—£3 3s.

INCIDENTAL FEE :— 15s.

The Pathological and Bacteriological Laboratory is open daily from 9 a.m. till 6 p.m. for the prosecution of private research, under the direction of Professor Leith and his assistants, to whom applications should be made.

The Pathological Museum is open daily, from 9 a.m. till 6 p.m., under the direction of Professor Leith. Several type-written catalogues, containing descriptions and particulars of the specimens, are available for consultation.

HYGIENE AND PUBLIC HEALTH.

Professor: A. BOSTOCK HILL, M.Sc.; M.D., D.P.H.
(Camb.), F.I.C.

Assistant Lecturer in Hygiene: R. A. LYSTER, M.B.,
Ch.B., B.Sc. (Public Health); B.Sc. (Lond.).

Lecture Day.—Mondays, at 3 p.m., during the Winter Session.

This Course will include instruction in Hygiene as required for the ordinary Pass Examination, and will also be specially adapted to the requirements of candidates for degrees and diplomas in Public Health and State Medicine. The Lectures will be illustrated by experiments, diagrams, and a complete set of models. In connection with the Department there is a collection of Sanitary Appliances open to all students attending this class.

The subjects treated will be as follows:—

Introductory, aim and scope of Hygiene, results already obtained.

Water supply—varieties of—quantity and quality of water.

Diseases produced by bad water. Water Analysis.

Air and Ventilation, Impurities of Air, Standard of Purity, Heating and Lighting, Natural and Mechanical Ventilation, Appliances.

Food and Diet, Unwholesome Food, Adulteration of Food, Characteristics of good Meat, Fish, &c. Diseases of Animals in relation to the Health of Man.

The Soil in relation to Health.

The Dwelling and Sanitary appliances in connection therewith.

Drainage and Construction, Scavenging, Disposal of Sewage and Refuse.

Climate and Meteorology.

Infectious Diseases and Methods of Disinfection, Nature of Contagia, Immunity, Isolation, Quarantine, Vaccination.

Statistics in relation to Health.

Offensive Trades.

In the latter half of the Winter Session, commencing in January, a Special Course for candidates for degrees and diplomas in Public Health is given on Sanitary Engineering, Law, and Statistics, on Mondays, at 3 p.m.

MATERIA MEDICA AND PHARMACY.

Lecturer : J. COOLE KNEALE, M.B., Ch.B. ; M.P.S.

Demonstrator : F. R. GREENWOOD, M.B., Ch.B. ; M.D.,
B.S. (Lond.), M.R.C.S.

Lecture Days.—Tuesdays and Thursdays, at 2 p.m., during the Summer Session.

Materia Medica comprises the subjects of Pharmacognosy and Pharmacy.

Instruction in Materia Medica is given in—

- (a) A Course of eighteen Lectures.
- (b) Eighteen Practical Pharmacy Classes.
- (c) Thirteen Tutorial Classes.

A.—Lectures on Materia Medica.

This Course includes the natural history, sensible and chemical properties and modes of administering remedies, ordinarily so-called. Such remedies consist of

- (a) Inorganic Substances.
- (b) Chemical Products.
- (c) Vegetable Substances.
- (d) Animal Substances.

B.—Practical Classes.

Practical instruction is given in the following subjects, which cannot be satisfactorily taught in lectures, on Tuesdays and Thursdays, at 3 p.m. :—

- (1) Pharmacy, or the processes for obtaining the Pharmaceutical preparations of drugs.
- (2) Prescription Writing.
- (3) Dispensing, or the making up of medicines in forms suitable for administration in disease.

C.—Tutorial Classes.

These will consist of a recapitulation of the Lectures and Practical Classes.

Students have access to the Materia Medica Museum, where facilities are afforded for the practical examination of specimens.

The Museum contains (1) a collection of the official and officinal drugs, organic and inorganic; (2) a collection of drugs from all sources for lecture purposes; (3) a collection of the whole of the galenical preparations of the British Pharmacopœia; (4) a complete set of apparatus used in Pharmaceutical work.

THERAPEUTICS.

Professor: ARTHUR FOXWELL, M.Sc.; M.A., M.D.
(Cantab.), F.R.C.P.

Assistant Lecturer in Pharmacology: W. A. PORTS, M.D.;
B.A. (Cantab.), M.D., C.M. (Edin.).

Lecture Days.—Mondays and Thursdays, at 3 p.m., during the Winter Session.

Syllabus.

A. General Therapeutics.

1. Rest, Exercise (Massage, &c., Habits, Nursing, Heat, Cold, Personal Hygiene.
2. Diet.
3. Natural Mineral Waters, their efficacy and its rationale. Short descriptions of illustrative Bathing and Drinking Spas. Inhalation and Douching.
4. Climatology, Temperature, Humidity, Winds, as they affect Climate. Continental, Marine, and Mountain Climates. Classification of the chief Climatic Resorts, with illustrative descriptions of a few types.

B. Pharmacology.

An experimental course of twenty lectures.

Books.

Pharmacology. Cushny or Hale White (small).

Practical Physiology.

Diet. Hutchinson; Walker and Hall (Purin Bodies), Luff (Gout).

Mineral Waters. Hermann Weber.

Climatology. Hann (Principles). Burney Yeo (Descriptive).

MIDWIFERY.

Professor: EDWARD MALINS, M.Sc.; M.D. (Edin.),
F.R.C.P.

Assistant: C. E. PURSLOW, M.D. (Lond.), M.R.C.P.

Lecture Days.—Mondays and Thursdays, at 4 p.m., during the Winter Session.

The course comprises—The Physiological Anatomy of the pelvis and organs of generation in the female. The Physiology and development of the ovum and foetus. The Physiology of pregnancy—the change effected by it; the diagnosis and the management of pregnancy. The Physiology and mechanism of labour. The conduct of normal labour. The Physiology and management of Child-bed. Obstetric Surgery. The Pathology of pregnancy. The Pathology of labour. The Diseases of Child-bed.

GYNÆCOLOGY.

Professor: JOHN W. TAYLOR, M.Sc.; M.D., F.R.C.S.

Assistant: C. E. PURSLOW, M.D. (Lond.), M.R.C.P.

Lecture Days.—Tuesdays, and Fridays, at 4 o'clock, during the Winter Session.

SYLLABUS.

General Anatomical Considerations :

The boundaries and supports of the Peritoneal Cavity.
The Pelvic Diaphragm and Pelvic Floor.
The Peritoneum.

The Anatomy of the External and Internal Genitalia :

Ovulation.
The Retro-peritoneal Vessels.
The Parovarium.

Normal Menstruation :

Amenorrhœa.
Menorrhagia.
Dysmenorrhœa.

Gynæcological Examination.

Diseases of the Vulva.

Injuries and Diseases of the Vaginal Entrance.

Diseases and Injuries of the Vagina.

Genital Atresia and Genital Doubling.

(Vaginal and Abdominal Section.)

Diseases of the Uterus :

Inflammatory Diseases of the Uterus.

Adenomatous Disease of the Uterus.

Displacements of the Uterus.

Inversion of the Uterus.

Myoma of the Uterus.

Cancer and Sarcoma of the Uterus.

Diseases of the Ovaries :

Inflammation of the Ovaries.

New Growths—

Ovarian Cystoma.

Ovarian Dermoids.

Ovarian Papilloma.

Ovarian Fibroma.

Ovarian Sarcoma and Carcinoma.

Parovarian Cysts.

Broad Ligament Tumours.

Diseases of the Fallopian Tubes :

Gonorrhœal Salpingitis.

Tubercular Salpingitis.

New Growths of the Fallopian Tubes.

Extra Uterine Pregnancy and Intra-peritoneal Hæmatocele :

Ovarian Pregnancy.

Tubal Pregnancy :

Tubo-Abdominal Pregnancy.

Tubo-Ligamentary Pregnancy.

Tubo-Uterine Pregnancy.

Demonstrations.—The Assistant holds a class for instruction in Midwifery and Gynæcology for students preparing for their final examinations, on Tuesdays, throughout the Winter and Summer Sessions.

FORENSIC MEDICINE & TOXICOLOGY.

Professor : J. T. J. MORRISON, M.Sc. ; M.A., M.B., B.C.
(Cantab.), F.R.C.S.

Assistant : R. A. LYSTER, M.B., Ch.B., B.Sc. (Public
Health); B.Sc. (Lond.)

Forensic Medicine.

Lecture Days.—Mondays, Thursdays and Fridays, at
3 p.m., during the Summer Session.

The Course treats of the several branches of Legal
Medicine necessary to the medical practitioner for his
guidance in Medico-Legal Inquiries, and for giving
evidence in civil and criminal causes in Courts of
Justice.

SYLLABUS.

Historical outline of the legal and social relations of the
Medical profession in England. Rise of physicians,
surgeons, and apothecaries, and their Corporations.
The first Medical Act, 1511; the Apothecaries' Act,
1815; the Medical Acts of 1853 and 1856. General
Medical Council. The Medical Register.

The scope of Forensic Medicine. Legal responsibilities and
duties of medical men. The process of law before
Coroner, Magistrate, and Judge. Medical Evidence.

The signs of death. Determination of the date of death.
The causes of death, and particularly of sudden
death. The post-mortem as a medico-legal inquiry.
Exhumation.

Identification of the living and of the dead. Determination
of age, sex, stature, and personal peculiarities.

Death by violent or unnatural causes—drowning, hanging,
strangulation, suffocation, and smothering; wounds
and mechanical injuries; extremes of temperature;
explosives; electric shock; lightning stroke; starva-
tion. Indications of accident, suicide, or homicide.

Wounds and other personal injuries; question of accident
or assault; compensation claims in such cases.

Offences against chastity; rape; unnatural offences.

Criminal abortion. Live birth. Infanticide.

Malapraxis and malingering.

Lunacy certificates.

Life Assurance.

The Lectures will be supplemented by a practical Course of laboratory work on Mondays and Tuesdays, at 4 p.m.

SYLLABUS.

Human Blood: its microscopical, chemical, and spectroscopical features. Special characters of the blood of other mammals, birds, fishes, and amphibians.
 Discrimination of stains resembling blood: iron salts, vegetable colors, aniline dyes.
 Seminal stains. Gonorrhœal pus.
 Hair of man and domestic animals.
 Fibres: cotton, linen, wool, silk.
 Marks made by vitriol and other mineral acids.
 Demonstration of the Fœtus at various ages.
 Finger-prints and footmarks.

Toxicology.

Lecturer: A. BOSTOCK HILL, M.Sc.; M.D., D.P.H. (Camb.), F.I.C.

Assistant: R. A. LYSTER, M.B., Ch.B., B.Sc. (Public Health); B.Sc. (Lond.)

Lecture Day.—Mondays, at 2 o'clock, during the Summer Session.

This course comprises a discussion on the mode of action of poisons and the various circumstances influencing this; classification of poisons; methods of procedure in cases of poisoning; detection and estimation of poisons; symptoms; post-mortem appearances observed, and treatment to be adopted in cases of poisoning.

The lectures are supplemented by a Practical Course of laboratory work on Fridays, at 2 p.m.

MENTAL DISEASES.

Professor: E. B. WHITCOMBE, M.Sc., M.B., Ch.B.; M.R.C.S.

Lecture Days:—During the Summer Session, Tuesdays and Thursdays, at 2 p.m.

The Course will consist of an account of the various forms of Mental Disease, including their history, etiology, pathology, symptoms, and treatment. Illustrations of living examples, and pathological specimens will be utilised as far as possible. The medico-legal aspect of insanity will be included in the course.

OPERATIVE SURGERY.

Professor: JORDAN LLOYD, M.Sc., M.D., Ch.B.; M.B., M.S. (Durh.), F.R.C.S.

A class of Operative Surgery, consisting of at least ten demonstrations, is held each Winter, after Christmas. All the chief operations in surgery are performed on the dead body by the Professor, and also by members of the Class.

OPHTHALMOLOGY.

Professor: PRIESTLEY SMITH, M.Sc.; M.B., Ch.B., F.R.C.S.

Lecture Days.—Tuesdays and Fridays, at 2 p.m., during the Winter Session (January to March).

These lectures deal systematically with the nature and treatment of the principal diseases of the eye. The several parts of the subject are taken in the following order:—

1. Disorders of the Conjunctiva.
2. Disorders of the Cornea.
3. Disorders of the Uveal Tract: Iritis, Cyclitis, Choroiditis.
4. Injuries and Sympathetic Ophthalmia.
5. Glaucoma.
6. Cataract.
7. Disorders of the Retina.
8. Disorders of the Optic Nerves, Tracts, and Centres.
9. Refraction. Acuteness of Vision. Accommodation.
10. Hypermetropia. Myopia. Astigmatism.
11. Strabismus and other disorders of the Motor Apparatus.
12. Disorders of the Orbit and Lachrymal Apparatus.

In connection with this Course, Clinical demonstrations and practical instruction in the methods of examining the eye, are given in the Eye Department of the Queen's Hospital.

MEDICAL ETHICS.

Professor Saundby will deliver a short course of lectures on this subject during the Summer Session, the dates and times will be announced at the beginning of term.

All Students are requested to take notice that they are expected to attend *at least two-thirds* of the lectures of each course, and also the class examinations, and that the Schedules of those who do not observe these regulations will not be signed.

INFORMATION CONCERNING HOSPITAL WORK.

THE GENERAL AND QUEEN'S HOSPITALS, BIRMINGHAM.

The Practices of these Hospitals are amalgamated for the purpose of Clinical Instruction which is carried on under the direction of the Birmingham Clinical Board. They present an almost unrivalled field for Clinical work, possessing more than **450 beds**, treating annually **8,000 in-patients** and **80,000 out-patients**, and, as students spend part of their curriculum in each Hospital, they have every opportunity of acquiring a varied, full, and practical knowledge of their professional work.

The curriculum is adapted in the first place to meet the needs of the students of the Birmingham University, but it is also well adapted to the requirements of students preparing for the examinations of all other Universities and Licensing Bodies.

The advantages that the combined Hospitals offer to students does not cease with graduation, for there is probably no city in which students who have qualified have a larger number of Resident posts open to them.

At the **GENERAL HOSPITAL** there are:—

A **RESIDENT MEDICAL OFFICER**, who is elected annually, and has a salary of £70 a year.

A **RESIDENT SURGICAL OFFICER**, who is elected annually, but is eligible for re-election for three years, at a salary of £100 a year.

A **RESIDENT PATHOLOGIST**, who is elected for a period of six months, and has a salary at the rate of £50 a year.

Three HOUSE PHYSICIANS, who hold office for six months, and who are provided with board and residence, and have a salary at the rate of £50 a year.

Four HOUSE SURGEONS, who hold office for six months, and who are provided with board and residence, and have a salary at the rate of £50 a year.

Two ASSISTANT HOUSE SURGEONS, who are elected every three months, and are provided with board and residence, and a salary at the rate of £40 a year.

One HOUSE SURGEON to the Gynæcological, Ophthalmic and Aural Departments, who holds office for six months, and is provided with board and residence, and has a salary of £50 a year.

A RESIDENT MEDICAL OFFICER at the Jaffray Hospital, who is elected annually, but is eligible for re-election, and who receives £150 a year.

A RESIDENT MEDICAL ASSISTANT at the Jaffray Hospital, who is not necessarily qualified. He is provided with board and residence, and holds office for three months.

At the **QUEEN'S HOSPITAL** there are:—

Three House Physicians, tenable for six months, at a salary of £50 a year.

Three House Surgeons, tenable for six months, at a salary of £50 a year.

One Obstetric and Ophthalmic House Surgeon tenable for six months. Salary at the rate of £50 a year.

One Resident Dresser (post vacant on the first day of January, April, July, and October, tenable for three months). Candidates for this appointment need not be qualified.

At the CITY WORKHOUSE AND WORKHOUSE INFIRMARY.

Five Resident Medical Officers.

At the BIRMINGHAM GENERAL and BRANCH DISPENSARIES.

Eight Resident Surgeons.

At the BIRMINGHAM LUNATIC ASYLUMS.

Five Assistant Medical Officers.

At the CITY FEVER HOSPITALS.

Three Assistant Medical Officers.

At the CHILDREN'S HOSPITAL.

One Resident Surgical Officer.

One Resident Medical Officer.

At the BIRMINGHAM AND MIDLAND EYE HOSPITAL.

Three Resident Surgeons.

At the ORTHOPÆDIC AND SPINAL HOSPITAL.

Four Clinical Assistants (non-resident).

At the EAR AND THROAT HOSPITAL.

One House Surgeon, with salary at the rate of £70 per annum.

Four Clinical Assistants (non-resident).

Besides the above-mentioned positions in Institutions in the City of Birmingham, there are numerous resident salaried appointments in the Hospitals in the immediate vicinity which are open to the students of the Birmingham Medical School.

Appointments are also open to Graduates in the Naval, Military, Indian Medical and Colonial Services.

HOSPITAL FEES.

THE COMPOSITION FEE for attendance for the full period required by the various examining bodies on the Medical and Surgical Practice and on the Clinical Lectures at both Hospitals is £42

N.B.—This payment can be made in three instalments of £12, £15, and £15 each—the first on entrance at Hospital, the second at the commencement of the second year, and the third at the commencement of the third year at Hospital.

OCCASIONAL FEES FOR BOTH MEDICAL AND SURGICAL PRACTICE.

One Year's Attendance	£22 10s.
Six Months' „	£14.
Three Months' „	£10.

OCCASIONAL FEES FOR EITHER MEDICAL OR SURGICAL PRACTICE.

One Year's Attendance	£11 11s.
Six Months' „	£7.
Three Months' „	£5.

All Hospital fees must be paid at the time of registration to the Secretary of the Clinical Board, who signs all schedules for Clinical work. *Cheques should be drawn in favour of Mr. George Heaton.*

REGISTRATION OF HOSPITAL STUDENTS.

Students must register with the Secretary of the Clinical Board at the commencement of their second year, and of every succeeding year. Due notice will be given at the University and at the Hospitals of the days and hours of registration. Fees must be paid at the time of registration.

Students are, on first entering for their Hospital work, allocated in equal numbers to the General and the Queen's Hospitals respectively.

A student remains for one year at one Hospital, and in the next year passes to the other Hospital, and so on until his fifth year, when he may attend whatever classes he chooses at either Hospital, subject to the Regulations.

REGULATIONS FOR HOSPITAL WORK.

During the First Year there is no Hospital Work.

SECOND YEAR.

Students must attend Hospital for two hours on Saturday mornings, when a Surgical Tutorial Class will be held, and instruction given in Clinical Surgery.

THIRD YEAR.

Out-Patient dressing, three months.

In-Patient dressing, six months.

Clinical Lectures on Surgery.

Surgical and Medical Ward Classes.

Medical Tutorial Classes (three months attendance will be required upon these before In-Patient dressing is commenced).

FOURTH YEAR.

In-Patient clerking, six months.

Clinical Lectures on Medicine.

Medical and Surgical Ward Classes.

Post-mortem clerking, three months. Attendance at post-mortem examinations and demonstrations during the year.

FIFTH YEAR.

Clinical instruction in Medicine and Surgery.

Clinical Midwifery (twenty cases).

Gynæcological clerking, three months.

Ophthalmology, three months.

Vaccination, six weeks.

Course in Anæsthetics. Attendance on three Lectures, and the administration of Anæsthetics on ten cases.

Fever Hospital, three months.

Hospital for Mental Diseases, three months.

THE GENERAL HOSPITAL.

The Hospital contains 342 beds, and of these 327 are in daily use, upwards of 5,000 in-patients passing through the wards in the course of a year.

There are special wards for children, for gynæcological cases, and for septic and infectious cases, and in addition special beds reserved for eye and ear cases.

The out-patient hall has accommodation for some 500 or 600 patients, and some 60,000 out-patients are treated there annually.

The Post-mortem Department is in a separate building. It consists of a Mortuary with a small chapel, a Post-mortem Room proper, and Laboratories for Bacteriology and Morbid Histology. In addition there are separate rooms in the main building, adjoining the various Medical and Surgical Wards, for pursuing Clinical Pathology, and these are under the direction of special officers.

There is one large and two smaller Operating Theatres, all designed and fitted on the most modern lines.

In connection with the Hospital is the Jaffray Suburban Hospital at Gravelly Hill. To this institution, which contains 52 beds, the chronic cases are transferred, when fit to be moved. This allows the main Hospital to be kept full of acute cases.

THE GENERAL HOSPITAL STAFF.

Honorary Consulting Physicians :

Sir WALTER FOSTER, Knt., M.D., D.C.L., LL.D., F.R.C.P., M.P.
EDWIN RICKARDS, M.A., M.B. (Oxon.), F.R.C.P.

Consulting Obstetric Officer :

EDWARD MALINS, M.D., F.R.C.S.

Honorary Physicians :

ROBERT SAUNDBY, M.D., LL.D., M.Sc., F.R.C.P.
ROBERT M. SIMON, M.D. (Cantab.), F.R.C.P.
T. STACEY WILSON, M.D., M.R.C.P.
T. SYDNEY SHORT, M.D., M.R.C.P.

Honorary Surgeons :

Sir THOMAS F CHAVASSE, Knt., M.D., F.R.C.S.
GILBERT BARLING, M.B., B.S., F.R.C.S.
WILLIAM F. HASLAM, F.R.C.S.
GEORGE HEATON, M.A., M.B., B.Ch. (Oxon.), F.R.C.S.

Honorary Obstetric Officer :

THOMAS WILSON, Ch.M., M.D.

Honorary Ophthalmic Surgeon :

D. C. LLOYD-OWEN, M.D., F.R.C.S.I.

Honorary Aural Surgeon and Laryngologist :

F. W. FOXCROFT, M.D., C.M.

Physician in Charge of Skin Department :

A. DOUGLAS HEATH, M.D., M.R.C.P.

Assistant Physicians :

Assistant Surgeons :

JAMES W. RUSSELL, M.A., M.D., F.R.C.P. ALBERT LUCAS, F.R.C.S.
A. STANLEY BARNES, M.D., M.R.C.P. LEONARD P. GAMGEE, F.R.C.S.

Assistant Obstetric Officer :

JOHN T. HEWETSON, M.D., Ch.M., F.R.C.S.

Casualty Assistant Physicians :

WILLIAM H. WYNN, M.D., M.R.C.P.
J. E. SAWYER, M.D., M.R.C.P.

Visiting Pathologist :

J. MILLER, M.D., D.Sc.

Anæsthetists :

SYDNEY HAYNES, M.D.
W. J. MCCARDIE, B.A., M.B., B.C. (Cantab.)

Surgical Casualty Officers :

F. VICTOR MILWARD, F.R.C.S.
FRANK BARNES, M.B., M.S., F.R.C.S.

Surgical Photographer and Radiographer :

J. HALL EDWARDS, M.R.C.S.

Dental Surgeon :

A. T. HILDER, L.D.S.

ARRANGEMENTS FOR CLINICAL TEACHING.

I.—MEDICINE.

The Medical Wards are visited daily by the Physicians and instruction is given by them to the students who accompany them.

Clinical Ward Clerks are selected every three months for duty in the wards. They are aided by the House Physicians in note taking and in clinical diagnosis.

Clinical Lectures on cases in the Hospital wards are delivered by one of the Physicians once every week, on Mondays, at 10.30 a.m.

Special Ward Classes for Senior students are taken on Tuesdays and Wednesdays, at 10.30 a.m., by one of the Physicians throughout term time.

MEDICAL TUTORIAL CLASSES.

The Senior Medical Tutor, Dr. Russell, holds a class weekly on Wednesdays, at 12 o'clock, for students reading for their Final Examinations.

The Junior Medical Tutor holds two classes weekly, on Tuesdays and Fridays, at 12 o'clock, for students before they commence to clerk in the wards.

An Assistant Physician and a Casualty Assistant Physician attend daily in the Out-patient Department and give clinical instruction.

II.—SURGERY.

The Surgical Wards are visited daily by the Surgeons, and clinical instruction given to students who accompany them.

Surgical In-patient Dressers are appointed every three months. They are attached in equal numbers to each Surgeon, accompany him on his rounds, assist at the surgical operations, and, under the direction of the House Surgeons, dress the cases in the wards.

A *Clinical Lecture* is delivered every Thursday morning during term time, at 9.30. by one of the Visiting Surgeons. on some case of interest in the wards.

Senior Ward Classes are held on Monday and Friday mornings, at 9.30, during term time by one of the Surgeons.

A *Junior Ward Class* is also held once a week, on Saturdays, by Mr. Haslam or Mr. Heaton, for students in their first year of attendance at Hospital.

One of the Assistant Surgeons and a Casualty Assistant Surgeon attend daily in the Out-patient Department. The student here learns the diagnosis and treatment of minor surgical ailments, and has an opportunity of dressing in the Casualty Department, where an immense number of accidents are attended to.

Tutorial Classes.—The Senior Surgical Tutor, Mr. Gamgee, holds a class once a week for students reading for their Final Examinations, and the Junior Surgical Tutor, Mr. Lucas, holds a class for Junior students before they enter the Surgical wards.

III.—THE SPECIAL DEPARTMENTS.

GYNÆCOLOGY.

Dr. Thomas Wilson gives clinical instruction in the wards and in the Out-patient Department, and a Clinical Lecture is given once a month, on Mondays, at 10.30 a.m. Senior students are appointed as clerks every three months.

The Gynæcological Tutor, Dr. Hewetson, holds a class for Senior students on Tuesdays, at 12.0.

Surgical operations are performed daily from 10 to 1 in the two main Operating Theatres. The large experience to be gained from this source may be gathered from the fact that during the year 1904 no less than 3,244 operations were performed.

AURAL AND LARYNGOLOGICAL DEPARTMENT.

This department is under the charge of Dr. F. W. Foxcroft, who attends twice weekly to see out-patients. Demonstrations of Diseases of the Ear and Throat are given every Friday, at 10.30 a.m., during term time.

DEPARTMENT FOR DISEASES OF THE SKIN.

The Department for the treatment of Diseases of the Skin is under the care of Dr. Douglas Heath, who attends twice weekly, on Tuesday and Friday, and gives Demonstrations on Skin cases.

X RAY AND LIGHT TREATMENT DEPARTMENT.

This Department is under the charge of Mr. Hall-Edwards, who attends daily at noon. It includes all the various methods of investigating and treating disease by means of electricity, and there is an installation for the treatment of Skin Diseases by the Finsen Rays.

OPHTHALMIC DEPARTMENT.

Ophthalmic cases are seen on Thursdays by Mr. Lloyd Owen as out-patients. Cases requiring operation are admitted into beds in the Hospital specially reserved for such cases.

DENTAL DEPARTMENT.

There is an Out-patient Dental Department, under the charge of Mr. A. T. Hilder, L.D.S., who attends on Wednesday and Saturday mornings. Students are given instruction in the manufacture of the various Dental appliances required after injuries and surgical operations.

PATHOLOGICAL DEPARTMENT.

This Department is under the charge of the Visiting Pathologist. There are also two annually elected Clinical Pathologists, and a Resident Pathologist.

Students are appointed as clerks for periods of three months, and work in the Pathological Laboratories under

the superintendence of the Visiting and Resident Pathologists.

Chemical and Bacteriological investigation of material from the wards is carried out by the Medical and Surgical Clinical Pathologists, who have a complete equipment for that purpose.

ANÆSTHETICS.

Each term instruction classes in the administration of Anæsthetics are held by one of the Anæsthetic Officers. After attending these each student has the opportunity of administering anæsthetics under superintendence in a given number of cases, and thus of practically learning the administration.

THE QUEEN'S HOSPITAL.

The Hospital contains 132 beds (shortly to be increased by the erection of a new building to 160), distributed into wards for the treatment of accidents, and of urgent medical, surgical, gynæcological and ophthalmic cases; a special ward being reserved for children. During 1905 the in-patients treated numbered 2,189, and the out-patients 31,096.

The Out-patient Consulting Rooms and Casualty Dressing Rooms are grouped conveniently around the Out-patient Hall, and are in daily use.

The Operating Theatre is well lighted and thoroughly well appointed to meet the requirements of aseptic surgery. In connection with it is a room installed with the apparatus for radiography.

The Pathological Department is an isolated block under the charge of the Pathologist, who is a member of the Honorary Staff. It comprises a post-mortem room, mortuary, and laboratories for bacteriology and general pathology. There is also a clinical room in the main building provided with microscopes and other apparatus for routine clinical pathology.

THE QUEEN'S HOSPITAL STAFF.

Consulting Physicians:

SIR JAMES SAWYER, KNT., M.D., F.R.C.P., F.R.S.E.
CORNELIUS W. SUCKLING, M.D., M.R.C.P.

Consulting Surgeons:

FURNEAUX JORDAN, F.R.C.S. | J. ST. S. WILDERS, M.R.C.S.
FRANK MARSH, Ch.M., F.R.C.S. BENNETT MAY, B.S., F.R.C.S.

Consulting Ophthalmic Surgeon:

PRIESTLEY SMITH, F.R.C.S.

Physicians:

ALFRED H. CARTER, M.D., F.R.C.P.
ARTHUR FOXWELL, M.A., M.D., F.R.C.P.
O. J. KAUFFMANN, M.D., M.R.C.P.

Surgeons:

JORDAN LLOYD, M.S., F.R.C.S.
J. T. J. MORRISON, M.A., B.C., F.R.C.S.
C. A. LEEDHAM-GREEN, Ch.M., F.R.C.S.

Ophthalmic Surgeon:

WILFRID ALLPORT, M.B., B.S.

Obstetric Officer:

C. E. PURSLOW, M.D., M.R.C.P.

Physicians for Out-Patients:

J. DOUGLAS STANLEY, M.D., M.R.C.P.
JOSEPH GEORGE EMANUEL, M.D., M.R.C.P.

Surgeons for Out-Patients:

W. BILLINGTON, M.B., M.S., F.R.C.S.
A. W. NUTHALL, Ch.M., F.R.C.S.

Pathologist:

(Vacant.)

Days of Attendance for Out-Patients (9 a.m.)

Monday.—Dr. Kauffmann, Mr. Morrison, and Dr. Purslow.

Tuesday.—Dr. Stanley, Mr. Lloyd, and Mr. Allport.

Wednesday.—Dr. Foxwell, Dr. Emanuel, and Mr. Leedham-Green.

Thursday.—Dr. Stanley, Dr. Purslow, and Mr. Nuthall.

Friday.—Dr. Emanuel, Mr. Allport, and Mr. Billington.

Casualty patients are attended on Thursday and Friday by Mr Nuthall Wednesday and Saturday by Mr. Billington; and on Monday and Thursday by (vacant).

ARRANGEMENTS FOR CLINICAL TEACHING.

MEDICINE.

Medical Ward Clerks are appointed from the Third Year students for terms of three and six months. They are attached to one of the Physicians, who directs their studies and gives practical instruction to them and to all other students who accompany him on his Hospital rounds. The clerks are also greatly helped by the House Physicians in practical methods of diagnosis and in note-taking.

Clinical Lectures are given in rotation by the Physicians on Thursday mornings, at 9.30.

Ward Classes are conducted by the Physicians each term at 10.30 on Mondays, Wednesdays, and Fridays.

Tutorial Classes are held at 12 o'clock on Tuesdays and Fridays by one of the Physicians to out-patients. The Tuesday class is designed for Clerks and Dressers; the Friday class for students preparing for the Final Examinations.

Out-Patient Clinic.—Members of the Medical Staff attend daily (except Saturday) to see out-patients, and they give clinical instruction on the cases.

II.—SURGERY.

Surgical Dressers are appointed every three months for duty in the wards. They are allotted to one of the Surgeons for terms of three or six months; they accompany him, with other students, when he visits the Hospital to see his patients and give instruction; and they assist at operations. Under the supervision of the House Surgeons they prepare notes and dress such cases as may be assigned to them.

Clinical Lectures are given in rotation by the Surgeons on Friday mornings, at 9.30.

A *Ward Class* is conducted every Thursday morning, at 10.30, by Mr. Morrison.

Tutorial Classes are held by one of the Surgeons to out-patients on Mondays, at 12, and Saturdays, at 9.30 a.m.; the former class is designed for students in their last year; the latter for Out-patient Dressers.

Special Classes for First Year Students are held on Saturdays, at 9.30 a.m., by one of the Surgeons, and on the same day, at 10.30 a.m., by one of the Surgeons to Out-patients, the former in the wards, and the latter in the Out-patient Room.

Out-patient Clinic.—One of the Surgeons and one of the Surgeons to Out-patients attend daily to see surgical out-patients and casualties, except on Saturday, when only casualty cases are seen. In these departments the student has an abundant field for surgical study and practice under the tuition of the Staff.

III.—GYNÆCOLOGY.

Clerks in the Gynecological Department are appointed every three months from the Senior students. They attend Dr. Purslow in his ward and Out-patient Room, and assist at operations. It is part of their duty also to take notes under the direction of the House Surgeon.

Clinical Lectures are given by Dr. Purslow on Wednesdays, at 11.30 a.m., during the first half of the Winter Session.

Out-patient Clinic and Operations.—Dr. Purslow attends at 9 a.m. on Mondays and Thursdays to see out-patients and to give instruction to those students who are present; and Gynecological operations are performed by him on Saturdays, at 9.30 a.m.

IV.—OPHTHALMOLOGY.

Clerks in the Ophthalmic Department are appointed every three months. They attend Mr. Allport in the Out-patient Room and wards, take notes of the cases, and assist at operations.

Clinical Demonstrations are given by Mr. Priestley Smith and Mr. Allport on Wednesdays, at 9.30 a.m.

Out-patient Clinic and Operations.—Mr. Allport attends on Tuesdays and Fridays, at 9 a.m., to see out-patients and to give Clinical instruction to students; and operations on cases of eye disease are performed by him on Saturdays, at 11.30 a.m.

V.—PATHOLOGY.

Clerks in the Pathological Department are appointed every three months, and under the direction of the Pathologist they make post-mortem examinations and carry out bacteriological, microscopical, and chemical work in the laboratories, and keep records.

Demonstrations are specially given by the Pathologist on Saturdays, at 10 a.m.

Autopsies are conducted by the Pathologist, and instruction is given by him to the students attending the inspection.

VI.—MIDWIFERY.

Midwifery cases are assigned for attendance in the Queen's Hospital Maternity District, under the supervision of the Honorary Obstetric Officer and the Obstetric House Surgeon.

Before attending practical midwifery, students must have passed their Anatomical and Physiological Examinations.

They shall conform to the Queen's Hospital Bye-laws which relate to the work of its Midwifery Department.

Students must apply in the first place to the Secretary of the Clinical Board, who will furnish them with a "Clinical Midwifery Card," which shall be signed by the Obstetric Officer on the completion of the duties, and returned.

They shall not be engaged in Surgical Dressing, Post-mortem, or Dissecting Room work during the time of their attendance.

Clinical Board Regulations

For the appointments of Resident Clinical Assistant at the Jaffray Hospital and Resident Dresser at the Queen's Hospital.

These posts are awarded by examination.

The Examinations are only open to students taking out the whole of their clinical course at the School of Medicine of the University of Birmingham.

The Resident Dresser at Queen's Hospital is at liberty to attend lectures at the University in the afternoons. Students before competing must be certified for at least three months' in-patient clerking and three months' in-patient dressing, but they must not have exceeded the limit of the five years' curriculum. The possession of a recently-obtained qualification is not a bar to the holding of either of these appointments.

The Clinical Assistant at the Jaffray Hospital is also allowed time to attend lectures.

Clinical Prizes.

The following Prizes are given annually by the Clinical Board:—

Senior Medical Prize, for students <i>during</i> their				
"final" year, to the value of	£5 5s.
Senior Surgical Prize, ditto	£5 5s.
Junior Medical Prize, for students <i>before</i> the				
commencement of their "final" year, to the				
value of	£3 3s.
Junior Surgical Prize, ditto	£3 3s.
Midwifery Prize, for students <i>during</i> their				
"final" year, to the value of	£4 4s.

These Prizes are awarded at the end of the Summer Session, and are open to students registered by the Clinical Board, who have attended not less than one Six Months' Course of Medical or Surgical Lectures at the University.

For the SENIOR MEDICAL PRIZE, every candidate must produce a certificate of having held the office of Clinical Clerk in either the General or the Queen's Hospital for a

period of *six* months ; and must deliver to the examiners notes of *four* medical cases which have been personally observed and reported by him during his clerkship, the same to be certified to by the initials of the Physician under whose care the cases were placed. The examination will include a paper of *four* questions on the Principles and Practice of Medicine ; a written diagnosis of *two* living cases, with grounds for the same ; together with such additional evidence of a practical knowledge of Medicine as the examiners for the time being shall require.

For the JUNIOR MEDICAL PRIZE, every candidate must produce a certificate of having held the office of Clinical Clerk in either the General or the Queen's Hospital for a period of *three* months. The examination will include a paper of *four* questions on the Principles of Medicine ; together with such evidence of a practical knowledge of the methods of physical examination, and of the names, uses, and methods of employment of common drugs, remedies, instruments, and apparatus, as the examiners for the time being shall require.

For the SENIOR SURGICAL PRIZE, every candidate must produce a certificate of having held the office of Surgical Dresser in either the General or Queen's Hospital for a period of *six* months ; and must deliver to the examiners notes of *four* surgical cases which have been personally observed and reported by him during his dressership, the same to be certified to by the initials of the Surgeon under whose care the cases were placed. The examination will include a paper of *four* questions on the Principles and Practice of Surgery ; the written diagnosis of *two* living cases, with grounds for the same ; together with such additional evidence of a practical knowledge of Surgery as the examiners for the time being shall require.

For the JUNIOR SURGICAL PRIZE, every candidate must produce a certificate of having held the office of Surgical Dresser in the General or Queen's Hospital for a period of *three* months. The examination will include a paper of *four* questions on the Principles

of Surgery; together with such evidence of the names, uses, and methods of employment of common surgical instruments, bandages, and apparatus, as the examiners for the time being shall require.

For the MIDWIFERY PRIZE every candidate must produce a certificate of having personally attended at least *ten* cases of Midwifery, and also a certificate of having attended the Out-patient Gynæcological Department at either the General or the Queen's Hospital for *three* months. The examination will include a paper of *two* questions on Diseases peculiar to Women, and *two* questions on the Principles and Practice of Midwifery; together with a practical examination of such a kind as the examiner for the time being shall determine.

Notice of intention to compete for the above Prizes must be communicated to one of the Honorary Secretaries of the Clinical Board at least *seven days* before the day of examination.

In no case will any Prize be awarded unless at least *seventy per cent.* of the total possible number of marks be obtained.

A professional qualification obtained during the Summer Session *immediately* preceding these examinations does not—*per se*—disqualify a candidate.

Information for Students attending the Hospitals.

(See also page 454.)

1. The arrangements for Clinical Teaching are, as far as possible, conducted at both Hospitals on the same plan.

2. The recognised hours for Hospital attendance of students are from 9 a.m. to 1 p.m. daily.

3. The Teaching provided consists of:

- 1, Clinical Lectures in the theatre or lecture rooms;
- 2, Clinical Instruction in the Wards; 3, Tutorial Classes; 4, Pathological Demonstrations.

The first three forms are given by the Members of the Honorary and Assistant Staffs. The Tutorial Classes are conducted by Special Tutors selected for that duty.

4. Clinical Instruction is given in the Medical or Surgical Wards daily, but not during the hour set apart for the Clinical Lectures.

5. Registers of attendance on Clinical Lectures and Tutorial and Ward Classes are kept. Cards are supplied to Final year students, on which each individual attendance will be certified by the teacher.

6. During the First year of the Medical Curriculum, attendance at Hospital is not recognised.

During the Second year of the Medical Curriculum students should attend a Surgical Tutorial Class at the Hospital once a week. [This course is not compulsory on Candidates for the Diplomas of the English and Scotch Conjoint Boards, and will, under no circumstances, be reckoned as one of the years required by the Schedules of the above-mentioned bodies; all students are, however, strongly advised to attend this course during this year.]

During the Third year of the Medical Curriculum students should attend :

a, Clinical Lectures on Surgery; *b*, Medical and Surgical Ward Classes; *c*, Surgical Dressing (including three months Out-Patient and six months In-Patient Dressing); *d*, Medical Tutorial Classes. N.B.—These must be attended for three months before In-Patient Dressing is commenced.

(No student will obtain credit for this year of Hospital work unless he has previously passed his Anatomical and Physiological Examinations.)

During the Fourth year of the Medical Curriculum students should attend :

a, Clinical Lectures on Medicine; *b*, Medical and Surgical Ward Classes; *c*, Medical Clinical Clerking for six months; *d*, Clinical Gynæcology; *e*, Post-mortem Clerking. The student must

also attend Post-mortem Examinations and Demonstrations during the year.

During the Fifth year of the Medical Curriculum students should attend :

- * *a*, Clinical Instruction in Medicine and Surgery (during this year students are at liberty to attend these subjects at either Hospital, *vide* Reg. 3, p. 471); *b*, Clinical Ophthalmology (three months); *c*, Vaccination; *d*, Fever Hospital (three months); * *e*, Lunatic Asylum (three months); *f*, Clinical Midwifery (twenty cases); *g*, Gynæcological Clerking (three months); *h*, Instruction in Anæsthetics, consisting of attendance at three Lectures and the personal administration of Anæsthetics in ten cases.

7. Students holding the appointments of Medical Clinical Clerk, or Surgical Dresser, are exempt from Ward Classes in Medicine and Surgery on the days on which their services are required by the Officer under whom they are working.

8. The following Syllabus of Instruction is followed in the Tutorial Classes for Elementary Medicine and Surgery :

MEDICINE : Physical Examination. *Winter*—1, Temperature ; 2, Integumentary System ; 3, Circulatory System ; 4, Respiratory System ; 5, Alimentary System. *Summer*—6, Nervous System ; 7, Urinary System ; 8, The use of the Ophthalmoscope, Laryngoscope, and Aural Speculum.

SURGERY : *Winter*—1, Bandaging ; 2, Strapping ; 3, Application of Splints ; 4, Minor Injuries ; 5, Wound Dressing and Wound Treatment ; 6, Hæmorrhage, Hæmostasis, Tourniquets ; 7, Artificial Respiration. *Summer*—8, Minor Operations : Catheterisation, Plugging the Nares, Hypodermic Injection, Removal of Foreign Bodies from the Eye, Ear, and Oesophagus ; 9, Shock, Fainting, Stings, Leeching, Counter-irritation ; 10, Surface Landmarks and Guides.

* The subjects *a* and *e* must be attended during the final year.

General Regulations.

1. Every student is required to register his name for Hospital Practice within fifteen days of the commencement of the Winter Session. (Due notice of the time and place for such registration will be posted in the Hall of the University and in the General and Queen's Hospitals.)

2. Clinical fees must be paid previously to or at the time of registration, to Mr. George Heaton, who will attend at the General Hospital on Mondays and Thursdays at 12 noon to give all information relating to Hospital Practice.

3. Students must attend twelve months alternately at the General and Queen's Hospitals, as directed at the time of registration, but during their "final" year they may attend at either or both Hospitals.

4. Students who enter for a term of six months or less may choose which Hospital they will attend.

5. All students registering for Hospital Practice are required to attend at least *two-thirds* of the Classes for which they register.

6. Students referred at their Final Examinations must register with the Hon. Secretary of the Clinical Board for any further attendance they may require.

By order of the Birmingham Clinical Board.

ROBERT SAUNDBY, *President*.

GEO. HEATON,
J. T. J. MORRISON, } *Hon. Secs.*

ASSOCIATED HOSPITALS.

The undermentioned Institutions are open to the students of the University free (with the exception of the City Fever Hospital, and the City Asylum), under the following regulations, which have been approved by the Council.

1. That it be recognised that students attending such Hospitals do so upon the understanding that, except in

the case of the City Fever Hospital and the City Asylum (at which, by the regulations of various Licensing Bodies, three months' attendance is required), such attendance is in no way to supersede or be considered as equivalent to attendance at the General and Queen's Hospitals.

2. That students who have diligently attended Courses at such Hospitals be, on the recommendation of the staff of any such Hospital, awarded special certificates, such certificates to be signed by the Chairman and Secretary (or other official) of the Medical Board of such Hospital, and countersigned by the Dean on the part of the University.

The City Fever Hospital, Lodge Road.

Medical Superintendent :

EUGENE CHATELIER, M.B., C.M. (Edin.)

This Institution is recognised by all the Licensing Bodies as a Fever Hospital at which attendances may be made.

The following Regulations have to be observed :—

1. Every student while within the gates of the Hospital shall be subject to the control of the Medical Superintendent, who has authority to suspend him from further attendance in case of breach of discipline.

2. He shall strictly adhere to the regulations made from time to time with regard to disinfection.

3. He shall not visit any ward except in the company of the Medical Superintendent or his deputy.

4. A register shall be kept at the Hospital, in which shall be entered the name of every student and the number of his attendances.

5. The minimum duration of any course of instruction shall be three months, the hours of attendance to be fixed by the Medical Superintendent.

6. A certificate, to be signed by the Medical Superintendent, shall be granted to each student when he shall have satisfactorily completed his course of study.

7. The fee for each course is *Two Guineas* for the first three months, and *One Guinea* for each additional month or part of a month, payable in advance to the Medical Superintendent.

8. These rules shall apply equally to legally qualified medical men, who may desire to attend the Hospital for the purpose of clinical instruction.

The City Asylum, Winson Green.

Medical Superintendent :

E. B. WHITCOMBE, M.Sc. ; M.B., Ch.B., M.R.C.S.

This Institution is recognised by all the Universities and Licensing Bodies as a Hospital at which attendance may be made in the subject of Mental Disease. By the regulations of British Universities and other Bodies, such attendance may count towards the requisite period of Clinical study. Courses of instruction are given in the months of January, February, March, April, May and June, commencing on the third Saturday in January and April.

A Special Fee of £3 3s. has to be paid to Mr. Whitcombe, to whom application must be made for Rules, &c., as to attendance.

Birmingham and Midland Eye Hospital.

Honorary Consulting Physician :

R. SAUNDBY, M.D., F.R.C.P., LL.D.

Honorary Consulting Surgeon :

D. C. LLOYD-OWEN, M.D., Ch.B. F.R.C.S.I.

Surgeons :

H. EALES, M.R.C.S.

E. W. WOOD-WHITE, B.A., M.D., B.Ch.

J. JAMESON EVANS, M.D. ; C.M., F.R.C.S.,

Hon. Secretary to the Medical Board.

Dental Surgeon :

W. T. MADIN, L.D.S.

Anæsthetist :

S. W. HAYNES, M.D.

This Hospital possesses 105 beds, and there is an average daily attendance of out-patients of 210.

This Institution is recognised by Universities and the Royal College of Surgeons, England, and Royal College of Physicians, London, as an Ophthalmic Hospital at which clinical instruction in Ophthalmology may be received. Students attending for a period of three months will be granted Certificates which will qualify for the University and Conjoint Board Examinations.

Days of Attendance :

Mr. EALES - - - Tuesday and Friday.

Mr. WOOD-WHITE - Monday and Thursday.

Mr. JAMESON EVANS - Wednesday and Saturday.

Out-patients are seen daily at 9 a.m.

Operations daily at 11 a.m.

Further information may be obtained from the Hon. Secretary of the Medical Board.

The Royal Orthopædic and Spinal Hospital.

Honorary Consulting Physician :

C. W. SUCKLING, M.D., M.R.C.P.

Honorary Consulting Surgeons :

CHARLES WARDEN, M.D., F.R.C.S. (Edin.)

AUGUSTUS CLAY, M.R.C.S.

Honorary Surgeons :

WILLIAM THOMAS, M.B., F.R.C.S.

WM. EDWARD BENNETT, M.B., Ch.B., F.R.C.S.

FRANK BARNES, M.B., M.S., Lond., F.R.C.S. (*Secretary to the Medical Committee*).

Anæsthetist :

WALTER R. JORDAN, M.D., Lond.

Qualified Clinical Assistants :

W. C. DAWSON, M.B., Lond.

L. K. THOMAS, M.R.C.S., L.R.C.P.

Accommodation for 30 In-patients.

Days of Attendance. (Out-Patients.)

Mr. WM. THOMAS - Monday and Friday, at 2.30 p.m.
 Mr. W. E. BENNETT Tuesday and Thursday at 2.30 p.m.
 Mr. FRANK BARNES Wednesday, at 2.30 p.m.
 Saturday, at 10 a.m.

Operations, Tuesday and Friday, at 9 a.m.

Clinical Assistants are appointed for three months from third year students. A Certificate will be granted to each student who satisfactorily performs the duties of the office.

Further particulars may be obtained from the Secretary to the Medical Committee.

Birmingham and Midland Ear and Throat Hospital.

Honorary Consulting Physician :

JAMES W. RUSSELL, M.A., M.D., F.R.C.P.

Honorary Consulting Surgeons :

JOHN ST. S. WILDERS, M.R.C.S.

CHARLES WARDEN, M.D., F.R.C.S. (Edin.)

Surgeons :

WRIGHT WILSON, F.R.C.S. (Edin.)

C. J. LEWIS, M.D.

WILLIAM LAMB, M.D., C.M., M.R.C.P.

Honorary Assistant Surgeons :

WILFRID GLEGG, M.D., C.M., M.R.C.P. (Edin.)

(*Hon. Secretary Medical Board*).

B. SEYMOUR JONES, F.R.C.S.

Days of Attendance :

Monday	-	-	Dr. LAMB	} 9.30 to 11 a.m.
Tuesday	-	-	Dr. GLEGG	
Wednesday	-	-	Mr. WRIGHT WILSON	
Thursday	-	-	Dr. LEWIS	
Friday	-	-	Mr. SEYMOUR JONES	

Patients are admitted at the side entrance in Barwick Street, daily from 9.30 a.m. to 11-a.m.

The Hospital has 41 Beds in occupation.

A Resident House Surgeon is appointed by the Committee, on the nomination of the Medical Committee, every twelve months, at a salary of £70 per annum, and he is eligible for re-election. Rooms, board and washing are provided in the Hospital.

Candidates for the post must possess a registered qualification in Medicine and Surgery, and will be required to devote their whole time to the service of the Hospital. There is ample time for reading. Further particulars may be obtained from the Secretary of the Hospital, Edmund Street.

Practical demonstrations and instruction are given to Practitioners and Medical Students from 9.30 to 12 a.m.

Fees for attending the Practice of the Hospitals:—
Probationers, one month one guinea; three months two guineas; Medical Students, free.

**THE FOLLOWING INSTITUTIONS ARE

Dr. E. ROBINSON, 213, Bristol Road,
Public Vaccinator.

Birmingham Teaching Station at Priory Rooms
(Opposite Fire Station).

*Regulations according to the Instructions of the Local
Government Board for 1906—1907.*

THREE COURSES OF INSTRUCTION WILL BE GIVEN :

1st.—Commencing the second Monday in October.

2nd.—Commencing the third Monday in January.

3rd.—Commencing the second Monday in May.

An attendance book is provided, wherein every attendance is registered by the signature of the pupil, with other details.

The course of instruction consists of at least six demonstrations and addresses, and it is requisite that the pupil attend during six consecutive weeks.

The Class commences punctually at 1.30 p.m. each day, at which time the Register will be open.

FEE: £1 11s. 6d., payable to Dr. ROBINSON, on entrance.

LIBRARY OF THE BIRMINGHAM MEDICAL INSTITUTE.

By the courtesy of the Committee of the Medical Institute, students of the Faculty of Medicine are admitted to read in the Library of the Institute under the following conditions.

1. Admission is confined to—

- (a) 3rd, 4th, and 5th years' students.
- (b) 1st and 2nd years' students reading for higher examinations.
- (c) Sons of Members of the Institute, of any year, whether reading for higher examinations or not.

Classes *a* and *b* must apply to the Dean of the Medical Faculty for a card of recommendation, which they must send, together with their letter of application, to the Hon. Secs. of the Institute. Class *c* must apply direct to the Hon. Secs.

2. Students are only admitted to the Library Hall, and *not* to the Reading Room or the Smoking Room.

3. It is understood that the Hall is not to be used for the reading of text-books.

4. Each student will receive a printed ticket of admission from the Librarian. He must show this whenever required, and must get it renewed every year.

REGULATIONS FOR DEGREE AND DIPLOMA IN PUBLIC HEALTH.

General Conditions.

1.—All Candidates must be registered under the Medical Act.

2.—The Examinations will be held in the months of January and June, and will consist of two parts. No Candidate will be allowed to pass Part II. until he has passed Part I.

3.—Candidates may enter for Parts I. and II. separately or at the same time.

4.—The Examination in each part will be written, oral and practical.

5.—Candidates intending to present themselves for either part of the Examination must give notice in writing to the Registrar of the University, on the date prescribed in the Calendar.

6.—The Fee for each part of the Examination is £2.

7.—Fee for admission to Degree or Diploma, £6.

Conditions of Admission to the Examinations.

1.—For Candidates registered under the Medical Act on or *before* the 1st of January, 1890.

Candidates so registered will be allowed to sit for examination on producing certificate of registration.

2.—For Candidates registered under the Medical Act *after* the 1st of January, 1890.

Candidates will be admitted to examination in Part I. on producing evidence :—

(1) Of being at least 23 years of age, and of having been possessed of a registrable qualification in Medicine, Surgery and Midwifery, for a period of twelve months.

(2) Of having received, after obtaining a registrable Qualification, during six months, practical instruction in Hygienic Chemistry, Bacteriology, and the Pathology of the Diseases of Animals transmissible to Man.

NOTE.—Graduates in Medicine of the University of Birmingham, or past students who have taken out the whole of their Curriculum in the Birmingham Medical School may attend the required instruction in Chemistry and Bacteriology either in this or in some other University, University College, or Medical School in Great Britain or Ireland. (Officers of R.A.M.C., see page 482.)

Other candidates must attend the special courses of instruction in Chemistry and Bacteriology required for the Diploma in the University of Birmingham.

Candidates will be admitted to examination in Part II. on producing evidence :—

(3) That, after obtaining a registrable Qualification, they have, during six months (of which at least three months shall be distinct and separate from the period of laboratory instruction required under *Rule 2*) been diligently engaged in acquiring a practical knowledge of the duties, routine and special, of Public Health Administration, under the supervision of

(a) In England and Wales, the Medical Officer of Health of a County or of a single Sanitary District having a population of not less than 50,000, or a Medical Officer of Health devoting his whole time to Public Health work; or

(b) In Scotland, a Medical Officer of Health of a County or Counties, or of one or more Sanitary Districts having a population of not less than 30,000; or

(c) In Ireland, a Medical Superintendent Officer of Health of a District or Districts having a population of not less than 30,000; or

(d) A Medical Officer of Health who is also a Teacher in the Department of Public Health of a recognised Medical School.

* * The certificate of an Assistant Medical Officer of Health of a County or of a single Sanitary District having a population of not less than 50,000 may be accepted as evidence under *Rule 3*, provided the Medical Officer of Health of the County or District in question permits the Assistant Officer to give the necessary instruction and to issue certificates.

Provided that the period of six months may be reduced to a period of *three* months (which shall be distinct and separate from the period of Laboratory instruction required under *Rule 2*), in the case of any Candidate who produces evidence that, after obtaining a registrable qualification, he has during three months attended a course or courses of instruction in sanitary law, sanitary engineering, vital statistics, and other subjects bearing on Public Health Administration, given by a Teacher in the Department of Public Health of a recognized Medical School.

(4) That, after obtaining a registrable Qualification, he has attended during three months the practice of a Hospital for Infectious Diseases recognised by the University, at which opportunities are afforded for the study of Methods of Administration.

Officers of the Royal Army Medical Corps who have studied Chemistry and Bacteriology at the Staff College, and pursued the further course of study approved by the General Medical Council in December, 1902, will be admitted to the Examination for the Diploma in Public Health, whether they have previously been students of the Birmingham School or not.

DEGREE IN PUBLIC HEALTH.

Graduates in Medicine of this University may become candidates for the degree of Bachelor of Science in Public Health, by conforming to all the requirements laid down for candidates for the Diploma in Public

Health, and, in addition, they must have attended a three months' course of *Geology in the University.

Past students of the Birmingham School of Medicine who have taken out their entire curriculum, or at least three years of the same therein, and have obtained a degree in Medicine in any British University are eligible for the Bachelorship in Science in Public Health on the same terms as graduates in Medicine of the University of Birmingham.

The Examination for the Degree is not the same as that for the Diploma, and a considerably higher standard of knowledge will be exacted at the former.

The whole of the instruction, with the exception of out-door Sanitary work (which may be taken with Dr. Bostock Hill), required for the Degree and Diploma in Public Health can be taken out in the University.

* The Course in Geology is delivered during the Winter Term only.

COURSE OF INSTRUCTION.

Sanitary Chemistry.

Laboratory Course (Times by arrangement).

B.Sc. or Diploma in Public Health.—The Course extends over six months (not less than six hours weekly).

Advanced Bacteriology.

This Class begins on Tuesday, January 15th, at 3.30 o'clock, and meets on Tuesdays, Wednesdays, and Fridays of each week until the end of March, each meeting occupying two hours. In addition there are special meetings in sections according to arrangement. This Course qualifies for the various Diplomas and Degrees in Public Health of this University and other Bodies. It consists of lectures, demonstrations, laboratory instruction, and practical work in Bacteriology, especially in relation to disease, public health, its application to various industries, the disposal of sewage, &c.

Hygiene and Public Health.

In the latter half of the Winter Session, commencing in January, a Special Course of Lectures for candidates for degrees and diplomas in Public Health is given on Sanitary Engineering, Law, and Statistics, on Mondays at 3 p.m.

FEES :—

Sanitary Chemistry	£8	8	0
Caution Money, deposit	1	0	0
Bacteriology	4	4	0
Incidental Fee	1	1	0
Geology	2	2	0
Public Health Lectures.....	2	2	0

Syllabus for the Examinations.

PART I.

- 1.—Physics in their application to Health, and with reference to Ventilation and Heating. Water Supply and Sewerage.
- 2.—Chemistry in its relation to Air, Water, Food, Soil, and Sewage.
- 3.—Microscopical Examinations of Air, Water, Food, Articles of Clothing, Parasites, &c.
- 4.—Bacteriology in relation to Sanitary Work.

PART II.

- 1.—The Origin, Pathology, and Prevention of Disease; with special reference to Infectious Disease.
- 2.—Effects of Unwholesome Air, Water, and Food.
- 3.—Diseases of Animals in relation to the Health of Man.
- 4.—Influence of Occupation—Unhealthy Trades.
- 5.—Influence of Climate.
- 6.—Sanitary Administration in relation to requirements of Houses and other buildings, Sanitary Engineering.
- 7.—Construction, Arrangement, and Management of Hospitals.
- 8.—Statistics in relation to Health.
- 9.—Sanitary Law, including Bye-laws, Orders and Regulations.
- 10.—Duties of Sanitary Officers.

DEGREES AND DIPLOMA IN DENTAL SURGERY.

The University confers the Degrees of Bachelor and Master of Dental Surgery (B.D.S., and M.D.S.), and a Diploma in Dental Surgery (L.D.S.)

The teaching of Dentistry is undertaken by the University, acting in association with the Birmingham Dental Hospital and the Birmingham Clinical Board.

Courses of instruction are provided in connection with the Faculty of Medicine of the University for the whole of the Dental Curriculum. Students of Dentistry are taught in the subjects of the Medical Curriculum in the same classes as the students of Medicine, and in the special subjects of their own curriculum all the necessary classes are provided either in the University or at the Dental Hospital.

The courses of instruction qualify not only for the Degrees and Diploma of the University of Birmingham, but for the Diplomas in Dental Surgery of all Licensing Bodies.

It is strongly recommended that students taking out their courses of study in the University of Birmingham should take the Dental Degrees or License of that University for which the University Courses of Study are specially designed; but students may, if they so desire, also prepare in this University for the examinations of other Licensing bodies.

The Dental Curriculum may be divided into (1) Preliminary Education, (2) Mechanical Dentistry, (3) Professional and Hospital Study.

Before admission to the Final Examination for a Diploma in Dental Surgery, the candidate must produce evidence of having been engaged in the acquirement of professional knowledge during four years, and for the degree of Bachelor of Dental Surgery during five years, subsequent to the date of registration as a Dental Student. Any part of the period (three years) required for instruction in Mechanical Dentistry may be taken prior to registration, but this does not in any way lessen the period of professional study *which must be taken after registration as a Dental Student.*

Preliminary Examination.—In order to be registered as a Dental Student, one of the preliminary examinations fulfilling the requirements of the General Medical Council must be passed. Students preparing for the Degree in Dental Surgery must pass the Matriculation Examination or its equivalent.

Registration as a Dental Student should be effected as soon as a recognised Preliminary Examination has been passed. Forms of Registration may be had on application to the Registrar of the General Medical Council, 299, Oxford Street, London.

Mechanical Dentistry.—The student devotes three years to instruction in Dental Mechanics in the Mechanical Laboratory of the Dental Hospital, or under the direction of a Registered Dental Surgeon. For the Diploma or License the third year of this course may run concurrently with the course of Professional study, hence in some cases the first two years are devoted to Dental Mechanics, and the third year is combined with the subsequent years of Professional Education.

Students preparing for a degree in Dental Surgery are advised to combine the third year of this instruction with that of the first year of the University Degree course, and avail themselves of the opportunity so afforded of applying the principles so gained to their Laboratory work.

Professional and Hospital Study.—This part of the curriculum extends over at least two years, and comprises

- (1) Lectures and Practical Classes in the Medical School ;
- (2) Special Dental Lectures and Dental Hospital Practice ;
- (3) General Hospital Practice.

Particulars relating to the course of instruction at the University may be had from the Hon. Secretary of the Dental Department at the University.

ENTRANCE SCHOLARSHIP FOR DENTAL STUDENTS.

1. One Scholarship is offered annually of the value of £37 10s.

2. It is awarded to the student who, entering for the Dental Degree of the University in October, or having entered not earlier than the previous April, shall pass the best examination in the subjects studied during his apprenticeship.

3. Candidates must be under the age of twenty-one years.

4. Application for admission must be sent to the Dean of the Medical Faculty on or before October 12th.

CLINICAL INSTRUCTION.

The General and Queen's Hospitals offer every advantage for the study of general Surgery and Medicine, the arrangements for which are carried out under the direction of the Birmingham Clinical Board. Special classes for Dental students are held in Clinical Medicine and Clinical Surgery, and Tutorial Classes are arranged for Junior and Senior Dental Students at both Hospitals.

REGULATIONS FOR DEGREES IN DENTISTRY.

1. The Degrees conferred by the University are those of Bachelor and Master of Dental Surgery (B.D.S. and M.D.S.).

2. All candidates for these Degrees must pass the same Matriculation Examination as that required from candidates for Medical Degrees.

3. The Degree of Bachelor of Dental Surgery is not conferred upon any candidate who has not obtained the License in Dental Surgery of the University, or from some body legally entitled to confer such qualification. The candidate is not eligible for the Degree until a period of twelve months has elapsed from the passing of his examination for the License in Dental Surgery. Of this period at least six months must be spent in the Dental Department of a General Hospital approved by the University.

4. *A.* In addition to the License in Dental Surgery the candidate must produce evidence that he has attended the Courses required by Medical Students of the University in the following subjects and passed the Examinations held in the same for Medical and Surgical Degrees :—

- (a) Chemistry, and Practical Chemistry.
- (b) Physics, and Practical Physics.
- (c) Elementary Biology.
- (d) Anatomy, and Practical Anatomy.
- (e) Physiology, and Practical Physiology.

B. That he has attended the following Courses, and passed the class examinations held in each of these subjects.

- (f) One Special Course of Lectures on Medicine.
- (g) One Special Course of Lectures on Surgery.
- (h) Pathology and Bacteriology.

C. That he has attended Courses, and passed the class examinations in :—

(*k*) Dental Histology and Patho-Histology.

(*l*) Comparative Dental Anatomy.

(*m*) Dental Surgery and Prosthetic Dentistry.

D. That he has received instruction in the Clinical Examination of living cases at the Dental Department of a General Hospital for a period of not less than six months.

5. The Final Examination will deal with the subjects in Classes *C.* and *D.*

6. On the expiration of twelve months from the date of passing the Examination for the Degree of Bachelor of Dental Surgery, the candidate will be eligible for that of Master of Dental Surgery.

7. For this Degree candidates will be required to submit a Thesis containing original work and investigations in some subject connected with Dentistry, which Thesis shall be submitted to examiners to be nominated by the Dental Advisory Board. The Degree will be awarded or withheld according to the report of these examiners.

REGULATIONS FOR THE DIPLOMA IN DENTAL SURGERY.

I.—In the Faculty of Medicine there is a Diploma in Dental Surgery, entitled Licentiate in Dental Surgery (L.D.S.), which is registrable in accordance with the Dentists Act, 1878 (41 to 42 Vict. xxxiii., Clause xviii.)

II.—The courses of study and the number and nature of the examinations qualifying for the Licentiate in Dental Surgery are prescribed by Regulations.

REGULATIONS.

1. Candidates for the Diploma are required to pass such a preliminary examination as may from time to time be required by the General Medical Council for Registration as a Dental Student.

2. Candidates before admission to the Final Examination are required to furnish evidence (i) of having attained the age of twenty-one years, and (ii) of having been engaged in professional study for a period of at least four years subsequent to the date of Registration as a Dental Student by the General Medical Council.

3. Candidates for the Diploma are required to present certificates of attendance upon the several courses of study prescribed by the University Regulations for attendance, and to satisfy the Examiners in four Examinations, viz. :—

- (a) The First Examination.
- (b) The Second Examination.
- (c) The Third Examination.
- (d) The Final Examination.

FIRST EXAMINATION.

4. Candidates before presenting themselves for the First Examination are required to furnish (i) a certificate of Registration as a Dental Student by the General Medical Council, and (ii) Certificates of having satisfactorily attended courses in the prescribed subjects for the First Examination, viz. :—

- (a) Chemistry, Lectures and Laboratory work (6 months).
- (b) Physics, Lectures and Laboratory work (6 months).

NOTE.—Attendance upon these courses may be made at any Institution recognised for this purpose by the University.

SECOND EXAMINATION.

5. Candidates before presenting themselves for the Second Examination must have passed the First Examination, and are required to furnish Certificates of having served for a period of not less than three years pupilage in Mechanical Dentistry, either with a Registered Dentist, or in the Mechanical Laboratory of a Dental Hospital recognised for this purpose by the University, and of having attended in the University the following courses for the Second Examination :—

- (a) Dental Mechanics Lectures (3 months).
- (b) Dental Metallurgy Lectures and Practical (6 months).
- (c) Dental Materia Medica Lectures (3 months).

THIRD EXAMINATION.

6. Candidates before presenting themselves for the Third Examination must have passed the Second Examination, and are required to present certificates of having attended in the University the following courses prescribed for the Third Examination, viz. :—

- (a) Anatomy, Lectures (6 months).
- (b) Anatomy, Practical (12 months).
- (c) Physiology, Lectures (6 months).
- (d) Physiology, Practical Histology (3 months).
- (e) Human and Comparative Dental
Anatomy, Lectures (6 months).
- (f) Dental Histology, Practical (3 months).

FINAL EXAMINATION.

7. Candidates before presenting themselves for the Final Examination are required to have passed the Third Examination and to furnish certificates of having attended

492 DEGREES AND DIPLOMA IN DENTAL SURGERY.

in the University, or in a Hospital recognised for the purpose by the University, courses of instruction in the subjects prescribed for the Final Examination, viz. :—

- (a) Medicine Lectures for Dental Students (6 months).
 - (b) General Surgery Lectures for Dental Students (6 months).
 - (c) Dental Surgery, Lectures (6 months).
 - (d) Dental Pathology and Bacteriology, Lectures (3 months).
 - (e) Dental Pathology and Bacteriology, Practical (3 months).
 - (f) Clinical Dental Surgery. (6 months).
 - (g) Clinical Medicine and Surgery (at a recognised General Hospital for twelve months).
 - (h) The practice of a Dental Hospital or the Dental Department of a General Hospital recognised by the University for a period of two years.
-

DENTAL FEES.

The Dental student can enter either as a Composition or Occasional student, *i.e.*, he can pay his fees in two instalments or as he takes out his class. Composition students pay a MEMBERSHIP FEE of £3 3s., once for all, occasional students pay £1 1s. for each Winter Session, and 10s. 6d. for each Summer Session during which they may be in attendance upon lectures. The regulations in connection with the attendance of medical students (see p. 418) apply also to Dental students, whose composition fee, however, covers normally three and not five years.

COMPOSITION FEES.

The Composition Fee for the courses required for the L.D.S. of the University, or any of the Corporations alone is £60 ;

That for the courses required for the L.D.S. and the degree in Dentistry of the University is £75, that for the L.D.S. in combination with the M.R.C.S. and L.R.C.P. is £85, and that for the M.B., Ch.B., and B.D.S., is £95.

Each of these fees covers the cost of the courses given at the University for the qualifications indicated, but does not include incidental fees nor fees for Hospital teaching. Each of these Composition fees is payable in two instalments, one on entrance, the other at the commencement of the second year of study.

INCIDENTAL FEES.

These fees are intended to cover the cost of apparatus, material, &c., used in the various practical classes. They are governed by the same rules as those applying to medical students and are payable to the Secretary.

					£	s.	d.
Dissecting Room (each winter)	1	11	6
" " (each summer)	0	10	6
Practical Physiology	2	2	0
" Pathology...	1	11	6
Dental Histology	1	1	0

MICROSCOPES.

For statement as to Microscopes, which applies only to students reading for Degrees and not to L.D.S. students, see page 421.

CLASS FEES.

Students wishing to do so can pay for each class as they take it, the following table showing the fees for each course.

							£	s.	d.
Anatomy Lectures (each winter)	6	6	0
Practical Anatomy	"	5	5	0
*Anatomy and Practical Anatomy (one summer)	3	3	0
Physiology	6	6	0
" Practical	4	4	0
Chemistry	4	4	0
" Practical	3	3	0
*Elementary Biology	5	5	0
Physics	5	5	0
*Pathology	4	4	0
* " Practical	4	4	0
Bacteriology (special Dental)	1	1	0
Medicine	6	6	0
Surgery	6	6	0
Dental Anatomy	3	3	0
" Surgery	3	3	0
" Mechanics	2	2	0
" Metallurgy	2	2	0
" " Practical	2	2	0
Diseases of the Mouth	2	2	0
Dental Histology	2	2	0
Dental Materia Medica	2	2	0

NOTE.—Subjects marked with an asterisk are *not* required by students only reading for the L.D.S. Composition students requiring to repeat a course will be charged a half-fee for the same. In the case of Practical Anatomy this will be £3 3s.

EXAMINATION AND ADMISSION FEES.

The fees payable before a student is admitted to any of the examinations are set down below. A student failing at any examination will be called upon to pay a half-fee when next presenting himself for the same examination.

	£	s.	d.
Matriculation	2	0	0
First Examination for B.D.S. or L.D.S.	2	0	0
Second Examination for B.D.S. or L.D.S.	2	0	0
Third Examination for L.D.S.	2	0	0
Final Examination for B.D.S. or L.D.S.	2	0	0
Examination for M.D.S.	2	0	0
Admission to Degree of B.D.S.	7	0	0
Admission to Degree of M.D.S.	8	0	0
Admission to Diploma of L.D.S.	10	0	0

Admission fees must be paid at the same time as the fees for the Final Examination for the Degrees or Diploma.

CLINICAL HOSPITAL FEES.

For General Surgical Hospital Practice, Lectures, and Demonstrations :

SURGERY : Two Winters... ..	£10	10	0
„ One Winter	6	6	0

Payable to Mr. George Heaton, Hon. Secretary to Clinical Board.

DENTAL HOSPITAL FEES.

The Fees for—

Three years' pupilage is	100	Guineas.
Two years' Hospital practice	20	„
Pupilage and practice combined—		
Fee payable 1st year	60	„
Fee payable 2nd year	45	„
One month's probation	5	„
Hospital practice payable in two instalments—		
First year	13	„
Second year	8	„
Six months extra	7	„
Three months extra	4	„

Dental Hospital Fees are payable in advance to the Dean of the Dental Hospital.

TOTAL FEES FOR L.D.S AND B.D.S.

For the convenience of those desiring to ascertain the total cost of obtaining the License of Dentistry, and the Degree of Bachelor of Dental Surgery in the University, the following table has been drawn up. It presumes that the student enters by the Composition method and makes no allowance for failures at examinations. No allowance is made for the cost of books or instruments for private tuition (if necessary), or for the fee for apprenticeship.

		£	s.	d.	£	s.	d.

DEPARTMENT OF DENTISTRY.

Syllabus of Lecture Courses.

I. *SPECIAL SUBJECTS.*

(a) Dental Surgery and Pathology.

Lecturer. F. E. HUXLEY, M.D.S., M.R.C.S., L.D.S., Edin.

Irregularities of the teeth and jaws ; general principles of their correction.

Dental Caries, its causes and treatment.

Abrasion, erosion and fracture of teeth.

The dental pulp, its diseased conditions and their treatment.

Diseases of the gums and periosteum.

Alveolar abscess. Dental Cyst.

Diseases of the antrum.

Extraction of teeth. Local anæsthesia. Hæmorrhage.

Odontomes, and tumours of parts adjacent to the teeth.

Neuralgias and other reflex disorders.

(b) Dental Materia Medica.

Lecturer: W. THOMPSON MADIN, L.D.S., Eng.

The drugs and remedies used in dentistry generally.

New drugs as they appear.

Prescribing.

Composition of filling materials.

Anæsthetics : General and local.

(c) Dental Anatomy and Physiology.

HUMAN AND COMPARATIVE.

Lecturer: JOHN HUMPHREYS, M.D.S., L.D.S.I., F.L.S.

The method and use of the study of odontology.

The general and minute structure and composition of the teeth, and their modifications in fishes, reptiles, and mammals.

The arrangement and uses of the teeth of man and typical animals.

Structure of the gum, periosteum, and dental pulp.

Development of the teeth.

Development of the jaws, alveoli, &c., and their anatomical relations.

Mastication and the oral secretions.

This course is fully illustrated by the large collection of skulls, teeth, &c., contained in the Museum, as also by microscopic preparations and drawings, and a series of lantern slides.

(d) Dental Histology and Pathology.*Lecturer: H. PERCY PICKERILL, M.B., Ch.B., B.D.S.*

I.—DENTAL HISTOLOGY. (Lectures and Practical.)

The course will be held in the Physiological Laboratory on each Monday throughout the summer session, from 2 to 4 p.m.

The methods employed in the preparation of hard and soft tissues for microscopical examination.

The structure and composition of enamel, dentine and cementum in man.

The comparative minute anatomy of the teeth.

The pulp and other soft tissues of the teeth and mouth.

The development of the teeth in man and in some of the lower animals.

II.—DENTAL PATHOLOGY. (Practical.)

This course will be held in the Pathological Laboratory from January to March, during the winter session, on Tuesdays and Fridays, at 2 p.m.

Enamel, dentine, cementum,—developmental defects and caries.

The dental pulp,—inflammation ; degenerations.

Periodontal membrane,—Inflammatory conditions and tumours.

Pathological modifications of the muco-periosteum.

Oral tumours.

(c) Dental Mechanics.

Lecturer : A. E. DONAGAN, I.D.S., Edin., M.A., Cantab.

Introduction and general principles of Prosthetic Dentistry.

Treatment of the mouth preparatory to the insertion of artificial dentures.

Materials used and methods employed in taking impressions of the mouth.

Casting in plaster and metal.

Methods of obtaining the correct articulation of the teeth.

Vulcanite work.

(a) The preparation of dental rubber.

(b) Artistic arrangement of teeth.

(c) Production of plates of equal thickness.

(d) Flasking, packing, and vulcanizing.

(e) Clasps and strengtheners.

(f) Methods of weighting lower dentures.

Plate and tube work.

Combination work.

Continuous gum work and section blocks.

Making and mounting springs and swivels.

Mechanical treatment of Dental Irregularities and Oral Deformities.

Varieties of crown and bridge work.

Mechanical treatment of Fractured Maxillæ.

The course will be fully illustrated by the exhibition of models, appliances, and diagrams.

(f) Dental Metallurgy.

Professor : THOMAS TURNER, M.Sc., A.R.S.M., F.I.C.

Lecturer : O. F. HUDSON, BSc., A.R.C.S.

Assistadt Lecturer : D. M. LEVY, A.R.S.M.

A Course of both theoretical and practical instruction is given in the above subject.

During the Winter Session, twenty lectures are delivered on Saturdays, at 10 a.m. These deal with the physical, mechanical, and chemical properties of metals; oxidation and reduction; fuel, furnaces, and furnace materials; melting, casting, and working in metals; the properties of gold, silver, copper, tin, lead, zinc, mercury, and other metals, and of alloys and amalgams, so far as they are applied in dentistry.

A Practical Class is held in the Metallurgical Laboratory on Saturdays, from 11 till 1, during the Winter Session, to enable students to perform experiments and operations illustrative of some of the more important subjects dealt with in the lectures.

The instruction is given at the University New Buildings, Bournbrook.

(g) Medicine for Dental Students.

Lecturer: T. STACEY WILSON, M.D., M.R.C.P.

Introduction : Aims of medicine, etc.

General diseases.

Diseases of the alimentary system.

Hæmopoietic system.

Diseases of the circulatory system.

Diseases of the respiratory system.

Diseases of the urinary system.

Diseases of the nervous system.

Summary of special bearings of medicine upon the work of the Dental Surgeon.

(h) General Surgery for Dental Students.

Lecturer: FRANK MARSH, M.B., Ch.M. ; F.R.C.S.

Inflammation.

Specific diseases.

Injuries.

Fractures.

Injuries to nerves.

Injuries to joints.

Injuries to face and neck.

Tumours.

Cysts.

Development of buccal cavity, etc.

(i) Dental Bacteriology.

Professor: R. F. C. LEITH, M.Sc. ; M.B., B.Sc., M.A., F.R.C.P.E.

Lecturer: JAMES MILLER, D.Sc. ; M.D., M.R.C.P. (Edin.)

This course begins about the middle of November and is continued daily at 2 o'clock for about a month. It

consists of Lectures and lantern demonstrations upon the structure, classification, and function of micro-organisms, especially those relating to the mouth, gums, teeth, and throat. Due notice of the first meeting will be posted in the Medical and Dental Departments of the University. Candidates intending to take their University degree in Dental Surgery must also take out a Course of Practical Laboratory work, for which suitable arrangements will be made at intervals on application to the Pathological Department.

II. *GENERAL SUBJECTS.*

Anatomy, Practical Anatomy, Physiology, Practical Physiology, Chemistry, Practical Chemistry, Physics, Elementary Biology, Pathology and Bacteriology. (See Faculty of Medicine).

Text-books.

The following text books must be purchased by Dental Students :—

Dental Anatomy (Tomes).

Diseases and Injuries of the Teeth (Smale and Colyer).

Theory and Practice of Surgery (Walsham).

Dental Microscopy (Hopewell Smith).

Injuries and Surgical Diseases of the Face, Mouth, and Jaws (Marshall).

Mechanical Dentistry (Richardson).

Dental Metallurgy (Smith).

TIME TABLE FOR L. D. S. CURRICULUM.

1906-1907.

FIRST YEAR.

SUBJECTS.	Mon.	Tues.	Wed.	Thur.	Fri.	Sat.
WINTER SESSION.						
Chemistry, Lectures		11.30		11.30		
Chemistry, Practical	2.0	2.0		2.0		
Physics, Lectures	11.30		11.30		11.30	
Physics, Practical					2.30	
Dental Metallurgy, Lectures ...						10.0
Dental Metallurgy, Practical ...						11.0
SUMMER SESSION.						
Physiology (Practical Histology)	11.0	11.0	11.0	11.0	11.0	
Dental Materia Medica, Lectures				3.0		
Dental Mechanics, Lectures ...		4.0				
Anatomy, Practical		(Daily)				
Anatomy, Lectures	2.0	2.0		2.0		
Practical Dental Mechanics (at the Dental Hospital)		By arrangement.				
First Examination.						
(Chemistry and Physics) ...						

SECOND YEAR

SUBJECTS.	Mon.	Tues.	Wed.	Thur.	Fri.	Sat.
WINTER SESSION.						
Dental Hospital Practice ... (3 days a week)	9.0	9.0	9.0	9.0	9.0	
Clinical Medicine, Junior Tutorial Class at General and Queen's Hospitals		12.0		12.0		
Clinical Surgery, Junior Tutorial Classes at General and Queen's Hospitals						9.30 to 11.30
Anatomy, Practical			(Daily)			
Anatomy, Tutorial	2.0			2.0		
Physiology, Lectures	12.0		12.0		12.0	
Human and Comparative Dental Anatomy, Lectures					4.0	
<i>Second Examination.</i>						
(Mechanics, Theo. and Prac. Met- allurgy, and Materia Medica)						
SUMMER SESSION.						
Dental Hospital Practice ...	9.0	9.0	9.0	9.0	9.0	9.0
Dental Histology, Practical ..	2.0					
Anatomy, Practical			(Daily)			
Anatomy, Lectures	11.0	12.0		12.0		
Anatomy, Tutorial	3.0			3.0		
Clinical Dental Surgery (<i>at the Dental Hospital</i>)						
<i>Third Examination.</i>						
(Anatomy, Physiology, Dental Anatomy, and Dental Histo- logy)			<i>By arrangement.</i>			

THIRD YEAR.

SUBJECTS.	Mon.	Tnes.	Wed.	Thur.	Fri.	Sat.
WINTER SESSION.						
Casualty Dressing at General and Queen's Hospitals ...			9.0			9.0
Dental Hospital Practice ... (4 days a week)	9.0	9.0	9.0	9.0	9.0	9.0
Clinical Medicine, Senior Tutorial Class at General and Queen's Hospitals			12.0			
Medicine Lectures for Dental Students (Oct. to Dec.) ...			4.0			
Medicine Lectures for Dental Students (Jan. to Mar.) ...		4.0			4.0	
General Surgery Lectures for Dental Students (Oct. to Dec.)		4.0			4.0	
General Surgery Lectures for Dental Students (Jan. to Mar.)			4.0			
Dental Surgery, Lectures ...				4.0		
Dental Pathology and Bacteriology, Lectures (Oct. to Nov.)		By arrangement.				
Dental Bacteriology, Practical (Jan.)	3.0			3.0		
Dental Pathology, Practical (Jan. to Mar.)		2.0			2.0	
SUMMER SESSION.						
Dental Hospital Practice ...	9.0	9.0	9.0	9.0	9.0	9.0
Clinical Dental Surgery (<i>at the Dental Hospital</i>)		By arrangement.				
Final Examination.						
(Medicine, Surgery, Dental Surgery, Dental Pathology and Bacteriology, Practical Dental Surgery)						

All Students are requested to take notice that they are expected to attend at least two-thirds of the lectures of each course, and also the class examinations, and that the Schedules of those who do not observe these regulations will not be signed.

BIRMINGHAM DENTAL HOSPITAL,

GREAT CHARLES STREET.

Dean—FRED. W. RICHARDS, L.D.S.

Hon. Dental Surgeons—

H. BREWARD NEALE, L.D.S.
 F. E. HUXLEY, M.R.C.S., M.D.S., L.D.S.
 F. W. RICHARDS, L.D.S.
 F. H. GOFFE, L.D.S.
 A. E. DONAGAN, M.A., L.D.S.
 F. R. HOWARD, L.D.S.
 J. MOUNTFORD, L.D.S.

Hon. Assistant Dental Surgeons—

W. T. MADIN, L.D.S.
 J. E. PARROTT, L.D.S.
 W. M. KNOTT, L.D.S.
 G. F. C. MATTHEWS, L.D.S.
 A. H. PARROTT, B.D.S., L.D.S.
 C. H. HOWKINS, M.R.C.S., L.R.C.P., L.D.S.
 A. W. WELLINGS, B.D.S., L.D.S.
 S. H. ROE, L.D.S.

Hon. Anaesthetists—

S. W. HAYNES, M.D., C.M.
 W. J. MCCARDIE, B.A., M.B., B.C.
 C. BRACEY DALE, M.R.C.S., L.R.C.P.
 G. S. MOORE, M.R.C.S., L.R.C.P.
 A. H. WILSON, L.R.C.P., L.R.C.S.
 A. H. W. McDONALD, M.A., M.B.

Demonstrators—

A. E. NICHOLLS, L.D.S.
 E. V. TOMEV, L.D.S.

House Surgeons—

C. RETALLACK, L.D.S.
 J. H. PARSONAGE, L.D.S.

Mechanical Instructor—

W. R. W. BOOTH.

The New Dental Hospital is situated in Great Charles Street, within a few minutes walk of the University. It has ample accommodation for the teaching of the practical side of the curriculum for Dentistry.

On the ground floor are a large waiting hall, private rooms for the Hon. Staff and Nurses, Museum and Class rooms, students cloak-room, lavatories and common room.

On the first floor are a large lecture hall, patients waiting room, examination and extracting rooms, and the anæsthetic department, consisting of operating room, separate waiting and recovery rooms for male and female patients.

On the second floor are the filling and prosthetic departments, equipped with all the latest requirements for teaching and training dental students in mechanical, prosthetic, and operative work.

The operating chairs are of the latest hydraulic-pump pattern, the front row being fitted with Clarke's spittoons and saliva ejectors. The electric current is supplied for lighting and motive power for dental engines and lathes; hot and cold water is laid on in all the departments. The heating of the building is on the low-pressure radiator system.

The Hospital clinic is large and varied, and affords ample opportunity to students to become dexterous in the treatment of teeth and familiar with the varied methods of overcoming the difficulties of their profession.

There is an annual attendance of about 12,000 patients, and the operations average 26,000, including gold and other fillings, and many cases of porcelain inlays, gold and porcelain crowns, bridges, and regulation cases.

The filling rooms have space for forty-five operating chairs.

RULES AND REGULATIONS FOR STUDENTS.

Admission.—Students are admitted to this Hospital on the understanding that it is their intention to obtain the Dental Diploma of the University or one of the Royal Colleges of Surgeons of the United Kingdom *cum curriculo*, and shall produce a certificate of registration as a Dental Student by the General Medical Council. They shall also sign their names as willing to conform to these rules and regulations.

The Dean receives intending students on the first Tuesday in April and October for the purpose of registration; they are required to bring their fees and certificates of registration as Dental Students.

N.B.—Students are not admitted under the age of eighteen years, and until they have completed two years' apprenticeship at mechanical work under a registered dentist, or at a recognised school.

Attendance.—The Hospital is open daily at nine o'clock (Sundays excepted), and students must attend at that hour unless their attendance is required at one of the General Hospitals or Medical School.

The Hospital must be attended for two years consecutively, irrespective of University vacations.

Leave of absence, when desired, must be obtained (in writing) from the Dean, and a medical certificate supplied in case of illness extending over a week.

An attendance sheet is provided, and students must see that their names are duly entered thereon.

Instruments.—Every student will be required to obtain Instruments for the Hospital practice before his attendance will be recognised. A list of these will be furnished to each student on entry.

Dresserships.—Regular days will be appointed by the House Surgeon for each student to attend in the Extracting, Anæsthetic, and Conservation Rooms. Cases for filling, and operating chairs will be allotted to students by the Dental Officers in attendance. Students shall enter all appointments made with patients on the papers provided for this purpose, with the particulars of the operation. Every operation must be carefully registered in the Hospital books.

Requirements of Curriculum.—During the two years' attendance students will be required:—

- (a) To attend as dressers in the Extracting and Anæsthetic Rooms.
- (b) To perform filling and other conservative operations.
- (c) To treat at least four regulation cases mechanically.

- (d) To make and insert at least six dentures : also a minimum of eight crowns, a specified number being of Richmond and collared type.
- (e) To attend the special courses of Clinical Lectures and Demonstrations.

Schedules.—Students are required to apply to the Dean for their schedules to be signed three months previous to the date of the examination by the Licensing Body, and no schedule will be passed unless the student has given satisfaction in his work and attendances, and acquitted himself satisfactorily at the examinations.

Conduct.—Students must consider themselves strictly under the control of the Officers of the Hospital. All unnecessary conversation must be avoided, and quietness and gentlemanly conduct towards the patients observed.

Demonstrations.—A special course of Demonstrations is held for first year students, and no student will be allowed to undertake any operation until he has attended to the satisfaction of the Demonstrators, and passed an examination in the subjects studied at the Demonstrations.

The student after having completed the course of demonstrations, and passing the examination held by the Demonstrators, is appointed a dresser in the Extraction and Conservation Rooms, where he will receive instruction in Operative Work.

OPERATIVE WORK.

Plastic filling, amalgam, osteo and gutta-percha.
Gold filling (Cohesive, non-cohesive and tin).
Inlay work
Crown and bridge.

Each student will be required to do examples of the various types of filling in a satisfactory manner.

REGULATION WORK.

Each student will keep a record of cases of Regulations undertaken by him.

Each student is required to treat the following types of regulation cases:—

Pushing one or more upper incisor or canine teeth over the bite, or rotating same.
Retract, etc., upper bicuspids and canines after extraction of sixth year molars.
Expansion of arch.
Protrusion of upper incisors.

The mechanical appliances must be made at the Hospital.

ANÆSTHETICS.

Each student shall receive instruction for at least one day per week from four to six months in extracting under anæsthetics under the Dental Officers in charge of the Anæsthetic rooms.

Each student shall receive instruction in the administration of Nitrous Oxide for at least twelve mornings (three months) from one of the Hon. Anæsthetists.

MECHANICAL AND PROSTHETIC WORK.

This Department is open Monday to Friday from 9 a.m. to 6 p.m., Saturday, 9 a.m. to 1 p.m. for making, under the supervision of a skilled teacher, dentures and regulating appliances.

Students will be appointed to attend in rotation by the Senior Honorary Officer of the Department.

A course of Mechanical and Prosthetic Demonstrations are given previous to the examination for the L.D.S., all students are required to attend.

Pupils are taken for the necessary three years instruction in mechanical work. Application for particulars to be made to the Dean.

EXAMINATIONS.

Annual Compulsory Examinations are held to test the progress of students; they are arranged as follows:—

First Year.

- 1.—Preliminary work, extractions and simple fillings at end of Demonstrators' course.
- 2.—Series of specimens of mechanical work, and mechanical examination.
- 3.—Operative work at the end of the first year.

Second Year.

- 1.—Advanced work in root treatment, fillings, crowns and inlays.
- 2.—Regulation cases, models, and appliances, illustrating the students' work.
- 3.—“Charles Greene” Memorial Medal for Anæsthetic Examination.
- 4.—Ash's Prize for a special essay.

A Prize with a Certificate will be awarded in each of the above sections if sufficient merit is shown, and the manner in which students perform the duties of their dresserships, and the regularity of their attendances will be taken into consideration in awarding the same.

**REGULATIONS AFFECTING PAST AND PRESENT
STUDENTS OF THE BIRMINGHAM
MEDICAL SCHOOL,**

Approved by the University Council, 4th May, 1904.

That Past Students of the Birmingham Medical School who have taken out their whole course in Birmingham, and are duly qualified Medical Men, be permitted at any period during the seven years commencing on the 1st of October, 1900, to present themselves for a Final Examination for the Degrees of Bachelor of Medicine and Surgery.

SUBJECTS FOR EXAMINATION.

- (a) *Medicine, including Therapeutics.
- (b) *Surgery and Operative Surgery.
- (c) *Midwifery and Gynæcology.
- (d) Pathology and Bacteriology.
- (e) Forensic Medicine and Toxicology.

* This Examination will consist of three parts :—(1) written papers, (2) *vivâ voce*, (3) clinical.

EXAMINATION FEE, £10.

That all present students of the School of Medicine who originally entered as first year students of the school, and have since regularly pursued their studies in the school, be permitted to present themselves for the examinations of the University without passing its matriculation examination, and without repeating any courses of lectures which they may already have taken out.

That all students of the School of Medicine falling under the above category who have passed any medical examinations in any British or Irish University be allowed to count such examination or examinations in lieu of the corresponding examination or examinations in the University of Birmingham, but that no such allowance be made in the case of students who have passed examinations conducted by licensing bodies other than Universities. Provided that in all cases it shall be essential that the student shall pass the Final Examination of the University of Birmingham.

ORDINANCE CONCERNING PRIVILEGES OF PAST STUDENTS OF THE BIRMINGHAM DENTAL SCHOOL.

That Past Students of the Birmingham Dental School (including those who qualify not later than the November, 1900 Examination of the Royal College of Surgeons of England) who have taken out their whole course in the Birmingham School, and are duly qualified and Registered Dental Surgeons, be permitted at any period during the seven years commencing on the 1st of October, 1900, to present themselves for a Final Examination for the Degree of Bachelor of Dental Surgery.

SUBJECTS FOR EXAMINATION.

- (a) The Surgery and Medicine of the Mouth.
- (b) Dental Bacteriology.
- (c) Dental Histology and Patho-Histology.
- (d) Comparative Dental Anatomy.
- (e) Dental Surgery and Prosthetic Dentistry.

The Examination will be partly written, partly practical, and partly oral.

EXAMINATION FEE, £10.

**ORDINANCE RELATING TO
PAST STUDENTS OF MASON UNIVERSITY
COLLEGE IN THE DEPARTMENT OF DENTISTRY.**

That Students who entered the Department of Dentistry in Mason University College in the years 1897 to 1899 inclusive, and have obtained both the License in Dental Surgery and the qualifications in Medicine and Surgery from some body legally qualified to confer such qualifications, and produce evidence that after having obtained the License in Dental Surgery they have received instruction in the Dental Department of a General Hospital for a period of not less than six months, be admitted to the Degree of Bachelor in Dental Surgery on passing the final examination for such Degree held by the University.

Approved by the University Council, 2nd March, 1904.

Day Training College.

FOR THE TRAINING OF TEACHERS IN PUBLIC
ELEMENTARY SCHOOLS.

Master of Method (Men) :

FRANK ROSCOE.

Assistants : { C. W. MILLIGAN, B.A.
 { A. W. BUTLER, B.A.

Teacher of Music : ARNOLD GRIFFIN.

Head Mistress (Women) :

ANNE HOLLINGWORTH JOYCE, B.A.

Assistant Mistresses :

FLORENCE C. M. CLARK, B.A. (Lond.).

EDITH U. SOWERBUTTS, B.Sc. (Vict.)

ADA BLANCHE TAYLOR.

ANNIE E. WARMINGTON, B.A. (Lond.).

AMY J. WALKER, M.A. ; B.A. (Lond.).

FRANCES COLLIE, M.A.

DAY TRAINING COLLEGE.

In connection with the University there is a Training College, with departments for men and women, constituted under the regulations of the Board of Education, with the object of preparing students to become certificated teachers in Public Elementary Schools.

The ordinary Course covers two years, permission to reside for a third year being granted by the Board of Education in certain cases of special fitness.

Before admission Candidates must satisfy the following requirements :—

- (a) Obtain a first or second class in the Queen's Scholarship Examination or pass one of the examinations accepted by the Board of Education as equivalent thereto.

- (b) Satisfy the Medical Officer of the College as to their general health and physical fitness to undertake the work of teaching.
- (c) Have attained the age of 18 years on the 1st September immediately preceding admission.
- (d) Sign a declaration that it is their bona-fide intention to take up the work of teaching in public elementary schools.

After admission, students pursue in general subject the curriculum of the University, this Course being recognised by the Board of Education as equivalent to Part II. of the Certificate Syllabus. In addition they receive professional training in the form of :—

- (a) Lectures on the theory and practice of teaching.
- (b) Practice under supervision in certain of the Board Schools of the City.
- (c) Criticism and demonstration lessons.

This Course, with lessons in Reading, Music, &c., is intended to prepare for the Examination held annually by the Board of Education in the subjects of Part I. of the Certificate Syllabus.

During residence an annual grant of £25 in the case of men, and £20 in the case of women is received from the Board of Education. From this sum are deducted the University fees, amounting annually to £12 10s. (men) and £10 (women). The remainder serves as a contribution towards the cost of board and lodging, books, &c.

Students must reside with their parents or guardians, or in lodgings approved by the Master of Method or the Head Mistress, who exercise general supervision over their conduct and studies.

For forms of application and other particulars application should be made to

MR. F. ROSCOE (Men),

MISS JOYCE (Women),

The University of Birmingham.

**REGULATIONS FOR OFFICIAL DEGREES OPEN
TO MEMBERS OF THE TEACHING STAFF
OF THE UNIVERSITY.**

Any Lecturer, Assistant Lecturer or Demonstrator may on the recommendation of his Professor, apply for an Official Degree in the Faculty to which he belongs, provided that at the date of the Degree Congregation at which the degree would be conferred he shall have completed two complete academic years of service in the position he holds. Such candidates for Official Degrees are required to submit copies of their contributions to Science, Literature or Medicine, or a Thesis specially prepared for the occasion. These papers will be submitted to Assessors, one of whom shall be an external examiner, and in the event of a Thesis having been submitted, the Assessors will be at liberty to question the candidate upon it, should they think fit, or to call upon him to pass any examination they may think proper. On the report of the Assessors the Faculty will decide in each case whether they will recommend the Senate to nominate the candidate for a degree.

Candidates who have no degree may be admitted in the first instance to the Degree of Bachelor only.

Candidates who already possess a degree may be admitted to such degree as the Faculty may decide, upon the report of the Assessors appointed to examine the credentials which they submit.

There will be no fees required for these official degrees.

Forms of application may be obtained from the Registrar, and should be returned to him with the Thesis on or before May 10th.

Finney, William Arthur, B.A. (Lond.)	1893
Fridlander, Ernest David, B.Sc. (Lond.)	1893
Gamgee, Leonard Parker, F.R.C.S.	1893
Griffiths, John Crisp, B.Sc. (Lond.)	1893
Gregory, Charles Frederick, M.A. (Lond.)	1897
Hackett, John (Senior Engineering Diploma)	1890
Haines, Aubrey Wheeler, B.Sc. (Lond.)	1890
Harrold, Edith	1897
Hooson, John Edward, B.Sc. (Lond.).....	1893
Housman, Basil Williams, F.R.C.S.	1893
Jackson, Alfred Edward (Senior Engineering Diploma)	1889
James, Elizabeth Angela	1890
Jenkyn-Brown, Lilian Evelyn, M.A. (Lond.)	1892
Jones, Oliver, B.A. (Lond.)	1891
Jordan, Walter Ross, M.D. (Lond.)	1890
Joyce, Thomas Goode, B.Sc. (Lond.).....	1897
Kauffmann, Otto Jackson, M.D., Lond.	1900
Kellett, Alfred Featherstone, B.A. (Cantab.).....	1890
Kidner, Norman William	1890
Langford, William Morris (Senior Engineering Diploma).....	1888
Lay, Charles Johnson, B.A. (Cantab.).....	1890
Ledsam, Henry Thomas Clutton Salt, B.A. (Lond.)	1890
Loasby, Harry Clement, B.A. (Lond.).....	1893
Love, Ernest F. J., M.A. (Cantab.)	1888
Lloyd, Emily Jane, B.Sc. (Lond.).....	1893
<i>Mackey, Edward, M.D. (Lond.). M.R.C.P. (the late)</i>	<i>1897</i>
MacSwiney, Felix, B.A. (Lond.).....	1890
Malins, Joseph, Jun., M.A. (Lond.).....	1891
Marks, Lionel Simeon (Senior Engineering Diploma), B.Sc. (Lond.)	1891
Marks, Benjamin, B.A. (Lond.).....	1893
Marris, William Arthur, M.D. (Lond.)	1898
Marson, Cyril Darby, M.R.C.S., L.R.C.P., L.D.S.	1898
Marson, Francis Herbert, F.R.C.S. (Eng.)	1896
Martin, Arthur James, M.D. (Lond.)	1893
Mathews, Marianne	1890
Melson, George Hyde, M.D. (Lond.).....	1891
Merrall, George James, B.A. (Lond.)	1893

	ELECTED.
Messiter, Matthew Arden, M.R.C.S.	1897
Miners, Bernard Perry, M.A. (Lond.)	1890
Moncrieff, Lady.....	1890
Norris, Richard, M.D.	1897
O'Dowd, John Austin, M.B.	1900
Onions, Charles Talbut, M.A. (Lond.).....	1893
Pemberton, Jane Elizabeth	1896
Pugh, John Vernon (Senior Engineering Diploma)	1897
Purslow, Charles Edwin, M.D. (Lond.), M.R.C.P.	1890
Reynolds, Albert Heywood, M.A. (Lond.).....	1890
Riley, John Thomas, D.Sc. (Lond.)	1884
Russell, James William, M.D. (Cantab.).....	1893
Sadler, Ernest Alfred, M.D. (Lond.)	1893
St. Johnston, George, M.D. (Lond.)	1896
Shakespeare, Gilbert Arden, B.A., B.Sc. (Lond.)	1897
Shedden, Arnold Ward, M.R.C.S., L.R.C.P., L.D.S.....	1898
Sinigar, Harry, M.B. (Lond.)	1896
Smith, Thomas Manners, M.A., M.R.C.S.	1893
Snell, Ernest Hugh, M.D., B.Sc. (Lond.)	1890
Southall, Gertrude Eliza	1890
Stansbie, John Henry, B.Sc. (Lond.)	1893
Stern, Arthur Landauer, D.Sc. (Lond.)	1888
Stern, Rose, B.Sc. (Lond.).....	1898
Sturge, Mary Darby, M.D. (Lond.)	1890
Suckling, Cornelius William, M.D. (Lond.).....	1897
Suckling, Marianne E.	1897
Sudborough, John Joseph, D.Sc. (Lond.)	1890
Teichelmann, Ebenezer, F.R.C.S.	1890
Thomas, William, M.B. (Lond.), F.R.C.S. (Eng.).....	1897
Tibbetts, Thomas Major, M.B. (Lond.), D.P.H.	1896
Vincent, Thomas Swale, M.B. (Lond.)	1898
Vincent, Joseph Herbert, D.Sc. (Lond.)... ..	1899
Ward, Charles Frederick Myers.....	1893
Warmington, Edward Augustus, Ph.D. (Leipzig)	1894
Wheatley, Arthur John (Senior Engineering Diploma)	1887
White, James Atkin Henton, M.D., F.R.C.S.	1897
Wilders, John St. Swithin, M.R.C.S.	1897
Williams, Walter Collingwood, B.Sc. (Lond.)	1884
Wood, George Croft Orwin (Senior Engineering Diploma).....	1887

UNDERGRADUATES IN RESIDENCE

DURING THE SESSION 1905-06.

-
- 669 Acton, Elizabeth.
372 Adams, John.
539 Adams, Thomas Henry.
297 Airston, Alexander Jonathan.
732 Akimoto, Harsitomo.
631 Alcock, Mildred Annie.
490 Allcut, Edgar Alfred.
249 Anderson, Edward Bertram.
752 Andrew, Arthur Robert.
699 Arlidge, John Bertram Stewart.
190 Armitage, Dora Kathleen.
673 Ash, Cecil Clive.
711 Asdell, John Henry.
456 Ashley, Wilfred Severne.
730 Askew, Harold Cheesmond.
371 Ashmore, William Gerald.
739 Assinder, Eric Walter.
387 Austin, Harold Austin.
535 Badger, Eva Marianne.
369 Bailey, Charlotte.
209 Ball, Lawrence.
551 Bampton, James Henry.
737 Barclay, Allen.
575 Barker, Mary Ethel.
260 Barlow, Thomas Morgan.
716 Barrett, Victor Holmes McNaghten.
511 Bartindale, Edith Dora.
269 Bates, John Leslie.
652 Beach, Agnes.
615 Beach, Mary.
630 Beale, Winifred Mabel.
651 Beddows, Edith.
546 Bee, Elsie.

- 429 Belton, Frances Nora.
431 Belton, Nelly Gwendolyn.
616 Bevenot, Nathalie Mary.
566 Blackham, Walter Charles.
378 Blackwell, Norman George.
469 Blaker, Reginald Bromhead.
731 Bliss, Ernest William
607 Bonnewell, Annie Tocher.
210 Boome, Edward James.
748 Bose, Aloke.
581 Bose, Asok.
544 Boswell, Norman Alexander.
365 Bowater, John.
27 Bowater, William.
242 Bracey, Herbert Charles Horace.
702 Bradburn, Thomas Stratford.
681 Brewer, Florence Annie.
662 Brooks, Norman Edmund.
576 Brown, Lillian Eva.
530 Brown, Percy Charles.
409 Browning, Harold Gordon.
306 Buchanan, Mary McFarlane.
664 Bunting, Harry Lawrence.
271 Burchell, Lillian Ann.
339 Bushill, Thomas William.
712 Butler, Kate Elizabeth.
442 Campion, Ethel Elizabeth.
592 Carpenter, Thomas Lionel.
715 Caulkin, Howard Alfred.
446 Cave-Browne-Cave, Nigel Frederick.
660 Chadband, Alice May.
729 Chandler, Seymour Harley.
521 Chatwin, Robert Boughton.
570 Chatwin, Noel James.
275 Clark, Hilda.
750 Clarke, Albert Edward.
757 Clarke, John Leonard.
237 Clarke, Mary.
493 Collier, Francis John.
519 Cooke, Stella Edith.
553 Copson, Edith Emma.
58 Cordon, Archibald.

- 678 Corkish, Albert Edward.
736 Cory, Mary.
605 Court, Christopher Charles Cole.
694 Court, David Henry.
659 Craig, Agnes Isabel.
215 Creswell, Arthur Wilfred.
611 Cross, Edgar Algernon.
96 Crowe, Henry Neville.
623 Currall, Edward Percy.
543 Cuthbertson, Hilda.
430 Cutting, Ethel Sophia.
276 Dale, John.
676 Dane, Arthur.
434 Davies, Ellen Elizabeth.
199 Davis, Herbert Valentine.
590 De, Satis Chandra.
500 Dearnley, Edith.
423 Deeley, Criss Parsonage.
656 Devey, May Frances.
719 Dixson, Gertrude Mary.
501 Doughty, Ethel May.
690 Dukes, Henry Wilfred.
479 Duncan, Emily Grace.
415 Edwards, John Selwyn.
510 Edwards, Lawrence Wright.
233 Eglington, Clara.
524 Elwell, John Batty.
384 Eusor, Ainslie Jackson.
517 Entwisle, George.
691 Essex, Thomas Parr.
7 Evans, Harvey Atkins.
527 Eveson, Violetta Mary Elizabeth.
250 Fenton, James.
549 Fenter, Julia Marian.
707 Finch, Lionel Hugh Knightley.
754 Fiddian, James Victor.
312 Fisher, William Ernest.
744 Florendine, Thomas Arthur.
574 Fitter, Lilian Emily.
565 Forbes, Melanie Sophie.
746 Fox, Cyril Saukey.
751 Fox, Vivian Francis Eling.

- 648 Foyle, Ada Ellen.
460 Freeman, Amy Helen.
617 Galloway, Lee.
533 Galloway, Mabel.
714 Garratt, Harry.
224 Gaunt, Eric Thomas.
223 Gaunt, John Kennedy.
507 Gibson, Elizabeth Beatrice.
708 Gibson, Frances Millicent.
596 Gifford, Randolph Douglas.
537 Glassey, Carlotta Primrose.
717 Goodey, Tom.
532 Gough, Minnie Margaret.
679 Graham, John Edward.
650 Green, Florence.
706 Green, Francis Reginald.
389 Green, George Wilfrid Acland.
488 Green, William Herbert.
455 Greenway, Noel Wilson.
375 Gregory, Bernard Charles.
626 Griffiths, Benjamin Millard.
597 Grist, Henry Noel.
505 Grove, Alfred John.
627 Gunns, Hubert Frank.
587 Hafize, Abdul.
634 Hague, Arthur.
398 Hale, Harry William.
642 Hampton, Harold Watchorn.
572 Haunah, Emily Clair.
701 Harby, Wilfred Harry.
298 Harmar, Cuthbert Izon.
363 Harrison, Ernest Claude.
374 Hartley, Mary Forrest.
667 Hatfield, Henry Arnold.
670 Haughton, John Leslie.
9 Hayes, Lionel Chattock.
680 Haylett, Charles Henry.
381 Hayward, Charles William.
612 Heath, Joseph.
557 Hemming, Arthur Howard.
278 Henry, Albert Ernest.
287 Herbert, Gerald Oscar.

- 614 Hicks, Hermann.
- 647 Hicks, Alice.
- 413 Hill, Edith Millicent.
- 504 Hill, George Baillie.
- 370 Hill, Sydney Ashton.
- 749 Hilbourne, George Mathias.
- 226 Hincks, Arthur Cecil.
- 338 Hipkins, John Charlton.
- 741 Holden, Oscar Madeley.
- 400 Holroyd, John Othie.
- 636 Holroyd, Thomas Herbert.
- 441 Holloway, Ettie Gertrude.
- 644 Honniball, Victor Fred.
- 697 Hooper, Rowley Shillito.
- 638 Horsley, Edwin James.
- 552 Horsley, Maud Lillian.
- 640 Horsnall, William Edgar.
- 454 Hough, Sidney John.
- 713 Howell, Roland Avenirin.
- 344 Huddleston, George James Procter.
- 536 Hughes, Edith Grace.
- 608 Hughes, Violet Harriet.
- 704 Humpherson, Elsie Mary.
- 593 Humphreys, Humphrey Francis.
- 330 Humphreys, Percy James.
- 161 Hurley, James.
- 604 Impey, Elizabeth Stephens.
- 632 Izett, Josephine.
- 529 Jenkins, Frederic Reynolds.
- 437 Jennings, Editha Helena.
- 722 Jesse, Richard Henry Bishop.
- 683 Johnson, Frederick.
- 201 Johnson, Claude.
- 657 Jones, Elsie Mand.
- 468 Jones, James Thomas Gwynne.
- 404 Jones, Wilfrid.
- 738 Jones, William Herbert.
- 545 Jones, Winifred Marguerite.
- 603 Jordan, Lionel Gilbert.
- 20 Jotham, George Frederick.
- 645 Kapp, Reginald Otto.
- 710 Kaye, William Cyril.

- 658 Keeling, Mary Elizabeth.
558 Keene, Horace Borton.
516 Kerr, Alexander Parker Thomas.
362 Kershaw, Lawrence William.
272 Knight, Arthur Noel Stanley.
649 Knight, Marion Enid.
725 Langwell, Bernard Harold.
382 Lawton, Frederick.
403 Lawton, Hubert Ralph.
513 Ledbrook, Sydney William.
705 Lee, Irene Olive.
360 Lillie, Denis Gascoigne.
555 Linney, Gertrude.
208 Lloyd, Bertram Arthur.
568 Lloyd, Jessie Lilian.
401 Loach, Arthur William.
391 Lovatt, Arthur.
407 Loveridge, Percy Norman.
508 Lowe, Harold Newton.
740 Macfarlane, Alan Grant.
368 McCready, Violet Maud.
619 McQueen, William Andrew.
654 Madan, Annie Harriet.
523 Magrath, William Thomas.
580 Majumdar, Pruja Krishna.
643 Mansell, Walter Cyril.
405 Mason-Jones, Archibald John.
727 Mason, Harry.
241 Mason, Philip James.
726 Mather, Charles Henry.
366 Mellor, John Leslie.
633 Mills, Mary Grace.
497 Milward, Katie Millicent.
689 Mitsui, Taka Kiyo.
747 Mokadam, Baliram.
270 Mold, George Henry Chavasse.
755 Molino, Carl Euclid.
379 Moon, George Bassett.
685 Moore, Herbert Henry.
356 Morley, Edith Mary.
665 Morris, Ernest Frederick.
618 Morris, Leslie.

- 625 Mott, Harold Ernest.
- 629 Murray, Myles Thornton.
- 492 Nelson, Ronald Douglas.
- 601 Newton, Arthur Harry.
- 534 Newton, Ethel.
- 390 Newton, Herbert George.
- 402 Nicholls, Edgar Allen.
- 698 Norton, Harold Richard.
- 724 Overfield, Norman Sidney.
- 424 Owen, Gertrude Emily.
- 692 Pan, Chengfu.
- 624 Parkes, Alan Cecil.
- 709 Parry, Kathleen.
- 733 Parry, Matthew Croose.
- 422 Parry, Ethel.
- 556 Parsons, Wilfred.
- 14 Partridge, Gertrude Mary.
- 695 Patrick, Walter Sydney.
- 238 Penrose, Nevill Coghill.
- 641 Perry, Victor Eugene.
- 753 Petersen, August Theodore.
- 435 Phillips, Amy Lillian.
- 207 Phipson, Edward Selby.
- 343 Pickup, Arthur McLean.
- 525 Pilson, Charles Alexander.
- 509 Piper, Henry Norman.
- 494 Poole, Granville.
- 18 Price, Horace John D'Arcy Gerrard.
- 655 Priest, Beatrice Adeline.
- 414 Priestman, Lillian Ada.
- 735 Pritchard, William George.
- 334 Quinney, Horace.
- 589 Read, Harry Crible.
- 684 Reynolds, Elsie.
- 547 Richardson, Louise Maud.
- 628 Richmond, Henry.
- 502 Ridsdale, John Langford Disturnal.
- 340 Ritchie, George Thwaites.
- 341 Ritchie, John Lichtenstein.
- 606 Ritchie, William Bruce Almon.
- 693 Robbins, Bernard Thomas.
- 668 Roberts Harry.

- 646 Roberts, Jane.
175 Roberts, Walter Rowland Southall.
700 Robinson, Arthur Gordon.
720 Robinson, Arthur Gordon.
653 Sabell, Lilian Gertrude
759 Salt, Lizzie Godwin.
399 Sampson, Herbert Henry.
214 Sanders, Arthur Addison.
591 Sanders, Frank.
723 Sanders, Arthur Macmillan.
688 Sandilands, John Gordon.
259 Scott, Gilbert Shaw.
687 Seale, Henry Dendy.
745 Sen, Ajit Mohan.
598 Seyfried, John Thaddeus de.
663 Sheasby, Hilda Mabel.
639 Sheldon, Harry.
499 Sherratt, Ellen.
421 Silvester, Clara Emily.
586 Simmons, Arthur.
361 Smart, John Deiro.
22 Smith, Arthur John.
677 Smith, Arthur Leslie.
383 Smith, Charles Gordon.
196 Smith, David Priestley.
554 Smith, Elizabeth Emma.
522 Smith, Gavin Hildick.
550 Smith, Kate.
637 Smith, Percy.
515 Smith, Richard Hugh.
518 Smith, Sidney.
613 Smith, William Lester.
671 Sonnenschein, Christopher Edward.
528 Stafford, Thomas Sidney.
364 Stanford, Robert Viner.
620 Stephen, George Duncan.
496 Storer, Eleanor Louisa.
599 Stoward, Frederick.
728 Strickley, Walter.
55 Sullivan, Patrick Arthur.
588 Sutherns, Harry Davis.
486 Swann, Ann Mary Goodrick.

- 594 Tasaki, Shinji.
- 448 Taylor, Charles Henry.
- 491 Taylor, Harry.
- 355 Teague, Francis Clifford Dyche.
- 367 Terry, Harold Cairns.
- 440 Thomas, Elsie Lilian Poyser.
- 57 Thomason, Henry Philip.
- 266 Thompson, Rupert Wesley.
- 97 Thwaite, Harold.
- 602 Tibbetts, Arthur Christopher.
- 439 Tidmarsh, Elsie Isabel.
- 682 Tildesley, Horace William.
- 512 Titterton, May.
- 560 Todd, George William.
- 703 Troughcon, Beatrice Ellen.
- 182 Turner, Edith.
- 686 Tyers, Archibald Neville.
- 674 Tyers, Mildred Anice.
- 621 Twigg, William Henry.
- 743 Uyeda, Teijiro.
- 540 Vernon, Evelyn Lorna.
- 672 Villiers, Percy William.
- 466 Waldron, Ethel Annie.
- 358 Walker, Arthur Oldfield.
- 526 Walker, Cranston.
- 622 Walter, Cecil Montague.
- 62 Ward, Ellen.
- 357 Watson, Ernest Ansley.
- 675 Watson, Lily.
- 742 Wandby, Frederic.
- 718 Webb, Henry.
- 514 Westcott, Victor Reginald.
- 471 Wetherall, Clara Elizabeth.
- 462 Whitby, Edward Vernon.
- 35 Whitcombe, Edmund.
- 41 Whitcombe, Harold Arthur.
- 538 White, Arthur Edward.
- 756 White, Charles Arthur.
- 396 White, Eric Arthur.
- 465 Whitehouse, James.
- 584 Whitehouse, Richard Henry.
- 721 Whitehouse, Wilfred Eric.

- 666 Whiting, William James.
661 Whittingham, Frederick.
734 Wiggitt, James Marshall.
311 Wilkes, Samuel John Herbert.
548 Wilkinson, Kenneth Douglas.
495 Wilkinson, Edith Mary.
520 Wilks, Henry.
2 Williams, Norman Valentine.
487 Wilmot, Stanley Birley.
452 Wood, Denys Richard.
610 Woods, Grace Catlin.
408 Woodhouse, William.
696 Woodhouse, John.
313 Woolf, Montague Sydney.
577 Wright, Eva.
392 Wright, Harry.
498 Wright, Margaret Dorothea.
258 Wright, Robert.
609 Wynn, Albert Edward.
191 Young, Francis Brett.
635 Young, Sydney John.
-

Students attending Classes during Session 1905-1906.

STUDENTS IN SCIENCE, ARTS, AND COMMERCE.

Abraham, Marjorie	Baxter, Kenneth Murray
Acton, Elizabeth	Bayliss, Jessie Sproat
Adams, Mrs. Percy	Beach, Mary
Adams, Thomas Henry	Beatson, Archibald Meade
Ainley, William Henry Sykes	Bednall, Ada
Airston, Alexander Jonathan	Berry, Thomas Henry
Akinoto, Harsitomo	Berry, Cecil Stanley
Alexander, Justice Featherstone- haugh	Best, Victor Charles
Allcut, Edgar Alfred	Bévenot, Nathalie Mary
Allday, Gordon Harvey	Beyer, Oskar Herman Max Bruno
Almond, James Birkett	Billington, Sidney Guy
Anderson, Edward Bertram	Blackwell, Norman George
Andrew, Arthur Robert	Blair, Kenneth Campbell
Ansell, Mabel Jessie	Blaker, Reginald Bromhead
Arlidge, John Bertram Stewart	Blay, William Frederick
Armitage, Dora Kathleen	Bleby, Mary Louise
Asdell, John Henry	Bliss, Ernest William
Ash, Cecil Clive	Blurton, Walter Robert
Ashford, Ethel Bright	Boddington, Margaret
Ashley, Wilfred Severne	Bolton, Edward John
Ashmore, William Gerald	Booth, Elsie Mary
Assinder, Arthur Cecil Frederick	Bose, Asok
Aston, Francis William	Bose, Aloke
Austin, Harold Austin	Bourne, Joseph
Baldock, Norman Shortman	Bovell, Caryl Harrison
Barclay, Allen	Bowater, John
Barling, Edith Madge	Bowater, Frederick Ernest
Barlow, Thomas Morgan	Bowden, Alfred
Barnes, William Henry	Bowen, William
Barrett, Norman Cope	Brett, Clara Emily
Barrett, Victor Holmes McNaughten	Brooks, Norman Edmund
Barrow, Fred	Broscombe, Frederick James
Bassett, Mary	Brown, Percy Charles
Bates, John Leslie	Brown, Walter Stewart
Baugh, Edith Mary	Brown, Gladys Muriel
	Bruce, Christopher Yale
	Buchanan, Mary McFarlane

Bunce, Myra
 Bunting, Harry Lawrence
 Bushill, Thomas William
 Butler, Arthur Wellesley

Cadbury, Beatrice
 Cantwell, Patricia
 Carpenter, Thomas Lionel
 Caulkin, Howard Alfred
 Cave-Brown-Cave, Nigel Frederick
 Chamberlain, Charlotte
 Chatwin, Noël James
 Chatwin, Robert Boughton
 Clarke, John Leonard
 Clarke, Norman Carlyle
 Cleaver, Louisa Maria
 Collier, Francis John
 Cooke, Stella Edith
 Cory, Mary
 Coulson, Richard
 Cox, Arthur Hubert
 Coxon, Frank Maurice
 Crees, Henry William
 Creswell, Arthur Wilfred
 Crisp, George Henry
 Cross, Edgar Algernon
 Crowther, Stephen Charles
 Currall, Edward Percy
 Cuthbertson, Hilda

Dallow, Norman Richard
 Davies, Cyril
 Davis, Herbert Valentine
 Davis, Alfred
 Daw, Ernest Albert Harris
 Dawson, Reginald
 De, Satis Chandra
 Dingley, Dorothy Muriel
 Dingley, Lionel Alfred
 Dixon, Mrs. A. S.
 Dixon, Mary
 Dixon, Mrs. C. W.
 Dixon, Tom Douglas

Dobson, Thomas
 Dougall, Percy
 Drew, Edwin
 Drummond, Isabella
 Dulley, Edward Henry
 Duncan, Emily Grace
 Dunkley, Daisy Adelaide

Edwards, Reginald Howard
 Elliott, Charles
 Ellis, Sidney John
 Elsdon, George Davidson
 Elwell, John Batty
 Engels, Jenny Mary Clara Othlie
 Entwisle, George
 Evans, Benjamine Wilfred
 Evans, Alfred Dudley
 Evershed, Sydney Herbert
 Evetts, Alice Mand

Farquharson, James
 Fayerman, Florence Margaret
 Fiedler, Mrs. H. G.
 Finch, Lionel Hugh Knightley
 Fisher, Frederick Thomas
 Fisher, William Ernest
 Fletcher, Arthur Philip
 Foley, James Walter
 Ford, Janie Williamson
 Forrest, Norman
 Foster, Sydney Le Neve
 Fox, Cyril Sankey
 Foxwell, Ernest
 Freeman, Amy Helen

Galloway, Lee
 Galloway, Mabel
 Ganderton, Martin Noel
 Gell, Harold Marriott
 George, Lilian Emilie
 Gibson, Joseph
 Gibson, Mary Hannah
 Gifford, Randolph Douglas

Gimson, Charles Spencer
 Glen, John Calder
 Gomez, Hector
 Gold, James Herbert
 Goode, John Howard
Goodwin, Leonard Bartrum
 Gough, Minnie Margaret
 Grayston, George Arthur
 Green, Francis Reginald
 Green, George Wilfrid Acland
 Green, William Herbert
 Green, Margaret Minna
 Greenway, Noel Wilson
 Grew, Herbert Weston
 Grierson, Ronald
 Griffiths, Arthur Edwin
 Grist, Henry Noel
 Grout, Sydney
 Grove, Arthur Beaumont
 Grove, Alfred John
 Grove, Emily Florence
 Gunnis, Ronald Stuart
 Guyton, James Eric Ryland

 Hadley, Ada
 Hafiz, Abdul
 Hague, Arthur
 Hale, Harry William
 Hall, Kate
 Hall-Wright, Horatio Ellington
 Hampson, Travis
 Handley, Marion
 Hannah, Emily Clair
 Harby, Wilfred Harry
 Hardaker, Walter Henry
 Harper, Winifred Fowler
 Harris, Enid
 Harris, Vernon
 Harris, William Henry
 Harrison, Ernest Claude
 Harrison, William Jerome
 Harrison, William Norman

Hartley, Mary Forrest
 Hartshorne, Harry Cyril
 Haughton, John Leslie
 Hawkes, Mrs. R. J. J.
 Heathcote, Ernest William
 Hemming, Albert Edward
 Hendriks, Eileen Mary Lind
 Henman, Winifred Matilda
 Henry, Albert Ernest
 Herbert, Gerald Oscar
 Hickmans, Evelyn Marion
 Hicks, Hermann
 Higby, Charles Edward
 Hill, George Baillie
 Hill, George Leonard
 Hill, Sydney Ashton
 Hill, Victor Baillie
 Hilmy, Riad
 Hindsley, Raymond
 Hollis, Clara
 Hollister, George Selkirk
 Holroyd, John Othie
 Homan, Edward Noel St. John
 Honniball, Victor Fred

UNIVERSITY EXAMINATIONS,

SESSION 1905-06.

FACULTY OF SCIENCE.

JUNE, 1906.

I.—DEGREE OF DOCTOR OF SCIENCE.

Barnes, Arthur Stanley.
Lapworth, Herbert.
Slator, Arthur.

II.—DEGREE OF MASTER OF SCIENCE.

(a) *Official.*

Hummel, Frank Harvey.

(b) *Under Ordinary Regulations.*

Andrew, Arthur Robert.
Bayliss, Jessie Sproat.
Hickmans, Evelyn Marion.
Imms, Augustus Daniel.
White, Charles Arthur.

III.—DEGREE OF BACHELOR OF SCIENCE.

(a) *Official.*

Hudson, Oswald Freeman.
Lister, George Anslow.

(b) *Associates.*

Baker, Thomas James.
Bishop, Douglas Howard.
Heathcote, Henry Leonard.
Kinder, Frederick Thomas.
Millar, James Hill

(c) *Under Ordinary Regulations.*

Honours Division.

*Silvester, Clara Emily (Geology).

Division I.

Deeley, Criss Parsonage.
Henry, Albert Ernest.
*Mason-Jones, Archibald John.
Nicholls, Edgar Allen.
Parry, Ethel.
Smith, Charles Gordon.
Wright, Eva.
Wright, Harry.

* University Scholarship.

Division II.

Blackwell, Norman George.
 Ensor, Ainslie Jackson.
 Haines, Harry.
 Jones, Wilfrid.
 Lawton, Hubert Ralph.
 Lovatt, Arthur.
 Newton, Herbert George.
 Owen, Gertrude Emily.
 Partridge, Gertrude Mary.
 Walker, Arthur Oldfield.
 Wright, Robert.

Passed in part of the Examination.

Beach, Mary (Mathematics, Pure and Applied).
 Bliss, Ernest William (Mathematics, Pure and Applied).
 Cory, Mary (Pure Mathematics).
 Cuthbertson, Hilda (Pure and Applied Mathematics, Botany).
 Davis, Herbert Valentine (Physics, *Subsidiary*).
 Dyche-Teague, Francis Clifford (Chemistry, *Principal*).
 Edwards, Lawrence Wright (Geology).
 Elwell, John Batty (Geology).
 Galloway, Mabel (Botany, Geology).
 Gregory, Bernard Charles (Physics, *Principal*).
 Grove, Alfred John (Botany).
 Hale, Harry William (Applied Mathematics I., *Subsidiary*).
 Harby, Wilfrid Harry (Pure Mathematics).
 Keene, Horace Borton (Pure Mathematics, Geology).
 Lowe, Harold Newton (Geology).
 Newton, Ethel (Botany, Geology).
 Robinson, Arthur Gordon (Pure Mathematics II., Geology).
 Todd, George William (Pure Mathematics, Geology).
 Whitehouse, Richard Henry (Botany).

IV.—DEGREE OF BACHELOR OF SCIENCE IN ENGINEERING.

Honours Division.

Barlow, Thomas Morgan (Electrical Engineering).
 Fisher, William Ernest (Mechanical Engineering).
 Wilkes, Samuel John Herbert (Mechanical Engineering).

V.—DEGREE OF BACHELOR OF SCIENCE IN MINING.

Honours Division.

Whitehouse, James (Mining).

VI.—DEGREE OF BACHELOR OF SCIENCE IN METALLURGY.

Division II.

Scott, Gilbert Shaw.

VII.—INTERMEDIATE SCIENCE EXAMINATION.

Division I.

Cuthbertson, Hilda.

Goodey, Tom.

†Gunns, Hubert Frank.

Lowe, Harold Newton.

Marris, George Christopher (External Candidate).

Smith, William Lester.

Todd, George William.

Whittingham, Frederick.

Division II.

Dane, Arthur.

Dartnall, Reginald Ward Henry (External Candidate).

Edwards, Lawrence Wright.

Griffiths, Benjamin Millard.

Hilbourne, George Mathias.

Keene, Horace Borton

Pritchard, William George.

Troughton, Beatrice Ellen.

Webb, Henry.

Wiggett, James Marshall.

Completed the Examination.

Grove, Alfred John.

Whitehouse, Richard Henry.

Passed in part of the Examination.

Beach, Agnes (Chemistry, Zoology).

Clarke, Albert Ernest (Mathematics, Zoology).

Dixon, Gertrude Mary (Mathematics, Chemistry, Zoology).

Hemming, Arthur Howard (Physics, Chemistry).

Jesse, Richard Henry Bishop (Physics, Chemistry).

Kaye, William Cyril (Mathematics, Chemistry).

Lee, Irene Olive (Chemistry, Biology).

Parsons, Wilfrid (Physics, Chemistry).

Simmons, Arthur (Physics, Chemistry).

VIII.—THIRD ENGINEERING EXAMINATION.

Division I.

Green, George Wilfrid Acland.

†Watson, Ernest Ansley.

Division II.

Kershaw, Lawrence William.

Smith, Sydney.

Completed the Examination.

Barlow, Thomas Morgan.

Knight, Arthur Noel Stanley.

Wilkes, Samuel John Herbert.

Passed in part of the Examination.

Greenway, Noel Wilson (Applied Mathematics, Physics, Engineering).

Ritchie, George Thwaits (Geology, Engineering).

Smart, John Deiro (Physics, Engineering).

IX.—SECOND ENGINEERING EXAMINATION.

Division I.

Gifford, Randolph Douglas.

†Ledbrook, Sydney William.

Ridsdale, John Langford Disturnal.

Taylor, Charles Henry.

Taylor, Harry.

Division II.

Allcut, Edgar Alfred.

Pilson, Charles Alexander.

Completed the Examination.

Cave-Browne-Cave, Nigel Frederick.

Smart, John Deiro.

Passed in part of the Examination.

Harrison, Ernest Claude (Applied Mathematics, Engineering, Metallurgy).

Magrath, William Thomas (Engineering, Applied Mathematics).

Smith, Richard Hugh (Applied Mathematics, Engineering, Geology).

Sonnenschein, Christopher Edward (Pure and Applied Mathematics, Physics).

Westcott, Victor Reginald (Applied Mathematics, Engineering).

White, Arthur Edward (Engineering, Metallurgy).

Wilmot, Stanley Birley (Engineering, Geology).

X.—FIRST ENGINEERING EXAMINATION.

Division I.

*Clarke, John Leslie (External Candidate).

Cross, Edgar Algernon.

Ritchie, William Bruce Almon.

Division II.

Ewen, Donald (External Candidate).

Nevett, William Percy (External Candidate).

Robinson, Arthur Gordon.

Walter, Cecil Montagne.

Completed the Examination.

Magrath, William Thomas.

Sonnenschein, Christopher Edward.

Wilmot, Stanley Birley.

* Entrance Exhibition.

† University Exhibition.

Passed in part of the Examination.

Arlidge, John Bertram Stewart (Physics, Chemistry, Drawing).
 Asdell, John Henry (Applied Mathematics, Physics, Chemistry, Drawing).
 Brooks, Norman Edmund (Chemistry, Drawing).
 Bunting, Harry Lawrence (Mathematics, Physics, Drawing).
 Currall, Edward Percy (Physics, Chemistry, Drawing).
 Haughton, John Leslie (Physics, Chemistry, Drawing).
 Hicks, Hermann (Physics, Drawing).
 Kapp, Reginald Otto (Physics, Chemistry, Drawing).
 Morris, Leslie (Physics, Chemistry, Drawing).
 Parkes, Alan Cecil (Physics, Chemistry, Drawing).
 Sandilands, John Gordon (Mathematics, Drawing).
 Walters, William (Physics, Drawing).
 Whiting, William James (Physics, Chemistry, Drawing).
 Wynn, Albert Edward (Physics, Chemistry Drawing).
 Young, Sydney John (Physics, Drawing).

XI.—SECOND MINING EXAMINATION.

DEGREE CANDIDATES.

Division I.

Seyfried, John Thaddeus de.
 Smith, Gavin Hildick.

Division II.

Hafiz, Abdul.
 Poole, Granville.
 Read, Harry Crible.

Passed in part of the Examination.

De, Satis Chandra (Mining, Geology, Engineering).

DIPLOMA CANDIDATES.

Passed in part of the Examination.

Assinder, Arthur Cecil Frederick (Mining, Geology, Engineering)
 Entwisle, George (Mining, Geology, Engineering).

XII.—FIRST MINING EXAMINATION.

DEGREE CANDIDATES,

Division I.

Barclay, Allen.
 Sen, Ajit Mohan.
 Stephen, George Duncan.

Division II.

Barrett, Victor Holmes McNaghten.
 Fox, Cyril Sankey.
 McQueen, William Andrew.

Completed the Examination.

De, Satis Chandra.

Passed in part of the Examination.

Smith, Arthur Leslie (Physics, Mining, Geology).

DIPLOMA CANDIDATES.

Passed in part of the Examination.

Glen, John Calder (Mining, Geology).

Thompson, William Gordon (Physics, Mining, Geology).

XIII.—SECOND METALLURGY EXAMINATION.

Completed the Examination.

Scott, Gilbert Shaw.

XIV.—FIRST METALLURGY EXAMINATION.

Division I.

Johnson, Frederick.

Murray, Myles Thornton.

Passed in part of the Examination.

Hague, Arthur (Physics, Chemistry, Metallurgy).

XV.—DIPLOMA IN BREWING.

Division I.

F'Anson, Antony Atkinson Whitfield.

Division II.

Wenman, Norman Parkes.

SEPTEMBER, 1905.

I. DEGREE OF BACHELOR OF SCIENCE.

Owen, Gertrude Emily (Mathematics).

II. INTERMEDIATE SCIENCE EXAMINATION.

Division I.

Bliss, Ernest William.

Division II.

Harby, Wilfred Harry.

Completed Examination.

Newton, Herbert George.

Wright, Eva.

Passed in part of the Examination.

Grove, Alfred John (Chemistry).

Whitchouse, Richard Henry (Physics).

III. THIRD ENGINEERING EXAMINATION.

Passed in part of the Examination.

Knight, Arthur Noel Stanley (Physics).

Wilkes, Samuel John Herbert (Physics).

IV. SECOND ENGINEERING EXAMINATION.

Completed Examination.

Hough, Sidney John.

Passed in part of the Examination.

Cave-Browne-Cave, Nigel Frederick (Applied Mathematics).

V. FIRST ENGINEERING EXAMINATION.

Passed in part of the Examination.

Magrath, William Thomas (Chemistry).

VI. FIRST MINING EXAMINATION.

Completed Examination.

Poole, Granville.

Read, Harry Crible.

Smith, Gavin Hildick.

Passed in part of the Examination.

De, Satis Chandra (Mathematics).

Fletcher, Arthur Philip (Physics).

Hill, George Baillie (Physics).

FACULTY OF ARTS.

JUNE, 1906.

I.—DEGREE OF MASTER OF ARTS.

†Bleby, Mary Louise (English).

Carpenter, Thomas Lionel (English History).

‡Freeman, Amy Helen (School of Modern Languages).

Handley, Marion (English).

Walker, Amy Jane (French).

II.—DEGREE OF BACHELOR OF ARTS.

Division I.

*Ashley, Wilfrid Severne (Distinction in Latin, English, Greek).

Freeman, Amy Helen (Distinction in German, French).

Hannah, Emily Clair (Distinction in French, German).

Hipkins, John Charlton (Distinction in English, French).

Loach, Arthur William (Distinction in Latin, French).

*Loveridge, Percy Norman (Distinction in Latin, French, European History).

† Research Scholarship.

‡ Harding Travelling Scholarship.

* University Scholarship.

Division II.

Buchanan, Mary McFarlane.
 Burchell, Lilian Ann.
 Cutting, Ethel Sophia.
 Davies, Ellen Elizabeth.
 Hartley, Mary Forrest.
 Hill, Edith Millicent.
 Holloway, Ettie Gertrude.
 McKinnell, Flora Eastaway.
 Phillips, Amy Lilian.
 Thomas, Elsie Lilian Poyser.
 Tidmarsh, Elsie Isabel
 White, Eric Arthur.

Passed in Part of the Examination.

Bates, John Leslie (English, French, *Principal*; Roman History, *Subsidiary*).
 Belton, Frances Nora (English, *Principal*; Latin, Psychology, *Subsidiary*).
 Belton, Nelly Gwendolyn (Latin, English, French, *Principal*; European History, *Subsidiary*).
 Campion, Ethel Elizabeth (Latin, English, European History, *Principal*).
 Priestman, Lilian Ada (Latin, English, *Principal*; Psychology, *Subsidiary*).

III.—SECOND EXAMINATION IN THE SCHOOL OF MODERN LANGUAGES.

Division II.

†Woolf, Montague Sydney.

IV.—SECOND YEAR ARTS EXAMINATION.

Armitage, Dora Kathleen (Latin, English, French, Psychology).
 Barker, Ethel Mary (Latin, English, European History).
 Bartindale, Edith Dora (Latin, English, French, European History).
 Brown, Lilian Eva (Latin, English, French).
 Brown, Percy Charles (Latin, English, French).
 Cooke, Stella Edith (Latin, English, French, Mathematics).
 Copson, Edith Emma (Latin, English, French, European History).
 Dearnley, Edith (Latin, English, French, European History).
 Doughty, Ethel May (Latin, English, French, Mathematics).
 Duncan, Emily Grace (Latin, English, French).
 *Fitter, Lilian Emily (Latin, English, French, Mathematics).
 Forbes, Melanie Sophie (Latin, English, French, European History).
 Gibson, Elizabeth Beatrice (Latin, English, French).
 Glassey, Carlotta Primrose (Latin, English, French, European History).

* University Exhibition.

Gough, Minnie Margaret (Latin, French, European History).
 Hughes, Edith Grace (Latin, English, French, European History).
 Jennings, Editha Helena (Latin, English, French, European History).
 Jones, Winifred Marguerite (Latin, English, French, European History).
 Lightfoot, Mildred (Moral Philosophy).
 Linney, Gertrude (Latin, English, Psychology, European History).
 Lloyd, Jessie Lilian (Latin, English, French, European History).
 Sherratt, Ellen (Latin, English, French, European History).
 Smith, Elizabeth Emma (Latin, English, French, European History).
 Storer, Eleanor Louisa (Latin, English, French, European History).
 Swann, Ann Mary Goodrick (Latin, English, French, Mathematics).
 Turner, Edith (Latin, English, French, Psychology).
 Vernon, Evelyn Lorna (Latin, English, French, German).
 Wilkinson, Edith Mary (Latin, English, French, European History).

V.—FIRST EXAMINATION IN THE SCHOOL OF MODERN
 LANGUAGES.

Division I.

† Adams, Thomas Henry.
 Titterton, May.

VI.—INTERMEDIATE ARTS EXAMINATION.

Division I.

Badger, Eva Marianne.
 Barker, Mary Ethel.
 Bartindale, Edith Dora.
 Bee, Elsie.
 Brown, Lilian Eva.
 Doughty, Ethel May.
 Fitter, Lilian Emily.
 Forbes, Melanie Sophie.
 Glassey, Carlotta Primrose.
 Hughes, Edith Grace.
 Lloyd, Jessie Lilian.
 * Mills, Mary Grace.
 Richardson, Louise Maud.
 Smith, Elizabeth Emma.
 Storer, Eleanor Louisa.
 Wilkinson, Edith Mary.
 Woods, Grace Catlin.

Division II.

Copson, Edith Emma.
 Dearnley, Edith.
 Gibson, Elizabeth Beatrice.

* University Exhibition.

† Harding Scholarship.

Jones, Winifred Marguerite.
 Morris, Ernest Frederick.
 Sheasby, Hilda Mabel.
 Sherratt, Ellen.
 Wright, Margaret Dorothea.

Completed the Examination.

Jennings, Editha Helena.
 Milward, Katie Millicent.

Passed in part of the Examination.

Beddows, Edith (Latin, English, French, Mathematics).
 Bévenot, Nathalie Mary (Latin, English, French, German).
 Craig, Agnes Isabel (Latin, English, French, Mathematics).
 Eveson, Violetta Mary Elizabeth (English, French, Education).
 Gibson, Frances Millicent (Latin, French, Logic).
 Green, Florence (Latin, English, French).
 Green, Margaret Minna (Latin, English, French, German).
 Hampton, Harold Watchorn (Latin, English, French, Education).
 Hatfield, Henry Arnold (Latin, French, Mathematics).
 Haylett, Charles Henry (Latin, English, French, Education).
 Honniball, Victor Fred (Latin, English, French).
 Hughes, Violet Harriet (Latin, English, French, Logic).
 Jones, Elsie Mand (Latin, English, Logic).
 Jones, William Herbert (Latin, English, French, Education).
 Madan, Annie Harriett (Latin, English, French, Logic).
 Parry, Kathleen (Latin, English, French, Logic).
 Priest, Beatrice Adeline (Latin, English, French, Logic).
 Sabell, Lilian Gertrude (English, French, Mathematics).
 Sheldon, Harry (English, French, Education).
 Tyers, Mildred Anice (Latin, English, French, Logic).
 Warth, Phyllis Louise (Latin, English, French, German).
 Watson, Lily (Latin, English, French).
 Whitehouse, Wilfrid Eric (English, Mathematics, Geography).

VII.—SECONDARY TEACHERS' DIPLOMA EXAMINATION.

Dunkley, Daisy Adelaide.
 Johnson, Florence Margaret Mayfield.
 Martin, Edgar Charles.
 Overton, Elsie Mai.
 Standing, Margaret.

SEPTEMBER, 1905.

I. SECOND YEAR ARTS EXAMINATION.

Buchanan, Mary McFarlane (Philosophy).
 Caupion, Ethel Elizabeth (European History).
 Hannah, Emily Clair (Latin).
 Priestman, Lilian Ada (Latin).

II. INTERMEDIATE ARTS EXAMINATION.

Division I.

Macfarlane, Alan Grant.

Completed the Examination.

Cooke, Stella Edith.

Creswell, Arthur Wilfred.

Gough, Minnie Margaret.

Janney, Isabel Hannah.

Linney, Gertrude.

Smith, Mabel.

Swann, Ann Mary Goodrick.

Vernon, Evelyn Lorna.

Passed in part of the Examination.

Jennings, Edith Helena (Mathematics).

Milward, Katie Millicent (Mathematics).

Relph, Gwendolyn Amy (Logic).

FACULTY OF MEDICINE.

JUNE, 1906.

I.—DEGREE OF DOCTOR OF MEDICINE.

Fowler, Thomas Webb.

Hird, Robert Beatson Dennis.

Weaver, Alfred Ernest Remmett.

II.—DEGREE OF MASTER OF SURGERY.

(a) *Official.*

Marsh, Frank.

(b) *Under Ordinary Regulations.*

Class I.

Nuthall, Alex Wathen.

III.—DEGREES OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY.

(a) *Past Students of Birmingham Medical School.*

Class II.

Deakin, Frank Newstead.

Maskew, Charles Henry.

(b) *Under Ordinary Regulations.*

Class II.

*Astbury, Reginald Hudson.

Austin, John Staines.

Hincks, Arthur Cecil.
 Johnson, Claude.
 Jones, Harold Bruce.
 *Roberts, Walter Rowland Southall.

IV.—FOURTH EXAMINATION FOR THE DEGREES OF M.B., CH.B.

Class I.

†Fenton, James.
 †Sanders, Arthur Addison.
 Young, Francis Brett.

Class II.

Boome, Edward James.
 Crowe, Henry Neville.
 Gaunt, Eric Thomas.
 Gaunt, John Kennedy.
 Mason, Philip James.
 Penrose, Nevill Coghill.
 Smith, Arthur John.
 Thompson, Rupert Wesley.
 Williams, Norman Valentine.

V.—THIRD EXAMINATION FOR THE DEGREES OF M.B., CH.B.

PART I.: *Pathology and Bacteriology.*

Class II.

Adams, John.
 Bailey, Charlotte.
 *Dale, John.
 Mold, George Henry Chavasse.
 Smith, David Priestley.
 Whitby, Edward Vernon.

PART II.: *Materia Medica and Practical Pharmacy.*

Class I.

Adams, John.
 *Dale, John.
 Evans, Harvey Atkins.
 Whitby, Edward Vernon.

Class II.

Bailey, Charlotte.

VI.—SECOND EXAMINATION FOR THE DEGREES OF M.B., CH.B.

Class II.

Blackham, Walter Charles.
 Boswell, Norman Alexander.
 Browning, Harold Gordon.

* Bracketted for a Queen's Scholarship.

† Bracketted for a Queen's Scholarship.

*Humphreys, Humphrey Francis.
 McCready, Violet Maud.
 Walker, Cranston.
 Wilkinson, Kenneth Douglas.

Passed in part of the Examination.

Bampton, James Henry (Anatomy and Comparative Anatomy).
 Edwards, John Selwyn (Anatomy and Physiology).
 Molino, Carl Euclid (Anatomy and Physiology).
 Waldron, Ethel Annie (Anatomy and Physiology).
 Whitcombe, Harold Arthur (Anatomy and Physiology).
 Wilks, Henry (Anatomy and Comparative Anatomy).

VII.—FIRST EXAMINATION FOR THE DEGREES OF M.B., CH.B.

Class II.

Assinder, Eric Walter.
 Holden, Oscar Madeley.
 Impey, Elizabeth Stephens.
 Jordan, Lionel Gilbert.
 Nelson, Ronald Douglas.
 Richmond, Henry.

VIII.—DEGREE OF BACHELOR OF DENTAL SURGERY.

Class I.

Bowater, William.

DECEMBER, 1905.

DEGREES OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY.

Robert Wallace Aitken.
 Walter Donald Caruthers.
 Fred Thomas Hollway Davies.
 Helen Gertrude Stewart.
 Spencer Graham Walker.

SEPTEMBER, 1905.

I. FOURTH EXAMINATION FOR THE DEGREES OF M.B., CH.B.

Thomason, Henry Philip.

II. THIRD EXAMINATION FOR THE DEGREES OF M.B., CH.B.

(a) *Materia Medica and Practical Pharmacy.*

Boome, Edward Jones.
 Bracey, Herbert Charles Horace.
 Fenton, James.
 Johnson, Claude.

* Queen's Scholarship.

Mason, Philip James.
 Newton, Arthur Harry.
 Penrose, Nevill Coghill.
 Smith, David Priestley.
 Thompson, Rupert Wesley.
 Walker, Spencer Graham.
 Roberts, Walter Rowland Southall.

(b) *Pathology and Bacteriology.*

Sanders, Arthur Addison.
 Thomason, Henry Philip.
 Williams, Norman Valentine.

III. SECOND EXAMINATION FOR THE DEGREES OF M.B., CH.B.

Terry, Harold Cairns.

IV. FIRST EXAMINATION FOR THE DEGREES OF M.B., CH.B.

Stafford, Thomas Sidney.

Clinical Prizes and Appointments.

Medicine: Senior—George P. Mills.
 Junior—Lawrence Ball.

Surgery: Senior—No award.
 Junior—Lawrence Ball.

Midwifery: Lionel C. Hayes.
 Alfred E. W. Hird.

Resident Dressers, Queen's Hospital:

Lawrence Ball.
 George H. C. Mold.
 Harold C. Terry.
 Edward V. Whitby.

Clinical Assistant, Jaffray Hospital:

E. B. Garrard.

FACULTY OF COMMERCE.

JUNE, 1906.

I.—DEGREE OF BACHELOR OF COMMERCE.

Division I.

Lawton, Frederick.
 Mellor, John Leslie.

Division II.

Austin, Harold Austin.

THE GUILD OF UNDERGRADUATES.

President : E. S. PHIPSON.

Vice-President : T. S. PIPE, B.Sc.

Hon. Secretary : G. ENTWISLE.

The Guild is an organised association of the Undergraduates for the furthering of their common interests, which is provided for by the Charter of the University, and should be the recognised means of communication between the Undergraduates on the one hand, and the Court of Governors, Council and Senate on the other. For this purpose it may at any time petition or make representation to the Council or Senate of the University on any matter affecting the interests of the Undergraduates, while in addition, the Guild has three Representatives on the Court of Governors with the privileges of full members.

There are two annual meetings,—one, which must be held early in the Winter Term, at which the officers for the Session are elected, and another at which the Warden gives an address to the Undergraduates. Other meetings may be called by the Committee for the discussion and sanctioning of steps considered advisable.

UNIVERSITY CLUB.

President : THE VICE-CHANCELLOR.

Chairman of Committee : Professor A. W. KIRKALDY.

Hon. Secretary : C. W. MILLIGAN, B.A.

The accommodation consists of a reading and debating room, which can also be used for meetings, dances, and other social purposes ; a games room, writing room, and dining room where meals and refreshments at popular prices are procurable throughout the day ; and a fine billiard room, fitted with two tables. A bath room, dressing rooms, and cycle accommodation are also provided.

All members of the University Court of Governors and Council, all Professors, Lecturers and Demonstrators of the University and Queen's College, all present and past students of the University and Queen's College, and all members of the Honorary and Resident Staffs of the Hospitals in connection with the University, are eligible as members. Entrance fee half-a-guinea.

Annual subscription one and a half guineas.

Full particulars as to membership, and copies of the rules, can be obtained from the Hon. Secretary.

BIRMINGHAM UNIVERSITY ATHLETIC CLUB.

President : The Rt. Hon. JOSEPH CHAMBERLAIN, M.P.

Vice-President : Alderman C. G. BEALE, J.P.

Hon. Secretary : G. ENTWISLE.

Membership of the Club is open to past and present members of the University of Birmingham, to past members of Mason College, and to past and present members of Queen's College, Birmingham. The entrance fee is One Shilling. There is no annual subscription.

All members of the Club are entitled to wear hatbands, scarves, and ties in the Athletic Club colours (red, blue, and black), but not the blazer, which is specially awarded.

The Club includes the following sections:—Rugby Football, Association Football, Cricket, Hockey, Tennis, and Sports. No one is eligible to become a member of any section unless he has previously joined the Athletic Club. Each Section is managed by its own Committee, which arranges the subscription and awards colours (the latter have to be confirmed by the Athletic Club Committee). The latter Committee consists of two representatives from each Section, a President, Vice-President, Secretary, and Treasurer. The authorities allow the Athletic Club a certain sum, which is allotted to the various Sections according to their needs.

An Athletic Ground has been secured for the University at King's Heath.

UNIVERSITY VOLUNTEER COMPANY.

Captain W. E. BENNETT, Commanding.

The Company belongs to the 1st V.B. Royal Warwickshire Regiment. It is divided into four sections:—1, Medical A; 2, Science and Arts; 3, Engineers; 4, Medical B; and each member is allotted to the section representing his Faculty. Any past or present student of the University is eligible. A Challenge Cup is gained each year by the best section. Shooting at the range is encouraged, and several prizes are offered, both in Battalion and Company competitions. The drills are not numerous, and are held at hours convenient to members attending lectures. The Corps attends the Brigade Camp the first week in August.

There is no subscription, and all uniform, equipment, &c., is provided by the Government. Names of candidates should be sent to Captain W. E. Bennett, 22, Broad Street, or the Honorary Secretary of the University Volunteer Company, the Common Room, University.

HALL OF RESIDENCE FOR WOMEN STUDENTS, UNIVERSITY HOUSE, 215, HAGLEY ROAD.

EXECUTIVE COMMITTEE:

Mrs. BEALE, *President*.

Miss HODSON, <i>Treasurer</i> .	Miss C. CHAMBERLAIN, <i>Secretary</i> .
Mrs. ASHLEY.	HUME C. PINSENT, Esq.
Mrs. CHARLES DIXON.	Mrs. SONNENSCHN.
Mrs. FIEDLER.	Miss LANDON THOMAS (Head Mistress
Professor HUGHES.	of the Church College for Girls, Edg-
Miss JOYCE.	baston).
Mrs. WILSON KING.	Miss TARLETON YOUNG (Head Mistress of
Mrs. MUIRHEAD.	the Edgbaston High School for Girls).
Miss S. MARGERY FRY, <i>Warden</i> .	

University House was opened in October, 1904, in order to provide a Hall of Residence for Women Students who

desire to follow a course of study at the Birmingham University, but who are not living with parents or friends and wish to avoid the isolation and other drawbacks of life in lodgings, or the inconvenience of daily journeys by train.

The Hall is primarily for University Students, but it may also be available for students at the School of Art.

It is conveniently situated in one of the principal thoroughfares of Edgbaston, on which is a good omnibus service, and is supplemented by a small house adjoining the garden. Meals are taken in common in the larger house.

The Hostel is open during the University Session of 33 weeks in the year. Special arrangements will be made for Medical or Day Training Students who have to be longer in residence.

Terms from 33 guineas to 50 guineas per annum according to accommodation.

A term's notice must be given before leaving, or the fee for the next term may be charged.

Applications should be made to the Warden at the earliest possible date, as the accommodation is limited. All further particulars may be obtained from the Warden,

UNIVERSITY HOUSE,
215, HAGLEY ROAD, BIRMINGHAM.

FORM OF BEQUEST TO THE UNIVERSITY.

I BEQUEATH the sum of £ , free of legacy duty, to the University of Birmingham. And I direct that the said legacy and the legacy duty thereon shall be paid exclusively out of such part of my personal estate as may by law be bequeathed for charitable purposes, and preferably to any other payment thereout. And I direct that the same legacy shall be paid to the Treasurer for the time being of the said University, whose receipt shall be an effectual discharge for the same, and that the same shall be applied* [in the discretion of the Council of the said University to the general purposes thereof, or to such special purposes as the said Council shall determine.]

* NOTE.—If any special directions or conditions are to be attached to the legacy, the part in brackets to be omitted and the special matter inserted.

APPENDIX.

The Walter Myers Travelling Studentship.

D E E D

ESTABLISHING "THE WALTER MYERS TRAVELLING
STUDENTSHIP FUND."

This Indenture made the 10th day of December 1901 between THE UNIVERSITY OF BIRMINGHAM (incorporated by Royal Charter on the 24th day of March 1900 and acting with the powers conferred upon them by the Birmingham University Act 1900 and hereinafter called "The University") of the first or one part and GEORGE MYERS of Thornfield Edgbaston in the City of Birmingham of the second or other part.

Whereas the said George Myers in order to promote original research by a Graduate of the Birmingham University and in memory of his only son Walter Myers M.A., M.B., B.C. of the University of Cambridge and B.Sc. of the University of London and a former student of the Mason University College of Birmingham who contracted yellow fever at Brazil while investigating the causes of such disease on behalf of the Liverpool School of Tropical Medicine hath proposed to give to the University of Birmingham the sum of £3,000 to be held by the University for the purposes hereinafter set forth.

Now therefore this Indenture witnesseth that in consideration of the sum of £3,000 paid to the Treasurer of the University on the day of the date hereof (the receipt of which sum the University do hereby acknowledge) the Birmingham University for themselves and their successors do hereby covenant with the said George Myers that the Birmingham University and their successors shall stand possessed of the said sum of £3,000 and the securities on which the same shall be from time to time invested and the accruing income of such investments upon the trusts and for the purposes hereinafter expressed and declared that is to say:—

1.—The University shall invest the said sum in any securities on which Trustees may for the time being be authorised by law to invest trust moneys.

2.—The said sum and the investments thereof shall be called and distinguished from the other moneys and investments of the University by the name of "The Walter Myers Studentship Fund" and the University shall at all times hereafter keep an account of this fund and the investments and income thereof separate and apart from the general or any other funds or accounts of the University.

3.—The University shall apply the income of the said investments in payment to the holder for the time being of a Studentship to be called "The Walter Myers Travelling Studentship" of the sum of £150 payable in advance by quarterly instalments such holder to be nominated and appointed each alternate year for one year only. Provided nevertheless that in the case of a student of exceptional merit and ability the University may allow such student to hold the scholarship for a second year but the sum payable to such student for the second year shall not exceed £90.

4.—In case in any year in which the Studentship is offered no candidate shall present himself or herself or in case no one of the candidates shall in the opinion of the hereafter mentioned Committee be of sufficient merit to be nominated the income of the Studentship shall be retained by the University and the Studentship offered again in the succeeding year and so on *toties quoties* until a candidate shall be nominated and appointed in manner hereinafter provided. In every case of suspension of the Studentship the income shall be invested and accumulated and if in any year the suspended income and its accumulation shall be sufficient then another Studentship may be awarded annually so long as the income will allow.

5.—The University shall on or before the 10th day of July in each year in which the Studentship is offered advertise the conditions in two Medical Journals

published in London and two newspapers published in Birmingham and shall also print a copy of these presents in the University Calendar in each year.

6.—The Studentship shall be awarded irrespective of sex sect or party but in the case of two applicants of equal merit a native of Birmingham shall have the preference.

7.—The merits of the candidate for the Studentship shall not be ascertained by the results of any form of competitive examination but by a Committee consisting of the following persons namely: The Dean of the Medical Faculty of the University and the Professors of Pathology and Chemistry in the University and the External Examiner in Pathology appointed by the University. The External Examiner shall be Chairman of the said Committee with an original and a casting vote and the Studentship shall not be awarded at any meeting unless the External Examiner is present. Subject as aforesaid the Committee shall ascertain the fitness of the candidate in such manner as they think proper and report to the Council as soon as possible after the first day of October in the year in which the Studentship is offered and the election shall then be made by the Council of the University.

8.—The Studentship shall be tenable at the University of Berlin Frankfort or Freiburg in Baden or at some University or Hospital not in Great Britain or Ireland appointed from time to time by the Council of the University on the recommendation of the Senate.

QUALIFICATION OF CANDIDATES.

9.—Every Candidate for the Studentship must be (1) Under the age of thirty years at the date of his or her application and (2) a graduate of the Birmingham University and (3) must have attained the degree of M.B. in such University and the degree of B.Sc. in the University of Birmingham or of London Cambridge or Oxford.

CONDITIONS OF TENURE.

10.—The conditions of holding the studentship shall be as follows :—

- (a) The holder shall engage in the study of Pathology in Berlin Frankfort or Freiburg or such other place of study not in Great Britain or Ireland as shall be appointed as provided by Clause 8.
- (b) In clinical work combined with pathological research at such Hospitals as the Council of the University on the recommendation of the Senate shall appoint either at Berlin Frankfort or Freiburg or at any other University or Hospital not in Great Britain or Ireland which may from time to time be approved of as aforesaid.
- (c) The student during the tenure of his or her studentship shall not systematically follow any business or profession or engage in any other work which in the opinion of the Council would interfere with his or her researches.

11.—In case the student shall publish in any way the results of his or her investigations during the studentship he or she shall where practicable describe himself or herself as the “Walter Myers Student” of the University of Birmingham.

In witness whereof the University hath hereunto set its seal and the said George Myers his hand and seal the day and year first aforesaid.

The Seal of the University of Birmingham
was hereto affixed by the undersigned
duly authorised by a resolution of the
Council to affix such seal.

Seal of
University.

F. C. CLAYTON.

R. S. HEATH.

GEO. H. MORLEY,
Secretary.

Signed sealed and delivered by the said
George Myers in the presence of

GEORGE MYERS (L.S.)

G. J. JOHNSON,
Solicitor, Birmingham.
